Environment Protection Authority

Notice to end investigation declaration

(Section 16 of the Contaminated Land Management Act 1997)

Notice Number 16006; Area Number 3364

Background

The land to which this notice applies was declared as an "investigation area" (declaration no.15013) and has been the subject of an agreement to a voluntary investigation proposal (agreement no. 19019) issued by the Environment Protection Authority ("the EPA")*. The proponent carried out investigation works under the agreement and also subsequently carried out the required remediation works. The investigation works and the remediation works have been completed and the results have been made available to the EPA.

Revocation

Having reviewed the results of the investigation and remediation, the EPA is satisfied that it no longer has reasonable grounds to believe that the land to which declaration no.15013 applies is contaminated in such a way as to present a significant risk of harm.

Pursuant to section 16 of the Contaminated Land Management Act 1997, declaration of investigation area number 15013, dated 19 November 2002, gazetted on 22 November 2002, ceases to be in force on the date on which this notice is published in the NSW Government Gazette.
