F92/2022C

FISHERIES MANAGEMENT ACT 1994

Section 8 Notification – Fishing Closure

Hunter River Prawn Trawl Closure 2003/2004

I, STEVE DUNN, prohibit the taking of prawns and fish by means of trawl nets of every description, and by the method of trawling by means of nets of every description, from all waters of the Hunter River together with all its creeks, tributaries and inlets, from a line drawn south-westerly from the boat ramp adjacent to Punt Road, Stockton, to the eastern extremity of the State Dockyard (Dyke Point), upstream to its junction with the Williams River.

This prohibition does not extend to the taking of prawns and fish by a licensed commercial fisher:

- exercising the authority of an endorsement to operate in the Estuary Prawn Trawl Restricted Fishery;
- operating from a licensed fishing boat which has a S4 (Hunter River) Prawn Trawl endorsement; and
- using an otter trawl net (prawns) fitted with a by-catch reduction device approved by the Director-General, NSW Fisheries;

subject to the provisions of this notification.

STEVE DUNN,
Director-General,
NSW Fisheries.

Prawn trawling period:

In all subdivisions, from 6:00 a.m. to 6:00 p.m. weekdays only, during the period 3 November 2003 to 28 May 2004 (inclusive), excluding each public holiday.

Conditions and Subdivisions

Conditions for periodic closing and opening of prawn trawling between 3 November 2003 and 28 May 2004

A prawn trawling trial may be undertaken to establish the size and quantity of prawns available. Such a trial is required to be conducted in each subdivision, on or before 3 November to establish whether the subdivision is declared open on 3 November. Any trial is to be undertaken in accordance with a “trial method agreement” decided between the District Fisheries Officer, Hunter, and the elected Estuary Prawn Trawl Management Advisory Committee (EPTMAC) representative for the Hunter River. In the event of any dispute the decision of the Director-General, NSW Fisheries will be final.

The trial method agreement may also stipulate the number of prawns required to be taken for the fishery to operate in a viable way, and the maximum amount of by-catch to be allowed in any trial.

The size of prawns is to be indirectly established by a random count of prawns from a vessel’s unsorted catch, which shall be weighed and counted to establish the number

of prawns per 500 grams. This process is hereafter referred to as ‘the count’. For the purposes of this notification the count must be equal to or less than 150 prawns before a subdivision may be opened to prawn trawling.

Any subdivision may be closed by a Fisheries Officer, or remain closed where the count at any time is more than 150 prawns per 500g. Once a count of prawns has been completed, a further trial may not be undertaken for at least 7 days.

Where a subdivision is closed or remains closed due to a high prawn count, subdivisions upstream of that closure are also closed unless a trial is undertaken in that subdivision that meets the relevant criteria. Such further trials are only to be undertaken at the request of the elected EPTMAC representative.

The opening of any subdivision shall be notified by a notice displayed in the Newcastle Fishermen’s Co-operative, the NSW Fisheries Office at Newcastle and other prominent locations as agreed between the District Fisheries Officer and representatives of persons entitled to prawn trawl in the Hunter River. The closing of a subdivision shall be notified by a public notice in the Newcastle Herald newspaper and notices displayed in the Newcastle Fishermen’s Co-operative and the NSW Fisheries Office at Newcastle.

A notice must provide the following information:

- Date of trial and location of trial.
- Prawn count details.
- Prohibited size class of fish by-catch.
- Area of closure.
- Period of closure.
- Proposed date and location of next trial.

A sub-divisional closure is to take effect immediately after the count has occurred, if there are more than 150 prawns per 500 grams.

Holding Tanks and Release Tubes

Fishers must use a holding tank/swim tub to keep fish alive whilst sorting, prior to being discarded.

Fishers must use a plastic tube with a diameter of at least 150mm to release fish which are to be discarded into the water.

Subdivisions

For the purposes of this notification, the following subdivisions of the Hunter River may be closed and opened subject to the conditions of this notice.

Subdivision 1

The waters of the Hunter River downstream of its junction with the Williams River to its junction with Scotch Creek inclusive.

Subdivision 2

The waters of the Hunter River downstream of the junction of Scotch Creek to the Hexham road-bridge, inclusive.

Subdivision 3

DISTRICT COURT OF NEW SOUTH WALES

Practice Note No. 64

Photocopy Access to Documents Produced Under Subpoena

Purpose

The purpose of this practice note is to facilitate access by parties to documents produced in answer to a subpoena or admitted as exhibits (produced documents) at the Sydney Registry. It does so by providing a scheme for uplifting and photocopying produced documents by approved firms on behalf of a party who is granted access.

Uplifting and photocopying documents

Parties granted access by the Court to produced documents usually prefer to make photocopies and, ordinarily, photocopy access is granted where all parties agree and there is no reason to deny or restrict such access. Often access is limited to legal representatives.

It is in the interests of both the Court and parties that photocopy access be granted wherever practicable and appropriate, as it avoids the inconvenience of inspecting produced documents within the confines of the Registry.

Photocopy access can often be most conveniently achieved by permitting a party to uplift produced documents and return them upon completion of copying. In deciding whether to allow uplifting, the Court takes account of concerns about security of produced documents and the prospect that, while outside the Court's control, they may be lost, damaged, accessed by unauthorised persons or tampered with.

To meet those concerns without causing inconvenience, this practice note establishes a mechanism that enables produced documents to be securely uplifted and copied. It does so by:

- providing for Court approval of suitable legal copying firms (approved firms); and
- allowing approved firms to be appointed by parties to uplift and copy produced documents.

Procedure for use of approved firm

Where the Court orders that a party may have access to produced documents and that access may be available in accordance with this practice note, unless the Court otherwise orders, the order will be taken to:

- authorise the solicitor representing the party to appoint an approved firm;
- authorise the appointed firm to uplift the produced documents from the Registry (upon producing proof of appointment), to make copies and to provide them to the party; and
- require the firm to return the produced documents to the Registry within 2 days of uplifting them.

Only a solicitor can appoint an approved firm. An approved firm may be appointed to act on behalf of more than one party.

Where a party is granted photocopy access but:

- the party declines to use an approved firm; or
- the Court declines to allow uplifting of produced documents,

The party may attend the Registry to copy the documents. A fee per page will be payable for this service.

Approval of copier firms

The Principal Courts Administrator may, on the Court's behalf:

- (a) issue a certificate of approval of a legal copier firm where satisfied that the firm has:
 - reliable systems for speedy, confidential and secure processing of documents entrusted to it; and
 - holds satisfactory insurance coverage, lodges a bond or provides other satisfactory means of meeting the claims arising from loss, damage or misuse of documents entrusted to it; or
- (b) revoke a certificate by written notice to the firm.

The names and contact details of each approved legal copier will be displayed in the Registry and on the Court's website at: www.lawlink.nsw.gov.au/dc

Chief Judge.

Dated: 17 September 2003.
