**SPECIAL CONDITIONS ATTACHED TO WESTERN

1. Cultivation will be restricted to an area of 385 hectares shown hatched on the diagram below. Any proposed cultivation beyond those boundaries will require a review of environmental factors by the Department of Land and Water Conservation.
2. Off river water storage will be restricted to the areas of 25 hectares for the northern water storage and 20 hectares for the southern water storage shown cross-hatched on the diagram below.

3. Aboriginal sites are protected under the National Parks and Wildlife Act 1974, and are extremely vulnerable to many kinds of agricultural development.
Should any Aboriginal archaeological relics or sites be uncovered during the proposed works, work is to cease immediately. The lessee must consider the requirements of the National Parks and Wildlife Act 1974, with regard to Aboriginal relics. Under Section 90 it is an offence to knowingly damage or destroy relics without prior consent of the Director-General of the National Parks and Wildlife Service (NPWS). If a site is discovered the lessee should contact the Manager, Cultural Heritage Unit, National Parks and Wildlife Service on telephone (02) 6883 5324 or at 58-62 Wingewarra Street, Dubbo.
4. The lessee shall ensure that any European Heritage sites, artefacts or buildings will not be damaged, destroyed or defaced by either the lessee or any other persons present on the leased land.
5. The lessee shall ensure that any fuel management and/or fire trail access should be undertaken in accordance with fire mitigation measures to the satisfaction of the Bush Fire Authority.

10. The lessee shall install run-off and erosion controls to prevent soil erosion, water pollution or the discharge of loose sediment on surrounding land, as follows: divert uncontaminated run-off around cleared or disturbed areas; erect a drainage system to prevent debris escaping into the natural drainage systems or waterways; prevent tracking of sediment by vehicle onto roads; stockpile, excavated material, construction and landscaping supplies and debris within the site.
11. The lessee shall ensure that any tail water drainage from the development must not discharge into or onto any adjoining public or crown land, any river creek or watercourse and any groundwater aquifer.
