Legal Profession Amendment (Practising Certificate Fees) Regulation 2005

under the

Legal Profession Act 1987

Her Excellency the Governor, with the advice of the Executive Council, has made the following Regulation under the *Legal Profession Act 1987*.

BOB DEBUS, M.P.,
Attorney General

Explanatory note

Amendments to the *Legal Profession Act 1987* made by the *Legal Profession Amendment (National Competition Policy Review) Act 2002* require practising certificate fees for barristers and solicitors to be charged on a cost recovery basis. The Regulation allows the following costs to be recovered in certain circumstances:

- (a) the costs of maintaining and operating the library of the Bar Association and the library of the Law Society,
- (b) the costs associated with providing or assisting in providing a scheme under which legal services (including referral services) are provided to the public pro bono or at reduced rates or, in the case of the Bar Association, to a court or tribunal, and that are not otherwise recoverable (examples of such schemes are the Legal Assistance Referral Scheme of the Bar Association and the Community Referral Service of the Law Society),
- (c) the costs associated with providing or assisting in providing information or a scheme or program relating to the law, legal practice or conflict resolution that is provided for the information or education of the public, and that are not otherwise recoverable by the Bar Association or the Law Society (examples of such schemes or programs are Law Week and the Mock Trial Competition for high school students),

New South Wales

Ombudsman Regulation 2005

under the

Ombudsman Act 1974

Her Excellency the Governor, with the advice of the Executive Council, has made the following Regulation under the *Ombudsman Act 1974*.

BOB CARR, M.P.,
Premier

Explanatory note

The object of this Regulation is to repeal and remake, with effect from 1 July 2005 and with some amendments and the addition of one clause, the *Ombudsman Regulation 1999*. That Regulation would otherwise be repealed on 1 September 2005 by section 10 (2) of the *Subordinate Legislation Act 1989*.

This Regulation prescribes certain bodies as *designated government agencies* and *designated non-government agencies* (and prescribes the persons who are the *heads* of certain designated non-Government agencies) for the purposes of Part 3A (Child protection) of the *Ombudsman Act 1974 (the Act)*.

The additional clause concerns the meaning of *responsible Minister* in relation to designated non-Government agencies in respect of matters arising under Part 3A. The current definition of the term in respect of such agencies is, effectively, “the Minister who, in the opinion of the Ombudsman, is the most nearly concerned with the conduct of the” agency concerned.

In exercising functions under Part 3A of the Act, the Ombudsman deals with non-Government agencies that may have more than one Minister concerned with their conduct (for example, in terms of licensing on the one hand and in terms of funding on the other). It is not always possible to determine which Minister is “most nearly” concerned with the conduct of such an agency. On the other hand, in some cases there may be no Minister with a sufficient connection to the agency to warrant the Minister’s involvement with the agency. Further, it may not be appropriate for a Minister to exercise certain functions under the Act in relation to the agency.

Accordingly, clause 7 of this Regulation modifies the meaning of *responsible Minister* in the context referred to above.

Ombudsman Regulation 2005

Explanatory note

This Regulation is made under the *Ombudsman Act 1974*, including sections 25A (Definitions), 25J (Application of other provisions of this Act) and 39 (the general regulation-making power).

This Regulation comprises or relates to matters of a machinery nature.

Clause 1 Ombudsman Regulation 2005

Ombudsman Regulation 2005

under the

Ombudsman Act 1974

1 Name of Regulation

This Regulation is the *Ombudsman Regulation 2005*.

2 Commencement

This Regulation commences on 1 July 2005.

Note. This Regulation repeals and replaces the *Ombudsman Regulation 1999* which would otherwise be repealed on 1 September 2005 by section 10 (2) of the *Subordinate Legislation Act 1989*.

3 Definitions

(1) In this Regulation:

the Act means the *Ombudsman Act 1974*.

(2) Notes included in this Regulation do not form part of this Regulation.

4 Designated government agencies

The following bodies are prescribed for the purposes of the definition of *designated government agency* in section 25A (1) of the Act:

- (a) a statutory health corporation within the meaning of the *Health Services Act 1997*,
- (b) the Ambulance Service of New South Wales,
- (c) the TAFE Commission,
- (d) the Department of Ageing, Disability and Home Care.

5 Designated non-government agencies

Affiliated health organisations within the meaning of the *Health Services Act 1997* are prescribed for the purposes of the definition of *designated non-government agency* in section 25A (1) of the Act.

6 Heads of certain agencies

- (1) This clause applies to an agency referred to in paragraph (a), (b) or (c) of the definition of *designated non-government agency* in section 25A (1) of the Act that is under the authority of a Catholic Bishop of New South Wales.
- (2) For the purposes of the definition of *head* of an agency in section 25A (1) of the Act, the Catholic Bishop who has authority over the agency concerned is to be regarded as the head of the agency.

7 Responsible Minister in relation to child protection matters

- (1) This clause applies only in respect of matters arising under Part 3A (Child protection) of the Act.
- (2) The definition of *responsible Minister* in section 5 (1) of the Act is modified such that the *responsible Minister* for a designated non-Government agency for the purposes of the Act is:
 - (a) the Minister whose portfolio has, in the opinion of the Ombudsman, sufficient funding or regulatory responsibility for the agency to warrant involvement on the Minister's part in relation to the agency, or
 - (b) if there is no such portfolio—the Minister who is, in the opinion of the Ombudsman, a Minister sufficiently concerned with the conduct of the agency.
- (3) Two or more Ministers may be responsible Ministers for a particular non-Government agency. In that case, the Ombudsman may (but is not obliged to) elect to regard one only of those Ministers as the responsible Minister, and the Minister so regarded is taken to be the responsible Minister for the agency concerned.
- (4) A responsible Minister is not to exercise any functions under section 26A (Authority to pay compensation), 32 (Staff) or 34 (Disclosure by Ombudsman or officer) of the Act in relation to a designated non-Government agency, and action may be taken under those sections in respect of such an agency without any authorisation, approval or consent of the responsible Minister that would, in the absence of this subclause, be required.

8 Repeal

The *Ombudsman Regulation 1999* is repealed.

240 Authority to act as temporary agent

- (1) The authority of a managed fund insurer to act as a temporary agent is subject to the requirements of this clause (in addition to the requirements of any directions of the Nominal Insurer under this clause or clause 3 (1) (g) of Part 19A of Schedule 6 to the 1987 Act).
- (2) A managed fund insurer is, in the exercise of functions as a temporary agent, subject to the direction and control of the Nominal Insurer.

- (2) A reference to a managed fund insurer in any document issued by the insurer after the relevant date for the insurer is, to the extent that the reference relates to the exercise of any function of the insurer as a temporary agent after that relevant date, to be read as a reference to the insurer as agent for the Nominal Insurer.

ANTI-DISCRIMINATION ACT 1977

Exemption Order

UNDER the provisions of section 126 of the Anti Discrimination Act 1977 (NSW), and on the recommendation of the Anti Discrimination Board, but for the purposes only of meeting the Applicants' legal obligations pursuant to Manufacturing Licence Agreements, Technical Assistance Agreements, Proprietary Information Agreements, and or license agreements granted by the US Department of Commerce, pursuant to the United States International Traffic in Arms Regulations ("ITAR") and Export Administration Regulations ("EAR") ("the US Regulations"), the Applicants are granted an exemption from the provisions of sections 8 and 51 of the Anti Discrimination Act 1977 to the extent necessary to permit the Applicants to do the following:

- (a) ask present and future employees to advise their exact citizenship (including any dual citizenship) and/or residency status under Australian law;
- (b) require present and future employees to wear a badge which distinguishes between employees on the basis of their citizenship (including any dual citizenship) and/or residency status under Australian law (but which does not otherwise reveal or store information about any employee's race, colour, nationality, descent, or ethnic, ethno-religious or national origin);
- (c) require employees involved in projects which use technology and/or material to which the US Regulations apply to notify the Applicants of any change to their citizenship or residency status under Australian law;
- (d) restrict access, by means of transfer if necessary, to controlled technology and the performance of particular roles in the Applicants' organisations connected with the use of controlled technology, to particular members of the Applicants' workforces, based on their citizenship or residency status under Australian law; and
- (e) reject applications from prospective employees for positions related to projects which use technology and/or material to which the US Regulations apply, based on the prospective employee's citizenship or residency status under Australian law but not on the basis of the prospective employee's descent, or ethnic, ethno-religious or national origin.

This Exemption Order does not extend to any other identification, collection, storage or use of information in relation to any employee in respect of that employee's race, colour, nationality, descent or ethnic, ethno-religious or national origin.

Except to the extent expressly provided herein, this Exemption Order does not excuse, or purport to excuse, the Applicants from complying with their obligations pursuant to the Anti-Discrimination Act 1977 (NSW) or any other legislation or at common law.

The Applicants are required, prior to taking any action permitted by this Exemption Order, to provide all employees, and prospective employees with:

- (i) express notice that they may be adversely affected by this exemption if they are not an Australian national or if they hold dual nationality;

- (ii) a reasonable explanation in plain English of the nature of any adverse effects of such action to them; and
- (iii) information (at the time of recruitment, in the case of prospective employees) about how they can apply for Australian citizenship or renounce under Australian law any other citizenship they may hold, and a reasonable opportunity to take such steps.

In addition to the above conditions the Applicants are required to:

1. produce comprehensive anti-discrimination policies governing all aspects of the work and workforce, including management, and with particular regard to race discrimination, vilification and harassment and victimization;
2. establish concise and comprehensive dispute resolution and grievance procedures to receive, investigate and resolve discrimination complaints and grievances and, in particular, those relating to race discrimination, vilification and harassment and victimization;
3. implement training programs, including at induction, to ensure that all members of the Applicants' workforces, including management, are fully informed of their rights and obligations under such policies and procedures particularly with regard to issues of race discrimination, vilification, harassment and victimisation;
4. ensure that all members of the workforce, including management, receive regular education and training in issues of discrimination, particularly race discrimination, vilification harassment and victimization;
5. take steps to fully inform the workforce, including management, of their rights under the Anti Discrimination Act 1977 (NSW) (ADA) and, in particular (but not limited to) the complaints procedure under the ADA and to ensure that all members of the workforce, including management, are aware of the rights of aggrieved persons to take their complaints to the Anti-Discrimination Board and through the Administrative Decisions Tribunal;
6. take steps to fully inform the workforce, including management, of the requirements of, and their rights and obligations under, the Racial Discrimination Act 1975 (Cth);
7. notify the Board when the discriminatory terms and provisions of the relevant US legislation and/or Regulations are repealed or become inoperative, so that this Exemption Order may be revoked or amended.

The Applicants are required to inform the Anti-Discrimination Board, every six months from the date of this Exemption Order, over the three year period specified in the order, of:

- the steps they have taken to comply with all the above conditions; and
- the number of employees affected by this Exemption Order, the nature of the effects of the Exemption

Order, and the steps taken to redress any adverse effects on employees; and

- implementation and compliance generally with the terms of this Exemption Order.

The Applicants are required to take all reasonable steps to ensure that any employees adversely affected by this exemption order, retain employment with the Applicants, and do not suffer a reduction in wages, salary or opportunity for advancement.

If the Applicants, in order to enable them to comply with the US Regulations or related contractual obligations associated with the US Regulations, move a member of the workforce from one project to another, the Applicants must take reasonable steps both to explain to that person why the transfer has occurred and to avoid any race-based hostility that might result from the transfer.

Where prospective employees adversely affected by this Exemption Order would otherwise have been acceptable to the Applicants as employees, the Applicants are required to consider and, if feasible, implement reasonable and practicable alternatives to rejection, such as employment in other work or obtaining the necessary approvals under the US Regulations.

In this Exemption Order:

- the expression "the Applicants" means ADI Ltd, ADI Munitions Pty Ltd, ADI Advanced Systems Pty Ltd, Thales Underwater Systems Pty Ltd, and Thales Training and Simulation Pty Ltd and any related entity as defined under Section 9 of the Corporations Act; and
- the expression "controlled technology" means any technical data, defence service, defence article, technology or software which is the subject of export controls under the US Regulations.

This exemption is for a period of three years.

Dated this 28th day of June 2005.

CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of remediation site under Section 21

Declaration Number 21080, Area No. 3209

THE Environment Protection Authority ("the EPA") declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

The premises that are located at 13-19 Canterbury Road Canterbury, NSW, comprising Lots A and B of DP 101788, and Lots 19 and 20 of DP 6857. The site is currently used as a service station.

2. Nature of the substances causing the contamination

Contaminants in soil and groundwater at the site and contaminants which have moved from the site include phase separated fuel product. The chemical components of the fuel product include benzene, toluene, ethylbenzene and xylenes ("BTEX") and total petroleum hydrocarbons ("TPHs").

3. Nature of harm that the substance may cause:

The EPA has considered the matters in s.9 of the Act and for the following reasons has determined that the site is contaminated in such a way as to present a significant risk of harm to human health and the environment:

- Soil and groundwater sampling results strongly suggest that separated phase fuel product is moving off-site via groundwater flow. There is strong evidence to suggest that the fuel product has also impacted on the local stormwater drainage system.
- The groundwater contamination contains high levels of benzene, toluene, ethylbenzene, xylene (BTEX) and total petroleum hydrocarbons (TPHs). The International Agency for Research on Cancer (IARC) classifies benzene as a known human carcinogen.
- The BTEX and TPHs contamination has the potential to impact on the surrounding environment including human health because of the close proximity of the site to residential dwellings.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of s.26 of the Act, the EPA may agree not to issue a remediation order to the person or persons bringing the proposal.

5. Submissions invited

The EPA advises that the public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Director Contaminated Sites
Department of Environment and Conservation
PO Box A290
Sydney South NSW 1232

or faxed to: (02) 9995 5930 by not later than 22 July 2005.

Signed: 27 June 2005.

CAROLYN STRANGE,
Director Contaminated Sites,
Department of Environment and Conservation
(by delegation)

NOTE:

Remediation order may follow

If remediation of the site or part of the site is required, the EPA may issue a remediation order under s.23 of the Act.

Variation/Revocation

This declaration may be varied by a subsequent declaration. It remains in force until it is otherwise varied or revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm (s.44 of the Act).

Information recorded by the EPA

Section 58 of the Contaminated Land Management Act 1997 requires the EPA to maintain a public record. A copy of this remediation declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to inform the relevant local council that this declaration has been made, as soon as practicable. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act that the land is currently within a remediation area. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate can be removed.

Note: A "complying water order" is an order which does comply with licence conditions and which contains sufficient information for State Water to supply water and "scheduled day of delivery" is per period of required notice specified in works approvals, licences or entitlements. Further note: State Water is usually only made aware of late deliveries via customer complaints or notification;

- percentage of water orders rescheduled in consultation with Customers within one working day of a known shortage or delivery delay. Note: This indicator should be calculated as a percentage of the total number of water orders rescheduled due to a known shortage or delivery delay;
- percentage of time that daily minimum flow targets are met. Note: "Daily minimum flow targets" are those specified in relevant Water Management Plans or by the Minister for Natural Resources or by the Ministerial Corporation; and
- percentage of complying intra-valley transfers processed within four working days of State Water's receipt of correctly completed application form and fee. Note: "Intra-valley transfer" means the transfer of allocated water from one licence to another licence within a valley and includes transfers under the Water Management Act 2000 and the Water Act 1912.
