Fisheries Management (General) Amendment Regulation 2002

under the

Fisheries Management Act 1994

Her Excellency the Governor, with the advice of the Executive Council, has made the following Regulation under the *Fisheries Management Act 1994*.

The Hon EDWARD OBEID, M.L.C.,
Minister for Fisheries

Explanatory note

The object of this Regulation is to amend the *Fisheries Management (General) Regulation 1995*:

- (a) to provide for industry members of the Marine and Estuarine Recreational Charter Management Advisory Committee to represent 8 instead of 9 regions of the industry by combining the Solitary Islands Reserve region and the Mid North Coast and Central Coast region into one region, and
- (b) to make transitional arrangements in relation to industry membership of the Management Advisory Committee (*MAC*) for the estuary prawn trawl restricted fishery.

The amendments described in paragraph (b) take account of the impending closure of Botany Bay to estuary prawn trawling. The Regulation reduces the number of members of the *MAC* and removes the need for an election in relation to the Botany Bay estuary prawn trawl restricted fishery representative. It provides instead for the current representative to continue as a member of the *MAC* until 1 May 2002, the date of closure.

This Regulation is made under the *Fisheries Management Act 1994*, including sections 231 and 289 (the general regulation-making power).

The objectives of this plan in relation to heritage are:

- (a) to conserve the environmental heritage of the City of Campbelltown, and
- (b) to conserve the heritage significance of existing significant fabric, relics, settings and views associated with the heritage significance of heritage items and heritage conservation areas, and
- (c) to ensure that archaeological sites and places of Aboriginal heritage significance are conserved, and
- (d) to allow for the protection of places which have the potential to have heritage significance but are not identified as heritage items, and

Campbelltown (Urban Area) Local Environmental Plan 2002	Clause 43
Special provisions	Part 3
Conservation of heritage items	Division 2

- (e) to ensure that the heritage conservation areas throughout the City of Campbelltown retain their heritage significance.

44 Protection of heritage items and heritage conservation areas

(1) **When is consent required?**

The following development may be carried out only with development consent:

- (a) demolishing or moving a heritage item or a building, work, relic, tree or place within a heritage conservation area,
- (b) altering a heritage item or a building, work, relic, tree or place within a heritage conservation area by making structural or non-structural changes to its exterior, such as to its detail, fabric, finish or appearance,
- (c) altering a heritage item by making structural changes to its interior,
- (d) disturbing or excavating a place of Aboriginal heritage significance or an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (e) moving the whole or a part of a heritage item,
- (f) erecting a building on, or subdividing, land on which a heritage item is located or which is within a heritage conservation area.

(2) **What exceptions are there?**

Development consent is not required by this clause if:

- (a) in the opinion of the consent authority:
 - (i) the proposed development is of a minor nature or consists of maintenance of the heritage item or of a building, work, archaeological site, tree or place within a heritage conservation area, and
 - (ii) the proposed development would not adversely affect the significance of the heritage item or heritage conservation area, and

Clause 44	Campbelltown (Urban Area) Local Environmental Plan 2002
Part 3	Special provisions
Division 2	Conservation of heritage items

- (b) the proponent has notified the consent authority in writing of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development will comply with this subclause and that development consent is not otherwise required by this plan.
- (3) Development consent is not required by this clause for the following development in a cemetery or burial ground if there will be no disturbance to human remains, to relics in the form of grave goods or to a place of Aboriginal heritage significance:
- (a) the creation of a new grave or monument,
- (b) an excavation or disturbance of land for the purpose of carrying out conservation or repair of monuments or grave markers.
- (4) **What must be included in assessing a development application?**
Before granting a consent required by this clause, the consent authority must assess the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.
- (5) **What extra documentation is needed?**
The assessment must include consideration of a *heritage impact statement* that addresses at least the following issues (but is not to be limited to assessment of those issues, if the heritage significance concerned involves other issues). The consent authority may also decline to grant such a consent until it has considered a *conservation management plan*, if it considers the development proposed should be assessed with regard to such a plan.
- (6) The minimum number of issues that must be addressed by the heritage impact statement are:
- (a) for development that would affect a *heritage item*:
- (i) the heritage significance of the item as part of the environmental heritage of the City of Campbelltown, and
- (ii) the impact that the proposed development will have on the heritage significance of the item and its setting, including any landscape or horticultural features, and
- (iii) the measures proposed to conserve the heritage significance of the item and its setting, and

Campbelltown (Urban Area) Local Environmental Plan 2002	Clause 44
Special provisions	Part 3
Conservation of heritage items	Division 2

- (iv) whether any archaeological site or potential archaeological site would be adversely affected by the proposed development, and
 - (v) the extent to which the carrying out of the proposed development would affect the form of any historic subdivision, and
- (b) for development that would be carried out in a *heritage conservation area*:
- (i) the heritage significance of the heritage conservation area and the contribution which any building, work, relic, tree or place affected by the proposed development makes to this heritage significance, and
 - (ii) the impact that the proposed development would have on the heritage significance of the heritage conservation area, and
 - (iii) the compatibility of any proposed development with nearby original buildings and the character of the heritage conservation area, taking into account the size, form, scale, orientation, setbacks, materials and detailing of the proposed development, and
 - (iv) the measures proposed to conserve the significance of the heritage conservation area and its setting, and
 - (v) whether any landscape or horticultural features would be affected by the proposed development, and
 - (vi) whether any archaeological site or potential archaeological site would be affected by the proposed development, and
 - (vii) the extent to which the carrying out of the proposed development in accordance with the consent would affect any historic subdivision pattern, and
 - (viii) the issues raised by any submission received in relation to the proposed development in response to the notification or advertising of the application.

45 Advertised development

The following development is identified as advertised development:

- (a) the demolition of a heritage item or a building, work, tree or place in a heritage conservation area,
- (b) the carrying out of any development allowed by clause 50.

Clause 46	Campbelltown (Urban Area) Local Environmental Plan 2002
Part 3	Special provisions
Division 2	Conservation of heritage items

46 Notice of demolition to the Heritage Council

Before granting consent for the demolition of a heritage item identified in Schedule 1 as being of State significance, the consent authority must notify the Heritage Council about the application and take into consideration any comments received in response within 28 days after the notice is sent.

47 Development affecting places or sites of known or potential Aboriginal heritage significance

Before granting consent for development that is likely to have an impact on a place of Aboriginal heritage significance or a potential place of Aboriginal heritage significance, or that will be carried out on an archaeological site of a relic that has Aboriginal heritage significance, the consent authority must:

- (a) consider a heritage impact statement explaining how the proposed development would affect the conservation of the place or site and any relic known or reasonably likely to be located at the place or site, and
- (b) except where the proposed development is integrated development, notify the local Aboriginal communities (in such way as it thinks appropriate) and the Director-General of National Parks and Wildlife of its intention to do so and take into consideration any comments received in response within 28 days after the relevant notice is sent.

48 Development affecting known or potential archaeological sites of relics of non-Aboriginal heritage significance

- (1) Before granting consent for development that will be carried out on an archaeological site or a potential archaeological site of a relic that has non-Aboriginal heritage significance (whether or not it is, or has the potential to be, also the site of a relic of Aboriginal heritage significance), the consent authority must:
 - (a) consider a heritage impact statement explaining how the proposed development will affect the conservation of the site and any relic known or reasonably likely to be located at the site, and
 - (b) notify the Heritage Council of its intention to do so and take into consideration any comments received in response within 28 days after the notice is sent.

Campbelltown (Urban Area) Local Environmental Plan 2002	Clause 48
Special provisions	Part 3
Conservation of heritage items	Division 2

- (2) This clause does not apply if the proposed development:
- (a) does not involve disturbance of below-ground deposits and the consent authority is of the opinion that the heritage significance of any above-ground relics would not be adversely affected by the proposed development, or
 - (b) is integrated development.

49 Development in the vicinity of a heritage item

- (1) Before granting consent to development in the vicinity of a heritage item, the consent authority must assess the impact of the proposed development on the heritage significance of the heritage item and of any heritage conservation area within which it is situated.
- (2) This clause extends to development:
 - (a) that may have an impact on the setting of a heritage item, for example, by affecting a significant view to or from the item or by overshadowing, or
 - (b) that may undermine or otherwise cause physical damage to a heritage item, or
 - (c) that will otherwise have any adverse impact on the heritage significance of a heritage item or of any heritage conservation area within which it is situated.
- (3) The consent authority may refuse to grant any such consent unless it has considered a heritage impact statement that will help it assess the impact of the proposed development on the heritage significance, visual curtilage and setting of the heritage item.
- (4) The heritage impact statement should include details of the size, shape and scale of, setbacks for, and the materials to be used in, any proposed buildings or works and details of any modification that would reduce the impact of the proposed development on the heritage significance of the heritage item.

50 Conservation incentives

The consent authority may grant consent to the use for any purpose of a building that is a heritage item, or of the land on which such a building is erected, even though the use would otherwise not be allowed by this plan, if:

- (a) it is satisfied that the retention of the heritage item depends on the granting of consent, and

Clause 50 Campbelltown (Urban Area) Local Environmental Plan 2002

Part 3 Special provisions

Division 2 Conservation of heritage items

- (b) the proposed use is in accordance with a conservation management plan which has been endorsed by the consent authority, and
- (c) the granting of consent to the proposed use would ensure that all necessary conservation work identified in the conservation management plan is carried out, and
- (d) the proposed use would not adversely affect the heritage significance of the heritage item or its setting, and
- (e) the proposed use would not adversely affect the amenity of the surrounding area otherwise than to an insignificant extent.

51 Development in heritage conservation areas

- (1) Before granting consent for the erection of a building within a heritage conservation area, the consent authority must be satisfied that the features of the proposed building will be compatible with the heritage significance of the heritage conservation area, having regard to the form of, and materials used in, buildings that contribute to the heritage significance of the heritage conservation area.
- (2) In satisfying itself about those features, the consent authority must have regard to at least the following (but is not to be limited to having regard to those features):
 - (a) the pitch and form of the roof (if any),
 - (b) the style, size, proportion and position of the openings for windows or doors (if any),
 - (c) the colour, texture, style, size and type of finish of the materials to be used on the exterior of the building.
- (3) Consent must not be granted to development on a site within the Queen Street Historic Precinct—Heritage Conservation Area unless the proposed development is consistent with the provisions of *Development Control Plan No 27—Queen Street Historic Precinct*.

Division 3 Miscellaneous provisions

52 Acquisition of certain land

- (1) The owner of any land within Zone 5 (a), 5 (b), 5 (c), 5 (d), 5 (e), 6 (a) or 6 (b) may, by notice in writing, require:

Campbelltown (Urban Area) Local Environmental Plan 2002	Clause 52
Special provisions	Part 3
Miscellaneous provisions	Division 3

- (a) in the case of land within Zone 5 (a), the public authority which has responsibility for the land use for the purpose of which the land is zoned, and
 - (b) in the case of land within Zone 5 (b):
 - (i) where that land is included in the five-year works program of the Roads and Traffic Authority current at the time of receipt of the notice, the Roads and Traffic Authority, or
 - (ii) in any other case, the corporation, and
 - (c) in the case of land within Zone 5 (c), 5 (d) or 6 (a), the Council,
 - (d) in the case of land within Zone 5 (e) or 6 (b), the corporation, as the public authority having responsibility for acquisition of the land, to acquire the land.
- (2) On receipt of a notice referred to in subclause (1), the public authority concerned must acquire the land.
- (3) Until the land referred to in subclause (1) is acquired by the public authority concerned, development may be carried out for any purpose on that land with development consent.
- (4) Consent must not be granted to the carrying out of development on land to be acquired by a public authority other than the consent authority without the concurrence of the other public authority.
- (5) In determining whether to grant concurrence required by subclause (4), the public authority concerned must take into consideration:
- (a) the effect of the proposed development on acquisition costs, and
 - (b) the imminence of acquisition, and
 - (c) the cost of reinstating the land for the purpose for which the land is zoned, and
 - (d) in the case of land within Zone 5 (b), the need to carry out development on the land for the purpose of classified roads or proposed classified roads, within the meaning of the *Roads Act 1993*.
- (6) In granting a consent referred in subclause (4), the consent authority may impose conditions requiring:
- (a) the removal of the building or work for which it has granted consent, and

Clause 52	Campbelltown (Urban Area) Local Environmental Plan 2002
Part 3	Special provisions
Division 3	Miscellaneous provisions

- (b) the reinstatement of the land or removal of any waste materials or refuse, and
 - (c) compliance with any condition requested by the other public authority in granting its concurrence.
- (7) Nothing in this clause requires the public authority concerned to acquire land during the currency of a consent obtained under subclause (3).
- (8) Nothing in this clause requires the Council to acquire land within Zone 5 (a), 5 (c), 5 (d) or 6 (a) where such land may be required to be provided, without cost to the Council, as a condition of consent for development of land in the same ownership.

53 Development within Zone 5 (e)

- (1) When determining any application for consent for development of land within Zone 5 (e), the consent authority must consider whether or not the proposed development would conflict with:
- (a) the purposes for which the zone was created and for which the land within it is to be acquired, and
 - (b) any existing development outside the zone or land in the vicinity, and
 - (c) the maintenance and improvement of the quality of the landscape in the zone, and
 - (d) any plan of management adopted by the Director-General of the Department of Urban Affairs and Planning and the Council.
- (2) Consent must not be granted to any development of land within Zone 5 (e) unless the consent authority is satisfied that, if any development being carried out needs to be altered or terminated (or any structure erected as a consequence of the consent needs to be altered or removed) in order to make way for the construction of a major infrastructure project, the development will be altered or terminated (or the structure will be altered or removed) on the giving of appropriate notice by the corporation.
- (3) For the purposes of this clause, *major infrastructure project* means a high voltage power line, a road or any other public utility installation which traverses the length or part of the length of the corridor of land within Zone 5 (e).

Campbelltown (Urban Area) Local Environmental Plan 2002	Clause 54
Special provisions	Part 3
Miscellaneous provisions	Division 3

54 Development within Zone 6 (a)

Consent must not be granted to the carrying out of development on land within Zone 6 (a), being land owned or controlled or proposed to be owned or controlled by the Council, unless the consent authority has considered:

- (a) the need for the proposed development of the land, and
- (b) the impact of the proposed development on the existing or likely future use of the land, and
- (c) the need to retain the land for its existing or likely future use.

55 Community use of school facilities or sites

- (1) Where land to which this plan applies is used for the purposes of a school, the site and facilities of the school may, with development consent, be used for the purpose of religious establishments, meeting rooms, public halls, public libraries, entertainment, sport or recreation or for any other community purpose, whether or not any such use is a commercial use of the land.
- (2) Nothing in this clause requires development consent to be granted for the carrying out of development on any land if that development could, but for this clause, be carried out on that land without development consent.

56 Development on closed roads and pathways

- (1) This clause applies to public roads other than those within Zone 5 (b), 5 (c) or 5 (d).
- (2) Development must not be carried out without development consent on a public road or pathway, or any part of a road or pathway, that is lawfully closed.
- (3) Such a consent must not be granted if it would allow development that may not be carried out (either with or without consent) on land adjoining that road or pathway.

57 Development of railway sidings

Nothing in this plan prohibits the construction and use of any railway siding designed to serve land within Zone 4 (a).

Clause 58	Campbelltown (Urban Area) Local Environmental Plan 2002
Part 3	Special provisions
Division 3	Miscellaneous provisions

58 Development by the Crown and public authorities

Nothing in this plan restricts or prohibits or enables the consent authority to restrict or prohibit:

- (a) the carrying out of any development by the Council or the Roads and Traffic Authority required in connection with the construction, reconstruction, improvement, maintenance or repair of any road, except the widening, realignment or relocation of any road, or
- (b) the carrying out or causing to be carried out by the Council engaged in flood mitigation works or by the Department of Land and Water Conservation of any work for the purposes of soil conservation, irrigation, afforestation, reforestation, flood mitigation, water conservation or river improvement in pursuance of the provisions of the *Water Management Act 2000* or the *Farm Water Supplies Act 1946*, except:
 - (i) the erection of buildings, the installation or erection of plant or other structures or erections or the reconstruction or alteration of buildings so as materially to affect their design or external appearance, or
 - (ii) the formation or alteration of any means of access to a road, or
- (c) the use of existing buildings of the Crown by the Crown.

59 Development for certain additional purposes

- (1) Nothing in this plan prevents development from being carried out, with development consent, on land referred to in Schedule 2 if it is specified in relation to the land in that Schedule, subject to such conditions, if any, as are so specified.
- (2) Development on land referred to in Schedule 2 remains subject to such other provisions of this plan as are not inconsistent with subclause (1) or with a consent granted for that development.
