CASINO CONTROL ACT 1992

Order

PURSUANT to section 66(1) of the Casino Control Act 1992, the Casino Control Authority does, by this Order, approve the following amendments to the rules for the playing of the game of "Roulette" in the casino operated by Star City Pty Limited under licence granted by the Casino Control Authority on 14 December 1994:

(1) Amendments to the rules for the playing of "Roulette"

(a) Within Roulette sub-rule 1.1, the definition of "casino promotional voucher" is repealed and in substitution therefor, the following new definition is approved:

"casino promotional voucher" means a voucher of a nominated value issued by the casino operator to enable a player to wager at a gaming table to the amount identified on the voucher, subject to any conditions specified on the voucher. Where a player presents a promotional voucher at a gaming table the dealer shall exchange the voucher for an equivalent value in chips, promotional tokens, or to the credit of an ATS chip account, which may then be wagered on the appropriate area(s) of the layout. Any winnings resulting from such wagers are to be paid in chips or credited to the ATS chip account;

(b) Roulette sub-rule 3.5 is repealed and in substitution therefor, the following new sub-rule 3.5 is approved:

3.5 All wagers shall be made by placing value chips or colour checks or casino promotional tokens on the appropriate playing areas of the roulette layout.

(c) Roulette sub-rule 3.13 is repealed and in substitution therefor, the following new sub-rule 3.13 is approved:

3.13 Wagers orally declared shall be accepted only when accompanied by chips or colour checks or casino promotional tokens and the dealer has sufficient time to place the wager on the layout prior to "no more bets" being called. All bets must be placed before the call of no more bets.

(d) Roulette sub-rule 3.15 is repealed and in substitution therefor, the following new sub-rule 3.15 is approved:

3.15 Wagers shall be settled strictly in accordance with the position of chips or colour checks or casino promotional tokens on the layout when the ball falls to rest in a compartment of the wheel.

(e) Roulette sub-rule 7.2.1 is repealed and in substitution therefor, the following new sub-rule 7.2.1 is approved:

7.2.1 The permissible wagers for the game of Rapid Roulette shall be those wagers defined in rule 3.2 and where the applicable button is provided on the ATS screen, those wagers in rule 3.3. Additionally, where a "maxbet" button is provided a player may wager on the following combinations of a number – straight up, surrounding splits, corners, streets and five and/or six lines – by touching the denomination chip on the ATS screen and then touching the desired number and then the "maxbet" button. In this case, the

denomination selected will be multiplied by the amount of numbers covered by each of the splits, corners, streets and five and/or six lines.

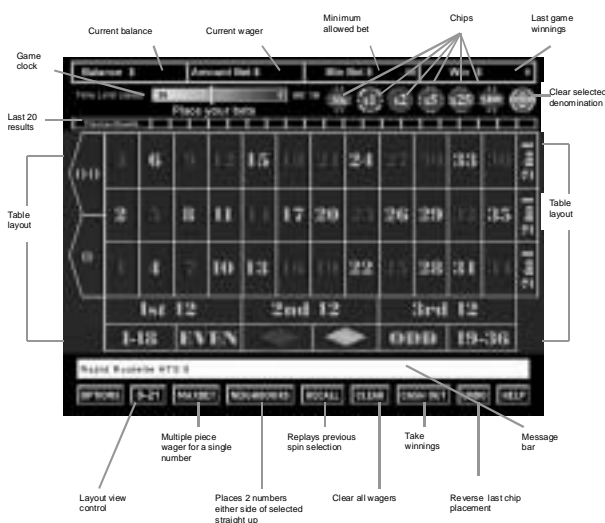

Example—

If a player selects \$1 denomination on number 17 and then selects the “maxbet” button the system will automatically place \$2 on each of the splits (14/17, 16/17, 17/18 and 17/20), \$4 on each corner (13/17, 14/18, 16/20 and 17/21), \$3 on the street (16/18) and \$6 on each six line (13/18 and 16/21). The maximum cost of such a wager would be \$40.

- (f) Roulette sub-rule 7.2.2.1 is repealed and in substitution therefor, the following new sub-rule 7.2.2.1 is approved:
 - 7.2.2.1 the tendering to the dealer of an amount of cash, chips or casino promotional vouchers; or
- (g) Roulette sub-rule 7.2.3 is repealed and in substitution therefor, the following new sub-rule 7.2.3 is approved:
 - 7.2.3 Where a player tenders cash, chips or casino promotional vouchers to the dealer, the dealer must:
- (h) Roulette sub-rule 7.2.5.1 is repealed and in substitution therefor, the following new sub-rule 7.2.5.1 is approved:
 - 7.2.5.1 tender further amounts of cash, chips or casino promotional vouchers to the dealer who must, as soon as practicable, credit the amount tendered to the player’s ATS chip account; or
- (i) The following new Roulette Diagram “M” is approved:
