Part 3 Special provisions

11 Development that must be advertised

The following is advertised development for the purposes of the Act:

- (a) development for the purpose of a residential flat building, and
- (b) offensive or hazardous industries, and
- (c) demolishing, defacing or damaging a heritage item and a use of a building or land that, but for clause 38, would be prohibited by this plan.

12 General consideration of development in Rural Zones

- (1) Consent may be granted to development on land within Zone No 1 (a), 1 (ci), 1 (cii) or 1 (ciii) only after the consent authority has taken into account the effect of the carrying out of that development on:
 - (a) the present use of the land, the potential use of the land for the purpose of agriculture and the potential of any agricultural land for ecologically sustainable agricultural production, and
 - (b) vegetation, timber production, land capability (including soil resources and soil stability) and water resources (including the quality and stability of watercourses and ground water storage, riparian rights and springs), and
 - (c) the future extraction of known deposits of minerals, coal, petroleum, sand, gravel or other extractive materials and localities considered to be prospective for those materials, and
 - (d) the protection of localities of significance for nature conservation or of high scenic quality or recreational value, and places and buildings of archaeological or heritage significance, and
 - (e) the cost of providing, extending and maintaining amenities and services to the development, and
 - (f) the impact on threatened and endangered species, populations and ecological communities.
- (2) Subclause (1) does not apply to the consideration of an application to carry out development consisting of:
 - (a) an addition to a building or work, or

Clause 12 Weddin Local Environmental Plan 2002

Part 3 Special provisions

- (b) development ancillary to a form of development defined for the purposes of this plan and that may be carried out under this plan with consent, or

13 Subdivision of land generally

- (1) Subject to subclause (2), a person may, but only with development consent, subdivide land to which this plan applies.
- (2) Land may be subdivided without development consent where the subdivision is for the purpose of:
 - (a) minor boundary adjustments of allotments where an additional allotment is not created, or
 - (b) consolidation of allotments, except where, in rural areas, this creates lots of 400 hectares or more without a dwelling and the consolidation is development within the meaning of the Act, or
 - (c) rectifying encroachments along boundaries of allotments.
- (3) Consent must not be granted to the subdivision of land within Zone No 1 (a), 1 (ci), 1 (cii) or 1 (ciii) unless the consent authority is satisfied about:
 - (a) the primary purpose for which each allotment is intended to be used, and
 - (b) where the primary purpose of an allotment is to erect or use a dwelling or other building, the approximate location of any dwelling or other building erected on the land at the date of the application and the intended location of any dwelling or building proposed to be erected on the land.

14 Subdivision for the purpose of dwellings in Zone No 1 (a)

- (1) This clause applies to land which is within Zone No 1 (a).
- (2) An allotment on which a dwelling may be erected, or on which an existing dwelling is erected, may be created, only with development consent, provided the allotment has an area of 400 hectares or more.

Weddin Local Environmental Plan 2002

Clause 14

Special provisions

Part 3

- (3) Nothing in this plan prohibits consent from being granted to the subdivision of land and the erection of a dwelling on it provided that the allotment is not less than 100 hectares in area and the land is within the area identified by *Development Control Plan 2002* and provided that the maximum number of allotments consented to in any one year under this subclause does not exceed five.

15 Concessional subdivision

- (1) Subject to subclause (2), consent may be granted to the creation of an allotment of more than 2 hectares but less than 20 hectares from an existing holding if the consent authority is satisfied that only a son or daughter of the current owner genuinely engaged in agriculture, will retain ownership of, and occupy, any dwelling erected or proposed to be erected on the allotment for a period of not less than one year from the date of registration of the plan of subdivision in respect of an allotment containing an existing dwelling, or one year from the Council's final inspection of the dwelling to be erected on the allotment.
- (2) The number of concessional allotments created under subclause (1) shall not exceed one from each existing holding.

16 Subdivision for the purpose of agriculture in Zone No 1 (a)

18 Subdivision in Zone No 1 (ci)

- (1) The clause applies to land within Zone No 1 (ci).
- (2) Consent may be granted to a subdivision of land to which this clause applies only if it results in the creation of an allotment which has an area of more than 4,000 square metres but not greater than 2 hectares.

19 Subdivision in Zone No 1 (cii)

- (1) This clause applies to land which is within Zone No 1 (cii).

- (3) Consent must not be granted to a subdivision of land to which this clause applies which results in the creation of an allotment on which there is an existing dwelling where that allotment is less than 10 hectares in area.
- (4) Notwithstanding subclauses (2) and (3), consent must not be granted to a subdivision under this clause unless the consent authority is satisfied that the lot sizes permit the siting of dwellings so that they are unlikely to inhibit or give rise to complaints about normal farming practices (such as aerial spraying, separation from noxious odours and the like).

 - (b) clearing for any other purpose may be carried out only with development consent.
- (3) Nothing in subclause (2) shall authorise the clearing of land in contravention of any Act or instrument made under an Act concerned with soil erosion, protection of a riverbank or other vegetation or catchment areas or the like.
- (4) Subclause (2) does not apply to environmentally sensitive land which requires development consent for clearing (other than clearing for the purpose of bushfire hazard reduction).
- (5) In determining a development application for clearing referred to in subclause (4), the consent authority may attach conditions to minimise the risk of land degradation.
- (6) Nothing in this plan requires any person to gain development consent for clearing where:
 - (a) the provisions of the *Native Vegetation Conservation Act 1997*, or of any regional vegetation management plan made under that Act, exempt the clearing from requiring consent, or
 - (b) a development consent authorising the clearing has been issued under the provisions of the *Native Vegetation Conservation Act 1997*, or any regional vegetation management plan made under that Act.

30 Industrial uses in Zone No 1 (a)

 - (e) satisfactory arrangements have been made for the provision of a water supply, the disposal of waste and the construction of drainage works necessary for that development, and
 - (f) where the development is likely to cause noise, visual, air or water pollution, appropriate measures to minimise the effects of that pollution have been employed.
- (2) Nothing in subclause (1) prevents consent from being granted to development on any land within Zone No 1 (a) for the purpose of a rural industry, home industry, extractive industry or an offensive or hazardous industry. However, this subclause is subject to clause 32.

31 Restrictions on offensive uses

- (2) Consent may be granted to the carrying out of development on land which, in the opinion of the consent authority, is within a floodway only if the consent authority has considered whether the carrying out of the development is likely:
 - (a) to impede the flow of floodwaters on the land, or
 - (b) to endanger the safety of persons on the land in the event of the land being inundated with floodwaters, or
 - (c) to aggravate the consequences of floodwaters flowing on the land with regard to erosion, siltation and the destruction of vegetation, or
 - (d) to have an adverse effect on the watertable of the land or of land in its immediate vicinity, or
 - (e) to have an adverse effect on riverbank stability, or
 - (f) to increase the level or flow of floodwaters on other land.

34 Roads, drainage, open space and parking

38 Development in the vicinity of a heritage item

- (1) Before granting consent to development in the vicinity of a heritage item, the consent authority must assess the impact of the proposed development on the heritage significance of the heritage item.
- (2) This clause extends to development:
 - (a) that may have an impact on the setting of a heritage item, for example, by affecting a significant view to or from the item or by overshadowing, or
 - (b) that may undermine or otherwise cause physical damage to a heritage item, or
 - (c) that will otherwise have any adverse impact on the heritage significance of a heritage item or of any heritage conservation area within which it is situated.
- (3) The consent authority may refuse to grant any such consent unless it has considered a heritage impact statement that will help it assess the impact of the proposed development on the heritage significance, visual curtilage and setting of the heritage item.

- (4) The heritage impact statement should include details of the size, shape and scale of, setbacks for, and the materials to be used in, any proposed buildings or works and details of any modification that would reduce the impact of the proposed development on the heritage significance of the heritage item.

39 Development of known or potential archaeological sites

- (1) Consent may be granted to the carrying out of development on an archaeological site that has Aboriginal heritage significance or a potential archaeological site that is reasonably likely to have Aboriginal heritage significance only if:
