### CHARITABLE TRUSTS ACT 1993

#### Notice under Section 15

Proposed Cy-Pres Scheme relating to the estate of the Late Marjorie Jean Crosland

SECTION 9 (1) of the Charitable Trusts Act 1993 permits the application of property cy-pres where the spirit of the original trust can no longer be implemented.

Marjorie Jean Crosland died on 16 August 2007. Her will, dated 24 September 1985, left one half-share of the residue of her estate to 'The Queen Victoria Memorial Hospital at Wentworth Falls. When the will was made, the Hospital operated as a home for aged persons. The facility was closed in 1999, and alternative aged care facilities were operating in the Blue Mountains area at the time of Ms Crosland's death. The land and buildings of the Queen Victoria Memorial Hospital had been sold to a party not connected with the public hospital system.

The Solicitor General, as delegate of the Attorney General in Charitable Trusts Act 1993 matters, has determined that this is an appropriate matter in which the Attorney General should approve a cy-pres scheme under section 12(1)(a) of the Charitable Trusts Act 1993.

The proposed scheme will permit the bequest in the will to the 'Queen Victoria Memorial Hospital' to be gifted to the Sydney West Area Health Service to be held on trust and applied for the benefit and care of aged persons in the Blue Mountains area.

The executors of the estate agree to a cy pres scheme in these terms.

Take note that within one month after the publication of this notice any person may make representations or suggestions to the Attorney General in respect of the proposed scheme.

##### Collingwood Precinct Aboriginal Place

IN pursuance of the powers vested in me under section 84 of the National Parks and Wildlife Act 1974, I, the Minister for Climate Change and the Environment, do, by this my order, declare such of the lands described hereunder as an Aboriginal Place.

The special significance of the Aboriginal Place include the ridge line 'high ground' meeting place for Dharawal, Gandangara and Dharug people, which was also a vantage point during the pre contact era enabling country to be observed and monitored. The place is associated with early engagement, and at times conflict, between European settlers and Aboriginal peoples. The 'vista' from the high ground provides a corridor southeast to the Georges River across remanent native vegetation and riverine environment.

CARMEL TEBBUTT,

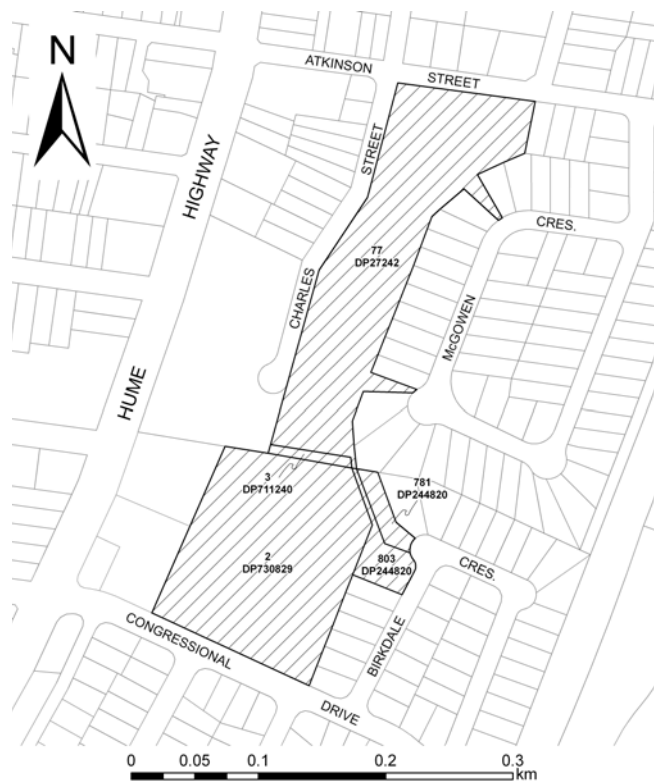

Minister for Climate Change and the Environment

Note: Activities which might damage, destroy or deface this place include but are not limited to the construction of any structure within the boundary of the place which impacts the view south to the Georges River from the highest point. Should such activities be contemplated consent should be sought from the Director-General of the Department of Environment and Climate Change.

**CONTAMINATED LAND MANAGEMENT ACT 1997**

Environment Protection Authority

Declaration of remediation site

(Section 21 of the Contaminated Land Management Act 1997)

Declaration Number 21108 / Area Number 3240

THE Environment Protection Authority (EPA) declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act").

## 1. Land to which this declaration applies ("the site")

The site includes the land, road and footpaths listed below:

- All of Lot 3 Kalandar Street Nowra (Lot 3 DP 542656) (known as Mobil Service Station, Nowra East), and those parts of;
- Kalandar Street Nowra; and
- the footpaths adjoining Kalandar Street.

which fall within the area bounded by the thick black line marked on the attached map by NSW Lands 2004 entitled Figure 1: Declared Area.

The site is in the Parish of Nowra

## 2. Nature of contamination affecting the site:

The EPA has found that the site and nearby areas are contaminated with the following substances ("the contaminants"):

- Benzene, Toluene, Ethylbenzene and Xylene (BTEX)
- Petroleum Hydrocarbons (TPH)

## 3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in s.9 of the Act and for the following reasons has determined that the site is contaminated in such a way as to present a significant risk of harm to human health and the environment:

- groundwater has been degraded by petroleum hydrocarbon contamination at concentrations exceeding relevant guideline values. Groundwater is also contaminated with phase separated hydrocarbons;
- the contaminants include benzene (a known human carcinogen) and are toxic to humans and aquatic ecosystems;
- the hydrocarbon contaminated groundwater has migrated off the site and may continue to migrate offsite towards residential areas; and
- workers may be accidentally exposed to vapours that may accumulate in excavations and service utilities.

## 4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of s.26 of the Act, the EPA may agree not to issue a remediation order to the person or persons bringing the proposal.

## 5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites  
Department of Environment and Climate Change  
PO Box A290  
Sydney South NSW 1232  
or faxed to (02) 9995 5930

by not later than Date: 3 April 2009

NIALL JOHNSTON,  
Manager Contaminated Sites  
Department of Environment and Climate Change

Date: 26 February 2009

NOTE:

Remediation order may follow

If remediation of the site or part of the site is required, the EPA may issue a remediation order under s.23 of the Act.

Variation/Revocation

This declaration may be varied by subsequent declarations. It remains in force until it is otherwise revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm (s.44 of the Act).

Information recorded by the EPA

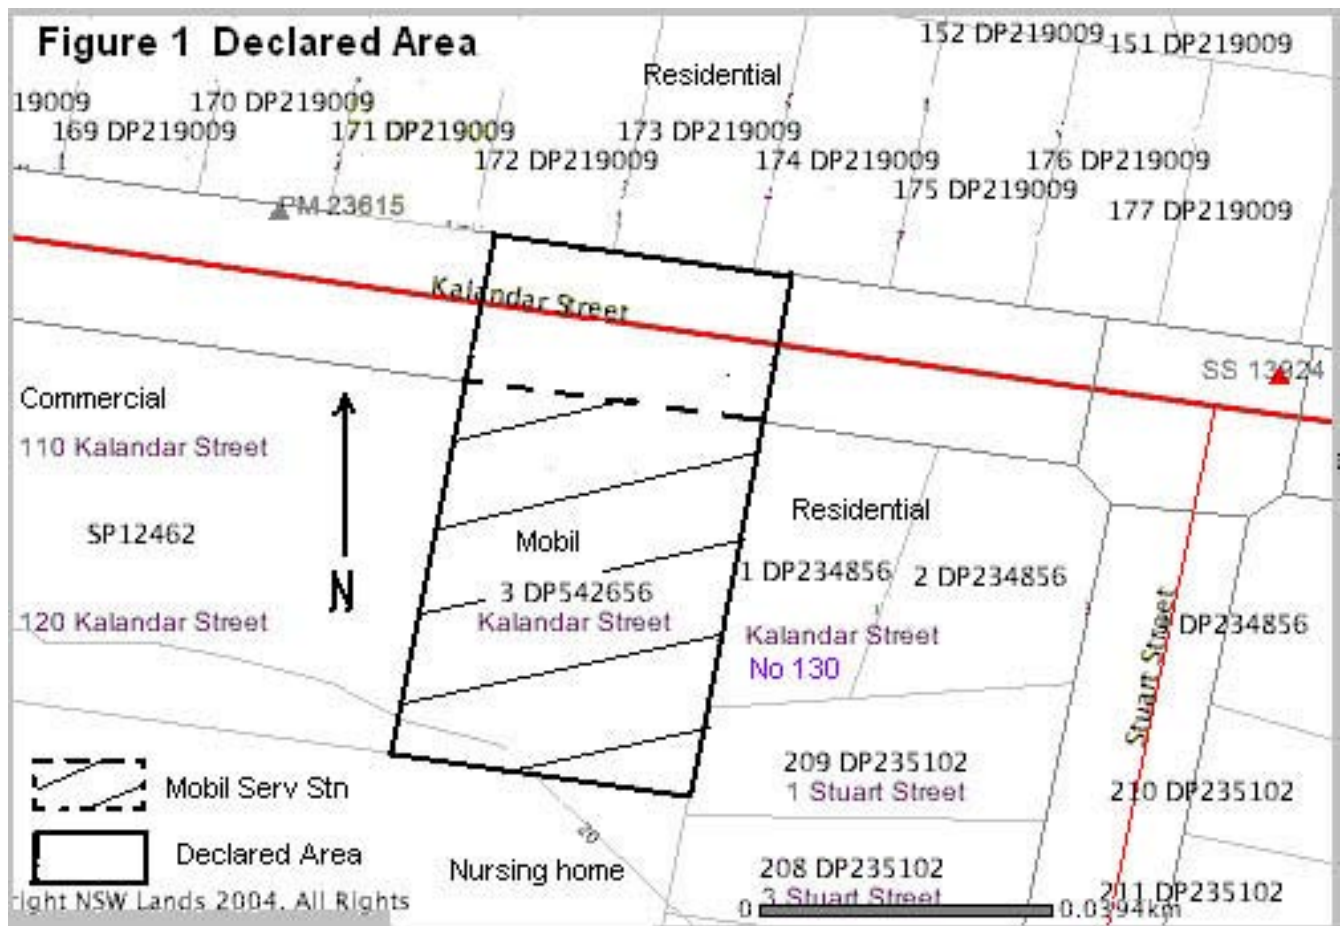

Section 58 of the Contaminated Land Management Act 1997 requires the EPA to maintain a public record. A copy of this remediation declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act that the land is currently within a remediation site. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
