Local Government (General) Amendment (Miscellaneous) Regulation 2002

under the

Local Government Act 1993

Her Excellency the Governor, with the advice of the Executive Council, has made the following Regulation under the *Local Government Act 1993*.

HARRY WOODS, M.P.,
Minister for Local Government

Explanatory note

The object of this Regulation is to amend the *Local Government (General) Regulation 1999 (the Regulation)* in respect of two unrelated matters—matter arising out of the *Local Government Amendment (Filming) Act 2000 (the amending Act)* and matter relating to expenses and facilities of councillors.

The amending Act

Section 47AA of the *Local Government Act 1993 (the Act)* (which is inserted by Schedule 1 [2] to the amending Act and is to commence at the same time as this Regulation) requires a council that proposes to grant, under section 47A of the Act, a lease, licence or other estate in respect of certain community land in order to allow a filming project to be carried out on the land to notify or advertise the proposal “in the manner prescribed by the regulations”. (This requirement is in addition to the notification requirements of section 47 of the Act.)

Schedule 1 [3] to this Regulation prescribes the manner of notification or advertisement for the purposes of section 47AA.

Schedule 1 [6] to the amending Act inserted a definition of *filming* in the Act. In consequence of that, Schedule 1 [1] and [2] to this Regulation amend clauses 24 and 25 of the Regulation (which currently refer to “filming for cinema or television” on community land) so as to apply the broader terms of the new definition to those clauses.

Local Government (General) Amendment (Miscellaneous) Regulation 2002

Explanatory note

Expenses and facilities of councillors

Section 252 of the Act requires councils to adopt a policy concerning (among other things) the payment of expenses incurred or to be incurred by councillors in relation to discharging the functions of civic office. Any such policy must comply with the regulations.

Clause 42A of the Regulation currently provides that any such policy must not include any provision enabling a council to make a motor vehicle owned or leased by the council available for the exclusive or primary use or disposition of a particular councillor other than a mayor. Schedule 1 [4] to this Regulation repeals and remakes that clause so as to add a prohibition on any policy under section 252 permitting the payment to councillors of an allowance in the nature of a general expense allowance.

Authority for Regulation

This Regulation is made under the *Local Government Act 1993*, including sections 47AA (Special provisions for leases, licences and other estates granted for filming projects), 252 (Payment of expenses and provision of facilities) and 748 (the general regulation-making power).

- an **agreed** estimate of the length of the hearing or, in default of agreement, competing estimates with reasons therefor;
- the number of lay and expert witnesses to be called;

- whether a hearing is sought on a particular day or days of the week due to e.g. the availability of medical witnesses;
- whether an interpreter is required;
- that the applicant has obtained from the respondent any necessary wages material;
- that all proper particulars requested by the respondent have been supplied;
- that all necessary subpoenas have been served;
- any other special circumstances e.g. overseas witnesses or parties.

Should this information not be available when a special fixture is sought, the Court may adjourn or dismiss the application and cost penalties may apply.

General Approval of the Immobilisation of Contaminants in Waste

PURSUANT to the provisions in Clause 28 of the Protection of the Environment Operations (Waste) Regulation 1996, the New South Wales Environment Protection Authority has authorised the following general approval of the immobilisation of contaminants in waste:

A) Approval Number

2002/13.

B) Specification of Waste to which this Approval Applies

This approval applies to waste consisting of used tar-treated timber arising from oyster farms (active or inactive) located in New South Wales waters and is restricted to such tar treated timber which has already been placed under water to cultivate oysters at the oyster farms prior to the date of this approval.

C) Contaminants Approved as Immobilised

C₁₀-C₃₆ Petroleum Hydrocarbons, Cresol (total), m-Cresol, o-Cresol, p-Cresol, Polycyclic aromatic hydrocarbons (PAHs), Benzo-a-pyrene (BaP) and Phenol (non-halogenated).

D) Type of Immobilisation

Natural.

E) Mechanism of Immobilisation

C₁₀-C₃₆ Petroleum Hydrocarbons, Cresol (total), m-Cresol, o-Cresol and p-Cresol PAHs, BaP and Phenol (non-halogenated) are impregnated and adsorbed into the woody tissue of the treated timbers.

F) Conditions of Approval

- Commencement/Expiry Date

This approval commences on the date of issue and expires on 31 December 2006, unless revoked prior to that time.

- Packaging Requirements

None.

- Waste Assessment Requirements

The total concentration (SCC) limits for C₁₀-C₃₆ Petroleum Hydrocarbons, Cresol (total), m-Cresol, o-Cresol and p-Cresol, PAHs, BaP and Phenol (non-halogenated) listed in Table A4 of the Environmental Guidelines: Assessment, Classification and Management of Liquid and Non-Liquid Wastes (Waste Guidelines – EPA 1999) do not apply to the assessment of tar-treated timber. With respect to Cresol (total), m-Cresol, o-Cresol and p-Cresol, BaP and Phenol (non-halogenated) tar treated timber may be classified according to their respective leachable concentration (TCLP) values alone.

Any contaminants listed in Table A4 of the Waste Guidelines (other than C₁₀-C₃₆ Petroleum Hydrocarbons, Cresol (total), m-Cresol, o-Cresol and p-Cresol, PAHs, BaP and Phenol (non-halogenated)) that are contained within tar-treated timber must be assessed in accordance with Technical Appendix 1 of the Waste Guidelines.

- Disposal Restrictions

Tar-treated timber waste subject to this approval that meets the requirements of the Waste Guidelines for classification as 'inert waste' or 'solid waste' may only be disposed of at solid waste landfills or industrial waste landfills which have currently operating leachate-management systems and which are licensed to receive that particular class of waste, and that have licence conditions to receive waste subject to immobilisation approvals with this type of disposal restriction. Tar-treated timber waste subject to this approval that is classified as 'industrial waste' must be disposed of at industrial waste landfills.

The interpretation of the above disposal restrictions should be referred to Part 5 of Technical Appendix 2 of the Waste Guidelines.

- Record keeping requirements

The responsible person is required to keep records of the management and disposal of tar-treated timber waste, which is assessed as industrial waste or hazardous waste, for a period of at least 4 years from the date which the timber waste is disposed of off site.

- Waste Management Requirements

The responsible person must ensure that the landfill is permitted by conditions in its licence to receive waste subject to immobilisation approvals with the above disposal restrictions.

G) Responsible Person

The person or class of persons to whom this general approval relates is the person who carries out the assessment and classification for the purpose of this approval. The responsible person must comply with the conditions of this approval.
