ALTERATION OF PURPOSE/CONDITIONS OF A WESTERN LANDS LEASE

IT is hereby notified that in pursuance of the provisions of Section 18J, Western Lands Act 1901, the purpose and conditions of the undermentioned Western Lands Lease have been altered as shown.

TONY KELLY, M.L.C.,
Minister for Lands

Administrative District – Cobar;
Shire – Cobar;
Parish – Beauport;
County – Blaxland

The purpose/conditions of Western Lands Leases 10392, being the land contained within Folio Identifier 4364/767201 has been altered from “Grazing” to “Cultivation” effective from 7 April 2008.

As a consequence of the alteration of purpose/conditions rent will be assessed annually in line with the Western Lands Act 1901 and Regulations.

The lease conditions have been altered by the inclusion of the special conditions following.

SPECIAL CONDITIONS ATTACHED TO WESTERN LANDS LEASE 10392

1. The lessee shall only cultivate an area of 2334 hectares indicated on the diagram hereunder.
2. The lessee must ensure that sandhills and other soils with a surface texture of loamy sand or coarser are left uncultivated unless specifically approved by the Commissioner.
3. Areas with a slope greater than 2% shall not be cultivated until any soil conservation measures documented in a plan approved by the Commissioner have been implemented at the lessee's expense.
4. The lessee shall ensure that cultivation and associated activities do not interfere with any road formation within the allowable area.
5. Incised drainage lines, other than man made structures, which carry water after storms shall be left uncultivated in the channels and for a distance of at least 20 metres on either side of the banks of the channels except when the Commissioner specifies otherwise.
6. Stubble shall be retained on the soil surface and shall not be burnt, except with the approval of the Commissioner or his delegate. Where such approval is granted, stubble burning is to be carried out as per requirements of the NSW Rural Fire Service.
7. Aboriginal sites are protected under the National Parks and Wildlife Act 1974, and are extremely vulnerable to many kinds of agricultural development.

Should any Aboriginal archaeological relics or sites be uncovered during the proposed works, work is to cease immediately. The lessee must consider the requirements of the National Parks and Wildlife Act 1974, with regard to Aboriginal relics. Under Section 90 it is an offence to damage or destroy relics without prior consent of the Director-General of the Department of Environment and Climate Change.

If an Aboriginal site is found in this area, the subject of this consent, the cultivation must cease until the consent holder has notified the Department of Environment and Conservation of the existence of the Aboriginal site. Contact details are:

The Manager, Cultural Heritage Unit, Department of Environment and Climate change, Phone (02) 6883 5324 or at 58-62 Wingewarra Street, Dubbo.

8. The lessee shall undertake any appropriate measures, at his/her own expense, ordered by the Commissioner to rehabilitate any degraded cultivated areas.
9. The lessee shall establish windbreaks at his/her own expense as may be ordered by the Commissioner to provide adequate protection of the soil.
10. The lessee shall undertake any fuel management and/or provision of fire trail access in accordance with fire mitigation measures to the satisfaction of the NSW Rural Fire Service.

WATER MANAGEMENT ACT 2000

Order under section 323

Temporary Water Restriction Order

Wakool River and Merran Creek systems

PURSUANT to section 323 of the Water Management Act 2000, I, David Harriss, as delegate for the Minister for Water, on being satisfied that it is necessary in the public interest to do so because of water shortage, do by this Order direct that the taking of water from those water sources listed in Schedule 1 of this Order is restricted as set out in Schedule 2 of this Order

This Order takes effect on the date of first broadcast and remains in force until 30th June 2008 unless repealed or modified earlier.

This Order revokes the previous Order dated 29 February 2008, made under s323 for the Wakool River and Merran Creek Systems and published in the NSW Government Gazette on 7 March 2008, No 30, pg 2211.

This Order overrides any order made pursuant to s323 to the extent of any inconsistency, other than the Order dated 25th October 2007 and published in the NSW Government Gazette on 2nd November 2007, No 160, page 8261.

Dated at Albury this 4th day of April 2008.

DAVID HARRISS,
Deputy Director General
Water Management
Department of Water and Energy

SCHEDULE 2

WATER RESTRICTIONS

1. The taking of water pursuant to a basic landholder right under s52 of the Water Management Act 2000 through a water pump with an inlet diameter greater than 50mm is prohibited.
2. The taking of water pursuant to a domestic and stock access licence through a water pump with an inlet diameter greater than 50mm is prohibited.

3. The total volume of water that may be taken from the water sources pursuant to a basic landholder right or under a domestic and stock access licence over the period of this Order is 5ML.
4. The taking of water under a regulated river (high security) access licence and a regulated river (general security) access licence is prohibited.
5. The restrictions and prohibitions in paragraphs 1, 2, 3 and 4 of this Schedule do not apply where a Manager Licensing of the Department of Water and Energy is satisfied that special circumstances exist and certifies in writing that an owner or occupier of a landholding or a holder of a domestic and stock access licence, regulated river (high security) access licence or a regulated river (general security) access licence is no longer subject to the restriction. The Manager Licensing may in his absolute discretion revoke the certification at any time.

WATER ACT 1912
Order Under Section 113A

Embargo on any further Applications for Sub Surface Water Licences.

Coastal Floodplain Alluvial Groundwater Sources and Highly Connected Alluvial Groundwater Sources of Coastal Catchments – Regional NSW

Pursuant to Section 113A of the Water Act 1912, the Water Administration Ministerial Corporation, being satisfied that the Water Shortage Zone, as shown in the Schedule, is unlikely to have more water available than is sufficient to meet requirements of the licensees of bores situated within the Water Shortage Zone and such other possible requirements from the Water Shortage Zone as are determined by the Ministerial Corporation, now declares that on and from the date of publication of this Order in the *Government Gazette*, no further applications for a licence under Part 5 of the Water Act, 1912 relating to the Water Shortage Zone may be made, except as specified below until this Order is revoked by a subsequent Notice published in the *Government Gazette*.

This Order relates to all applications for licences made under Part 5 of the Water Act 1912, other than applications for licences for:

1. Water supply for stock purposes;
For the purpose of this order 'stock' means stock of a number not exceeding the number pastured ordinarily on the lands having regard to seasonal fluctuations in the carrying capacity of the land and not held in close concentration for a purpose other than grazing. This excludes intensive animal agriculture and/or husbandry;
2. Water supply for private domestic purposes;
3. Water supply for town or village water supply purpose;
4. Water supply for community recreational facilities;
For the purposes of this order, 'community recreational facilities' includes, but is not limited to parks, hospital grounds, playgrounds, ovals and sporting grounds and excludes commercial operations such as golf courses;
5. Monitoring and test bores for groundwater investigation and/or environmental management purposes;
6. Water supply for Aboriginal (cultural) purposes provided that the annual extraction does not exceed 10 megalitres;
7. Bores on a property where:
 - (i) there is no increase in entitlement, and
 - (ii) there is no increase in casing diameter or equivalent size casing diameter if existing casing size no longer exists, and
 - (iii) there is no increase in depth of work, unless the deepening results in an improvement in environmental outcomes, and
 - (iv) the new work is located within 20 metres of the original work, unless moving the bore further results in an improvement in environmental outcomes, and
 - (v) the new work is to replace an existing work licensed under Part 5 of the Water Act 1912;
8. Bores on a property which are the subject of an integrated development consent that was determined under Part 4 of the Environmental Planning & Assessment Act 1979 prior to the date of this order and which are consistent with the General Terms of Approval provided for a licence under Part 5 of the Water Act 1912 included in that consent.
9. Bores related to a development proposal under Part 3A of the Environmental Planning & Assessment Act 1979 that the Department has provided requirements for a licence under Part 5 of the Water Act 1912 in the referral process and the application satisfies the Departments requirements.
10. Industrial (road construction/dust suppression) purposes.

11. On the coastal floodplains only (ie those downstream of the tidal limit) an application where the annual water use will not exceed 5 megalitres per year.
12. A dewatering activity that removes less than 10 megalitres of groundwater, or a dewatering activity which takes place over a period of less than five (5) weeks.
13. Conversion to a Production Bore licence where a Test Bore licence already exists. (This exemption provision expires 6 months from the date this Order is gazetted).

Notwithstanding paragraphs 1-13, this order does not apply to an application for a renewal of a licence (renewal application is under s115 and no need to include in the order) or an application for a licence for a bore to produce water to satisfy a water allocation arising from the transfer of a water allocation under s. 117J.

Signed for the Water Administration Ministerial Corporation.

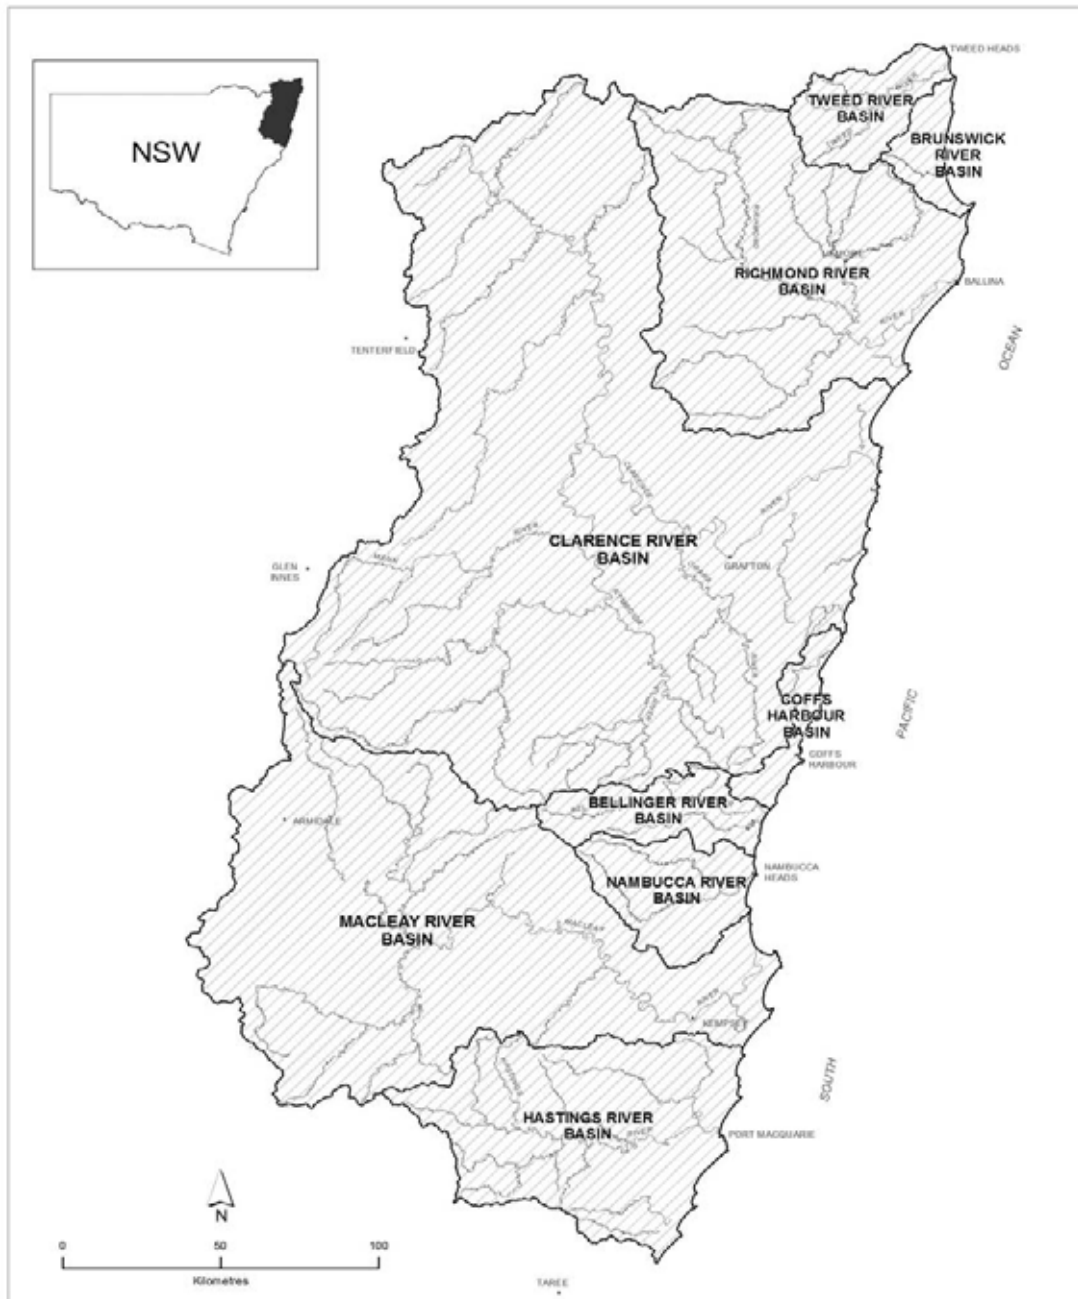

Dated this

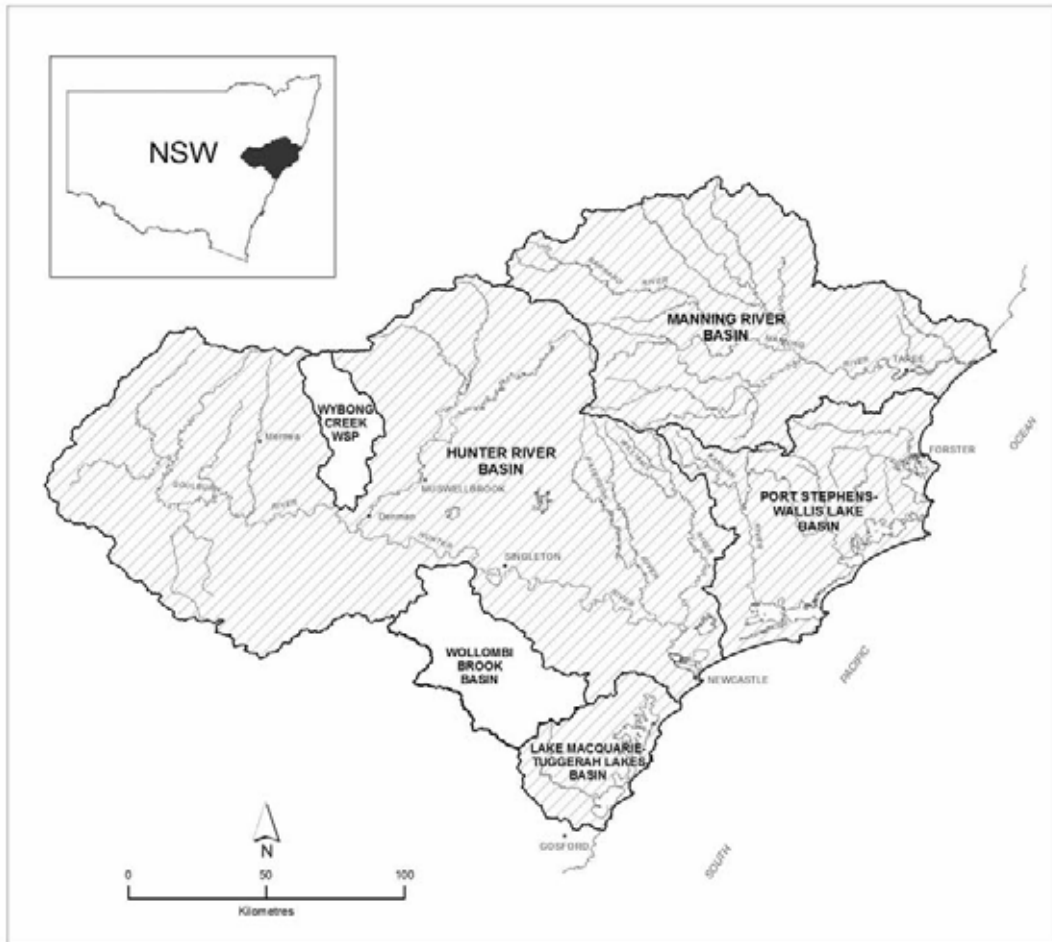

DAVID HARRISS
Deputy Director General
Water Management
Department of Water & Energy

Schedule

All the groundwater found in alluvial aquifers located upstream of the tidal limit, and within 500 meters of a 3rd order stream or greater, in the catchments shown on the diagrams hereunder.

All the groundwater found in alluvial aquifers located downstream of the tidal limit in the catchments shown on the diagrams hereunder.

FAIR TRADING AMENDMENT (FUNERAL GOODS AND SERVICES) REGULATION 2008

Proposed Fair Trading Amendment (Funeral Goods and Services) Regulation 2008

Invitation to comment

FOLLOWING several reviews of the funeral industry, the Fair Trading Amendment (Funeral Goods and Services) Regulation 2008 has been prepared to prescribe an information standard for suppliers of funeral goods and services. It requires them to give consumers information about the cost of a basic funeral service, an itemised list of the likely cost of a planned funeral service and, once the funeral has been completed, a final statement indicating the actual costs incurred. Details of what constitutes a basic funeral service are outlined in the Regulation.

The draft Regulation and a Regulatory Impact Statement which discusses the costs and benefits of the proposed requirements are being released for consultation.

Comments and submissions are invited from interested individuals and organisations.

The Regulatory Impact Statement and the proposed Regulation can be requested from the Office of Fair Trading

by telephone on (02) 9338 8925 or can be downloaded from the Fair Trading website at www.fairtrading.nsw.gov.au

Comments and submissions should be e-mailed (preferred), mailed or faxed by Friday 16 May 2008 to:

PIPELINES ACT 1967

Erratum and Notification of Vesting of Lands and Easements

Colongra Gas Pipeline

Pipeline Licence No. 33

THE Notice titled Pipelines Act 1967 Notification of Vesting of Lands and Easements Colongra Gas Pipeline published in the Government Gazette of 7 December 2007, folio 9489, contained an error and is amended and replaced with this Notice, to take effect from the date of this Notice.

I, IAN MICHAEL MACDONALD, Minister for Energy, pursuant to the provisions of sections 21 and 61 of the Pipelines Act 1967, hereby declare that the land and easements over the lands described in Schedule 1 hereto are vested in Delta Electricity (ABN 67 139 819 642) for the purposes of and incidental to the construction and operation of a pipeline subject to the restrictions as to user set out in Schedule 2 hereto.

Dated this seventh day of April 2008.

IAN MACDONALD, M.L.C.,
MINISTER FOR ENERGY

SCHEDULE 1

Lands Acquired or Affected by Easements for Pipeline

All those pieces or parcels of land described in Deposited Plans 1118119 and 1118125 and accompanying instruments under Section 20 of the Pipelines Act 1967 lodged and registered at the Sydney office of Land and Property Information NSW.

SCHEDULE 2

Restrictions as to User

Without affecting the generality of any requirement imposed by the Pipelines Act 1967 or regulations thereunder, the owner or occupier of land over which there is an easement for pipeline must not within the easement, except with the prior consent in writing of the person in whom the easement is vested:

- (a) Excavate (including blasting), drill or dig.
- (b) Erect, place or permit to be erected or placed any building, structure (including fence posts), plant, apparatus or equipment, earthworks, utility services or other improvements whether permanent or temporary on, over or under the land.
- (c) Alter or disturb existing levels, contours or gradients.

- (d) Plant or cultivate any tree within 3 metres of the pipeline or any apparatus or works.
- (e) Place on or use any part of the land for the transport, carriage or support of any heavy object, vehicle or implement, which could in any way cause or be likely to cause damage to the pipeline.
- (f) Undertake any other activity that represents a danger to the pipeline or is a danger to the operation of the pipeline or its apparatus or works including signs, vent pipes and cathodic protection systems including anode beds and electrolysis test points.

POISONS AND THERAPEUTIC GOODS ACT 1966

Order under Clause 171(1),

POISONS AND THERAPEUTIC GOODS REGULATION 2002.

Withdrawal of Drug Authority

IN accordance with the provisions of clause 171(1) of the Poisons and Therapeutic Goods Regulation 2002 an order has been made on Dr Malvern Bruce Shinn of 3 Goldvilla Drive, Elanora, Queensland 4221 prohibiting him, until further notice, as a medical practitioner from having possession of and supplying drugs of addiction as authorised by clause 101 of the Regulation and issuing a prescription for a drug of addiction as authorised by clause 76 of the Regulation.

This order is to take effect on and from 8 April 2008.

Director-General

Department of Health, New South Wales
Sydney, 3 April 2008

PRACTICE NOTE NO. SC CA 1**Commencement**

1. This Practice Note commences on 14 April 2008.

Application

2. This Practice Note applies to any step taken in proceedings in the Court of Appeal after the commencement of this Practice Note: see r 51.1(2).

Definitions

3. In this Practice Note:

rules means the Uniform Civil Procedure Rules 2005.

old rules means Part 51, of the Supreme Court Rules 1970 as in force immediately before their repeal.

Other words and phrases have the meanings assigned by r 51.2.

Commencement – reference to decision below

4. Where proceedings are commenced in relation to a decision of a Court or Tribunal which has a media neutral citation, that citation should be included in the identification of the decision from which the appeal or other challenge is brought.

Commencement of appeals

5. All rights to appeal arise under statute. Before commencing proceedings, the moving party should identify the provision under which the right of appeal arises. It is necessary to identify the provision in the Notice of Appeal, if an appeal is as of right, and in the Summons for leave if leave is sought.

6. Even where an appeal may be brought as of right under a particular provision, attention should be paid to any qualification requiring leave in particular circumstances. Where leave is required it must be sought by way of summons.

7. In relation to appeals from Tribunals or other bodies, the matters assigned to the Court of Appeal are identified in s 48 of the Supreme Court Act 1970.

8. The scope of appellate jurisdiction may be limited, for example as to questions of law, or subject in certain cases to the grant of leave to appeal. The main provisions creating appellate jurisdiction in the Court of Appeal and stating when leave to appeal is required are:

Appeals from Supreme Court

Supreme Court Act 1970, ss 101 (general provision, including matters requiring leave in s 101(2)), 101A (question of law concerning criminal contempt), 102 (appeal after Supreme Court jury trial), 103 (appeal from separate decision in Supreme Court).

Appeals from Land and Environment Court

Land and Environment Court Act 1979, ss 57, 58. See also *Supreme Court Act 1970*, s 48(1)(a)(i).

Appeals from Dust Diseases Tribunal

Dust Diseases Tribunal Act 1989, s 32. See also *Supreme Court Act 1970*, s 48(1)(a)(ia).

Appeals from District Court

District Court Act 1973, ss 127, 142N. See also *Supreme Court Act 1970*, s 48(1)(a)(iv).

Appeals from GREAT Tribunal

Government and Related Employees Appeal Tribunal Act 1980, s 54. See also *Supreme Court Act 1970*, s 48(1)(a)(iii).

Appeals from Workers Compensation Commission constituted by Presidential Member

Workplace Injury Management and Workers Compensation Act 1998, s 53.

Appeals from other Tribunals

If the relevant statute confers a right of appeal to the Supreme Court and if s 48(1)(a)(vii) of the Supreme Court Act applies, the appeal is assigned to the Court of Appeal. As to s 48(1)(a)(vii), see *Daykin v SAS Trustee Corporation* (2001) 51 NSWLR 328, [2001] NSWSC 58.

9. In cases where the right of appeal is limited, for example to errors of law, the statement of grounds to be included in the Notice of Appeal must be appropriately formulated.

10. A notice of appeal (including a draft notice of appeal supporting a leave application contained in the White Folder) must state the matters required by r 51.18. It is not enough merely to allege that the primary court erred in law or fact or that its decision is against the evidence or the weight of the evidence. The grounds of appeal must identify the respects in which error in law or (if applicable) fact occurred as well as any material findings that it is said that the primary court should or should not have made, and any material facts that it is said that the primary court should or should not have found.

Time for commencement

11. Subject to the rules permitting the filing of a Notice of Intention to Appeal (see paras 12-14), a Summons seeking leave to appeal and a Notice of Appeal generally must be filed within 28 days after the "material date" as defined in r 51.2: see r 51.8. If the Court grants leave to appeal, a Notice of Appeal must be filed within 7 days of leave being granted unless the Court orders otherwise.

12. The Rules permit an applicant to file a Notice of Intention to Appeal, whether the appeal is as of right or by leave. The notice must be filed within 28 days after the "material date", as defined in r 51.2: see r 51.8.

13. The filing and service of a Notice of Intention to Appeal does not have the effect of commencing proceedings in the Court: r 51.9(3). Its effect is limited to extending the time otherwise allowed for filing and serving a Notice of Appeal or a Summons seeking leave in cases where there is no period specified otherwise than under the Rules: see rr 51.7(b), 51.16(1). Note that the time for bringing appeals from GREAT is fixed at 21 days by s 55 of the Government and Related Employees Appeal Tribunal Act and cannot be extended by filing a Notice of Intention to Appeal (see *Commissioner of Corrective Services v Walker* [2007] NSWCA 213).

14. Where a Notice of Intention to Appeal is filed and served, the Rules provide that the Notice of Appeal or summons seeking leave to appeal must be filed and served within three months after the material date as defined in r 51.2, and not, as under the old rules, from the date of filing a holding summons or a notice of appeal without appointment: see UCPR r 51.6.

15. The Rules permit a prospective respondent to file a notice of intention to appeal: See UCPR r51.9A.

Applications for leave

16. An application for leave to appeal is commenced by Summons. It must be filed and served within 28 days after the material date, or, in the case of an application for leave to cross-appeal, 28 days after the application for leave to appeal unless the time has been extended by the filing of a Notice of Intention to Appeal: see r 51.10.

17. Supporting documentation must be included in the White Folder containing the summary of argument and other documents referred to in r 51.12. Thereafter the opponent must file a response and additional documents in accordance with r 51.13.

Separate or concurrent hearings

18. Where leave to appeal is required, each party should indicate in the summary of argument whether (and if so why) the matter is thought appropriate for a concurrent hearing of the leave application and the appeal: r 51.12(4)(g).

19. Where application is made for a concurrent hearing, the summary of argument should address the following matters:

- (a) the extent to which the argument on the application for leave is expected to canvas the merits of the appeal;
- (b) the extent to which the application for leave will require reference to materials which would be relevant to the appeal;

- (c) whether the appeal will involve an issue of public importance;
 - (d) any prejudice which may be suffered as a result of delay flowing from a separate leave application; and
 - (e) any matter relevant to the reason why leave is required in the circumstances of the case.
20. Applications for concurrent hearings will be determined by a judge on the papers (r 51.14) and a decision will be conveyed to the parties on the first mention date thereafter by the Registrar.
21. If a direction is given for a concurrent hearing, the Registrar will give such of the following directions as may be necessary in the circumstances of the case:
- (a) if additional papers are required, whether the White Folder can be supplemented or whether it is necessary to prepare appeal books;
 - (b) whether the summaries of argument sufficiently address the merits of the appeal or should be replaced by written submissions as on an appeal;
 - (c) such other directions as might be necessary for the hearing of the appeal.

Proceedings other than appeal proceedings

22. Where it is sought to bring proceedings by way of judicial review, pursuant for example to ss 65 or 69 of the Supreme Court Act, such proceedings may be brought in the Court of Appeal if they relate to a specified Tribunal as defined in s 48 of the Supreme Court Act.
23. Proceedings by way of judicial review should be commenced by way of Summons: r 51.45. The Rules now require an applicant to file written submissions not exceeding 20 pages to address the matters set out in r 51.45(3).

Expedition

24. A party may apply for the hearing of an appeal or application for leave to be expedited: r 51.60. If each interested party files a Notice of Non-objection the application may be decided on the papers. Expedition may also be sought at a directions hearing or an application for a stay or when leave to appeal is granted.

Case management

25. Parties seeking case management, including the making of orders for filing of electronic appeal books, should file a motion for directions accordingly if the Court has not already set matters in train for case management.

Parties

26. In preparing a Summons or Notice of Appeal, the applicant or appellant should identify and join any person who is interested in the outcome of the appeal: r 51.4. This may require the joinder of a party not joined by the applicant or appellant in the court below. Where the status of a party has changed since the commencement of the proceedings in the court below, for example a corporation entering liquidation, procedural steps should be taken to permit it to be joined to proceedings and the Registrar advised of the steps which are required or have been taken.
27. The Tribunal below is not a party to proceedings by way of appeal, but must be joined if the proceedings are by way of judicial review.

Orders relevant to appeal

28. A Notice of Appeal (or draft Notice of Appeal in the case of an application for leave to appeal) should identify the orders made by the court below which are the subject of challenge. Where there is provision for the formal entry of orders, a copy of the orders as entered should be included with the reasons for judgment in the White Folder or the Red Book.
29. Appeals are brought from orders, not from the reasons of the court below. Accordingly it is necessary for the applicant or appellant to identify those orders which are sought to be set aside or varied and the orders sought in their place.
30. The applicant or appellant should also include in the summary of argument or the written submissions (as relevant) any relevant information as to the status of the orders made by the court below. If a stay is in place, the terms of the stay must be identified. If part or all of the judgment has been paid, that fact, together with any consequential order sought with respect to repayment (including any claim for interest) if the appeal succeeds, must be included in the notice of appeal (see r 51.19).

Objections as to competency

31. A respondent who objects to the competency of an appeal (including the competency of an appeal brought as of right where leave is required) must apply by motion for an order dismissing the appeal as incompetent. The notice of motion must be filed and served on all other parties to the appeal within 28 days after service on the respondent of the notice of appeal: r 51.41. Failure to comply may have adverse costs consequences: r 51.41(2).
32. If an appellant is faced with a formal objection to the competency of its appeal and intends to seek leave to appeal, the application for leave should be filed before the hearing of the contested competency application so that the two matters can be heard concurrently: *Council of the Municipality of Woollahra v Sved* (unreported, Mason P and Sheller JA, 18 May 1998, 24 July 1998).

Summaries of argument, written submissions and chronologies

33. The Rules contain detailed requirements in relation to summaries of argument and written submissions, including limitations on length: see rr 51.12, 51.13 (leave applications), 51.36 (appeals), 51.45 (proceedings other than appeal proceedings).
34. Chronologies prepared in accordance with r 51.35 must be filed in an appeal by the appellant (r 51.34(1) (b)) and may be filed by the respondent (r 51.34(2)). It must contain cross-references to the Appeal Book. The chronology should be an objectively correct statement of "the principal events leading up to the litigation" and should not be a chronology merely of those matters of assistance to one party or the other: *Woods v Harwin* (CA(NSW), Mahoney AP, Clarke and Meagher JJA, 5 November 1993, unreported). The chronology should include key events in the litigation, such as the commencement of the proceedings in the court below. Failure to file a proper chronology may have adverse costs consequences.

35. The following is the suggested form for chronologies:

DATE	EVENT	APPEAL BOOK & PAGE No.
22.09.2001	Arrangements in Wagga between Smith and Co for financing of wheat purchases	Black 62
23.11.2001	First request by Brown to Smith and Co for draw down to pay for wheat purchases	Black 71
30.11.2001 at 0930 hrs	Fax Smith and Co to Brown re above	Blue 15 (Exhibit 5)
30.11.2001 at 1145 hrs	Telex Brown to Smith and Co requesting drawdown to pay for further wheat	Blue at 20 (Exhibit 6)
01.12.2001	“Warehouse receipt” from Jones to Smith and Co	Blue 18 (Exhibit D)
06.01.2002	Letter Jones to Smith and Co concerning method of carrying out financial arrangements for barley	Blue at 12 (Exhibit 7)
07.01.2002	Internal memorandum of Smith and Co re meeting Allen in Wagga	Blue at 22 (Exhibit 8)

36. As to the time for filing written submission and chronologies in an appeal see r 51.37. These and other documents must be included in the Orange Book (see r 51.30).

37. A party who proposes to seek leave to challenge the correctness of a decision of the Court of Appeal or of another Australian intermediate appellate court should notify the Registrar at the earliest opportunity. The letter should indicate the decision(s) likely to be challenged and their materiality to the instant proceedings.

38. If substantial grounds of appeal are abandoned prior to the hearing then the other parties and the Court should be informed immediately. Substantial amendments should similarly be notified together with a Notice of Motion seeking leave to rely upon the varied grounds.

Motions

39. An interlocutory application by Summons, Notice of Motion or otherwise, will be listed at 9.45am in the motion list before the Registrar on a Monday unless otherwise ordered. The parties should expect that it will proceed on the return date.

40. At 9.45am the Registrar will commence to call over all matters in the list.

41. Applications for the following may be dealt with by the Registrar:

- consent orders;
- extensions of time;
- competency of appeals;
- security for costs; and
- non-compliance with directions.

42. The following applications will be assigned to the Referrals Judge for hearing:

- expedition of the hearing of proceedings, where there is no consent;
- contested applications for stay or injunction; and
- other matters as determined by the Registrar.

Settlement of pending proceedings

43. Where a motion has settled or is not to proceed on the motion day, the Registrar must be informed forthwith. If the Registrar cannot be contacted, the President's Associate should be contacted.

44. Any settlement touching a substantive matter should be notified to the Registrar as soon as it has occurred or becomes imminent.

List of authorities

45. Each party must, no later than 24 hours before the hearing of an appeal or other proceeding, lodge in the box provided on level 12, Supreme Court building, four copies of a list including:

- (a) reference to any Commonwealth or New South Wales statutes, identifying the relevant reprint or date;
- (b) in relation to other jurisdictions, annexing copies of the relevant legislation;
- (c) cases from which passages will be read in the course of argument being:
 - (i) cases reported in the CLR and NSWLRs (maximum 10 without leave);
 - (ii) up to five cases from other reports;
 - (iii) other cases with copies of the relevant parts annexed.
- (d) cases to be cited but not read.

46. No further list need be filed in relation to a leave application where the party concerned has included a list of relevant authorities and legislation complying with para 44 in the summary of argument.

47. If a party decides to read from a case not included in para 45(c), copies are to be provided to the Court at the hearing. For reported cases, only the headnote and relevant passage are to be copied.

Court attire

48. Barristers are to robe (without wigs) if appearing before the Court on the hearing of an appeal, an application for leave or a substantive matter other than an appeal. Robing is not required for directions hearings or Monday referrals before a single Judge or before the Registrar.

**PROPOSED FAIR TRADING AMENDMENT
(FUNERAL GOODS AND SERVICES)
REGULATION 2008**

Invitation to comment

FOLLOWING several reviews of the funeral industry, the Fair Trading Amendment (Funeral Goods and Services) Regulation 2008 has been prepared to prescribe an information standard for suppliers of funeral goods and services. It requires them to give consumers information about the cost of a basic funeral service, an itemised list of the likely cost of a planned funeral service and, once the funeral has been completed, a final statement indicating the actual costs incurred. Details of what constitutes a basic funeral service are outlined in the Regulation.

The draft Regulation and a Regulatory Impact Statement which discusses the costs and benefits of the proposed requirements are being released for consultation.

Comments and submissions are invited from interested individuals and organisations.

The Regulatory Impact Statement and the proposed Regulation can be requested from the Office of Fair Trading by telephone on (02) 9338 8925 or can be downloaded from the Fair Trading website at www.fairtrading.nsw.gov.au.

Comments and submissions should be e-mailed (preferred), mailed or faxed by Friday 16 May 2008 to:

**REVIEW OF THE COMMERCIAL AGENTS AND
PRIVATE INQUIRY AGENTS ACT 2004**

Call for Public Submissions

THE Director General of the Ministry for Police is conducting a Review of the Commercial Agents and Private Inquiry Agents Act 2004 ('the CAPI Act'), which provides the licensing or approval requirements for commercial agent and private inquiry agent activities in NSW.

The purpose of the Review is to determine whether the policy objectives of the Act remain valid and whether the terms of the Act remain appropriate for securing those objectives. The review aims to consider the merits of any potential new legislative and regulatory arrangements for these activities, and seeks comment in the following areas:

- Changes in the environment of the CAPI industry;
- The impact of any potential legislative changes on the CAPI industry;
- Alternative legislative and regulatory frameworks in other jurisdictions;
- Whether the NSW Police Force should continue to be the regulator of the CAPI industry;
- The future role of the NSW Government in further improving the nature of the industry; and
- If a national model would be more beneficial to NSW.

As part of the Review, the Ministry is calling for interested parties to make written submissions on the Commercial Agents and Private Inquiry Agents Act 2004.

Copies of the Act, and of the Terms of Reference for the Inquiry, are available from the NSW Police Force website at www.police.nsw.gov.au/sir.

The closing date for submissions is Friday 20 June 2008. All submissions should be addressed to:

MANLY COUNCIL

Tree Preservation Order 2001

Adopted as a resolution of Council 2nd July, 2001 (pursuant to Clause 8, Model Provisions)

1. Aims & Objectives

Manly Councils policy is to maintain attractiveness, appeal and amenity of the Manly area by preserving healthy trees in recognition of the value and importance of trees held by the community.

The Tree Preservation Order applies to privately owned land and prescribes those trees not requiring Council's written authorisation to remove or prune and those that need a written consent notice to be issued and the conditions applying. The Tree Preservation Order applies to the whole of Manly.

The tree preservation order prevents and prohibits:

- ringbarking
- chopping
- topping
- lopping
- soil build up around trunk
- removal
- injuring
- wilful destruction of any tree or trees within Manly.

2. Applying to remove a tree

A property owner or managing agent must complete an application to Council for removal/or pruning more than 10% of a tree. If a person seeks permission to remove a tree from a neighbouring property, permission must first be obtained from the owner of the tree prior to an application being lodged with Council for consent to remove a tree. In the case of a block of units, the consent of the owner's corporation must be obtained prior to making an application to Council to remove/prune the tree.

3. Council assessment of applications to remove or prune trees

- condition of the tree with respect to disease
- necessity for removal or pruning in order to construct improvements to the property the subject of an application
- effect of erosion—soil retention and diversion or increased flow of surface water
- number of trees and effect on the amenity of the area
- number of healthy trees an area of land will support
- habitat for fauna

4. Trees/plants not requiring Council's consent for removal or pruning

Trees with trunk diameter less than 25cm and a height less than 5m (the trunk diameter should be measured 1m above ground level) on private property only.

- All vegetation on the MANLY COUNCIL noxious weeds list.
- Dead trees where technical evidence can be provided to show they are dead
- The following species:

<i>Alianthus altissima</i>	<i>Tree of Heaven</i>
<i>Alnus acuminata</i>	<i>Evergreen Alders</i>
<i>Arecastrum romanzoffianum</i>	<i>Cocos palms</i>
<i>Carica papaya</i>	<i>Paw paw</i>
<i>Cinnamomum camphora</i>	<i>Camphor laurel</i> (under 10m in height)
<i>Citrus sp.</i>	<i>All Citrus</i>
<i>Eriobotrya sp.</i>	<i>Loquat</i>
<i>Erythrina x sykesii</i>	<i>Coral tree</i>
<i>Ficus elastica</i>	<i>Rubber tree</i>
<i>Gleditsia triacanthos</i>	<i>Honey locust</i>
<i>Lagerstroemia</i>	<i>Crepe myrtle</i>
<i>Liquidambar styraciflua</i>	<i>Liquidambar</i> (under 10m in height)
<i>Morus sp.</i>	<i>Mulberry tree</i>
<i>Nerium oleander</i>	<i>Oleander</i>
<i>Olea africana</i>	<i>African Olive</i>
<i>Populus sp.</i>	<i>Poplars</i>
<i>Pittosporum sp.</i>	<i>Pittosporum (up to 8m)</i>
<i>Prunus sp.</i>	<i>Prunus</i>
<i>Robinia psuedoacacia</i>	<i>False Acacia</i>
<i>Schefflera sp.</i>	<i>Umbrella tree</i>

5. Council consent for removal may be granted when:

- tree is growing within 3m of a:
 - building or structure
 - sewer or drainage line
 - inground pool
 - retaining wall over 60cm in length
 - double brick wall over 1m in height—where there is evidence that such trees have damaged or are likely to damage these structures or services)
- The tree is in a location that will obstruct the process of approved building works, road works or public utility installations.

- The tree is causing illness or allergic reaction and a claim can be supported by a medical certificate and Council is satisfied that the specific tree is the cause of the problem
- A property has been over planted - removal of the tree/trees will be to the benefit of the remaining trees.
- A tree has been damaged in heavy storms by lightning or wind etc and could cause future problems if not removed.
- A tree is in danger of falling or causing danger to people, buildings or services.

6. Pruning for View

When Council receives an application to prune a tree for view the following procedure is followed:

- if the tree is on private land the property owners written consent will be required before arranging an appointment with a Council officer for inspection— Council cannot force an owner to allow a tree to be pruned or removed
- pruning will only be approved if it will not be detrimental to the health of a tree
- evidence must be provided to show that the present owner (not the previous owner) had a view of the harbour or ocean, lagoon or other water body
- approval will be granted only if 2/3 of a view has been lost from a single location selected by the owner, i.e. balcony, living room etc.
- a maximum of 20% of a tree's foliage can be pruned
- all tree pruning for view on Council land is paid for by the applicant, before work is undertaken.

7. Tree pruning not requiring Councils consent

Up to 10% of a trees foliage can be pruned without Council consent. This allows residents to undertake maintenance pruning for the purposes of removing deadwood or roof/gutter / window clearance.

8. Council consent for additional pruning may be granted when:

- the tree in the opinion of Council is causing loss of enjoyment of the property through over shadowing and evidence is supplied
- the tree has been subject to storm damage, or repeated branch shedding
- limbs are over dwellings or home entertainment areas, judicious reduction of those limbs will be allowed after inspection
- limbs overhang boundaries or fences, judicious pruning will be allowed if it is not detrimental to the overall health of the tree
- limbs obstruct access by pedestrians or vehicles
- limbs cause vision obstruction or other traffic hazards
- Where trees grow over boundary lines, then 1/5 of the foliage hanging over the boundary may be pruned.

This Tree Preservation Order does not apply to reasonable trimming and pruning for care & maintenance and preservation of light, views and amenity. Reasonable trimming is defined as, removal of no more than 1/5 of the foliage of a tree, in a manner which does not affect the

appearance, integrity or health of the tree. Residents are advised to seek Council inspection prior to any pruning which would cause concern to neighbours.

Where boundaries are concerned 1/5 of the foliage hanging over the boundary may be pruned. This 1/5 in all cases should be carried out within a regulated time frame (this would be no more than twice a year) so as not to be detrimental to the tree.

9. Removal of trees on development sites

Trees must be shown on your Development Application (DA) plans:

- (a) If the trees on the site are over 5 metres tall.
- (b) Where trees will have building or site works carried out within 5 metres of the trunk or within the area of the canopy.
- (c) Where trees are on your boundary, but are your neighbours or Council trees and will be affected as in point (2) above, these must be noted on your plans.
- (d) Where trees are in the 'footprint' of the building, deck areas, proposed driveway, proposed swimming pool or garage, these affected trees must be marked on the plans submitted:
 - (i) a tree preservation inspection is not required for trees on Development Approval (DA) sites (trees are assessed at the DA and/ or subdivision stage)
 - (ii) a tree removal permit will not be issued prior to application for a DA or subdivision, or for trees that are not included on your plans
 - (iii) clearing a property of trees prior to approval of a DA, is a breach of the Tree Preservation Order & Soil Conservation Act.
- (e) Landscape plans are to be submitted with a DA and should indicate proposed, existing and replacement planting if a tree is required to be removed.

10. Replacement trees

Where Council allows the removal of trees it is generally on the condition that a replacement tree be planted. Replacement trees must be planted within 2 months of the removal of the old tree. In selecting replacement trees care should be taken to select species appropriate to your circumstances.

11. Issuing of the Permit

A permit will only be issued if the owner of the tree, or the owner of land over which the tree is growing, is agreeable to removal or pruning of the tree. The issuing of Tree Preservation Order permits does not give any rights to trespass in order to carry out pruning, these permits can only be issued by an authorised Council Officer.

12. Administration of the Tree Preservation Order

Authority to administer the Tree Preservation Order is delegated to the Parks Management Co-ordinator or other officers delegated by the General Manager.

Further information can be obtained from the Customer Service desk on 9976 1500.
