Environmental Planning and Assessment Further Amendment (Building Sustainability Index: BASIX) Regulation 2006

under the

Environmental Planning and Assessment Act 1979

His Excellency the Lieutenant-Governor, with the advice of the Executive Council, has made the following Regulation under the *Environmental Planning and Assessment Act 1979*.

FRANK SARTOR, M.P.,
Minister for Planning

Explanatory note

The object of this Regulation is to extend the BASIX certification scheme under the *Environmental Planning and Assessment Regulation 2000*. Under that scheme, applications to carry out certain kinds of residential development have to be accompanied by a list of commitments by the applicant as to the sustainability measures to be taken in relation to the development (that is, measures to improve the capacity of the development to reduce consumption of mains supplied potable water, to reduce emissions of greenhouse gases and to perform in a thermally efficient manner). If the application is approved, fulfilment of such commitments will become a condition of the relevant development consent or complying development certificate.

The extension made to the BASIX certification scheme by this Regulation is that the scheme, which currently only applies to new buildings and changes of use of buildings, will also apply:

- (a) to alterations, enlargements or extensions of a building that contains one or more dwellings (but that is not a hotel or motel), where the estimated construction cost of the development is above a specified level, and
- (b) to development for the purpose of large swimming pools and spas.

The BASIX certification scheme is also changed to provide for the consequences of optional compliance with the scheme (that is, where a BASIX certificate accompanies a development application or an application for a complying development certificate despite the fact that the BASIX certification scheme does not require a BASIX certificate for the development that is the subject of the application).

Environmental Planning and Assessment Further Amendment (Building Sustainability Index: BASIX) Regulation 2006

Explanatory note

This Regulation is made under the *Environmental Planning and Assessment Act 1979*, including sections 80A (11) (prescribed conditions of consent) and 157 (the general regulation-making power).

Division 3 Criteria for listing of ecological communities

340K Criteria for listing determinations by Fisheries Scientific Committee

(1) **Critically endangered ecological communities**

For the purposes of section 220FB (1) of the Act, an ecological community is facing an extremely high risk of extinction in New South Wales in the immediate future if, in the opinion of the Fisheries Scientific Committee:

- (a) it is defined by species occupying a particular area, and
- (b) it meets the criteria specified for critically endangered ecological communities in this Division.

(2) **Endangered ecological communities**

For the purposes of section 220FB (2) of the Act, an ecological community is facing a very high risk of extinction in New South Wales in the near future if, in the opinion of the Fisheries Scientific Committee:

- (a) it is defined by species occupying a particular area, and
- (b) it meets the criteria specified for endangered ecological communities in each of the other clauses in this Division.

(3) **Vulnerable ecological communities**

For the purposes of section 220FB (3) of the Act, an ecological community is facing a high risk of extinction in New South Wales in the medium-term future if, in the opinion of the Fisheries Scientific Committee:

- (a) it is defined by species occupying a particular area, and
- (b) it meets the criteria specified for vulnerable ecological communities in each of the other clauses in this Division.

340L Criteria—reduction in ecological function, geographic distribution or genetic diversity

(1) It is observed, estimated, inferred or reasonably suspected that the ecological community has undergone, or is likely to undergo, within a time frame appropriate to the life cycle and habitat characteristics of the component species:

- (a) for *critically endangered ecological communities*—an extremely large reduction in one or more of the following:
 - (i) ecological function,
 - (ii) geographic distribution,

- (iii) genetic diversity, or
- (b) for *endangered ecological communities*—a very large reduction in one or more of the following:
 - (i) ecological function,
 - (ii) geographic distribution,
 - (iii) genetic diversity, or
- (c) for *vulnerable ecological communities*—a large reduction in one or more of the following:
 - (i) ecological function,
 - (ii) geographic distribution,
 - (iii) genetic diversity.
- (2) The Fisheries Scientific Committee must have regard to the following in determining the extent of the reduction referred to in subclause (1):
 - (a) the rate of and trends in the reduction,
 - (b) the resilience of the ecological community in relation to current or potential threatening processes,
 - (c) evidence of recovery of the ecological community following the introduction of protection measures or changes to management strategies,
 - (d) assessment of the probability of extinction,
 - (e) the precautionary principle, namely, that if there are threats of serious or irreversible damage to the ecological community, lack of full scientific certainty should not be used as a reason for postponing measures to prevent that damage,
 - (f) other supporting information, including the following:
 - (i) expert advice,
 - (ii) anecdotal information where there is independent verification,
 - (iii) written evidence, especially of a historical nature,
 - (iv) any other corroborating evidence.

340M Criteria—threatening processes

- (1) For *critically endangered*, *endangered* and *vulnerable ecological communities*, there is, or there is observed, estimated, inferred or reasonably suspected to be, a historical, current or threatening process, or threatening processes affecting the ecological community.

-
- (2) The Fisheries Scientific Committee must have regard to the following in determining the relevant extent of the effect of the threatening process or threatening processes:
- (a) the number and nature of the threatening processes,
 - (b) the potential for synergistic effects between threatening processes,
 - (c) the extent of the threatening processes relative to the geographic distribution of the ecological community,
 - (d) the impact of the threatening processes on the diversity and quality of the ecological community's habitat,
 - (e) the level of protection offered to the ecological community within existing reserve systems, other forms of refuge or by current management strategies.

Division 4 Interpretation

340N Application of Division

- (1) This Division applies for the purposes of the interpretation and application of the criteria prescribed by this Part.
- (2) Use in a provision of this Division of the term "population" does not limit the operation of the provision to Division 2 and use of the term "species" does not limit the operation of a provision to Division 1.

340O Geographic distribution

- (1) Geographic distribution is the area or areas, or the volume of occupancy, in which a species, population or ecological community occurs, excluding cases of vagrancy in species.
- (2) This may be assessed by estimating:
 - (a) the extent of occurrence (the area of the total geographic range that includes all extant populations of the species or all extant occurrences of the ecological community), or
 - (b) the area or volume of occupancy (the area or volume within the total range that is currently occupied by the species or ecological community, that is, it excludes unsuitable and unoccupied habitat), or
 - (c) the area or volume of suitable habitat (the area or volume within the total range that includes occupied and unoccupied suitable habitat, but excludes unsuitable habitat).

Fisheries Management (General) Amendment (Listing Criteria) Regulation
2006Schedule 1 Amendment

- (3) The scale at which a geographic distribution is assessed should be appropriate to the biology of the species (or component species in ecological communities), the nature of threats and available data.

Note. This clause applies in respect of Divisions 1, 2 and 3.

340P Effective population size

Effective population size is the number of mature individuals of a species or population that contribute to the production of viable offspring and the maintenance of genetic variation.

Note 1. Effective population size is usually much less than total population size due to the presence of juveniles, old (senescent), diseased, moribund and other non-breeding individuals, uneven sex ratios, unsuitable environmental conditions for breeding and recruitment at some localities and in some years, variation between family sizes and fluctuating population sizes between generations.

Note 2. This clause applies in respect of Divisions 1 and 2.

340Q Ecological function

- (1) Ecological function encompasses the ecological and evolutionary processes and interactions between living and non-living components of ecosystems and ecological communities at all spatial and temporal scales.
- (2) Reductions in ecological function may be indicated by the following:
- (a) a change to community structure,
 - (b) a change in species composition,
 - (c) the disruption of ecological processes,
 - (d) the invasion and establishment of exotic species,
 - (e) the degradation of habitat,
 - (f) the fragmentation of habitat,
 - (g) the declining abundance or distribution of constituent species within an ecological community.

Note. This clause applies in respect of Division 3.

340R Relevance of matters and adequacy and accuracy of information

If the Fisheries Scientific Committee is required to have regard to a particular matter, the Committee must consider the matter:

- (a) to the extent that it is relevant to the assessment of a proposed listing, and
- (b) to the extent that relevant information is available in relation to the matter, having regard to the adequacy and accuracy of the information.

State Environmental Planning Policy (Building Sustainability Index: BASIX) Amendment Policy 2006

under the

Environmental Planning and Assessment Act 1979

His Excellency the Lieutenant-Governor, with the advice of the Executive Council, has made the following State environmental planning policy under the *Environmental Planning and Assessment Act 1979* in accordance with the recommendation made by the Minister for Planning.

FRANK SARTOR, M.P.,
Minister for Planning

Clause 1 State Environmental Planning Policy (Building Sustainability Index: BASIX)
Amendment Policy 2006

State Environmental Planning Policy (Building Sustainability Index: BASIX) Amendment Policy 2006

under the

Environmental Planning and Assessment Act 1979

1 Name of Policy

This Policy is *State Environmental Planning Policy (Building Sustainability Index: BASIX) Amendment Policy 2006*.

2 Commencement

This Policy commences on 1 October 2006.

3 Aim of Policy

- (1) The BASIX certification scheme is a scheme under the regulations under the *Environmental Planning and Assessment Act 1979* to encourage sustainable residential development.
- (2) The *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* ensures consistency in the implementation of the BASIX certification scheme by overriding certain competing provisions of environmental planning instruments and development control plans that would otherwise add to, subtract from or modify any obligations arising under the BASIX certification scheme.
- (3) The aim of this Policy is to amend the *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004*:
 - (a) to reflect the extension of the BASIX certification scheme by the *Environmental Planning and Assessment Further Amendment (Building Sustainability: BASIX) Regulation 2006*, and
 - (b) to provide that competing provisions of environmental planning instruments and development control plans do not apply to BASIX commitments arising from optional compliance (that is, to proposed development in relation to which a BASIX certificate accompanied a development application, or an application for a complying development certificate, despite the fact that the regulations under the Act did not require a BASIX certificate).

CHARITABLE TRUSTS ACT 1993

Amended order under section 12

Cy-Pres Scheme relating to the estate of the late Donald
Munro Armstrong

ON 15 September 2006, an Order appeared in the NSW Government Gazette in relation to a cy prè scheme approved by me as the Attorney General's delegate in relation to the above Estate.

The Order approved a cy prè scheme under section 12 (1)(a) of the Charitable Trusts Act 1993 distributing the remaining legacies from the estate of Donald Munro Armstrong among five organisations whose aims and purposes were as close as possible to those of the original bodies chosen by the testator. These appeared in the Order as:

The Tasmanian Historical Research Association (1/20 entitlement);

Natural Resources Conservation League of Victoria (1/20 entitlement);

National Parks Association of Victoria (1/20 entitlement);

Contemporary Art Society of Victoria Inc (1/20 entitlement);

Contemporary Art Society of South Australia (1/20 entitlement).

It appears that the third beneficiary, the 'National Parks Association of Victoria', is not the correct body and that this should in fact refer to the 'National Parks Association of NSW'.

Accordingly, I amend my previous Order, and now approve a recommendation that the Attorney General establish a cy-près scheme under section 12(1)(a) of the Charitable Trusts Act 1993 enabling the residue of Dr Armstrong's estate to be distributed to the following five organisations:

The Tasmanian Historical Research Association (1/20 entitlement);

Natural Resources Conservation League of Victoria (1/20 entitlement);

National Parks Association of NSW (1/20 entitlement);

Contemporary Art Society of Victoria Inc (1/20 entitlement);

Contemporary Art Society of South Australia (1/20 entitlement).

Therefore, pursuant to section 12 of the Charitable Trusts Act, I hereby order that the legacies in the Testator's Will be applied cy prè to the above five organisations nominated by the ANZ Trustees, such order to take effect 21 days after its publication in the Government Gazette, in accordance with section 16(2) of the Charitable Trusts Act.

Date of Order: 22 September 2006.

**Section 11(1)
Independent Pricing and Regulatory Tribunal Act 1992**

State Water Corporation

**Independent Pricing and Regulatory Tribunal
of New South Wales**

Reference No 05/545

1. Background

- (a) Section 11 of the *Independent Pricing and Regulatory Tribunal Act 1992 (IPART Act)* permits the Tribunal to conduct investigations and make reports to the Minister administering the IPART Act on the determination of the pricing for a government monopoly service supplied by a government agency specified in Schedule 1 of the IPART Act.
- (b) State Water Corporation (**Corporation**) (as a statutory State owned corporation established by section 4 of the *State Water Corporation Act 2004 (SWC Act)*) is listed in Schedule 1 of the IPART Act as a "government agency" for which the Tribunal has a standing reference for the purposes of section 11 of the IPART Act.
- (c) The Corporation's functions under the SWC Act (section 6) include:
- (1) to capture and store water and to release water:
 - (i) to persons entitled to take the water, including release to regional towns;
 - (ii) for the purposes of flood management; and
 - (iii) for any other lawful purpose, including the release of environmental water; and
 - (2) to construct, maintain and operate water management works.
- (d) Under section 29 of the SWC Act, the Corporation may impose fees or charges on any person to whom the Corporation provides a service in the exercise of its functions, including any person to whom the Corporation makes water available.
- (e) Under section 4(7) of the IPART Act, the Corporation is taken to be the supplier of the services for which fees and charges are payable under the SWC Act, and which are declared to be government monopoly services.
- (f) Under clause 3 of the *Independent Pricing and Regulatory Tribunal (Water Services) Order 2004*, services supplied by the Corporation which involve:
- (1) the making available of water;
 - (2) the making available of the Corporation's water supply facilities; or
 - (3) the supplying of water, whether by means of the Corporation's facilities or otherwise,
- are "government monopoly services" (**Monopoly Services**) for the purposes of sections 4 and 11(1) of the IPART Act. Accordingly, the Tribunal may conduct investigations and report to the Minister administering the IPART Act on the determination of prices for these Monopoly Services supplied by the Corporation.
- (g) In practice, charges for the Corporation's water delivery activities are made as charges under licences, permits, approvals or authorities granted:

- (1) by the Minister under Chapter 3 of the *Water Management Act 2000* (**Water Management Act**) (in areas of NSW in which proclamations under sections 55A and 88A of the Water Management Act are in force); and
 - (2) by the Water Administration Ministerial Corporation (WAMC) under the *Water Act 1912* (**Water Act**) (in other areas of NSW).
- (h) Accordingly, in determining prices for the Corporation's Monopoly Services, the Tribunal has determined prices payable for these services under various licences, permits, approvals or authorities granted under the Water Management Act and the Water Act.
- (i) In investigating and reporting on the pricing of the Corporation's Monopoly Services, the Tribunal has had regard to a broad range of matters, including the criteria set out in section 15(1) of the IPART Act.
- (j) In accordance with section 13A(1) of the IPART Act, the Tribunal has fixed the maximum price for the Corporation's Monopoly Services and/or established a methodology for fixing the maximum price. Schedule 3 sets out the Tribunal's reasons for choosing to make a determination that involves setting the methodology for fixing a maximum price for entitlement charges and usage charges.
- (k) Under section 18(2) of the IPART Act, the Corporation may not fix a price for Monopoly Services below that determined by the Tribunal without the approval of the Treasurer.

2. Application of this determination

- (a) Under section 13A of the IPART Act, this determination fixes the maximum prices (and/or sets a methodology for fixing those maximum prices) that may be charged for the Corporation's Monopoly Services under Water Licences that authorise the extraction of water from regulated rivers.
- (b) For the avoidance of doubt, this determination does not apply to the following services provided by the Corporation:
- (1) management services provided by the Corporation to the Lowbidgee Flood Control and Irrigation District Trust established to manage floodplain, wetlands and irrigation works in the Lowbidgee Flood Control and Irrigation District; and
 - (2) the rights granted by the Corporation to hydropower operators to install their facilities on the Corporation's dams and use water in its storages for power generation, or the maintenance and emergency response services provided by the Corporation to these operators.
- (c) This determination commences on the later of 1 October 2006 and the date that it is published in the NSW Government Gazette (**Commencement Date**).
- (d) The maximum prices in this determination apply from the Commencement Date to 30 June 2010. The maximum prices in this determination prevailing at 30 June 2010 continue to apply beyond 30 June 2010 until this determination is replaced.

3. Replacement of Determination No. 8 of 2005

Determination No. 8 of 2005 (Reference No 04/291), to the extent that it relates to pricing for the Corporation's Monopoly Services, is replaced by this determination from the Commencement Date. The replacement does not affect anything done or omitted to be done, or rights or obligations accrued, under that determination prior to its replacement.

4. Monitoring

The Tribunal may monitor the performance of the Corporation for the purposes of:

- (a) establishing and reporting on the level of compliance by the Corporation with this determination; and
- (b) preparing a periodic review of pricing policies in respect of the Monopoly Services supplied by the Corporation.

5. Schedules

Schedules 1 and 2 and the Tables in those Schedules set out the maximum prices that the Corporation may charge for the Monopoly Services specified in the Schedule. They operate together with Schedule 3.

6. Definitions and Interpretation

Definitions and interpretation provisions used in this determination are set out in Schedule 4.

Schedule 1

Regulated Rivers

1. Application

This Schedule sets the maximum prices that may be charged for the Corporation's Monopoly Services under a Water Licence that authorises the extraction of water from a Regulated River, for the period to which this determination applies.

2. Maximum charges

2.1 Subject to clause 4 of this Schedule, the maximum charges that may be levied for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule is the sum of the following:

- (a) subject to clause 2.3 of this Schedule, an entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 1 for the relevant river valley and relevant year, multiplied by a licence holder's Entitlement or unit share for that year (and in the case of a WMA Licence holder, further multiplied by the conversion factor in clause 3 of this Schedule); and
- (b) subject to clause 2.2 of this Schedule, a usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 2 for:
 - (1) **in the case of Tagged Water Entitlement:** the relevant river valley as set out in the Licence Register and the relevant year, multiplied by a licence holder's usage for that year; and
 - (2) **in any other case:** the relevant river valley from which the water is extracted and the relevant year, multiplied by a licence holder's usage for that year.

2.2 Despite clause 2.1 of this schedule, only a usage charge may be levied by the Corporation for:

- (a) a High Flow Licence; or
- (b) a Supplementary Water Access Licence.

2.3 If the licence holder is either the Murrumbidgee Irrigation Limited or the Coleambally Irrigation Limited (each an **Irrigation Company**) the entitlement charge payable by an Irrigation Company in clause 2.1(a) is to be reduced by an amount equal to the discount entitlement price in Table 4 multiplied by that Irrigation Company's Entitlement or unit share associated with a Conveyance Licence for the relevant year.

3. Conversion factor

- 3.1 If WA Licences in a river valley are converted to WMA Licences and those WMA Licence are expressed as a specified number of unit shares then the following conversion factor is to be applied to the entitlement charges for that river valley in Table 1:

$$CF = \frac{A}{S}$$

Where:

CF – conversion factor for a river valley

A – the Valley Entitlement Volume of water (expressed in megalitres) at the conversion of the WA Licences to WMA Licences

S – the number of unit shares allocated to licence holders in a river valley immediately after those WMA Licences are issued

- 3.2 A worked example of the application of this clause is set out in Schedule 3.

Note: One of the consequences of the introduction of the Water Management Act is that for some licence holders their entitlement is no longer defined in the licence as a volumetric allowance (in megalitres) but a ‘unit share’ of the available water for that valley (as defined by the relevant Water Sharing Plan for the valley in question).

For the purposes of setting prices, the Tribunal has assumed that one ‘unit share’ is equivalent to one megalitre of entitlement. If a "unit share" represents less than 1ML of water, then the conversion factor ensures that the price per ML of water is that determined by the Tribunal. This provides customers with some protection in situations where entitlement volumes have been reduced.

4. Rebate on total bill for entitlement and usage charges

A licence holder in Table 3 will receive the rebate (listed for that licence holder in Table 3) on that licence holder’s total bill for entitlement and/or usage charges.

5. Murrumbidgee and Yanco Columbo System

- 5.1 In addition to the charges set out in Tables 1 and 2, a licence holder who is an Irrigator in respect of the Yanco Columbo System may be charged a levy of \$0.90 per megalitre of Entitlement or per unit share.
- 5.2 Clauses 3 and 4 of this Schedule do not apply to these charges.

6. User initiated projects

In addition to the charges set out in Tables 1 and 2, if a group of Irrigators (**Group of Irrigators**) requests the Corporation to undertake a project to improve water use and environmental outcomes, the Corporation may determine the appropriate levy to charge the Group of Irrigators to undertake that project only if all the following conditions are satisfied:

- (a) there is substantial support from the Group of Irrigators for that project;
- (b) there is substantial agreement from the Group of Irrigators that the Corporation is to charge a levy for that project; and
- (c) the Corporation has provided evidence satisfactory to the Tribunal that paragraphs (a) and (b) above have been complied with.

Schedule 3

Worked example

Clause 3 Schedule 1

Assuming that:

- the Valley Entitlement Volume of water (expressed in megalitres) at the conversion of the WA Licences to WMA Licences – 80000ML (A)
- the number of unit shares allocated to licence holders in a river valley immediately after the WMA Licences are issued – 100000 unit shares (S)
- a licence holder's Entitlement (expressed in megalitres) immediately before those WMA Licences are issued – 1000ML
- a licence holder's Entitlement (expressed in megalitres) immediately after those WMA Licences are issued – 800ML
- the number of unit shares allocated to a licence holders in a river valley immediately after the WMA Licences are issued – 1000 unit shares

The following conversion factor is to be applied to the entitlement charge in Table 1:

$$CF = \frac{A}{S}$$

$$CF = \frac{80000}{100000}$$

$$CF = 0.8$$

For example – assuming that the licence holder is a general security licence holder in the Peel Valley, that licence holder will be paying in the relevant year the following entitlement charges:

- Before conversion - \$4210 (being \$4.21/ML of Entitlement x 1000 ML).
- After conversion but before the application of the conversion factor - \$4210 (being \$4.21/unit share X 1000 unit shares).
- After conversion and after the application of the conversion factor - \$3368 (being \$4.21/unit share x 1000 unit shares x 0.8 or \$3.368/unit share x 1000 unit shares).

Explanation of the conversion factor based on the above example:

- The aim of the conversion factor is to provide customers with some protection in situations where Entitlement Volumes under their WMA Licence have been reduced by maintaining the effective price of entitlement to water.
- A licence holder in the Peel Valley whose WA licence was converted into a WMA Licence now has a 1000 unit shares which entitles him to use 800ML of water a year (as opposed to 1000ML under his WA Licence).

- If the conversion factor were not applied to the entitlement charge in Table 1, the entitlement charge payable by the licence holder would be \$4210 for 800ML of Entitlement Volume (this is the same amount payable by the licence holder under his WA Licence which entitled him to use 1000ML of water).
- If the conversion factor were applied to the entitlement charge in Table 1, the entitlement charge payable by the licence holder would be \$3368 for 800ML of Entitlement Volume.
- The effective price of water after conversion would be \$4.21 (\$3368 divided by 800ML). The effective price of \$4.21 per ML of Entitlement to water is therefore maintained.

Definitions and Interpretation

1. Definitions

1.1 General definitions

In this determination:

Commencement Date is defined in clause (c) of section 2 (**Application of this determination**) of this determination.

Corporation is defined in clause (b) of section 1 (**Background**) of this determination.

Conveyance Licence means a regulated river (conveyance) access licences issued under section 57(1)(c) of the Water Management Act.

Entitlement means the right, conferred by means of a Water Licence, to take and use a specified quantity of water.

Fish River Water Supply Scheme has the meaning given to that term in the SWC Act.

General Security Licence means:

Determination No 5, 2006

Section 11(1)

Independent Pricing and Regulatory Tribunal Act 1992

The Water Administration Ministerial Corporation

**Independent Pricing and Regulatory Tribunal
of New South Wales**

Reference No 05/545

1. Background

- (a) Section 11 of the *Independent Pricing and Regulatory Tribunal Act 1992* (**IPART Act**) permits the Tribunal to conduct investigations and make reports to the Minister administering the IPART Act on the determination of the pricing for a government monopoly service supplied by a government agency specified in Schedule 1 of the IPART Act.
- (b) The Water Administration Ministerial Corporation (**Corporation**) is listed in Schedule 1 of the IPART Act as a "government agency" for which the Tribunal has a standing reference for the purposes of section 11 of the IPART Act.
- (c) The Corporation's functions under the *Water Management Act 2000* (**Water Management Act**) (sections 372 and 373) include:
- (1) to construct, maintain and operate water management works;
 - (2) to conduct research, collect information and develop technology in relation to water management;
 - (3) to acquire rights to water, whether within or beyond New South Wales;
 - (4) to do anything for the purpose of enabling the objects of the Water Management Act to be attained; and
 - (5) to enter into commercial operations with respect to (among other things) any services developed in connection with the exercise of its functions (with the approval of the Governor).
- (d) Under clause 3 of the *Independent Pricing and Regulatory Tribunal (Water Services) Order 2004*, services supplied by the Corporation which involve:
- (1) the making available of water;
 - (2) the making available of the Corporation's water supply facilities; or
 - (3) the supplying of water, whether by means of the Corporation's facilities or otherwise,
- are "government monopoly services" (**Monopoly Services**) for the purposes of sections 4 and 11(1) of the IPART Act. Accordingly, the Tribunal may conduct investigations and report to the Minister administering the IPART Act on the determination of prices for these Monopoly Services supplied by the Corporation.
- (e) Under section 4(6) of the IPART Act, the Corporation is taken to be the supplier of the services for which fees and charges are payable under Chapter 3 of the Water Management Act, and which are declared to be government monopoly services.

- (f) In practice, charges for the Corporation's water resource management activities are made as charges under licences, permits, approvals or authorities granted:
- (1) by the Minister under Chapter 3 of the Water Management Act (in areas of NSW in which proclamations under sections 55A and 88A of the Water Management Act are in force); and
 - (2) by the Corporation under the *Water Act 1912* (**Water Act**) (in other areas of NSW).
- (g) Accordingly, in determining prices for the Corporation's Monopoly Services, the Tribunal has determined prices payable for these services under various licences, permits, approvals or authorities granted under the Water Management Act and the Water Act.
- (h) In investigating and reporting on the pricing of the Corporation's Monopoly Services, the Tribunal has had regard to a broad range of matters, including the criteria set out in section 15(1) of the IPART Act.
- (i) In accordance with section 13A(1) of the IPART Act, the Tribunal has fixed the maximum price for the Corporation's Monopoly Services and/or established a methodology for fixing the maximum price.
- (j) Under section 18(2) of the IPART Act, the Corporation may not fix a price for Monopoly Services below that determined by the Tribunal without the approval of the Treasurer.

2. Application of this determination

- (a) Under section 13A of the IPART Act, this determination fixes the maximum prices (and/or sets a methodology for fixing those maximum prices) that may be charged for the Corporation's Monopoly Services under Water Licences that authorise the extraction of water from:
- (1) Regulated Rivers;
 - (2) Unregulated Rivers; and
 - (3) Ground Water sources.
- (b) No charges may be levied on any person for the Corporation's Monopoly Services other than as provided in this determination.
- (c) This determination commences on the later of 1 October 2006 and the date that it is published in the NSW Government Gazette (**Commencement Date**).
- (d) The maximum prices in this determination apply from the Commencement Date to 30 June 2010. The maximum prices in this determination prevailing at 30 June 2010 continue to apply beyond 30 June 2010 until this determination is replaced.

3. Replacement of Determination No. 9 of 2005

Determination No. 9 of 2005 (Reference No 04/291), to the extent that it relates to pricing for the Corporation's Monopoly Services, is replaced by this determination from the Commencement Date. The replacement does not affect anything done or omitted to be done, or rights or obligations accrued, under that determination prior to its replacement.

4. Monitoring

The Tribunal may monitor the performance of the Corporation for the purposes of:

- (a) establishing and reporting on the level of compliance by the Corporation with this determination; and
- (b) preparing a periodic review of pricing policies in respect of the Monopoly Services supplied by the Corporation.

5. Schedules

Schedules 1 - 4 (inclusive) and the Tables in those Schedules set out the maximum prices that the Corporation may charge for the Monopoly Services specified in the Schedules. They operate together with Schedule 5.

6. Definitions and Interpretation

Definitions and interpretation provisions used in this determination are set out in Schedule 6.

Schedule 1

Regulated Rivers

1. Application

This Schedule sets the maximum prices that may be charged for the Corporation's Monopoly Services under a Water Licence that authorises the extraction of water from a Regulated River, for the period to which this determination applies.

2. Maximum charges

2.1. The maximum annual charge that may be levied for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule is the higher of:

- (a) an annual charge of \$60.00; and
- (b) the sum of the following:
 - (1) subject to clause 2.3 of this Schedule, an entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 1 for the relevant river valley and relevant year, multiplied by a licence holder's Entitlement or unit share for that year and:
 - (i) **in the case of a WMA Licence holder:** multiplied by the conversion factor in clause 3 of this Schedule; and
 - (ii) **in the case of a licence holder specified in Table 3:** discounted by the percentage specified for that licence holder in that table;
 - (2) subject to clause 2.2 of this Schedule, a usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 2 for:
 - (i) **in the case of Tagged Water Entitlement:** the relevant river valley as set out in the Licence Register and the relevant year, multiplied by a licence holder's usage for that year; and
 - (ii) **in any other case:** the relevant river valley from which the water is extracted and the relevant year, multiplied by a licence holder's usage for that year.

2.2 Despite clause 2.1 of this Schedule, only a usage charge may be levied by the Corporation for:

- (a) a High Flow Licence; and
- (b) a Supplementary Water Access Licence.

- 2.3 If the licence holder is either the Murrumbidgee Irrigation Limited or the Coleambally Irrigation Limited (each an **Irrigation Company**) the entitlement charge payable by an Irrigation Company in clause 2.1(b)(1) (before the application of clause 2.1(b)(1)(i) and (ii)) is to be reduced by an amount equal to the discount entitlement price in Table 4, multiplied by that Irrigation Company's Entitlement or unit share associated with a Conveyance Licence for the relevant year.

3. Conversion factor

- 3.1 If WA Licences in a river valley are converted to WMA Licences and those WMA Licences are expressed as a specified number of unit shares then the following conversion factor is to be applied to the entitlement charges for that river valley in Table 1:

$$CF = \frac{A}{S}$$

Where:

CF – conversion factor for a river valley

A – the Valley Entitlement Volume of water (expressed in megalitres) at the conversion of the WA Licences to WMA Licences

S – the number of unit shares allocated to licence holders in a river valley immediately after the WMA Licences are issued

- 3.2 A worked example of the application of this clause is set out in Part 1, Schedule 5.

Note: One of the consequences of the introduction of the Water Management Act is that for some licence holders their entitlement is no longer defined in the licence as a volumetric allowance (in megalitres) but a 'unit share' of the available water for that valley (as defined by the relevant Water Sharing Plan for the valley in question).

For the purposes of setting prices, the Tribunal has assumed that one 'unit share' is equivalent to one megalitre of entitlement. If a "unit share" represents less than 1ML of water, then the conversion factor ensures that the price per ML of water is that determined by the Tribunal. This provides customers with some protection in situations where entitlement volumes have been reduced.

- (b) **in the case of a licence holder in the Far West River Valley who has an Entitlement Volume under a WA licence and whose Entitlement Volume has not been reduced under the Barwon-Darling Cap Management Strategy:** the higher of:

¹ Note: Determination No 9 of 2005 (clause 2, schedule 2) enables the Corporation to charge holders of a licence that authorises the extraction of water from an unregulated river. This determination makes explicit that the charge extends to the holders of a Domestic and Stock Licence.

- (1) an annual charge of \$60.00; and
 - (2) an area based charge (being a charge expressed in dollars per hectare of authorised area of irrigation) in Table 5 for the relevant year and relevant river valley multiplied by a licence holder's authorised area of irrigation (as set out in that licence holder's WMA Licence or WA Licence) for that year; or
- (c) **other than in the cases in paragraphs (a) and (b) above:** the higher of:
- (1) an annual charge of \$60.00; and
 - (2) volume of entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 5 for the relevant river valley and relevant year, multiplied by a licence holder's Entitlement or unit share for that year and multiplied by the conversion factor in clause 8 of this Schedule.

4. Maximum charges for Irrigators

4.1 Subject to clause 9 of this Schedule, the maximum annual charge for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule held by an Irrigator is:

- (a) **in the case of an Irrigator who does not have a Meter or in the case of an Irrigator who has a Meter but has not elected to be charged in accordance with clause 4.1(b) below:**

 - (i) an annual charge of \$60.00; and
 - (ii) an area based charge (being a charge expressed in dollars per hectare of authorised area of irrigation) in Table 5 for the relevant year and relevant river valley, multiplied by a licence holder's authorised area of irrigation (as set out in that licence holder's WMA Licence or WA Licence) for that year; or
 - (2) **and who is located in the Far West River Valley, who has an Entitlement Volume under a WA licence and whose Entitlement Volume has not been reduced under the Barwon-Darling Cap Management Strategy:** the higher of:
 - (i) an annual charge of \$60.00; and
 - (ii) an area based charge (being a charge expressed in dollars per hectare of authorised area of irrigation) in Table 5 for the relevant year and relevant river valley, multiplied by a licence holder's authorised area of irrigation (as set out in that licence holder's WMA Licence or WA Licence) for that year; or

- (3) **and who does not fall within paragraphs (a)(1) and (a)(2) above:** the higher of:
- (i) an annual charge of \$60.00; and
 - (ii) volume of entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 5 for the relevant river valley and relevant year, multiplied by that licence holder's Entitlement or unit share for that year and multiplied by the conversion factor in clause 8 of this Schedule; or
- (b) **in the case of an Irrigator who has a Meter and who elects to be charged in accordance with this clause:** the higher of:
- (1) an annual charge of \$60.00; and
 - (2) the sum of a two part tariff consisting of:
 - (i) an entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 6 for the relevant river valley and relevant year, multiplied by a licence holder's Entitlement or unit share for that year and multiplied by the conversion factor in clause 8 of this Schedule; and
 - (ii) a usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 6 for the relevant river valley and relevant year, multiplied by a licence holder's usage for that year.

4.2 An Irrigator must advise the Corporation in writing of its election to be charged under clause 4.1(b). If an Irrigator does not advise the Corporation of its election, the Irrigator is deemed to have elected the maximum annual charge to be determined in accordance with clause 4.1(a)(1), 4.1(a)(2) or 4.1(a)(3) (as the case maybe) until that Irrigator advises the Corporation of its election.

4.3 Once an Irrigator has advised the Corporation of its election in accordance with clause 4.2 of this Schedule, that election is to take effect in the immediate subsequent billing period or earlier but only by agreement between that Irrigator and the Corporation.

5. Maximum charges for Sydney Catchment Authority

The maximum annual charge for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule held by Sydney Catchment Authority is:

- (a) **where Sydney Catchment Authority has not been allocated an Entitlement Volume:** the charges specified under Table 9 for the relevant year multiplied by Sydney Catchment Authority's usage for that year; or
- (b) **where Sydney Catchment Authority has been allocated an Entitlement Volume:** the sum of:

- (i) an entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 6 for the relevant year and relevant river valley, multiplied by Sydney Catchment Authority's Entitlement or unit share for that year; and
- (ii) a usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 6 for the relevant year and relevant river valley, multiplied by Sydney Catchment Authority's usage for that year.

6. Maximum charges for Hunter Water Corporation

The maximum annual charge for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule held by Hunter Water Corporation is a usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 9, multiplied by the Hunter Water Corporation's usage for that year.

7. Maximum charges for licence holders other than Irrigators, Domestic and Stock Licence holders, Sydney Catchment Authority or Hunter Water Corporation

Subject to clause 9 of this Schedule, the maximum annual charge for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule held by a licence holder other than an Irrigator, a holder of a Domestic and Stock Licence, Sydney Catchment Authority or Hunter Water Corporation is:

- (a) **in the case of a WA Licence where the licence holder has not been allocated an Entitlement Volume:** sum of the following:
 - (1) the base charge in Table 8 for the relevant year; and
 - (2) the usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 7 for the relevant year and relevant river valley, multiplied by a licence holder's usage for that year; or
- (b) **other than in the case in paragraph (a) above:** the higher of:
 - (1) an annual charge of \$60.00; and
 - (2) the sum of a two part tariff consisting of:
 - (i) an entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 6 for the relevant river valley and relevant year, multiplied by a licence holder's Entitlement or unit share for that year and multiplied by the conversion factor in clause 8; and
 - (ii) a usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 6 for the relevant year and relevant river valley, multiplied by a licence holder's usage for that year.

8. Conversion factor

- 8.1 Subject to clause 8.2 below, if WA Licences in a river valley are converted to WMA Licences and those WMA Licences are expressed as a specified number of unit shares then the following conversion factor is to be applied to the entitlement charges for that river valley in Tables 5 and 6:

$$CF = \frac{A}{S}$$

Where:

CF – conversion factor for a river valley

A – the Valley Entitlement Volume of water (expressed in megalitres) at the conversion of the WA Licences to WMA Licences

S – the number of unit shares allocated to licence holders in a river valley immediately after the WMA Licences are issued

Note: One of the consequences of the introduction of the Water Management Act is that for some licence holders their entitlement is no longer defined in the licence as a volumetric allowance (in megalitres) but a 'unit share' of the available water for that valley (as defined by the relevant Water Sharing Plan for the valley in question).

For the purposes of setting prices, the Tribunal has assumed that one 'unit share' is equivalent to one megalitre of entitlement. If a "unit share" represents less than 1ML of water, then the conversion factor ensures that the price per ML of water is that determined by the Tribunal. This provides customers with some protection in situations where entitlement volumes have been reduced.

- 8.2 The conversion factor in clause 8.1 above does not apply to the entitlement charges in Tables 5 and 6 for the Far West River Valley.
- 8.3 A worked example of the application of this clause is set out in Part 2, Schedule 5.

9. Constraint on annual bill increases

9.1 Subject to clauses 9.3 and 9.4 of this Schedule, the Corporation must ensure that the amount specified in an annual bill issued to a customer under this Schedule in a financial year (**Year t**) does not exceed by more than 20% (before adjustment for inflation) of the amount specified in a customer's annual bill for the financial year immediately preceding Year t (**Year t-1**).

Note: the amount of 20% is to be replaced by the amount determined in clause 9.3 below.

9.2 In applying clause 9.1, it is to be assumed that the level of usage in a customer's bill in Year t-1 is the same as the level of usage in Year t.

9.3 The amount of 20% in clause 9.1 of this Schedule must be adjusted for inflation in Year t as follows:

$$(1 + 20\%) \times (1 + \Delta CPI_{Year t}) - 1$$

Where:

$\Delta CPI_{Year t}$ - change in the year on year increase to June, calculated as follows:

$$\Delta CPI_{Year t} = \left(\frac{CPI_{JunYear t-1} + CPI_{SepYear t-1} + CPI_{DecYear t-1} + CPI_{MarYear t}}{CPI_{JunYear t-2} + CPI_{SepYear t-2} + CPI_{DecYear t-2} + CPI_{MarYear t-1}} \right) - 1$$

Note: the amount determined in this clause is to replace the amount of 20% in clause 9.1 above.

9.4 In applying clause 9.1 of this Schedule, any Entitlement (and any usage volumes associated with the Entitlement) acquired by or transferred to the customer after the Commencement Date is to be disregarded. However, clauses 3, 4, 5, 6 or 7 (as the case may be) of this Schedule apply to that Entitlement (and any usage volume associated with that Entitlement) in the same way as they apply to other Entitlements.

Note: For example, under Table 9 the charge derived by adding the entitlement (\$1.83 /ML or unit share) and the usage (\$1.23/ML) components of the two-part tariff for the South Coast in Table 6 is \$3.06/ML

Note: For example, under Table 9 the charge derived by adding the entitlement (1.89/ML or unit share) and the usage (\$1.25/ML) portions of the two-part tariff for the Hunter in Table 6 is \$3.14/ML.

Schedule 3

Ground Water

1. Application

This Schedule sets the maximum prices that may be charged for the Corporation's Monopoly Services under a Water Licence that authorises the extraction of Ground Water, for the period to which this determination applies.

2. Categories for pricing purposes

The charges for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule depend on whether or not:

- (a) the property to which the licence applies is in a Ground Water Management Area monitored by the Corporation; and
- (b) the licence holder is Hunter Water Corporation.

3. Maximum charges for properties in Ground Water Management Areas monitored by the Corporation (other than for Hunter Water Corporation)

Subject to clause 7 of this Schedule, the maximum annual charge that may be levied for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule where the property identified in the licence is in a Ground Water Management Area monitored by the Corporation (other than where the licence holder is the Hunter Water Corporation) is the higher of:

- (a) an annual charge of \$60.00; and
- (b) the sum of the following charges:
 - (1) an entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 10 for the relevant river valley and relevant year, multiplied by a licence holder's Entitlement or unit share for that year and multiplied by the conversion ratio in clause 6 this Schedule;
 - (2) a usage charge (being a charge expressed in dollars per megalitre of water actually extracted) in Table 11 for the relevant year and relevant river valley, multiplied by a licence holder's usage for that year; and
 - (3) a base charge (being a charge expressed in dollars per property account (as defined by the Corporation) under the Water Act or a charge expressed in dollars per WMA Licence) in Table 12 for the relevant year and the "in Ground Water Management Area" category in the table.

4. Maximum charges for properties not in Ground Water Management Areas monitored by the Corporation (other than for Hunter Water Corporation)

Subject to clause 7 of this Schedule, the maximum annual charge that may be levied for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule where the property identified in the licence is not in a Ground Water Management Area monitored by the Corporation (other than where the licence holder is Hunter Water Corporation), is the higher of:

- (a) an annual charge of \$60.00; and
- (b) the sum of the following charges:
 - (1) an entitlement charge (being a charge expressed in dollars per megalitre of Entitlement or in dollars per unit share) in Table 10 for the relevant river valley and relevant year, multiplied by a licence holder's Entitlement or unit share for that year and multiplied by the conversion ratio in clause 6 of this Schedule; and
 - (2) a base charge (being a charge expressed in dollars per property account (as defined by the Corporation) under the Water Act or a charge expressed in dollars per WMA Licence) in Table 12 for the relevant year and the "not in Ground Water Management Areas" category in the table.

5. Maximum charges for Hunter Water Corporation

The maximum annual charge that may be levied for the Corporation's Monopoly Services under a licence referred to in clause 1 of this Schedule held by Hunter Water Corporation is the usage charge (expressed in dollars per megalitre of water actually extracted) in Table 13 for the relevant river valley and relevant year, multiplied by Hunter Water Corporation's usage for that year.

6. Conversion ratio

6.1 If WA Licences in a river valley are converted to WMA Licences and those WMA Licences are expressed as a specified number of unit shares then the following conversion ratio is to be applied to the entitlement charges for that river valley in Table 10:

$$CR = \frac{(E \times F)}{G}$$

Where:

CR – conversion ratio for a river valley

E - total Entitlement Volume (expressed in megalitres) of all Licence holders in a river valley immediately before the introduction of the Water Sharing Plan

F – megalitre per unit share in a river valley

G - total Entitlement Volume (expressed in megalitres) of all WMA Licence holders in a river valley immediately after the introduction of the Water Sharing Plan (including Entitlement Volumes on any supplementary licences for extraction of Ground Water)

Note: Unlike the conversion factors for surface water, the purpose of the Ground Water conversion ratio is to maintain the Corporation's revenue. The Tribunal understands that introduction of the WSP's is not expected to significantly affect usage volumes and has taken into consideration the low overall level of cost recovery. Please refer to the report accompanying this determination.

6.2 A worked example of the application of this clause is set out in Part 3, Schedule 5.

7. Constraint on annual bill increases

7.1 Subject to clauses 7.3 and 7.4 of this Schedule, the Corporation must ensure that the amount specified in an annual bill issued to a customer under this Schedule in a financial year (**Year t**) does not exceed by more than 20% (before adjustment for inflation) of the amount specified in a customer's annual bill for the financial year immediately preceding Year t (**Year t-1**).

Note: the amount of 20% is to be replaced by the amount determined in clause 7.3 below.

7.2 In applying clause 7.1 of this Schedule it is to be assumed that the level of usage in a customer's bill in Year t-1 is the same as the level of usage in Year t.

7.3 The amount of 20% in clause 7.1 of this Schedule must be adjusted for inflation in Year t as follows:

$$(1 + 20\%) \times (1 + \Delta CPI_{Year t}) - 1$$

Where:

$\Delta CPI_{Year t}$ - change in the year on year increase to June, calculated as follows:

$$\Delta CPI_{Year t} = \left(\frac{CPI_{JunYear t-1} + CPI_{SepYear t-1} + CPI_{DecYear t-1} + CPI_{MarYear t}}{CPI_{JunYear t-2} + CPI_{SepYear t-2} + CPI_{DecYear t-2} + CPI_{MarYear t-1}} \right) - 1.$$

Note: the amount determined in this clause is to replace the amount of 20% in clause 7.1 above.

7.4 In applying clause 7.1 of this Schedule, any Entitlement (and any usage volumes associated with the Entitlement) acquired by or transferred to the customer after the Commencement Date is to be disregarded. However, clauses 3, 4 or 5 (as the case may be) of this Schedule apply to that Entitlement (and any usage volume associated with that Entitlement) in the same way as they apply to other Entitlements.

Schedule 4

Administration fees and charges

1. Application

This Schedule sets the maximum transaction fees and charges that may be charged with respect to the administration of applications, renewals, permanent transfers and temporary transfers of Water Licences administered by the Corporation under the Water Management Act for the period to which this determination applies.

Note: although the Corporation contracts to State Water Corporation the function of processing temporary licence transfer transactions on behalf of the Corporation, this determination sets the maximum fees for those services.

2. Maximum fees and charges

The maximum fees and charges for the licence transactions described in clause 1 of this Schedule are:

- (a) from the Commencement Date to 30 June 2007 - set out in Table 14 of this determination;
- (b) from 1 July 2007 to 30 June 2008 - set out in Table 14 of this determination, multiplied by $(1+\Delta\text{CPI}_1)$;
- (c) from 1 July 2008 to 30 June 2009 - set out in Table 14 of this determination, multiplied by $(1+\Delta\text{CPI}_2)$;
- (d) from 1 July 2009 to 30 June 2010 - set out in Table 14 of this determination, multiplied by $(1+\Delta\text{CPI}_3)$.

3. Temporary transfer fee

The maximum fee that may be levied by the Corporation for a temporary transfer of water is \$50 plus \$0.50 for each megalitre of water transferred, but in no case is the total to exceed \$150.

Schedule 5

Worked examples

Part 1 – clause 3 Schedule 1

Assuming that:

- the Valley Entitlement Volume of water (expressed in megalitres) at the conversion of the WA Licences to WMA Licences – 80000ML (A)
- the number of unit shares allocated to licence holders in a river valley immediately after the WMA Licences are issued – 100000 unit shares (S)
- a licence holder's Entitlement (expressed in megalitres) immediately before those WMA Licences are issued – 1000ML
- a licence holder's Entitlement (expressed in megalitres) immediately after those WMA Licences are issued – 800ML
- the number of unit shares allocated to a licence holders in a river valley immediately after the WMA Licences are issued – 1000 unit shares

The following conversion factor is to be applied to the entitlement charge in Table 1:

$$CF = \frac{A}{S}$$

$$CF = \frac{80000}{100000}$$

$$CF = 0.8$$

For example – assuming that the licence holder is in the Peel Valley, that licence holder will be paying in the relevant year the following entitlement charges:

- Before conversion - \$1060 (being \$1.06/ML of Entitlement x 1000 ML)
- After conversion but before the application of the conversion factor - \$1060 (being \$1.06/unit share X 1000 unit shares)
- After conversion and after the application of the conversion factor - \$848 (being \$1.06/unit share x 1000 unit shares x 0.8 or \$0.848/unit share x 1000 unit shares)

Explanation of the conversion factor based on the above example:

- The aim of the conversion factor is to provide customers with some protection in situations where Entitlement Volumes under their WMA Licence have been reduced by maintaining the effective price of entitlement to water.
- A licence holder in the Peel Valley whose WA licence was converted into a WMA Licence now has a 1000 unit shares which entitles him to use 800ML of water a year (as opposed to 1000ML under his WA Licence).

- If the conversion factor were not applied to the entitlement charge in Table 1, the entitlement charge payable by the licence holder would be \$1060 for 800ML of Entitlement Volume (this is the same amount payable by the licence holder under his WA Licence which entitled him to use 1000ML of water).
- If the conversion factor were applied to the entitlement charge in Table 1, the entitlement charge payable by the licence holder would be \$848 for 800ML of Entitlement Volume.
- The effective price of water after conversion would be \$1.06 (\$848 divided by 800ML). The effective price of \$1.06 per ML of entitlement to water is therefore maintained.

Part 2 – clause 8 Schedule 2

Assuming that:

- the Valley Entitlement Volume of water (expressed in megalitres) at the conversion of the WA Licences to WMA Licences – 90000ML (A)
- the number of unit shares allocated to licence holders in a river valley immediately after the WMA Licences are issued – 100000 unit shares (S)
- a licence holder's Entitlement (expressed in megalitres) immediately before those WMA Licences are issued – 1000ML
- a licence holder's Entitlement (expressed in megalitres) immediately after those WMA Licences are issued – 900ML
- the number of unit shares allocated to a licence holders in a river valley immediately after the WMA Licences are issued – 1000 unit shares

The following conversion ratio is to be applied to the entitlement charge in Tables 5 and 6:

$$CF = \frac{A}{S}$$

$$CF = \frac{90000}{100000}$$

$$CF = 0.9$$

For example – assuming that the licence holder is in the Peel Valley, that licence holder will be paying in the relevant year the following entitlement charges:

- Before conversion - \$2520 (being \$2.52/ML of Entitlement x 1000 ML).
- After conversion but before the application of the conversion factor - \$2520 (being \$2.52/unit share X 1000 unit shares).
- After conversion and after the application of the conversion factor - \$2268 (being \$2.52/unit share x 1000 unit shares x 0.90 or \$2.268/unit share x 1000 unit shares).

Explanation of the conversion ratio based on the above example:

- The aim of the conversion factor is to provide customers with some protection in situations where Entitlement Volumes under their WMA Licence have been reduced by maintaining the effective price of entitlement to water.
- A licence holder in the Peel Valley whose WA licence was converted into a WMA Licence now has a 1000 unit shares which entitles him to use 900ML of water a year (as opposed to 1000ML under his WA Licence).
- If the conversion factor were not applied to the entitlement charge in Table 5, the entitlement charge payable by the licence holder would be \$2520 for 900ML of Entitlement Volume (this is the same amount payable by the licence holder under his WA Licence which entitled him to use 1000ML of water).
- If the conversion factor were applied to the entitlement charge in Table 5, the entitlement charge payable by the licence holder would be \$2268 for 900ML of Entitlement Volume.
- The effective price of water after conversion would be \$2.52 (\$2268 divided by 900ML). The effective price of \$2.52 per ML of entitlement to water is therefore maintained.

Part 3 – clause 6 Schedule 3

Assuming that:

- total Entitlement Volume (expressed in megalitres) of all Licence holders in a river valley immediately before the introduction of the Water Sharing Plan – 100,000ML (E)
- megalitre per unit share in a river valley– 1ML/unit (F)
- total Entitlement Volume (expressed in megalitres) of all WMA Licence holders in a river valley immediately after the introduction of the Water Sharing Plan (including Entitlement Volumes on any supplementary licences for extraction of Ground Water) – 50,000ML (G)
- a licence holder’s Entitlement (expressed in megalitres) immediately before the conversion of his WA Licence to a WMA Licences – 1000ML
- the number of unit shares allocated to a licence holder – 500 unit shares
- each unit share represents 1 ML of entitlement to water

The following conversion ratio is to be applied to the entitlement charge in Table 10:

$$CR = \frac{(E \times F)}{G}$$

$$CR = \frac{(100,000 \text{ ML} \times 1 \text{ ML/unit})}{50,000 \text{ ML}}$$

$$CR = 2$$

For example – assuming that the licence holder is in the Peel Valley, that licence holder will be paying in a relevant year the following entitlement charges:

- Before conversion - \$1130 (being \$1.13/ML of Entitlement x 1000 ML).
- After conversion but before the application of the conversion ratio - \$565 (being \$1.13/unit share X 500 unit shares).
- After conversion and after the application of the conversion ratio - \$1130 (being \$1.13/unit share x 500 unit shares x 2 or \$2.26/unit share x 500 unit shares).

Explanation of the conversion ratio based on the above example:

- The aim of the Ground Water conversion ratio is to maintain the Corporation's revenue.
- A licence holder in the Peel Valley whose WA licence was converted into a WMA Licence now has 500 unit shares which entitles him to use 500ML of water a year (as opposed to 1,000ML under his WA Licence).
- If the conversion ratio were not applied to the entitlement charge in Table 10, the entitlement charge payable by the licence holder would be \$565 for 500ML of entitlement to water (as opposed to \$1,130 under his WA Licence which entitled him to use 1000ML of water – the loss to the Corporation of \$565).
- If the conversion ratio were applied to the entitlement charge in Table 10, the entitlement charge payable by the licence holder would be \$1,130 for 500ML of entitlement to water. The consequence of applying the conversion ratio was that the licence holder's bill and the Corporation's revenue remained unchanged.

TRAVEL AGENTS ACT 1986 LIST OF LICENSED TRAVEL AGENTS

SECTION 40 (2) of the Travel Agents Act 1986 requires the Commissioner for Fair Trading to publish in the Government Gazette from time to time a list of licence holders.

Section 40 (7) of the Act deems the supplier of travel services to an unlisted travel agent to have aided and abetted that person in carrying on business as a travel agent. Thus the supplier could be subject to the same penalty of 500 penalty units as the agent is trading without a licence.

Suppliers of travel services should not deal with an unlisted person or corporation unable to produce a travel agent's licence.
