CONTAMINATED LAND MANAGEMENT ACT 1997

Section 11

Declaration of Significantly Contaminated Land

Declaration Number 20101109; Area Number 3281

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

The United Service Station site comprises part Lot 1 and Lot 2, Section 12, DP 1989, and is located at 1-3 Oxford Street, in Sutherland. A map of the site is available for inspection at the offices of the Department of the Environment and Climate Change, Level 15, 59 Goulburn Street, Sydney NSW.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances (“the contaminants”):

- Total Petroleum Hydrocarbons (TPH);
- Benzene, Ethylbenzene, Toluene and Xylenes (BTEX);
- Naphthalene;
- Phenol;
- 2,4-dimethylphenol;
- ethanol.

In particular the EPA has found:

Phase separated hydrocarbons have been identified in the monitoring bore, MW4, located to the north of the bowers on the Service Station. A contaminated groundwater plume is migrating onto the adjacent Sydney Water Reservoir site and impacting the stormwater drainage network, which ultimately enters the Woronora River, approximately 1km north-west of the site. Potentially explosive vapours are also affecting a number of chambers and manholes on the Sydney Water Reservoir site, causing OH&S issues for the operation and maintenance of the Reservoir.

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- The soil is contaminated with TPH and BTEX compounds and the groundwater is contaminated with TPH, BTEX, naphthalene, Phenol, 2,4-dimethylphenol and ethanol. The contaminants include benzene and are toxic to humans and aquatic ecosystems;
- The contaminated groundwater is migrating off-site and impacting the adjacent Sydney Water Reservoir site and is presenting a vapour risk to the operators of the Reservoir site;
- The contamination is impacting the drainage system of the Reservoir site, which enters the stormwater channel and ultimately enters the Woronora River, approximately 1km north-west of the site.
- Exposure to the contamination (e.g. via direct contact or via workers / service providers being accidentally exposed to vapours accumulating in chambers, excavations and service utilities), may affect human health.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager, Contaminated Sites,
Department of Environment, Climate Change
and Water,
PO Box A290,
Sydney South NSW 1232
or faxed to (02) 9995 5930

by not later than 12 May 2010.

Date: 12 April 2010.

JOHN COFFEY,
Acting Manager, Contaminated Sites,
Department of Environment,
Climate Change and Water

NOTE:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

CONTAMINATED LAND MANAGEMENT ACT 1997

Section 11

Declaration of Significantly Contaminated Land

Declaration Number 20101102; Area Number 3277

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 (“the Act”):

1. Land to which this declaration applies (“the site”)

The land to which this declaration applies is 428-432 Mowbray Road (described as Lots 19, 20 and 21 in DP2136), Lane Cove North, in the local government area of Lane Cove. The site is illustrated in the attached map.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with petroleum hydrocarbons, including benzene, toluene, ethylbenzene and xylenes (“the contaminants”).

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in s.12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- Workers conducting intrusive groundworks or maintenance of underground services may be exposed to petroleum hydrocarbon contaminants that have been detected in soil at concentrations that exceed relevant guideline values; and
- TPH contaminants have migrated from the site to the adjacent residential property in the past and may continue to migrate off site, where potential human exposure pathways may exist (including migration of contaminant vapours into enclosed spaces or use of contaminated groundwater).

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager, Contaminated Sites,
Department of Environment, Climate Change
and Water,
PO Box A290,
Sydney South NSW 1232
or faxed to (02) 9995 5930

by not later than 12 May 2010.

Date: 12 April 2010.

JOHN COFFEY,
Acting Manager, Contaminated Sites,
Department of Environment,
Climate Change and Water

NOTE:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to

section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

7. The identity of the Corporations Judges and the dates upon which they are listed to hear Corporations matters will be notified on the Court's Corporations Matters webpage at www.lawlink.nsw.gov.au/sc (click on Practice and Procedure on the left-hand side menu and then click the Corporations Matters link).

Corporations Duty Judge

8. A Corporations Duty Judge will be available as the Corporations Duty Judge to deal with urgent applications in Corporations Matters.
9. Contact should be made in the first instance with the Associate to the List Judge (or the Acting List Judge in the List Judge's absence) by telephone or email (email is preferable during court hours, as the Associate can deal with emails while in court). The Associate will indicate which Corporations Judge should be approached.

Entry into the Lists

10. All Corporations Matters, except those mentioned in paragraph 11, will be made returnable before the List Judge in the Corporations List on Mondays.
11. Statutory Demand cases and matters wholly within the delegated powers of the Registrar under section 13 of the Civil Procedure Act (see Schedule 1 to this Practice Note) will be returnable in the Corporations Registrar's List on any day of the week.
12. Any matter to be entered in the Corporations Registrar's List must include the words "Corporations Registrar's List" prominently on the front sheet of any Originating Process or Interlocutory Process.

Schemes of Arrangement

13. In any proposed applications under Part 5.1 of the *Corporations Act 2001* and any other matters in which it is considered commercially important to obtain definite hearing dates before filing, contact may be made with the Associate to the List Judge for those dates.

Process and Affidavits

14. The form of Originating Process, Interlocutory Process and affidavits in Corporations Matters are as provided for in the Rules.

Case Management

15. The List Judge will case manage matters in the Corporations List on Monday of each week with the aim of ensuring the speedy resolution of the real issues between the parties. Interlocutory applications will be listed at 9:30 am for the purpose of calling through the matters in that list and, if appropriate, allocating a hearing time on that day before one of the Corporations Judges. Directions will be listed from 10 am.
16. When matters in the Corporations List, other than those matters to be heard on Mondays, are ready for the allocation of a hearing date the List Judge will fix the matter for hearing and make the Usual Order for Hearing in Annexure A to Practice Note SC Eq 1 unless the matter would be more efficiently and cost effectively prepared for hearing by making some modifications to the Usual Order for Hearing.
17. All matters in the Corporations Registrar's List will be listed on each day of the week at 9.00 am.
18. The Court's expectation of Practitioners appearing in Corporations Matters includes that:
 - 18.1 Agreement will be reached on a timetable for the preparation of matters for trial and/or mediation and/or reference out and Consent Orders will be handed up during the directions hearing;
 - 18.2 If there is slippage in an agreed timetable, further agreement will be reached without the need for the intervention of the Court and Consent Orders will be filed with the List Judge;
 - 18.3 Requests for Court intervention in relation to timetabling will only be sought rarely when, for good reason, agreement has proved to be impossible;
 - 18.4 Trial Counsel will be briefed at the earliest possible time;
 - 18.5 Careful review of the case will be made as early as practicable for the purpose of informing the Court

of its suitability for mediation, for reference out of all or some of the issues, and/or for the use of a single expert, or a Court appointed expert or the use of an appropriate concurrent expert evidence process;

- 18.6 Agreement will be reached on the real issues in dispute between the parties so that a speedy resolution of those issues may be achieved;
- 18.7 Trial Counsel will appear at the directions hearing when the matter is set down for hearing and provide to the Court a considered opinion of the realistic estimate of the time required for trial; and if a stopwatch system for trial is to apply, a considered opinion as to the appropriate allocation of time for evidence and submissions.
19. To facilitate the just, quick and cheap resolution of Corporations Matters Consent Orders will be made by the List Judge in Chambers on days other than Monday by application in writing to the List Judge's Associate. When Consent Orders are to be made either in Chambers or in Court varying a timetable, it is imperative that those orders include the vacation of any date for directions hearings or the hearing of interlocutory applications that the parties no longer wish to maintain. If the proceedings settle, it is necessary to have the List Judge make Orders finalizing the litigation, rather than filing Terms or Orders with the Registry. Those orders may also be made by consent in Chambers.
20. The Corporations List closes at 12 noon on Friday. Any application to add a matter to the List or remove a matter from the List must be made prior to 12 noon on Friday. Such applications are to be made in writing to the List Judge's Associate.
21. Unless otherwise ordered paragraphs 27 to 32 of Practice Note SC Eq 3 apply to discovery in Corporations Matters.
22. Unless otherwise ordered paragraphs 33 to 36 of Practice Note SC Eq 3 apply to evidence in Corporations Matters.

25. Unless otherwise ordered paragraph 62 of Practice Note SC Eq 3 applies to applications for Summary Judgment in Corporations Matters.

Statutory Demand cases

26. All Statutory Demand cases will be entered into the Corporations Registrar's List for case management, Consent Orders and/or if necessary, referral to the List Judge.
27. The parties to a Statutory Demand case must agree on a timetable that makes it ready for hearing promptly after its first return date before the Corporations Registrar.

28. A plaintiff in a Statutory Demand case must include in its outline of submissions:
- (a) in a genuine dispute case under section 459H (1) (a), a succinct statement of:
 - (i) its understanding of the basis on which the debt is alleged by the defendant to be owing, due and payable in the amount stated in the demand; and
 - (ii) why that basis is disputed; and
 - (b) in an offsetting claim case under section 459H (1) (b), a succinct statement of:
 - (i) the precise facts and circumstances giving rise to the claim; and
 - (ii) the amount of the claim and the way in which it is calculated.

Court Appointment of Liquidators

29. The arrangements outlined in Schedule 2 to this Practice Note apply to the appointment of liquidators by the Court.

Dated: 12 April 2010.

SCHEDULE 2

Court Appointment of Liquidators

The Registrar maintains a list of registered official liquidators who have consented in writing to accept all appointments as liquidator made by the Court. This list is sorted alphabetically by firm for liquidators located in metropolitan Sydney, and by individuals located in regional centres;

The plaintiff in winding-up proceedings may nominate for appointment a registered official liquidator whose name appears in the Court's list. A nomination is effected by filing with the originating process a consent in Form 8 of the Rules, signed by the nominee, certifying that he or she is not aware of any conflict of interest or duty and making proper disclosure of fee rates, and serving it in accordance with Rule 5.5 (3) (b);

The Court appoints the plaintiff's nominee in the normal case, but is not obliged to do so. An obvious ground for the Court declining to appoint the plaintiff's nominee is that the Court considers there is an actual or potential conflict between the duties of a liquidator and the nominee's personal interest or some other duty (for example, a person who has acted as receiver and manager of the company for a secured creditor will almost never be appointed liquidator);

Unless the consent in proper form of a registered official liquidator whose name appears in the Court's list is filed with the originating process for winding up, the Registry will select a liquidator by rotation from the Court's list. The plaintiff must obtain the consent in proper form of the liquidator selected by the Court, and file and serve that consent in accordance with Rule 5.5 (3);

If the liquidator declines to consent to the appointment (which the liquidator may do, after having given his or her consent to accept all court appointments, only on grounds such as conflict of interest), the plaintiff must:

Nominate a registered official liquidator, whose name appears on the Court's list, by filing and serving the liquidator's consent in accordance with Rule 5.5 (3); or approach the Registry for selection of another liquidator by rotation, and then file and serve that liquidator's consent in accordance with Rule 5.5 (3).
