ANDREW REFSHAUGE, M.P.,
Minister for Planning
Sydney, 17 February 2003

**SCHEDULE OF EXEMPTIONS TO SUBSECTION
57(1) OF THE HERITAGE ACT 1977 MADE
UNDER SUBSECTION 57(2)**

GENERAL CONDITIONS

1. These general conditions apply to all of the following Exemptions.
2. Anything done pursuant to the following Exemptions must be carried out in accordance with relevant Guidelines issued by the NSW Heritage Office including "The Maintenance of Heritage Assets: A Practical Guide" 1998, "Movable Heritage Principles" 2000 and "The Heritage Council Policy on Managing Change to Heritage Items".
3. The following standard Exemptions do not apply to anything affecting relics, places, items or sites of heritage significance to Aboriginal people or which affect traditional access by Aboriginal people.
4. The Assistant Director or Principal Heritage Officers may carry out any of the functions or powers of the Director of the Heritage Office under these Exemptions.

5. In these Exemptions, words shall be given the same meaning as in the *Heritage Act 1977* (“the Act”) unless the contrary intention appears from the context of the exemption.
6. Anything done pursuant to the following Exemptions must be specified, supervised and carried out by people with knowledge, skills and experience appropriate to the work.

STANDARD EXEMPTION 1: MAINTENANCE AND CLEANING

1. The following maintenance and cleaning does not require approval under s. 57(1) of the Act:
 - (a) the maintenance of an item to retain its condition or operation without the removal of or damage to the existing fabric or the introduction of new materials;
 - (b) cleaning including the removal of surface deposits, organic growths or graffiti by the use of low pressure water (less than 100 psi at the surface being cleaned) and neutral detergents and mild brushing and scrubbing.

NOTE 1: Traditional finishes such as oils and waxes must continue to be used for timber surfaces rather than modern alternative protective coatings such as polyurethane or acrylic which may seal the surface and can cause damage.

NOTE 2: Surface patina which has developed on the fabric may be an important part of the item’s significance and if so needs to be preserved during maintenance and cleaning.

STANDARD EXEMPTION 2: REPAIRS

1. Repair to an item which is of the type described in (a) or (b) below does not require approval under s. 57(1) of the Act:
 - (a) the replacement of services such as cabling, plumbing, wiring and fire services that uses existing service routes, cavities or voids or replaces existing surface mounted services and does not involve damage to or the removal of significant fabric;
 - (b) the repair (such as refixing and patching) or the replacement of missing, damaged or deteriorated fabric that is beyond further maintenance, which matches the existing fabric in appearance, material and method of affixing and does not involve damage to or the removal of significant fabric.

NOTE 1: Repairs must be based on the principle of doing as little as possible and only as much as is necessary to retain and protect the element. Therefore replacement must only occur as a last resort where the major part of an element has decayed beyond further maintenance.

NOTE 2: Any new materials used for repair must not exacerbate the decay of existing fabric due to chemical incompatibility, obscure existing fabric or limit access to existing fabric for future maintenance.

NOTE 3: Repair must maximise protection and retention of fabric and include the conservation of existing detailing, such as vents, capping, chimneys, carving, decoration or glazing.

STANDARD EXEMPTION 3: PAINTING

1. Painting does not require approval under s. 57(1) of the Act if the painting:
 - (a) does not involve the disturbance or removal of earlier paint layers other than that which has failed by chalking, flaking, peeling or blistering;
 - (b) involves over-coating with an appropriate surface as an isolating layer to provide a means of protection for significant earlier layers or to provide a stable basis for repainting; and
 - (c) employs the same colour scheme and paint type as an earlier scheme if they are appropriate to the substrate and do not endanger the survival of earlier paint layers.
2. Painting which employs a different colour scheme and paint type from an earlier scheme does not require approval under s. 57(1) of the Act, provided that:
 - (a) the Director is satisfied that the proposed colour scheme, paint type, details of surface preparation and paint removal will not adversely affect the heritage significance of the item; and
 - (b) the person proposing to undertake the painting has received a notice advising that the Director is satisfied.
3. A person proposing to undertake repainting of the kind described in paragraph 2 must write to the Director and describe the proposed colour scheme, paint type, details of surface preparation and paint removal involved in the repainting. If the Director is satisfied that the proposed development meets the criteria set out in paragraph 2(a) the Director shall notify the applicant.

NOTE: Preference should be given to the re-establishment of historically significant paint schemes of the item that are appropriate to the significance of the building.

STANDARD EXEMPTION 4: EXCAVATION

1. Excavation or disturbance of land of the kind specified below does not require approval under s. 57(1) of the Act, provided that the Director is satisfied that the criteria in (a), (b) or (c) have been met and the person proposing to undertake the excavation or disturbance of land has received a notice advising that the Director is satisfied:
 - (a) where an archaeological assessment has been prepared in accordance with Guidelines published by the Heritage Council of NSW which indicates that there is little likelihood of there being any relics in the land or that any relics in the land are unlikely to have State or local heritage significance; or
 - (b) where the excavation or disturbance of land will have a minor impact on the archaeological resource; or
 - (c) where the excavation or disturbance of land involves only the removal of fill which has been deposited on the land.
2. A person proposing to excavate or disturb land in the manner described in paragraph 1 must write to the Director and describe the proposed excavation or disturbance of land and set out why it satisfies the criteria set out in paragraph 1. If the Director is satisfied that the proposed development meets the criteria set

out in paragraph (a), (b) or (c) the Director shall notify the applicant.

NOTE: Any excavation with the potential to affect Aboriginal objects should be referred to the Director-General of the National Parks and Wildlife Service.

STANDARD EXEMPTION 5: RESTORATION

1. Restoration of an item by returning significant fabric to a known earlier location without the introduction of new material does not require approval under s. 57(1) of the Act.
2. The following restoration does not require approval under s. 57(1) of the Act, provided that the Director is satisfied that the criteria in (a) have been met and the person proposing to undertake the restoration has received a notice advising that the Director is satisfied:
 - (a) the restoration of an item without the introduction of new material (except for fixings) to reveal a known earlier configuration by removing accretions or reassembling existing components which does not adversely affect the heritage significance of the item.
3. A person proposing to undertake restoration of the kind described in paragraph 2 must write to the Director and set out why there is a need for restoration to be undertaken and the proposed material and method of restoration.
