**GRANTING OF A WESTERN LANDS LEASE**

IT is hereby notified that under the provisions of section 28A of the Western Lands Act 1901, the Western Lands Lease of the land specified has been granted to the undermentioned person.

The lease is subject to the provisions of the Western Lands Act 1901 and the Regulations thereunder, and to the special conditions, provisions, exceptions, covenants and reservations set out hereunder.

The land is to be used only for the purpose for which the lease is granted.

All amounts due and payable to the Crown *must* be paid to the Financial Controller, Department of Land and Water Conservation within three months from the date of demand.

RICHARD AMERY, M.P.,  
 Minister for Agriculture,  
 Minister for Land and Water Conservation

Western Lands Lease 14334 granted to Mauris Patrick LAWLER and Sheryl Desley LAWLER of Earl Street, Collarenebri 2833, comprising Lot 68, DP 722945 (Folio Identifier 68/722945) of 2.713 hectares at Collarenebri in the Parish of Collarindabri, County of Finch, for the purpose of Stables and Storage for a term of twenty (20) years commencing 9 March 2001; Annual rental \$70.00; Next reappraisal date 8 March 2006. Papers: WLL14334.

**CONDITIONS AND RESERVATIONS ATTACHED TO  
 WESTERNLANDSLEASE 14334**

- (1) In the conditions annexed to the lease, the expression "the Minister" means the Minister administering the Western Lands Act 1901, and any power, authority, duty or function conferred or imposed upon the Minister by or under those conditions may be exercised or performed either by the Minister or by such officers of the Department of Land and Water Conservation as the Minister may from time to time approve.
- (2) In these conditions and reservations the expression "the Commissioner" means the Commissioner charged with the administration of the Western Lands Act 1901 ("the Act") in accordance with section 4 (2) of the Act.
- (3) (a) For the purposes of this Clause the term Lessor shall include Her Majesty the Queen Her Heirs and Successors the Minister and the agents servants employees and contractors of the Lessor Her Majesty Her Majesty's Heirs and Successors and the Minister.  
 (b) The lessee covenants with the Lessor to indemnify and keep indemnified the Lessor from and against all claims for injury loss or damage suffered by any person or body using or being in or upon the Premises or any adjoining land or premises of the Lessor arising out of the Holder's use of the Premises and against all liabilities for costs charges and

expenses incurred by the Lessor in respect of the claim of any such person or body except to the extent that any such claims and demands arise wholly from any negligence or wilful act or omission on the part of the Lessor.

- (c) The indemnity contained in this Clause applies notwithstanding that this Lease authorised or required the lessee to undertake or perform the activity giving rise to any claim for injury loss or damage.
- (d) The lessee expressly agrees that the obligations of the Holder under this Clause shall continue after the expiration or sooner determination of this Lease in respect of any act deed matter or thing occurring before such expiration or determination.
- (4) The rent of the lease shall be as determined by the local land board for each period of 5 years of the term of the lease, except where a rent is bid at auction or tendered under Section 19C (5) of the Western Lands Act 1901.
- (5) The rent shall be due and payable annually in advance on 22 July in each year.
- (6) (a) "GST" means any tax on goods and/or services, including any value-added tax, broad-based consumption tax or other similar tax introduced in Australia.  
 "GST law" includes any Act, order, ruling or regulation, which imposes or otherwise deals with the administration or imposition of a GST in Australia.  
 (b) Notwithstanding any other provision of this Agreement:
  - (i) If a GST applies to any supply made by either party under or in connection with this Agreement, the consideration provided or to be provided for that supply will be increased by an amount equal to the GST liability properly incurred by the party making the supply.
  - (ii) If the imposition of a GST or any subsequent change in the GST law is accompanied by or undertaken in connection with the abolition of or reduction in any existing taxes, duties or statutory charges (in this Clause "taxes"), the consideration payable by the recipient of the supply made under this Agreement will be reduced by the actual costs of the party making the supply that are reduced directly or indirectly as a consequence of the abolition of or reduction in taxes.
- (7) The lessee shall pay all rates and taxes assessed on or in respect of the land leased during the currency of the lease.
- (8) The lessee shall hold and use the land leased bona fide for the lessee's own exclusive benefit and shall not transfer, convey, assign or sublet the land or any portion thereof without having first obtained the written consent of the Minister.

- (9) The land leased shall be used only for the purpose of Stables and Storage.
- (10) The lessee shall maintain and keep in reasonable repair all improvements on the land leased during the currency of the lease and shall permit the Minister or the Commissioner or any person authorised by the Minister or the Commissioner at all times to enter upon and examine the whole or any part of the land leased and the buildings or other improvements thereon.
- (11) All minerals within the meaning of the Mining Act 1992, and all other metals, gemstones and semiprecious stones, which may be in, under or upon the land leased are reserved to the Crown and the lessee shall permit any person duly authorised in that behalf to enter upon the land leased and search, work, win and remove all or any minerals, metals, gemstones and semiprecious stones in, under or upon the land leased.
- (12) Mining operations may be carried on, upon and in the lands below the land leased and upon and in the lands adjoining the land leased and the lands below those lands and metals and minerals may be removed therefrom and the Crown and any lessee or lessees under any Mining Act or Acts shall not be subject to any proceedings by way of injunction or otherwise in respect of or be liable for any damage occasioned by the letting down, subsidence or lateral movement of the land leased or any part thereof or otherwise by reason of the following acts and matters, that is to say, by reason of the Crown or any person on behalf of the Crown or any lessee or lessees, having worked now or hereafter working any mines or having carried on or now or hereafter carrying on mining operations or having searched for, worked, won or removed or now or hereafter searching for, working, winning or removing any metals or minerals under, in or from the lands lying beneath the land leased or any part thereof, or on, in, under or from any other lands situated laterally to the land leased or any part thereof or the lands lying beneath those lands, and whether on or below the surface of those other lands and by reason of those acts and matters or in the course thereof the Crown reserves the liberty and authority for the Crown, any person on behalf of the Crown and any lessee or lessees from time to time to let down without payment of any compensation any part of the land leased or of the surface thereof.
- (13) The lessee shall comply with the provisions of the Local Government Act 1993, and of the ordinances made thereunder.
- (14) The lessee shall, within 12 months from the date of commencement of the lease or such further period as the Minister may allow, erect a building on the land in accordance with plans and specifications approved by the Council of the local government area.
- (15) The lessee shall not erect or permit any person to erect any buildings or extend any existing buildings on the land leased except in accordance with plans and specifications approved by the Council of the local Government area.
- (16) The lessee shall ensure that the land leased is kept in a neat and tidy condition to the satisfaction of the Commissioner and not permit refuse to accumulate on the land.
- (17) Upon termination or forfeiture of the lease the Commissioner may direct that the former lessee shall remove any structure or material from the land at his own cost and without compensation. Where such a direction has been given the former lessee shall leave the land in a clean and tidy condition free from rubbish and debris.
- (18) Where the Crown has paid a contribution under section 217-219 of the Roads Act 1993 in respect of the land leased, the lessee shall pay to the Crown the amount of that contribution within 3 months of being called upon to do so.
- (19) The lessee shall pay to the Crown the proportional part of the costs of road construction as notified by the Department of Land and Water Conservation within 3 months of the date of gazettal of the granting.
- (20) The lessee shall, within 1 year from the date of commencement of the lease or such further period as the Commissioner may allow, enclose the land leased, either separately or conjointly with other lands held in the same interest, with a suitable fence to the satisfaction of the Commissioner.
- (21) The lessee shall comply with the provisions of the Clean Waters Act 1970 particularly in relation to disposal of tailwaters or waters which may be contaminated with fertiliser, herbicide or pesticide or similar chemicals.

## Water Conservation

### RIVERS AND FORESHORES IMPROVEMENT ACT 1948

#### ORDER UNDER SECTION 22B (4)

THE Water Administration Ministerial Corporation hereby specifies that Part 3A of the Act does not apply to the following works:

1. Works to which any order made under section 54 of the Water Management Act 2000 applies.
2. Dams solely for the control or prevention of soil erosion, provided no water is reticulated or pumped from such dams and the size of the structure is the minimum necessary to fulfil the erosion control function. However if such a dam is fenced off for erosion control purposes water may be reticulated to a stock drinking trough in an adjoining paddock without prejudicing the exempt status.
3. Dams solely for the capture, containment and recirculation of drainage and/or effluent, consistent with best management practice or required by a Government agency or Local Government Council to prevent the contamination of a water source.
4. Dams approved in writing by the Department of Land and Water Conservation for specific environmental management purposes.
5. Dams licensed under Part 2 of the Water Act 1912, and works approved under Part 8 of that Act.

This Order does not apply to works located on land that is within a zone designated "residential", "rural residential", "village", "township", "industrial", "business" (or similar) or "recreation", "open space", "environmental protection" (or similar, but not including "scenic protection") in an environmental planning instrument, as defined in the Environmental Planning and Assessment Act 1979, to which Part 3A of the Act still applies.

### WATER ACT 1912

#### ORDER

THE Water Administration Ministerial Corporation hereby declares that:

- a) in accordance with paragraph (a1) of the definition of "Work to which this Part extends" in Section 5(1) of the Water Act 1912, the State of New South Wales is an area within which a work impounding water is a work to which Part 2 of that Act extends;
- b) in accordance with paragraph (h) of that definition the works (or classes of works) set out in the Schedule to this Order are works to which Part 2 of that Act does not extend.

Signed for the Water Administration Ministerial Corporation

BOB SMITH,  
Director General  
Department of Land and Water Conservation

Date: 14 March 2001

### SCHEDULE

- a) Dams solely for the control or prevention of soil erosion, provided no water is reticulated or pumped from such dams and the size of the structure is the minimum necessary to fulfil the erosion control function, and provided such dams are not located on a river (as defined in Part 2 of the Water Act 1912, as amended by order from time to time) or a lake. However if such a dam is fenced off for erosion control purposes water may be reticulated to a stock drinking trough in an adjoining paddock without prejudicing the exempt status.
- b) Dams solely for flood detention and mitigation, provided no water is reticulated or pumped from such dams and provided they are not located on a river (as defined in Part 2 of the Water Act 1912, as amended by order from time to time) or a lake.
- c) Dams solely for the capture, containment and recirculation of drainage and/or effluent, consistent with best management practice or required by a Government agency or Local Government Council to prevent the contamination of a water source, provided such dams are not located on a river (as defined in Part 2 of the Water Act 1912, as amended by order from time to time) or a lake.

- d) Dams approved in writing by the Department for specific environmental management purposes provided they are not located on a river (as defined in Part 2 of the Water Act 1912, as amended by order from time to time) or a lake.
- e) Rainwater tanks collecting water from roofs only.
- f) Works impounding water which exceed the harvestable rights referred to in an order under section 54 of the Water Management Act 2000 and
- i) were constructed before 1 January 1999, and
  - ii) are used only for stock, domestic, stock and domestic, or purposes which do not require extraction of water, and
  - iii) are not located on a river (as defined in Part 2 of the Water Act 1912, as amended by order from time to time) or a lake, and
  - iv) from which water is being used only on the landholding on which the dam is located, and
  - v) which are not subject to an application for a licence under Part 2 of the Water Act 1912.
- g) Dams or excavations located on a river or lake constructed under section 7 of the Water Act 1912 prior to 1 January 2001, provided such dams are used only for stock, domestic, stock and domestic, or purposes which do not require extraction of water.
- h) Works authorised under section 54 of the Water Management Act 2000 for capture and use of the harvestable right
- i) Works referred to in section 52 (1) of the Water Management Act 2000, except for dams.
- j) Works in the Western Division of the State of New South Wales (as referred to in Section 4 of the Crown Lands Act 1989) which are located on lakes shown in the legend of the 1: 100 000 topographic maps issued by the Land Information Centre (formerly the Central Mapping Authority) applying at 1 January 1999 to that Division as "Lake Mainly Dry".
- k) Works in the Western Division constructed prior to 1 January 1999 impounding water on the areas of land shown in the legend of the maps referred to in paragraph (j) as land subject to flooding or inundation, or lakes shown as Perennial or Intermittent, where the water is used only for stock, domestic, stock and domestic, or purposes which do not require extraction of water.

**WATER MANAGEMENT ACT 2000****ORDER**

I, BOB SMITH, Director General, Department of Land and Water Conservation, hereby make the following harvestable rights order in accordance with section 54 of the Water Management Act 2000:

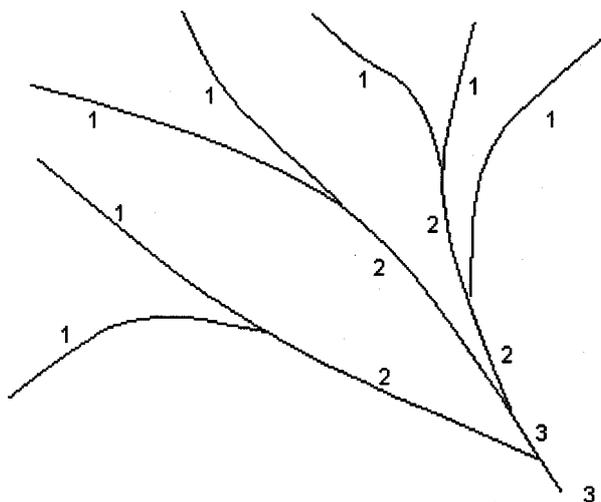

**SCHEDULE 4**

The method of determining the stream order of a watercourse shown on a topographic map is the Strahler system as shown below. The Strahler system is applied to the watercourses shown on the topographic maps as listed in Schedule 3.

For the purposes of this order, watercourses on the maps are deemed to be continuous even if they lose definition and then reappear downstream.

The Strahler system:

- Starting at the top of a catchment, any watercourse which has no other watercourses flowing into it is classed as a first order stream (1).
- Where two first order streams join, the stream becomes a second order stream (2).
- If a second order stream is joined by a first order stream - it remains a second order stream.
- When two second order streams join they form a third order stream (3).
- A third order stream does not become a fourth order stream until it is joined by another third order stream

- 1) This order applies to all lands in the Eastern and Central Division of the State of New South Wales as defined in section 4 of the Crown Lands Act 1989, except for land of special environmental or cultural significance which could be adversely impacted by exercise of the harvestable right. Such lands are designated in Schedule 4.
- 2) The streams of water referred to in paragraph 1 of today's Order of the Water Administration Ministerial Corporation in relation to the definition of "river" in section 5 (1) of the Water Act 1912 are declared to be "minor streams" for the purposes of Division 2 of Chapter 3 of the Water Management Act 2000.
- 3) An owner of land has the right to capture 10% of the average regional rain water run-off on the land by means of a dam or dams having not more than the total capacity calculated in accordance with Schedule 1, which are located on "minor streams". This water may be used for any purpose, except as provided in paragraph (8).
- 4) Dams to which Part 2 of the Water Act 1912 extends shall be included in calculation of use of the total capacity calculated in accordance with Schedule 1, except:
  - a) where the dam is on a river (as defined in Part 2 of the Water Act 1912 and as amended from time to time by order) or a lake, or
  - b) where the dam was licensed under Part 2 of the Water Act 1912 prior to 1 January 1999.
- 5) Paragraph (3) does not apply to the classes of dam set out in Schedule 2.
- 6) The method of apportioning harvestable rights for a dam where the wall of the dam crosses the boundary between two or more parcels of land is that the rights are apportioned between the parcels in proportion to the surface area of the water stored on the respective parcels when the dam is full, unless the respective occupiers agree otherwise.
- 7) Where a harvestable right dam, being a work within the total capacity as determined in paragraph 3, is also used for holding water taken in accordance with any of the following water rights and obligations:
  - a) a right to take water from a river or lake in accordance with an entitlement issued under Part 2 of the Water Act 1912,
  - b) a right to use water from a bore in accordance with a licence issued under Part 5 of the Water Act 1912,

the owner of the land must demonstrate to the satisfaction of the Department of Land and Water Conservation that the use of water from the dam is consistent with the water rights and obligations referred to above and the harvestable right.

- 8) Where a harvestable right dam, being a work within the total capacity as determined in paragraph 3, is also used for holding water taken in accordance with:
- a domestic and stock right conferred on a landholder by section 52 of the Water Management Act 2000, or
  - a right to take water from a river or lake in accordance with a licence issued under Part 2 of the Water Act 1912 which is subject to a condition restricting its use to stock or domestic or stock and domestic purposes,
- the use of water from that dam is restricted to domestic consumption and stock watering.
- 9) The water available for extraction as a harvestable right from:
- a dam which is also used for a water right or obligation referred to in paragraph 6, or
  - from a dam which is licensed under Part 2 of the Water Act 1912 and is also used for harvestable right,

shall be calculated where necessary in accordance with Schedule 3.

BOB SMITH,  
Director General  
Department of Land and Water Conservation  
(by delegation)

Date: 14 March 2001

#### SCHEDULE 1

- The total capacity of a dam or dams for a landholding in megalitres is to be calculated by multiplying the area of the landholding in hectares by the multiplier corresponding to the location of the land shown on the Maximum Harvestable Right Dam Capacity Map of the Department of Land and Water Conservation applicable to the parcel of land, the maps being Registered Numbers 38/1530 to 38/1575 held by the Department at its Parramatta Office.
- Paragraph 1 does not apply to dams on lots in subdivisions where the subdivisions were approved by Councils before 1 January 1999 and those lots would have a right to capture rainwater run-off calculated under paragraph 1 for a total capacity of less than one megalitre, in which cases the total capacity for each lot is to be one megalitre.

#### SCHEDULE 2

The following classes of dam are exempt from the operation of paragraph (2) of the Order:

- Dams solely for the control or prevention of soil erosion, provided no water is reticulated or pumped from such dams and the size of the structure is the minimum necessary to fulfil the erosion control function. However if such a dam is fenced off for erosion control purposes water may be reticulated to a stock drinking trough in an adjoining paddock without prejudicing the exempt status.

- Dams solely for flood detention and mitigation, provided no water is reticulated or pumped from such dams.
- Dams solely for the capture, containment and recirculation of drainage and/or effluent, consistent with best management practice or required by a Government agency or Local Government Council to prevent the contamination of a water source.
- Dams approved in writing by the Department for specific environmental management purposes.
- Dams without a catchment, such as "turkeys nest" dams and ring tanks, provided no water from harvestable right works is diverted into them.
- Dams licensed under Part 2 of the Water Act 1912 which were initially licensed prior to 1 January 1999.

#### SCHEDULE 3

The water available for extraction as a harvestable right from a dam which is also used for other water rights (a "mixed right dam") shall be calculated, where necessary, according to the following method:

- The maximum capacity of harvestable right dams for the property shall be calculated in accordance with Schedule 1.
- The capacity taken up by other harvestable right dams on the property shall be subtracted from this maximum capacity, giving the harvestable right dam capacity available for the mixed right dam.
- The harvestable right dam capacity available for the mixed right dam shall be divided by the factor shown in the table below, to give a volume in megalitres per year. The multiplier shown in the table is the average multiplier for the property as shown in the maps designated in paragraph (1) of Schedule 1. Values should be interpolated where necessary.

**WATER MANAGEMENT ACT 2000**

ORDER

I, BOB SMITH, Director General, Department of Land and Water Conservation, hereby make the following harvestable rights order in accordance with section 54 of the Water Management Act 2000:

- 1) This Order applies to all lands in the Western Division of the State of New South Wales as referred to in section 4 of the Crown Lands Act 1989 except for land of special environmental or cultural significance which could be adversely impacted by exercise of the harvestable right. Such lands are designated in the Schedule.
- 2) The streams of water referred to in paragraph 1 of today's Order of the Water Administration Ministerial Corporation in relation to the definition of "river" in section 5 (1) of the Water Act 1912 are declared to be "minor streams" for the purposes of Division 2 of Chapter 3 of the Water Management Act 2000.
- 3) A landholder has the right to capture all rain water run-off on land to which this Order applies by means of a dam or dams which are located on "minor streams". This water may be used for any purpose, except as provided in paragraph (4);
- 4) Where a dam authorised by paragraph (3), is also used for holding water taken in accordance with:
  - a) a domestic and stock right conferred on a landholder by section 52 of the Water Management Act 2000, or
  - b) a right to take water from a river or lake in accordance with a licence issued under Part 2 of the Water Act 1912 which is subject to a condition restricting its use to stock or domestic or stock and domestic purposes,
 the use of water from that dam is restricted to domestic consumption and stock watering.
- 5) Paragraph (3) does not apply to dams on lands shown in the legend of the 1:100 000 scale (or 1:50 000 scale where available) topographic maps issued by the Land Information Centre (formerly the Central Mapping Authority) applying at 1 June 2000 to the Western Division as land subject to flooding or inundation;

- 6) Paragraph (3) does not apply to dams on lakes shown in the legend of the maps referred to in paragraph (4) as Perennial or Intermittent.

## **Blue Mountains Local Environmental Plan 1991 (Amendment No 25)**

### **1 Name of plan**

This plan is *Blue Mountains Local Environmental Plan 1991 (Amendment No 25)*.

### **2 Aims of plan**

This plan aims to amend *Blue Mountains Local Environmental Plan 1991* to:

- (a) increase the strength of the objectives contained within that plan as a test against which development must relevantly be assessed, and
- (b) improve the clarity of the objectives with respect to the Residential Bushland Conservation zone, and
- (c) replace the definition of *Usable land area* with two definitions, one relating to the area which may notionally be suitable for development, and the other relating to land that is unsuitable for development, and
- (d) clarify the operation of building site cover and principal development area provisions, with particular regard to the potential for both to apply to a single lot or development, and
- (e) alter the subdivision provisions, so that each new lot has suitable land for future development, and so that the number of lots created by a subdivision in the Residential Bushland Conservation zone for which a zone subscript of (8/ha) is specified on the map supporting that plan, more directly reflects the environmental capacity of the land, and
- (f) clarify the intent that the principal development area provisions do not apply to subdivisions.

### **3 Land to which plan applies**

This plan applies to all land in the City of Blue Mountains to which *Blue Mountains Local Environmental Plan 1991* applies.

Blue Mountains Local Environmental Plan 1991 (Amendment No 25)

Clause 4

---

**4 Amendment of Blue Mountains Local Environmental Plan 1991**

*Blue Mountains Local Environmental Plan 1991* is amended as set out in Schedule 1.

## Schedule 1 Amendments

(Clause 4)

### [1] Clause 6 ZONE OBJECTIVES

Omit clause 6.3. Insert instead:

#### **6.3 Zone: Residential Bushland Conservation (RES-BC)**

- (a) To ensure that all development including subdivision is environmentally sensitive and site responsive and maintains and facilitates sustainable natural ecosystems and biodiversity within the Blue Mountains.
- (b) To utilise best practice water management techniques:
  - to protect, and where practicable to improve, existing perennial and non-perennial watercourses and the associated riparian zone, and
  - to protect, and where practicable to improve, water quality, and
  - to maintain pre-development downstream flow patterns, and
  - to promote ecologically sustainable water and land management practices.
- (c) To establish an appropriate landscape character by encouraging the preservation, regeneration and re-establishment of native bushland, where practicable.
- (d) To ensure that the form and siting of development, and the building materials, colours, and landscaping utilised in that development, are each appropriate for, and harmonise with, the bushland character of the area in which the development is to take place.
- (e) To ensure bushfire protection measures are adequate to protect proposed development and are able to be implemented without unacceptable adverse environmental impacts.

Blue Mountains Local Environmental Plan 1991 (Amendment No 25)

Amendments

Schedule 1

---

- (f) To ensure that non-residential land uses are compatible with the residential character of the area in which development is proposed.

**[2] Clause 9 GENERAL CONTROL OF DEVELOPMENT**

Omit clause 9.3. Insert instead:

- 9.3** Except as otherwise provided by this plan, the Council shall not grant consent to the carrying out of development on land to which this plan applies unless the Council has considered the objectives of this plan and the objectives of the zone and of any protected area in which the land is situated, and is of the opinion that the carrying out of the development complies with the objectives that are relevant to that development.

**[3] Clause 10 DEVELOPMENT CRITERIA—GENERAL**

Omit clause 10.5 (a) (iv). Insert instead:

- (iv) where the development is for the purposes of a dwelling, minimises “cut” or “fill” or both as far as is practical and contains such “cut” or “fill” or both within the dwelling where conditions allow, and

**[4] Clause 10.5 (a) (v)**

Insert after clause 10.5 (a) (iv):

- (v) incorporates best practice water management techniques to protect the surface and groundwater regimes and water quality for the site.

**[5] Clause 10.5 (c) and (ca)**

Omit clause 10.5 (c). Insert instead:

- (c) The Council shall not consent to subdivision, unless the bushfire protection measures required to protect the land to be subdivided are contained within a perimeter road or the boundaries of the property to be subdivided, and do not have any adverse environmental impact on

## Schedule 1 Amendments

---

any water supply catchment area or any development excluded land.

- (ca) The Council shall not consent to development, other than subdivision, unless the development:
- (i) incorporates effective measures, within the boundaries of the lot concerned, and satisfactory to the Council, to protect the development from bushfire, and
  - (ii) mitigates the adverse environmental impacts of those measures to the maximum extent practicable.

**[6] Clause 10.5 (da), (db) and (dc)**

Omit clause 10.5 (d) and (da). Insert instead:

- (da) The Council shall not consent to development for the purpose of a dwelling house, or to development ordinarily incidental and ancillary to a dwelling house, on any lot created otherwise than in accordance with clause 34.1 (c), unless the development incorporates effective measures, satisfactory to the Council, to ensure that the development has no significant adverse environmental impact on:
- (i) any environmentally sensitive vegetation unit (as listed in Schedule 3), and
  - (ii) any rare or threatened species of flora or fauna or its habitat and any unusual plant community, and
  - (iii) the hydrological aspect of the locality, and
  - (iv) any, lake, lagoon, or perennial or non-perennial watercourse, and
  - (v) any significant natural feature, including rock outcrops, rock ledges and cliffs.
- (db) The Council shall not consent to development, other than development referred to in clause 10.5 (da), on any lot created otherwise than in accordance with clause 34.1 (c), unless the development incorporates effective measures, satisfactory to the Council, to ensure that the development has no adverse environmental impact on any development excluded land.

Blue Mountains Local Environmental Plan 1991 (Amendment No 25)

Amendments

Schedule 1

- (dc) The Council shall not consent to any development (excluding a work for the purpose of providing public utility services), proposed to take place either wholly or partly on development excluded land:
- (i) located within any lot created in accordance with clause 34.1 (c), and
  - (ii) identified when the Council granted consent to the subdivision by which the lot concerned was created,

unless the Council is satisfied, by means of a detailed environmental assessment, that the development has no adverse environmental impact on the development excluded land concerned.

**[7] Clause 10.9**

Omit clause 10.9. Insert instead:

**10.9 Site Coverage**

- (a) The Council shall not consent to development (other than development for the purpose of agriculture in the Megalong Valley) on any land zoned Rural Conservation, Bushland Conservation, Residential Bushland Conservation or Residential Investigation, if the total building site cover resulting from carrying out the development, including any part of the site covered by buildings ancillary to a main building (such as tennis courts, swimming pools, sheds and the like) exceeds the total building site cover specified in the following Table:

**Table**

Notional development area of the Lot	Total Building Site Cover
Less than 1,000 m <sup>2</sup>	160 m <sup>2</sup> or 40% of the notional development area, up to a maximum of 300 m <sup>2</sup> , whichever is the greater

--------------------------------------	---------------------------

1,000 m <sup>2</sup> or more but less than 2,000 m <sup>2</sup>	300 m <sup>2</sup> plus 10% of any amount by which the notional development area exceeds 1,000 m <sup>2</sup>
2,000 m <sup>2</sup> or more	400 m <sup>2</sup> plus 5% of any amount by which the notional development area exceeds 2,000 m <sup>2</sup> , up to a maximum total building site cover of 2,500 m <sup>2</sup>

- (b) Certain development on any lot consisting of or including land having an area of more than 4,000 m<sup>2</sup> zoned Bushland Conservation, Residential Bushland Conservation or Residential Investigation must take place within a Principal Development Area, as required by clause 30 and the Table to that clause.

**[8] Clause 11 DEVELOPMENT CRITERIA—PROTECTED AREAS**

Omit clause 11.3. Insert instead:

**11.3 Environmental Constraint Area**

The Council shall not consent to development in a Protected Area-Environmental Constraint Area, unless it is satisfied, by means of a detailed environmental assessment, that the development complies with the objectives of the Protected Area that are relevant to the development and will comply with the development criteria in clause 10 that are relevant to the development.

**[9] Clause 26 HOLIDAY CABIN**

Omit “usable land area” wherever occurring.

Insert instead “notional development area”.

**[10] Clause 28 KEEPING OF HOOFED ANIMALS**

Omit clause 28.2 and 28.3. Insert instead:

- 28.2 The Council shall not grant consent to the use of land for the keeping of hoofed animals, unless the development incorporates effective measures, satisfactory to the Council, to ensure that the development has no adverse environmental impact on any development excluded land.
- 28.3 Consent of the Council is not required for the use of land for the keeping of hoofed animals where the stocking rate is less than 1 such animal per 5 hectares of notional development area.

**[11] Clause 30**

Omit the clause. Insert instead:

**30 PRINCIPAL DEVELOPMENT AREA**

- 30.1 This clause applies to any lot consisting of or including land having an area of more than 4,000 m<sup>2</sup> zoned Bushland Conservation, Residential Bushland Conservation or Residential Investigation.
- 30.2 No development shall take place on a lot to which this clause applies unless:
- (a) in the case of a lot created in accordance with clause 34.1 (c), the development takes place within a Principal Development Area, except where that development is:
    - (i) subdivision or development ancillary to subdivision, or
    - (ii) for the purpose of providing access or public utility services,
  - (b) in the case of a lot created otherwise than in accordance with clause 34.1 (c), the development takes place in a Principal Development Area, except where that development is:
    - (i) for the purpose of bushfire hazard reduction, or
    - (ii) ancillary or incidental to a dwelling house which was in existence at 27 December 1991, but only if any clearing of vegetation that is involved is not located on any development excluded land

and is carried out on an area of less than 50 m<sup>2</sup>, and the total area cleared outside the Principal Development Area does not involve more than 5% of the notional development area of the lot, or

- (iii) for the purpose of providing access or public utility services, or
- (iv) subdivision or development ancillary to subdivision.

## 30.3 A Principal Development Area shall:

- (a) have a maximum total area, to be determined with regard to the notional development area of the lot, as specified in the Table to this clause, and
- (b) subject to clause 30.4, not include any development excluded land, and
- (c) have boundary setbacks of at least 15 metres, where the width of the lot at the building line is 50 metres or more, or boundary setbacks of least 10 metres, where the width of the lot at the building line is less than 50 metres, and
- (d) be located to the Council's satisfaction.

**Table**

<b>Notional development area of the Lot</b>	<b>Maximum Total Area of Principal Development Area</b> (applies to land described in clause 30.1)
Less than 2,000 m <sup>2</sup>	750 m <sup>2</sup> or the notional development area, whichever is the greater
2,000 m <sup>2</sup> or more	2,000 m <sup>2</sup> or 25% of the notional development area, up to a maximum of 5,000 m <sup>2</sup> , whichever is the greater

- 30.4 Clause 30.3 (b) shall not apply to a Principal Development Area within any lot where the part of the lot that is not development excluded land, and that is so configured as to be capable of being the site of a dwelling house, and of accommodating development ordinarily ancillary or incidental

to a dwelling house, has a total area of less than 750 m<sup>2</sup>, but in that event the Principal Development Area shall include the minimum practicable amount of development excluded land and in no event shall the amount of development excluded land within a Principal Development Area exceed 750 square metres.

- 30.5 The Council shall not consent to development on a lot to which this clause applies unless it is or will be screened from view from outside the lot either by:
- (a) the retention of existing vegetation, within the lot, or
  - (b) the planting of indigenous vegetation within the lot which will achieve such screening within a time frame considered by the Council to be reasonable.

**[12] Clause 34 SUBDIVISION**

Omit clause 34.1. Insert instead:

**34.1 General Provisions**

- (a) The Density Control Provision shown on the Map specifies the maximum number of lots per hectare into which land may be subdivided with the consent of the Council.
- (b) The Council may consent to subdivision of any land covered by a Density Control Provision shown on the Map only if the total number of lots (other than lots for a public purpose) existing after the subdivision will not exceed the product of the notional development area of the original lot, in hectares, multiplied by the maximum number of lots per hectare specified in the Density Control Provision in respect of the original lot, rounded down to the nearest whole number.
- (c) The Council may consent to subdivision of any land that is zoned Bushland Conservation or Residential Bushland Conservation only if each new lot proposed to be created, (other than lots for a public purpose, and other than lots created as part of a cluster housing development), and intended to be the site of a dwelling house, includes land with a minimum area of 750 m<sup>2</sup>, no part of which is development excluded land, and which is so configured as to be capable of being the site

of a dwelling house and accommodating development ordinarily incidental and ancillary to a dwelling house.

- (d) The Council may consent to subdivision of any land for the purpose of cluster housing development only if it is satisfied that:
- (i) all development for the purpose of any dwelling house proposed to be erected as part of the cluster housing development, and
  - (ii) all development ordinarily incidental and ancillary to a dwelling house,
- is not to be located on any development excluded land.

**[13] Clause 34.4**

Omit clause 34.4. Insert instead:

**34.4 Residential Bushland Conservation Zone—Special Provisions**

- (a) Where a Density Control Provision is shown on the Map, subdivision of the land, in accordance with clause 34.1, to a density exceeding that shown is prohibited.
- (b) For the purposes only of clause 34.1, the notional development area of that part of a lot zoned RES-BC and subject to a Density Control Provision of (8/ha) shown on the Map shall not include any land which is steeper than 20%.
- (c) The Council may only consent to subdivision of land shown RES-BC (NS), RES-BC (CONS) or RES-BC with a Minimum Area Requirement on the Map if:
  - (i) it is for a boundary adjustment where no additional lots are created, or
  - (ii) it is for the purpose of providing land for public purposes.

**[14] Schedule 4 DEFINITIONS, REFERENCES AND HEADINGS**

Insert in Schedule 4 in alphabetical order the following definitions:

*Cluster housing development* means the development of land, containing an area of development excluded land, designed and for which consent is granted as an integrated whole and involving:

Blue Mountains Local Environmental Plan 1991 (Amendment No 25)

Amendments

Schedule 1

- 
- (a) the concentration of the development on land within the development site that is most suited to development, and
  - (b) the subdivision of land into five or more lots, and
  - (c) the erection of a dwelling house on each lot (other than on any neighbourhood or common property lot or lots), and
  - (d) at a minimum, the consolidation of the major part of the development excluded land within a neighbourhood or a common property lot, and
  - (e) the implementation of management measures approved by the Council, to create and maintain fire protection zones, and to protect and enhance the environmental value of the development excluded land referred to in paragraph (d) and any other natural areas within the development site,

that is subject to a scheme for joint ownership or a neighbourhood or a strata scheme.

***Development excluded land*** means any part of a lot:

- (a) that is land zoned Environmental Protection, or
- (b) that is designated on the Map as Protected Area-Environmental Constraint Area, together with any buffers required by the Council to protect such area, or
- (c) on which any Schedule 3 environmentally sensitive vegetation unit is located, together with any buffers required to protect that unit, or
- (d) that is the habitat of any threatened species, populations or ecological communities within the meaning of the *Threatened Species Conservation Act 1995*, the development of which would have a significant effect on the threatened species populations or ecological communities as determined in accordance with section 5A of the Act, or
- (e) on which any rare species of flora is located, together with any buffers required by the Council to protect that flora, or
- (f) that comprises a watercourse or any buffers required by the Council to protect that watercourse, or

- (g) that has a slope in excess of 20%, or
- (h) comprising any significant landscape or special feature, such as rock outcrops and escarpments, which in the opinion of the Council is worthy of preservation.

Land that would otherwise be development excluded land because it is steeper than a nominated slope, but is:

- (a) less than 100 square metres in area, and
- (b) is not within 20 metres of other land steeper than the nominated slope,

is taken not to be development excluded land, on the basis only of its slope.

***Development ordinarily incidental and ancillary to a dwelling house*** includes:

- (a) the erection of structures or the carrying out of any works other than for the purpose of providing public utility services, and
- (b) the clearing of native vegetation, and
- (c) the provision of access, car-parking and hard-stand areas, and such measures, including the provision or use of stormwater control devices, sewage disposal areas, and the clearing of vegetation for fire protection zones, as are necessary in order to meet the requirements of clause 10.5,

but only where that development relates to the construction or the use of the dwelling house concerned.

***Notional development area*** means that part of a lot not zoned Environmental Protection and not designated on the Map as a Protected Area-Environmental Constraint Area.

***Rare species of flora*** means any flora species listed in the publication entitled "Rare or Threatened Australian Plants", Briggs & Leigh, 1995 Revised Edition.

***Slope*** means the gradient of the natural ground level, being the vertical height divided by the horizontal distance expressed as a percentage. The slope of land is to be established by measuring the distance between 1.0 metre contour levels as shown on a detailed contour survey plan of the land concerned,

that plots any rock outcrops on the land as well as other features.

**Watercourse** means a body of water or a channel, being part of the natural ecological condition of a catchment, and which comprises a creek, stream, lake or wetland with:

- (a) a defined bed or defined banks, or
- (b) endemic riparian vegetation within or adjacent to the stream edge or banks which may provide habitat for aquatic or terrestrial animals, or
- (c) evidence of natural stream processes such as siltation, erosion, gullyng, pool and riffle zones,

and which conveys continuous or intermittent water flows, but does not include a piped drainage line.

**ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979****GOSFORD LOCAL ENVIRONMENTAL PLAN No. 399**

I, the Minister for Urban Affairs and Planning, in pursuance of section 70 of the Environmental Planning and Assessment Act 1979, make the local environmental plan set out hereunder. (N00/00026)

**ANDREW REFSHAUGE MP**  
Minister for Urban Affairs and Planning.

Sydney, 22 January 2001.

**Citation**

1. This plan may be cited as Gosford Local Environmental Plan No. 399.

**Aims, objectives, etc.**

2. The aims of this plan are:
  - (a) to encourage, through altered height and floor space ratio controls, revitalisation of the Woy Woy Town Centre in a manner which is sympathetic to its existing setting, built scale and character, and
  - (b) to support the application of altered height and floor space controls to the Woy Woy Town Centre by incorporating the provisions of Development Control Plan No. 133 - Woy Woy Town Centre which provides more detailed guidelines for development in the centre.

**Land to which plan applies**

3. This plan applies to land within the area shown edged heavy black on the map marked "Gosford Local Environmental Plan No. 399 - Woy Woy Town Centre Height and Density Precinct Map" deposited in the office of the Council of the City of Gosford.

**Relationship to other environmental planning instruments**

4. This plan amends the Gosford Planning Scheme Ordinance in the manner set out in clause 5.

**Amendment of Gosford Planning Scheme Ordinance**

5. The Gosford Planning Scheme Ordinance is amended by:
  - (a) deleting from Clause 29B (1) the words "density precincts 1 to 15," and replacing with "height and density precincts A to L,"
  - (b) deleting Clauses 49F to 49I
  - (c) inserting after Clause 49E the following clause:

**Woy Woy Town Centre - height and density restrictions**

- 49F. (1) In this clause -

“height and density precinct” means land shown on the Woy Woy Town Centre Height and Density Precinct Map as being in a particular precinct by heavy black edging with a letter superimposed thereon;

“Woy Woy Town Centre Height and Density Precinct Map” means the map marked “Gosford Local Environmental Plan No 399 - Woy Woy Town Centre Height and Density Precinct Map” deposited in the office of the Council.

“Australian Height Datum (A.H.D.)” means the nationwide vertical datum derived from mean sea level.

- (2) (a) A person shall not erect a building on land within a height and density precinct specified in Column 1 of the table to this subclause where the height of the building at any point exceeds the height indicated in Column 2 in respect of that precinct. Where a height is not specified, the height is not subject to any restrictions.
- (b) Except as provided by subclause (3) a person shall not erect a building on land within a height and density precinct specified in Column 1 of the table to this subclause where density (for retail and/or commercial purposes) of the building exceeds the density (for retail and/or commercial purposes) indicated in Column 3 in respect of that precinct. Where a density is not specified, then subject to subclause (3), the density is not subject to any restrictions.

**TABLE**

## **Gunnedah Local Environmental Plan 1998 (Amendment No 8)**

### **1 Name of plan**

This plan is the *Gunnedah Local Environmental Plan 1998 (Amendment No 8)*.

### **2 Aims of plan**

The aim of this plan is to clarify the provisions relating to the removal of trees in the local government area of Gunnedah.

### **3 Land to which plan applies**

This plan applies to all land within the Gunnedah local government area.

### **4 Amendment of Gunnedah Local Environmental Plan 1998**

The *Gunnedah Local Environmental Plan 1998* is amended as set out in Schedule 1.

## Schedule 1 Amendment

(Clause 4)

### Clause 28

Omit the clause. Insert instead:

**28 What controls apply to the preservation of trees within the Gunnedah area?**

(1) **Objectives**

The objectives of the tree preservation controls set out in this clause are:

- (a) to preserve trees as important elements of streetscapes and landscapes, and
- (b) to protect trees as habitat value for wildlife, and
- (c) to promote replacement tree planting.

(2) This clause applies to all land within the Gunnedah local government area.

(3) Except as provided by subclause (4), development consent is required before a person ringbarks, cuts down, tops, lops, removes, injures, poisons or wilfully destroys any tree that:

- (a) has an overall height of 3 metres or more above the ground, or
- (b) has a trunk girth exceeding 0.5 metre at a height of 1 metre above the ground, or
- (c) has a branch spread exceeding 3 metres in diameter, or
- (d) in the case of land in Zone No 1 (d), 2 (a), 2 (b), 3 (a), 3 (b), 4 (a), 4 (b) or 5 (a), is located between the main building allotment and the street alignment or, if there is no such building, between the street alignment and the setback, or
- (e) is in Zone No 7 (d) (the Environmental Protection—Scenic Zone).

## Gunnedah Local Environmental Plan 1998 (Amendment No 8)

## Schedule 1      Amendment

- 
- (4) Development consent is not required where:
- (a) the tree is dead, or
  - (b) the tree's condition constitutes an immediate threat to life or property, or
  - (c) the work is reasonably necessary to protect human life, buildings or property from imminent danger from a bush fire burning in the vicinity of the land on which the tree is situated, or
  - (d) the tree is in a fuel free zone (within the meaning of the document entitled "Planning for Bushfire Protection" published by the Department of Rural Fire Services) and, if the Council has classified any species of trees as being likely to present a significant fire hazard, the tree is such a species, but only if written notice about the proposed work is given to the Council, before the work is started, confirming in writing that this paragraph applies to the tree, or
  - (e) the tree is included in any current list of noxious weeds applicable to the Gunnedah local government area, or
  - (f) the trunk of the tree is located no more than 3 metres from any part of any habitable building or no more than 3 metres from any underground utility service main, or
  - (g) the work involves only minor pruning which is necessary to promote growth or fruit production, or to improve the shape of the tree's canopy, and is not likely to jeopardise the tree's existence, or
  - (h) the tree is part of an agroforestry plantation for commercial purposes which has been registered with the Council and the tree removal is part of the regular harvesting operation within the plantation, or
  - (i) the tree is in a State forest within the meaning of the *Forestry Act 1916*, or is trimmed or otherwise dealt with in accordance with the *Electricity Supply (Safety Plans) Regulation 1997* or the *Electricity Supply (General) Regulation 1996*, or

Amendment

Schedule 1

(j) the tree is removed or lopped in accordance with the *Roads Act 1993*, or

(k) the tree is located on land in Zone No 1 (a) or 1 (b), or

**Note.** The clearing of native vegetation on rural land may require development consent under the provisions of the *Native Vegetation Conservation Act 1997* and should otherwise be carried out in accordance with that Act and any regional vegetation management plan in force under that Act.

(l) written notice about the proposed work is given to the Council, not less than 14 days before the work is started, and the Council does not advise the person within 14 days after the notice is given that it opposes the action being taken.

(5) A written notice referred to in subclause (4) (d) or (l) must include the name and address of the person who gives it, the number and species of trees affected and the location of the tree or trees affected on the land to which the notice applies.

(6) Consent required by this clause must not be granted unless the consent authority has considered the following matters:

(a) the reason for the proposed work, and

(b) the contribution of the tree to the local landscape or streetscape, and

#### ADVICE TO PRACTITIONERS No. 3 OF 2000

#### EFFICIENT RESOLUTION OF PROCEEDINGS

PRACTITIONERS attention is drawn to the Compensation Court Rule (Efficient Resolution of Proceedings) 2000 which was published in the *Government Gazette* of 20 October 2000 (No. 139 – pages 11205 to 11208) and took effect from that date.

In particular, practitioners should be aware that this Rule, amongst other things, amended Part 5 Rule 2 (1) by reducing the time for validity of service of originating process from 6 months to 2 months of filing. Furthermore the Rule amended Part 10 Rule 4 (1) by reducing the time before which proceedings against a relevant respondent will be deemed struck out for want of the filing of an Answer, Notice of Appearance, or Affidavit of Service of the originating process, from 6 months to 3 months of the filing of the originating process.

Practitioners are reminded that matters enter the pending list only when all parties nominated in an Application for Determination are joined either by the filing of an Answer, Notice of Appearance, or Affidavit of Service of the Application.

It will be appreciated the above provisions are intended to assist the expeditious resolution of proceedings and practitioners should endeavour to ensure that their intended purpose is given effect to.

### COMPENSATION COURT OF NEW SOUTH WALES

#### ADVICE TO PRACTITIONERS No. 1 OF 2001

#### CERTIFICATE OF COMPLIANCE IN RELATION TO WEEKLY PAYMENT CLAIMS

THE Workers Compensation Legislation Amendment Act 2000 amended section 101 (5) (c) of the Workplace Injury Management and Workers Compensation Act 1998 by omitting "commencement of this Act" and inserting instead "commencement of the 1987 Act". (Refer Schedule 22.1 [3] of the amending Act which commenced on 4 March 2001.)

The explanatory note to this provision states that the purpose of the amendment is "... so that restrictions on the commencement of court proceedings about weekly payments of compensation will not apply if the injury was received before the commencement of the 1987 Act, to reflect the intended operation of the provision".

As a consequence, Advice to Practitioners No. 7 of 1999 (allowing for amendment of the certificate of compliance to refer to 1 August 1998 in lieu of 30 June 1987) no longer has application.

### COMPENSATION COURT OF NEW SOUTH WALES

PRACTICE NOTE No. 1 OF 2001

#### COMMUTATION AND REDEMPTION PROCEDURES

THE Workers Compensation Legislation Amendment Act 2000 inserted clause 6B into Schedule 6, Part 4 of the Workers Compensation Act 1987. (Refer Schedule 22.2 [3] of the amending Act which commenced on 4 March 2001.) Clause 6B transfers to the 1987 Act an expired provision of the Workers Compensation (General) Regulation 1995 which confirmed the established procedures of this Court in relation to commutation applications.

These procedures facilitate the expeditious disposal of commutation (and redemption) applications and require practitioners to be fully ready to proceed when such an application is listed for determination by the Court.

Practitioners are reminded that readiness to proceed includes the availability of the worker to give evidence together with the worker's completed form of consent to the application for commutation/redemption and an agreed draft short minutes of order. All relevant medical reports should be available for tender and any section 60 expenses (where relevant) identified, quantified and agreed to.

In addition and wherever possible, the respondent's solicitor should furnish a copy of the draft short minutes of order to the worker's solicitor prior to the listing date.

**THREATENED SPECIES CONSERVATION ACT**

## Notice of Preliminary Determinations

THE Scientific Committee, established by the Threatened Species Conservation Act, has made Preliminary Determinations supporting proposals to list the following in the relevant Schedules of the Act.

**Endangered Species** (Part 1 of Schedule 1)

*Acacia atrox* Kodala ms, a tall shrub

*Brachyscome ascendens*, G.L. Davis, a perennial daisy

*Geodorum densiflorum* (Lam.) Schltr., a terrestrial orchid

The Committee is of the opinion that these species are likely to become extinct in nature in NSW unless the circumstances and factors threatening their survival or evolutionary development cease to operate.

*Acacia atrox* is currently provisionally listed as an Endangered Species under its former name of *Acacia* sp. "Myall Creek" (Miller s.n. 25 May 2000).

**Endangered Population** (Part 2 of Schedule 1)

Broad-toothed Rat, *Mastacomys fuscus* Thomas, population at Barrington Tops in the Local Government Areas of Gloucester, Scone and Dungog

The Committee is of the opinion that the numbers of this population have been reduced to such a critical level, that it is in immediate danger of extinction, it is not a population of a species already listed on Schedule 1, and it is of significant conservation value.

Any person may make a written submission, regarding the Preliminary Determinations which should be forwarded to:

Director-General  
National Parks and Wildlife Service  
PO Box 1967  
Hurstville NSW 2220  
Attention: Executive Officer  
Scientific Committee

Submissions must be received by 27th April 2001.

Copies of these determinations may be inspected at the National Parks Centre, 102 George Street, The Rocks, Sydney and at all NPWS Area Offices/Visitors Centres during business hours.
