- (a) approved by the Minister when the map is adopted, and
  - (b) as amended from time to time by maps declared by environmental planning instruments to amend that map, and approved by the Minister when the instruments are made.
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant aspect or part of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

**Note.** The maps adopted by this Plan are the Floor Space Ratio Map, the Height of Buildings Map, the Heritage Map, Key Sites Map, the Land Application Map, the Land Reservation Acquisition Map, the Land Zoning Map and the Sun Plane Protection Map.

#### **8A Suspension of covenants, agreements and instruments**

- (1) For the purpose of enabling development on land within any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

- (1) This Plan is subject to the provisions of any State environmental planning policy and any regional environmental plan that prevail over this Plan as provided by section 36 of the Act.  
**Note.** Section 36 of the Act generally provides that SEPPs prevail over REPs and REPs prevail over LEPs. However, a LEP may (by an additional provision included in the Plan) displace or amend a SEPP or REP to deal specifically with the relationship between this Plan and the SEPP or REP.

  - (a) to allow sunlight access to key areas of the public domain by ensuring that further overshadowing of certain parks and community places is avoided or limited during nominated times,
  - (b) to provide high quality urban form for all buildings,
  - (c) to maintain satisfactory sky exposure and daylight to existing buildings, to the sides and rear of tower forms and to public areas, including parks, streets and lanes,
  - (d) to ensure that taller development occurs on sites capable of providing appropriate urban form and amenity,
  - (e) to nominate heights that will provide a transition in built form and land use intensity within the area covered by this Plan,
  - (f) to ensure an appropriate height transition between new buildings and heritage items.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

### **21A Sun access planes**

- (1) This clause applies to land shown coloured yellow on the Sun Plane Protection Map.

where:

$X$  is (the site area in square metres - 800)/1200.

- (4) The maximum floor space ratio for a building on land within a Business Zone under this Plan, that is to be used for a mixture of residential activities and other activities, is:

**NR** is the percentage of the floor space of the building used for activities other than residential activities.

**NRFSR** is the maximum floor space ratio determined in accordance with this clause if the building was to be used only for activities other than residential activities.

**R** is the percentage of the floor space of the building used for residential activities.

**RFSR** is the maximum floor space ratio determined in accordance with this clause if the building was to be used only for residential activities.

**Note.** The following gives an example of how a maximum floor space ratio is to be calculated for a building on land, having a site area equal to or greater than 2000 square metres and a street frontage equal to or greater than 20 metres, that is within Zone B3 Commercial Core, 30 per cent of which is to be used for activities other than residential activities and 70 per cent of which is to be used for residential activities:

  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause or of *State Environmental Planning Policy No 1—Development Standards*.
- (3) Consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:

  - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Consent must not be granted for development that contravenes a development standard unless:
  - (a) the consent authority is satisfied that:
    - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and

Clause 25	Wollongong City Centre Local Environmental Plan 2007
Part 5	Miscellaneous provisions

## Part 5 Miscellaneous provisions

### 25 Land acquisition within certain zones

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (**the owner-initiated acquisition provisions**).

**Note.** If the landholder will suffer hardship or if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State

### 26 Development on proposed classified road

- (1) Consent for development on land reserved for the purposes of a classified road may, before the land becomes a classified road, be granted only if:
- the development is carried out with the concurrence of the Roads and Traffic Authority (**the RTA**), and
  - the development is of a kind, or is compatible with development of a kind, that may be carried out on land in an adjoining zone.

Clause 27

Miscellaneous provisions

Part 5

- (2) In deciding whether to grant concurrence to proposed development under this clause, the RTA must take the following matters into consideration:
- (a) the need to carry out development on the land for the purposes of a classified road or a proposed classified road,
  - (b) the imminence of acquisition of the land by the RTA,
  - (c) the likely additional cost to the RTA resulting from the carrying out of the proposed development.

## 27 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council, by means of this Plan, to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.
- Note.** Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.
- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4:
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
  - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve on the commencement of the relevant classification Plan and, by the operation of that Plan, is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and

Clause 29            Wollongong City Centre Local Environmental Plan 2007

Part 5                Miscellaneous provisions

- (b) any reservations that except land out of the Crown grant relating to the land, and
  - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).
- (6) In this clause, the ***relevant classification Plan***, in relation to land described in Part 2 of Schedule 4, means this Plan or, if the description of the land is inserted into that Part by another environmental planning instrument, that instrument.
  - (7) Before the relevant classification Plan inserted a description of land into Part 2 of Schedule 4, the Governor approved of subclause (5) applying to the land.

**29 Community use of educational establishments**

- (1) The objective of this clause is to allow the use of educational establishments, including their site and facilities, for other community purposes.
- (2) An educational establishment (including the site and facilities) may, with consent, be used for any other community purpose, whether or not any such use is a commercial use of the land.
- (3) Nothing in this clause requires consent to carry out development on any land if that development could, but for this clause, be carried out on that land without consent.

**29A Ground floor development on land within Zone B3 Commercial Core or B6 Enterprise Corridor**

- (1) Development consent must not be granted for development on the ground floor of a building on land within Zone B3 Commercial Core or B6 Enterprise Corridor if the development would result in any part of that floor not being used for commercial activities that have active street frontages, other than any parts of that floor used for the purposes of:
  - (a) lobbies for any commercial, residential, serviced apartment or hotel component of the development, or
  - (b) access for fire services, or
  - (c) vehicle access.
- (2) Despite subclause (1), an active street frontage is not required in respect of any part of a building facing a service lane.
- (3) In this clause:
 

***commercial activities***, in relation to the use of a building, means using the building for the purposes of office premises, retail premises, amusement centres, function centres, medical centres, registered clubs,

business premises, hotel accommodation (but not hotel accommodation that is subdivided under a strata scheme) or other like uses or a combination of such uses.

### 30 Classified roads

- (1) The objectives of this clause are:
  - (a) to ensure that new development does not compromise the effective and ongoing operation and function of classified roads, and
  - (b) to prevent or reduce the potential impact of traffic noise and vehicle emission on development adjacent to classified roads.
- (2) Consent must not be granted to the development of land that has a frontage to a classified road unless the consent authority is satisfied that:
  - (a) where practicable, vehicular access to the land is provided by a road other than the classified road, and
  - (b) the safety, efficiency and ongoing operation of the classified road will not be adversely affected by the proposed development as a result of:
    - (i) the design of the vehicular access to the land, or
    - (ii) the emission of smoke or dust from the proposed development, or
    - (iii) the nature, volume or frequency of vehicles using the classified road to gain access to the land, and
  - (c) the development is of a type that is not sensitive to traffic noise or vehicle emissions, or is appropriately located and designed, or includes measures, to ameliorate potential traffic noise or vehicle emissions within the site of the proposed development.

### 31 Development in proximity to a rail corridor

- (1) The objective of this clause is to ensure that development for the purpose of residential accommodation, places of public worship, hospitals, educational establishments or other noise sensitive buildings in the proximity of operating or proposed railways is not adversely affected by rail noise or vibration.
- (2) This clause applies to land comprising, or within 60 metres of, an operating railway line or land reserved for the construction of a railway line (referred in this clause as a *rail corridor*).
- (3) Development consent must not be granted to development:
  - (a) that is within a rail corridor, and

(b) that the consent authority considers is, or is likely to be, adversely affected by rail noise or vibration,

unless the consent authority is satisfied that the proposed development incorporates all practical mitigation measures for rail noise or vibration recommended by Rail Corporation New South Wales for development of that kind.

### **32 Development within the coastal zone**
