SUBORDINATE LEGISLATION ACT 1989Public Consultation on Proposed
Mining Regulation 2010

NOTICE is given in accordance with section 5 of Subordinate Legislation Act 1989 of the intention to re-make a regulation under the Mining Act 1992.

The Mining Act 1992, together with other legislation, regulates mining in New South Wales. It does this by requiring certain titles to be obtained prior to the commencement of mining operations and among other things, by requiring the rehabilitation of mine sites during the course of mining and after mining has finished.

In May 2008 the NSW Parliament passed the Mining Amendment Act 2008 to strengthen environmental management and enforcement provisions and to streamline the administration of mining.

The proposed Mining Regulation 2010 will be made under the Mining Act 1992 and will replace the Mining Regulation 2003. The objective of the proposed Regulation is to support the Mining Act 1992 (as amended by the Mining Amendment Act 2008) and to assist in giving it effect. In particular, the proposed Regulation includes the following significant provisions:

- provisions in relation to the protection of the environment and claims for significant improvements;
- penalty notice offences;
- fees for services;
- fossicking provisions; and
- information that must accompany applications for authorities and small scale titles and the requirements for exploration reports.

The proposed Regulation and Regulatory Impact Statement will be available for public comment until Friday 18 June 2010 and can be accessed from:

Internet: <http://www.dpi.nsw.gov.au/aboutus/about/legislation-acts/review>

By phone: (02) 4931 6605

Submissions on the proposed Regulation can be sent by mail, fax or email to:
