Schedule 1 Amendments

(Clause 4)

[1] Clause 8 What development is complying development?

Insert at the end of clause 8 (2) (d):

Insert after clause 49:

49A Acid sulfate soils

Development on land identified as Class 1, 2, 3, 4 or 5 on the Acid Sulfate Soils Hazard Map is to be carried out in a manner that manages any disturbance to acid sulfate soils so as to minimise impacts on natural waterbodies and wetlands, and on agriculture, fishing, aquaculture, urban activities and infrastructure.

In particular:

Consent must not be granted to proposed works outlined below for the Class of land concerned, that disturb more than one tonne of soil or that are likely to lower the watertable, unless the consent authority has considered an acid sulfate soils management plan prepared in accordance with the *Acid Sulfate Soils Assessment Guidelines*. However, an acid sulfate soils management plan is not required where a preliminary assessment of the proposed works undertaken in accordance with these guidelines indicates that the proposed works need not be carried out pursuant to an acid sulfate soils management plan, and a copy of the assessment has been given to the Council.

CHARITABLE TRUSTS ACT 1993

Order Under Section 12

Cy-Pres Scheme Relating to the
Beadle Botanical Research Trust Fund

BY agreement dated 1 June 1996, between Professor Noel CW Beadle and the Department of Botany at the University of New England ("UNE"), a trust was established ("the Beadle Trust"). Pursuant to this agreement, Professor Beadle gave the sum of \$50,000 to the Department of Botany for the purpose of applying the interest earned on this sum towards the maintenance of his house and surrounding gardens at 225 Markham Street, Armidale (the property), as a "resource for conducting botanical teaching and research". The gardens contained many rare botanic specimens.

In October 1998, Professor Beadle died and in his Will he bequeathed the property to his niece, Ms Jann Beadle. The property has subsequently been sold. As a consequence, the Beadle Trust has ceased to provide a suitable and effective method of using the trust property because the UNE has no effective and secure means of ensuring that it has sufficient access to the property to permit it to maintain the house and gardens for the purpose originally intended.

I have formed the view that the gift to the Department of Botany, UNE is a gift for charitable purposes and have approved a recommendation that the Attorney General establish a cy-pres scheme pursuant to section 12 (1) (a) of the Charitable Trusts Act 1993, to give effect to the establishment of an annual scholarship in accordance with the following criteria:

Persons Eligible: Australian citizens or permanent residents who are enrolled as internal full time candidates for the degree of Doctor of Philosophy or a research Master's Degree in the discipline of Botany in the Faculty of The Sciences at UNE.

The successful candidate will be whomever the Faculty of the Sciences Award Committee at UNE determines has the best academic record. The scholarship may be taken in conjunction with a merit-based scholarship such as an Australian Postgraduate Award.

Benefits: An award, or awards, the annual value of which shall be determined by the Faculty of The Sciences Award Committee and which shall be an amount not exceeding 75% of the annual interest on the sum endowed to a maximum of \$2500. The award may be granted as either stipend supplement or as operating funds to facilitate the research program or a combination of both.

Tenure: Subject to satisfactory progress, the scholarship may be awarded to the same person annually for up to three years for a candidate for the degree of Doctor of Philosophy or up to two years for a candidate for a Master's degree. However the person must apply for the scholarship at the beginning of each year and must have the best academic record of all the applicants for that year.

Therefore, pursuant to section 12 of the Charitable Trusts Act, I hereby order that the gift to the Department of Botany, UNE be amended cy-pres to give effect to the establishment

of an annual scholarship, such order to take effect 21 days after its publication in the *Government Gazette*, in accordance with section 16 (2) of the Charitable Trusts Act.

Date of Order: 31 July 2001.

ADDITIONAL CONTAMINANTS FOR TABLES A3 AND A4 OF THE ENVIRONMENTAL GUIDELINES: ASSESSMENT, CLASSIFICATION AND MANAGEMENT OF LIQUID AND NON-LIQUID WASTES (EPA 1999)

The *Environmental Guidelines: Assessment, Classification and Management of Liquid and Non-Liquid Wastes* (EPA 1999) under subpart (f) of '3.4.3 Rules for assessing and classifying non-liquid waste' (page 24) states that: "If the waste contains potentially toxic and/or ecotoxic contaminants not listed in Tables A3 and A4, the person doing the assessment must ask the EPA to provide assessment criteria for these contaminants and then must assess the waste against these criteria as well."

As a result of receiving requests to provide assessment criteria for contaminants, in accordance with the above requirement, the EPA has determined assessment criteria for Chlorpyrifos, Fluroxypyr, Picloram, Plasticiser Compounds, Tebuconazole and Triclopyr. The tables below define the total concentration criteria for insertion into Table A3, and the leachable concentration and total concentration criteria for insertion into Table A4 of the *Environmental Guidelines: Assessment, Classification and Management of Liquid and Non-Liquid Wastes* (EPA 1999). The assessment criteria should be inserted into these tables in alphabetical order of the contaminants and must be used for the assessment of waste containing these contaminants.

The leachable concentration and total concentration values for Plasticiser Compounds and Tebuconazole were gazetted previously.

INSERT THE FOLLOWING ASSESSMENT CRITERIA (IN ALPHABETICAL ORDER OF THE CONTAMINANTS) INTO TABLE A3 OF THE ENVIRONMENTAL GUIDELINES: ASSESSMENT, CLASSIFICATION AND MANAGEMENT OF LIQUID AND NON-LIQUID WASTES (EPA 1999)

(Shows details of all new contaminants added since publication in May 1999)
