1. Movement of host fruit that has received an approved treatment prior to movement, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure that:
    - (i) any used packaging or coverings containing host fruit are free of soil, plant residues and other organic matter; and
    - (ii) in the case of host fruit that has been consigned as a lot for the purpose of producing smaller packs of host fruit and has been repacked in smaller packs, the host fruit has been received, handled, stored and repacked under secure conditions which prevent infestation by Queensland fruit fly; and
    - (iii) any individual package contains only one kind of host fruit; and
    - (iv) all previous incorrect information displayed on the outer covering of the package is removed and the outer covering is legibly marked with the following information:
      - (A) the district of production; and
      - (B) the name, address, postcode and the State or Territory of both the grower and the packer; or where the business is sourcing from multiple growers, the name, address, postcode and the State or Territory of the packer; and
      - (C) a brief description of the contents of the package;or
    - (v) where the host fruit originates from a property or facility which is owned or occupied by a business accredited under a Certification Assurance Arrangement, the host fruit is packed, labelled and certified in accordance with any conditions prescribed in the Certification Assurance Arrangement.

**Untreated host fruit for processing**

2. Movement of untreated host fruit for processing, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
    - (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
    - (ii) the host fruit is securely covered by a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
    - (iii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
    - (iv) the transport vehicle is free of all soil and plant debris after loading; and
    - (v) the transport vehicle travels by the most direct route to the receiving processor; and
  - (c) The owner or occupier of the property or facility at which the host fruit is to be processed must ensure:
    - (i) the host fruit is processed within 24 hours of receipt; and
    - (ii) all measures to avoid spillage of host fruit are taken and where spillages occur, must be disposed of in a manner generally accepted as likely to prevent the spread of Queensland fruit fly; and
    - (iii) all processing wastes must be disinfested by heat or freezing or be buried.

**Outer Area host fruit on a direct journey through the Outbreak Area or Suspension Area into the Outer Area**

3. Movement of host fruit originating within the Outer Area and moving on a direct journey through the Outbreak Area or the Suspension Area into the Outer Area, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit is securely transported by covering with a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation.

**Untreated Suspension Area host fruit on a direct journey to an end destination having no restrictions on account of Queensland fruit fly**

4. Movement of host fruit originating within the Suspension Area and moving on a direct journey to an end destination which has no restrictions on account of Queensland fruit fly, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and

- (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
- (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
  - (ii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
  - (iii) the transport vehicle is free of all soil and plant debris after loading; and
  - (iv) the host fruit is transported under secure conditions that include:
    - (A) unvented packages or vented packages with the vents secured with mesh with a maximum aperture of 1.6mm prior to dispatch; or
    - (B) shrink-wrapped and sealed as a palletised unit; or
    - (C) fully enclosed under tarpaulins, shade cloth, bin cover or other covering which provides a maximum aperture of 1.6mm,
 so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
  - (v) the transport vehicle travels by the most direct route.

### **SCHEDULE 6 – Approved treatments for host fruit**

#### **Preharvest Treatment and Inspection**

1. Tomatoes:
  - (a) treated preharvest with an application of dimethoate or fenthion or trichlorfon in accordance with all label directions for the control of Queensland fruit fly, and

**free of broken skin** means the skin has no preharvest cracks, punctures, pulled stems or other breaks which penetrate through the skin and that have not healed with callus tissue.

**host fruit** means the fruit specified in Schedule 1, being fruit which is susceptible to infestation by Queensland fruit fly.

**lot** means a discrete quantity of fruit received from one grower at one time.

**NTN** means national trap number.

**Outbreak Area** means the portion of New South Wales described in Schedule 2.

**Outer Area** means the portion of New South Wales known as the NSW Fruit Fly Exclusion Zone, as specified in Proclamation P184 published in *NSW Government Gazette* No. 152 of 28 November 2008 at pages 11434 to 11435, excluding the Outbreak Area and the Suspension Area.

**Plant Health Assurance Certificate** means a certificate issued by a business accredited under a Certification Assurance Arrangement.

**Plant Health Certificate** means a certificate issued by an authorised person.

**Queensland fruit fly** means the pest *Bactrocera tryoni* (Froggatt).

**Suspension Area** means the portion of New South Wales described in Schedule 3.

**the Act** means the Plant Diseases Act 1924.

Note: **covering** or **package**, **inspector**, **occupier** and **owner** all have the same meaning as in the Act.

(b) In this Order, longitude and latitude coordinates are decimal degrees based upon the GDA 94 datum.

**4 Regulation of the movement of host fruit**

Pursuant to section 4 (1) of the Act the importation, introduction or bringing of host fruit into specified portions of New South Wales is regulated as follows:

(a) Host fruit that originates from or has moved through:

(i) the Outbreak Area must not be moved into the Suspension Area or the Outer Area;

(ii) the Suspension Area must not be moved into the Outer Area,

except for such movements as are specified in Schedule 5 and which comply with the relevant conditions of exception set out in Schedule 5; and

(b) The movement of any host fruit in accordance with Schedule 5 must be accompanied by a certificate:

(i) specifying the origin of the host fruit; and

(ii) in the case of a Plant Health Certificate, certifying that the host fruit has been treated in the manner specified in Schedule 6; and

(iii) in the case of a Plant Health Assurance Certificate, certifying that the host fruit originates from a property or facility which is owned or occupied by a business accredited under a Certification Assurance Arrangement.

The area within a 1.5 kilometre radius of the coordinates decimal degrees -34.167083 South and 146.154817 East, being the area within the 1.5 kilometre radius circle (broken line) in the map in Schedule 4.

**SCHEDULE 3 – Suspension Area**

The area within a 15 kilometre radius of coordinates decimal degrees -34.167083 South and 146.154817 East (excluding the Outbreak Area), being the area between the 1.5 kilometre radius circle (broken line) and the 15 kilometre radius circle (unbroken line) in the map in Schedule 4.

**SCHEDULE 4 – Map of the Yenda NTN 2149 Outbreak Area and Suspension Area**

**SCHEDULE 5 – Exceptions for movement of host fruit****Host fruit that has received an approved treatment**

1. Movement of host fruit that has received an approved treatment prior to movement, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure that:
    - (i) any used packaging or coverings containing host fruit are free of soil, plant residues and other organic matter; and
    - (ii) in the case of host fruit that has been consigned as a lot for the purpose of producing smaller packs of host fruit and has been repacked in smaller packs, the host fruit has been received, handled, stored and repacked under secure conditions which prevent infestation by Queensland fruit fly; and
    - (iii) any individual package contains only one kind of host fruit; and
    - (iv) all previous incorrect information displayed on the outer covering of the package is removed and the outer covering is legibly marked with the following information:
      - (A) the district of production; and
      - (B) the name, address, postcode and the State or Territory of both the grower and the packer; or where the business is sourcing from multiple growers, the name, address, postcode and the State or Territory of the packer; and
      - (C) a brief description of the contents of the package;or
    - (v) where the host fruit originates from a property or facility which is owned or occupied by a business accredited under a Certification Assurance Arrangement, the host fruit is packed, labelled and certified in accordance with any conditions prescribed in the Certification Assurance Arrangement.

**Untreated host fruit for processing**

2. Movement of untreated host fruit for processing, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
    - (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
    - (ii) the host fruit is securely covered by a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
    - (iii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
    - (iv) the transport vehicle is free of all soil and plant debris after loading; and
    - (v) the transport vehicle travels by the most direct route to the receiving processor; and
  - (c) The owner or occupier of the property or facility at which the host fruit is to be processed must ensure:
    - (i) the host fruit is processed within 24 hours of receipt; and
    - (ii) all measures to avoid spillage of host fruit are taken and where spillages occur, must be disposed of in a manner generally accepted as likely to prevent the spread of Queensland fruit fly; and
    - (iii) all processing wastes must be disinfested by heat or freezing or be buried.

**Outer Area host fruit on a direct journey through the Outbreak Area or Suspension Area into the Outer Area**

3. Movement of host fruit originating within the Outer Area and moving on a direct journey through the Outbreak Area or the Suspension Area into the Outer Area, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit is securely transported by covering with a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation.

**Untreated Suspension Area host fruit on a direct journey to an end destination having no restrictions on account of Queensland fruit fly**

4. Movement of host fruit originating within the Suspension Area and moving on a direct journey to an end destination which has no restrictions on account of Queensland fruit fly, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and

- (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
- (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
  - (ii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
  - (iii) the transport vehicle is free of all soil and plant debris after loading; and
  - (iv) the host fruit is transported under secure conditions that include:
    - (A) unvented packages or vented packages with the vents secured with mesh with a maximum aperture of 1.6mm prior to dispatch; or
    - (B) shrink-wrapped and sealed as a palletised unit; or
    - (C) fully enclosed under tarpaulins, shade cloth, bin cover or other covering which provides a maximum aperture of 1.6mm, so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
  - (v) the transport vehicle travels by the most direct route.

### **SCHEDULE 6 – Approved treatments for host fruit**

#### **Preharvest Treatment and Inspection**

1. Tomatoes:
  - (a) treated preharvest with an application of dimethoate or fenthion or trichlorfon in accordance with all label directions for the control of Queensland fruit fly, and
  - (b) inspected postharvest at the rate of at least 1 package in every 100 or part thereof, and found free of fruit fly larvae and free of broken skin.
2. Capsicums and chillies:
  - (a) treated preharvest with an application of dimethoate in accordance with all label directions for the control of Queensland fruit fly, and
  - (b) inspected postharvest at the rate of at least 1 package in every 100 or part thereof, and found free of fruit fly larvae and free of broken skin.
3. Stonefruit:
  - (a) treated preharvest with an application of fenthion in accordance with all label directions for the control of Queensland fruit fly; and
  - (b) inspected postharvest at the rate of at least 1 package in every 100 or part thereof, and found free of fruit fly larvae and free of broken skin.
4. Table grapes:
  - (a) treated preharvest for the control of Queensland fruit fly, with a program of:
    - (i) bait sprays with an insecticide containing 0.24 g/L spinosad as the only active constituent in accordance with all label directions; or
    - (ii) bait sprays with an insecticide containing 1150 g/L maldison as the only active constituent in accordance with all label and APVMA permit (PER12359) directions; or
    - (iii) cover sprays using an insecticide containing 550 g/L fenthion as the only active constituent in accordance with all label and APVMA permit (PER11643) directions; and
  - (b) inspected postharvest where a sample of the fruit is inspected and found free of fruit fly larvae and free of broken skin.

#### **Postharvest Dimethoate Dip**

5. Any host fruit, excluding capsicum (hollow-fruited), chilli (hollow-fruited), cumquat and strawberries, treated with a postharvest dip using an insecticide containing 400 g/L dimethoate as its only active constituent in accordance with all label and APVMA permit (PER12074) directions; where dipping is the last treatment before packing except in the case of:
  - (a) Citrus, where a non-recovery gloss wax coating and or a compatible fungicide as specified on the label may be applied within 24 hours of treatment; and
  - (b) Pomefruit, where a non-recovery gloss wax and or a compatible fungicide as specified on the label may be applied within 3 hours of treatment.

#### **Postharvest Dimethoate Flood Spray**

6. Any host fruit, excluding cumquat, eggplant and strawberries, treated with a postharvest flood spray using an insecticide containing 400 g/L dimethoate as its only active constituent in accordance with all label and APVMA permit (PER12074) directions, where spraying is the last treatment before packing except in the case of:
  - (a) Citrus, where a non-recovery gloss wax coating and or a compatible fungicide as specified on the label may be applied within 24 hours of treatment; and

- (b) Pomefruit, where a non-recovery gloss wax coating and or compatible fungicide as specified on the label may be applied within 3 hours of treatment.

**Postharvest Methyl Bromide Fumigation**

7. Any host fruit fumigated postharvest with a fumigant containing 1000 g/kg methyl bromide as its only active constituent in accordance with all label and APVMA permit (PER10699) directions, at the following rates:
- (a) 10°C – 14.9°C at 48 g/m<sup>3</sup> for 2 hours; or
  - (b) 15°C – 20.9°C at 40 g/m<sup>3</sup> for 2 hours; or
  - (c) 21°C – 25.9°C at 32 g/m<sup>3</sup> for 2 hours; or
  - (d) 26°C – 31.9°C at 24 g/m<sup>3</sup> for 2 hours.

**Postharvest Cold Treatment**

8. Any appropriate host fruit treated postharvest at a temperature of:
- (a) 0°C ± 0.5°C for a minimum of 14 days; or
  - (b) 1°C – 3°C ± 0.5°C for a minimum of 16 days (Lemons minimum 14 days).

**Department** means Industry and Investment, NSW – Primary Industries.

**free of broken skin** means the skin has no preharvest cracks, punctures, pulled stems or other breaks which penetrate through the skin and that have not healed with callus tissue.

**host fruit** means the fruit specified in Schedule 1, being fruit which is susceptible to infestation by Queensland fruit fly.

**lot** means a discrete quantity of fruit received from one grower at one time.

**Outbreak Area** means the portion of New South Wales described in Schedule 2.

**Outer Area** means the portion of New South Wales known as the NSW Fruit Fly Exclusion Zone, as specified in Proclamation P184 published in *NSW Government Gazette* No. 152 of 28 November 2008 at pages 11434 to 11435, excluding the Outbreak Area and the Suspension Area.

**Plant Health Assurance Certificate** means a certificate issued by a business accredited under a Certification Assurance Arrangement.

**Plant Health Certificate** means a certificate issued by an authorised person.

**Queensland fruit fly** means the pest *Bactrocera tryoni* (Froggatt).

**Suspension Area** means the portion of New South Wales described in Schedule 3.

**the Act** means the Plant Diseases Act 1924.

Note: **covering** or **package**, **inspector**, **occupier** and **owner** all have the same meaning as in the Act.

(b) In this Order, longitude and latitude coordinates are decimal degrees based upon the GDA 94 datum.

**4 Regulation of the movement of host fruit**

Pursuant to section 4 (1) of the Act the importation, introduction or bringing of host fruit into specified portions of New South Wales is regulated as follows:

(a) Host fruit that originates from or has moved through:

(i) the Outbreak Area must not be moved into the Suspension Area or the Outer Area;

(ii) the Suspension Area must not be moved into the Outer Area,

except for such movements as are specified in Schedule 5 and which comply with the relevant conditions of exception set out in Schedule 5; and

(b) The movement of any host fruit in accordance with Schedule 5 must be accompanied by a certificate:

(i) specifying the origin of the host fruit; and

(ii) in the case of a Plant Health Certificate, certifying that the host fruit has been treated in the manner specified in Schedule 6; and

(iii) in the case of a Plant Health Assurance Certificate, certifying that the host fruit originates from a property or facility which is owned or occupied by a business accredited under a Certification Assurance Arrangement.

The area within a 1.5 kilometre radius of the coordinates decimal degrees -35.95523 South and 145.60521 East, being the area within the 1.5 kilometre radius circle (broken line) in the map in Schedule 4.

**SCHEDULE 3 – Suspension Area**

The area within a 15 kilometre radius of coordinates decimal degrees -35.95523 South and 145.60521 East (excluding the Outbreak Area), being the area between the 1.5 kilometre radius circle (broken line) and the 15 kilometre radius circle (unbroken line) in the map in Schedule 4.

**SCHEDULE 4 – Map of the Churchill Road, Cobram West Outbreak Area and Suspension Area**

**SCHEDULE 5 – Exceptions for movement of host fruit****Host fruit that has received an approved treatment**

1. Movement of host fruit that has received an approved treatment prior to movement, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure that:
    - (i) any used packaging or coverings containing host fruit are free of soil, plant residues and other organic matter; and
    - (ii) in the case of host fruit that has been consigned as a lot for the purpose of producing smaller packs of host fruit and has been repacked in smaller packs, the host fruit has been received, handled, stored and repacked under secure conditions which prevent infestation by Queensland fruit fly; and
    - (iii) any individual package contains only one kind of host fruit; and
    - (iv) all previous incorrect information displayed on the outer covering of the package is removed and the outer covering is legibly marked with the following information:
      - (A) the district of production; and
      - (B) the name, address, postcode and the State or Territory of both the grower and the packer; or where the business is sourcing from multiple growers, the name, address, postcode and the State or Territory of the packer; and
      - (C) a brief description of the contents of the package;or
    - (v) where the host fruit originates from a property or facility which is owned or occupied by a business accredited under a Certification Assurance Arrangement, the host fruit is packed, labelled and certified in accordance with any conditions prescribed in the Certification Assurance Arrangement.

**Untreated host fruit for processing**

2. Movement of untreated host fruit for processing, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
    - (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
    - (ii) the host fruit is securely covered by a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
    - (iii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
    - (iv) the transport vehicle is free of all soil and plant debris after loading; and
    - (v) the transport vehicle travels by the most direct route to the receiving processor; and
  - (c) The owner or occupier of the property or facility at which the host fruit is to be processed must ensure:
    - (i) the host fruit is processed within 24 hours of receipt; and
    - (ii) all measures to avoid spillage of host fruit are taken and where spillages occur, must be disposed of in a manner generally accepted as likely to prevent the spread of Queensland fruit fly; and
    - (iii) all processing wastes must be disinfested by heat or freezing or be buried.

**Outer Area host fruit on a direct journey through the Outbreak Area or Suspension Area into the Outer Area**

3. Movement of host fruit originating within the Outer Area and moving on a direct journey through the Outbreak Area or the Suspension Area into the Outer Area, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit is securely transported by covering with a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation.

**Untreated Suspension Area host fruit on a direct journey to an end destination having no restrictions on account of Queensland fruit fly**

4. Movement of host fruit originating within the Suspension Area and moving on a direct journey to an end destination which has no restrictions on account of Queensland fruit fly, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and

- (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
- (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
  - (ii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
  - (iii) the transport vehicle is free of all soil and plant debris after loading; and
  - (iv) the host fruit is transported under secure conditions that include:
    - (A) unvented packages or vented packages with the vents secured with mesh with a maximum aperture of 1.6mm prior to dispatch; or
    - (B) shrink-wrapped and sealed as a palletised unit; or
    - (C) fully enclosed under tarpaulins, shade cloth, bin cover or other covering which provides a maximum aperture of 1.6mm, so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
  - (v) the transport vehicle travels by the most direct route.

### **SCHEDULE 6 – Approved treatments for host fruit**

#### **Preharvest Treatment and Inspection**

1. Tomatoes:
  - (a) treated preharvest with an application of dimethoate or fenthion or trichlorfon in accordance with all label directions for the control of Queensland fruit fly, and
  - (b) inspected postharvest at the rate of at least 1 package in every 100 or part thereof, and found free of fruit fly larvae and free of broken skin.
2. Capsicums and chillies:
  - (a) treated preharvest with an application of dimethoate in accordance with all label directions for the control of Queensland fruit fly, and
  - (b) inspected postharvest at the rate of at least 1 package in every 100 or part thereof, and found free of fruit fly larvae and free of broken skin.
3. Stonefruit:
  - (a) treated preharvest with an application of fenthion in accordance with all label directions for the control of Queensland fruit fly; and
  - (b) inspected postharvest at the rate of at least 1 package in every 100 or part thereof, and found free of fruit fly larvae and free of broken skin.
4. Table grapes:
  - (a) treated preharvest for the control of Queensland fruit fly, with a program of:
    - (i) bait sprays with an insecticide containing 0.24 g/L spinosad as the only active constituent in accordance with all label directions; or
    - (ii) bait sprays with an insecticide containing 1150 g/L maldison as the only active constituent in accordance with all label and APVMA permit (PER12359) directions; or
    - (iii) cover sprays using an insecticide containing 550 g/L fenthion as the only active constituent in accordance with all label and APVMA permit (PER11643) directions; and
  - (b) inspected postharvest where a sample of the fruit is inspected and found free of fruit fly larvae and free of broken skin.

#### **Postharvest Dimethoate Dip**

5. Any host fruit, excluding capsicum (hollow-fruited), chilli (hollow-fruited), cumquat and strawberries, treated with a postharvest dip using an insecticide containing 400 g/L dimethoate as its only active constituent in accordance with all label and APVMA permit (PER12074) directions; where dipping is the last treatment before packing except in the case of:
  - (a) Citrus, where a non-recovery gloss wax coating and or a compatible fungicide as specified on the label may be applied within 24 hours of treatment; and
  - (b) Pomefruit, where a non-recovery gloss wax and or a compatible fungicide as specified on the label may be applied within 3 hours of treatment.

#### **Postharvest Dimethoate Flood Spray**

6. Any host fruit, excluding cumquat, eggplant and strawberries, treated with a postharvest flood spray using an insecticide containing 400 g/L dimethoate as its only active constituent in accordance with all label and APVMA permit (PER12074) directions, where spraying is the last treatment before packing except in the case of:
  - (a) Citrus, where a non-recovery gloss wax coating and or a compatible fungicide as specified on the label may be applied within 24 hours of treatment; and

- (b) Pomefruit, where a non-recovery gloss wax coating and or compatible fungicide as specified on the label may be applied within 3 hours of treatment.

**Postharvest Methyl Bromide Fumigation**

7. Any host fruit fumigated postharvest with a fumigant containing 1000 g/kg methyl bromide as its only active constituent in accordance with all label and APVMA permit (PER10699) directions, at the following rates:
- (a) 10°C – 14.9°C at 48 g/m<sup>3</sup> for 2 hours; or
  - (b) 15°C – 20.9°C at 40 g/m<sup>3</sup> for 2 hours; or
  - (c) 21°C – 25.9°C at 32 g/m<sup>3</sup> for 2 hours; or
  - (d) 26°C – 31.9°C at 24 g/m<sup>3</sup> for 2 hours.

**Postharvest Cold Treatment**

8. Any appropriate host fruit treated postharvest at a temperature of:
- (a) 0°C ± 0.5°C for a minimum of 14 days; or
  - (b) 1°C – 3°C ± 0.5°C for a minimum of 16 days (Lemons minimum 14 days).

1. Movement of host fruit that has received an approved treatment prior to movement, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure that:
    - (i) any used packaging or coverings containing host fruit are free of soil, plant residues and other organic matter; and
    - (ii) in the case of host fruit that has been consigned as a lot for the purpose of producing smaller packs of host fruit and has been repacked in smaller packs, the host fruit has been received, handled, stored and repacked under secure conditions which prevent infestation by Queensland fruit fly; and
    - (iii) any individual package contains only one kind of host fruit; and
    - (iv) all previous incorrect information displayed on the outer covering of the package is removed and the outer covering is legibly marked with the following information:
      - (A) the district of production; and
      - (B) the name, address, postcode and the State or Territory of both the grower and the packer; or where the business is sourcing from multiple growers, the name, address, postcode and the State or Territory of the packer; and
      - (C) a brief description of the contents of the package;or
    - (v) where the host fruit originates from a property or facility which is owned or occupied by a business accredited under a Certification Assurance Arrangement, the host fruit is packed, labelled and certified in accordance with any conditions prescribed in the Certification Assurance Arrangement.

**Untreated host fruit for processing**

2. Movement of untreated host fruit for processing, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and
  - (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
    - (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
    - (ii) the host fruit is securely covered by a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
    - (iii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
    - (iv) the transport vehicle is free of all soil and plant debris after loading; and
    - (v) the transport vehicle travels by the most direct route to the receiving processor; and
  - (c) The owner or occupier of the property or facility at which the host fruit is to be processed must ensure:
    - (i) the host fruit is processed within 24 hours of receipt; and
    - (ii) all measures to avoid spillage of host fruit are taken and where spillages occur, must be disposed of in a manner generally accepted as likely to prevent the spread of Queensland fruit fly; and
    - (iii) all processing wastes must be disinfested by heat or freezing or be buried.

**Outer Area host fruit on a direct journey through the Outbreak Area or Suspension Area into the Outer Area**

3. Movement of host fruit originating within the Outer Area and moving on a direct journey through the Outbreak Area or the Suspension Area into the Outer Area, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit is securely transported by covering with a tarpaulin, shade cloth, bin cover or other covering or contained within the covered transport vehicle so as to prevent infestation by Queensland fruit fly and spillage during transportation.

**Untreated Suspension Area host fruit on a direct journey to an end destination having no restrictions on account of Queensland fruit fly**

4. Movement of host fruit originating within the Suspension Area and moving on a direct journey to an end destination which has no restrictions on account of Queensland fruit fly, subject to the following conditions:
  - (a) The owner or occupier of the property or facility from which the host fruit originates must ensure that the host fruit remains under secure conditions from post harvest to the time of dispatch and transport, except when impractical during packing and grading activities; and

- (b) Prior to movement, the owner or occupier of the property or facility from which the host fruit originates must ensure:
- (i) all bins or containers and any vehicles to be used for the transportation of host fruit (“transport vehicle”) are free from all plant debris and soil prior to packing and loading; and
  - (ii) the host fruit must be loaded onto or into a transport vehicle on a hard surface and not within the orchard from which the host fruit was sourced; and
  - (iii) the transport vehicle is free of all soil and plant debris after loading; and
  - (iv) the host fruit is transported under secure conditions that include:
    - (A) unvented packages or vented packages with the vents secured with mesh with a maximum aperture of 1.6mm prior to dispatch; or
    - (B) shrink-wrapped and sealed as a palletised unit; or
    - (C) fully enclosed under tarpaulins, shade cloth, bin cover or other covering which provides a maximum aperture of 1.6mm, so as to prevent infestation by Queensland fruit fly and spillage during transportation; and
  - (v) the transport vehicle travels by the most direct route.

The purpose of Western Lands Lease 2995, being the land contained within Folio Identifier 1043/762265 has been altered from "Grazing" to "Grazing and Cultivation" effective from 29 April 2011.

As a consequence of the alteration of purpose and conditions rent will be assessed annually in line with the Western Lands Act 1901 and Regulations.

The conditions previously annexed to Western Lands Lease 2995 have been revoked and the following conditions have been annexed thereto.

\_\_\_\_\_

**CONDITIONS AND RESERVATIONS ATTACHED TO  
WESTERN LANDS LEASE No. 2995**

- (1) In the conditions annexed to the lease, the expression "the Minister" means the Minister administering the Western Lands Act 1901, and any power, authority, duty or function conferred or imposed upon the Minister by or under those conditions may be exercised or performed either by the Minister or by such officers of the Land and Property Management Authority as the Minister may from time to time approve.
- (2) In these conditions and reservations the expression "the Commissioner" means the Commissioner charged with the administration of the Western Lands Act 1901 ("the Act") in accordance with section 4 (2) of the Act.
- (3) (a) For the purposes of this clause the term Lessor shall include Her Majesty the Queen Her Heirs and Successors the Minister and the agents servants employees and contractors of the Lessor Her Majesty Her Majesty's Heirs and Successors and the Minister.
- (b) The lessee covenants with the Lessor to indemnify and keep indemnified the Lessor from and against all claims for injury loss or damage suffered by any person or body using or being in or upon the Premises or any adjoining land or premises of the Lessor arising out of the Holder's use of the Premises and against all liabilities for costs charges and expenses incurred by the Lessor in respect of the claim of any such person or body except to the extent that any such claims and demands arise wholly from any negligence or wilful act or omission on the part of the Lessor.
- (c) The indemnity contained in this clause applies notwithstanding that this Lease authorised or required the lessee to undertake or perform the activity giving rise to any claim for injury loss or damage.
- (d) The lessee expressly agrees that the obligations of the Holder under this clause shall continue after the expiration or sooner determination of this Lease in respect of any act deed matter or thing occurring before such expiration or determination.
- (4) The rent of the lease shall be assessed in accordance with Part 6 of the Western Lands Act 1901.
- (5) The rent shall be due and payable annually in advance on 1 July in each year.
- (6) (a) "GST" means any tax on goods and/or services, including any value-added tax, broad-based consumption tax or other similar tax introduced in Australia.  
 "GST law" includes any Act order, ruling or regulation, which imposes or otherwise deals with the administration or imposition of a GST in Australia.
- (b) Notwithstanding any other provision of this Agreement:
  - (i) If a GST applies to any supply made by either party under or in connection with this Agreement, the consideration provided or to be provided for that supply will be increased by an amount equal to the GST liability properly incurred by the party making the supply.
  - (ii) If the imposition of a GST or any subsequent change in the GST law is accompanied by or undertaken in connection with the abolition of or reduction in any existing taxes, duties or statutory charges (in this clause "taxes"), the consideration payable by the recipient of the supply made under this Agreement will be reduced by the actual costs of the party making the supply that are reduced directly or indirectly as a consequence of the abolition of or reduction in taxes.
- (7) The lessee must pay all rates and taxes assessed on or in respect of the land leased during the currency of the lease.
- (8) The lessee must hold and use the land leased bona fide for the lessee's own exclusive benefit and must not transfer, convey or assign the land or any portion thereof without having first obtained the written consent of the Minister.
- (9) The lessee must not enter into a sublease of the land leased unless the sublease specifies the purpose for which the land may be used under the sublease, and it is a purpose which is consistent with the purpose for which the land may be used under this lease.

- (10) If the lessee enters into a sublease of the land leased, the lessee must notify the Commissioner of the granting of the sublease within 28 days after it is granted.
- (11) The land leased must be used only for the purpose of Grazing and Cultivation.
- (12) The lessee must maintain and keep in reasonable repair all improvements on the land leased during the currency of the lease and shall permit the Minister or the Commissioner or any person authorised by the Minister or the Commissioner at all times to enter upon and examine the whole or any part of the land leased and the buildings or other improvements thereon.
- (13) All minerals within the meaning of the Mining Act 1992, and all other metals, gemstones and semiprecious stones, which may be in, under or upon the land leased are reserved to the Crown and the lessee shall permit any person duly authorised in that behalf to enter upon the land leased and search, work, win and remove all or any minerals, metals, gemstones and semiprecious stones in, under or upon the land leased.
- (14) Mining operations may be carried on, upon and in the lands below the land leased and upon and in the lands adjoining the land leased and the lands below those lands and metals and minerals may be removed therefrom and the Crown and any lessee or lessees under any Mining Act or Acts shall not be subject to any proceedings by way of injunction or otherwise in respect of or be liable for any damage occasioned by the letting down, subsidence or lateral movement of the land leased or any part thereof or otherwise by reason of the following acts and matters, that is to say, by reason of the Crown or any person on behalf of the Crown or any lessee or lessees, having worked now or hereafter working any mines or having carried on or now or hereafter carrying on mining operations or having searched for, worked, won or removed or now or hereafter searching for, working, winning or removing any metals or minerals under, in or from the lands lying beneath the land leased or any part thereof or on, in, under or from any other lands situated laterally to the land leased or any part thereof or the lands lying beneath those lands, and whether on or below the surface of those other lands and by reason of those acts and matters or in the course thereof the Crown reserves the liberty and authority for the Crown, any person on behalf of the Crown and any lessee or lessees from time to time to let down without payment of any compensation any part of the land leased or of the surface thereof.
- (15) The lessee must comply with the provisions of the Local Government Act 1993, and of the ordinances made thereunder.
- (16) The lessee must comply with the provisions of the Water Management Act 2000 and any regulations made in pursuance of that Act.
- (17) The lessee must not erect or permit any person to erect any buildings or extend any existing buildings on the land leased except to the satisfaction of the Commissioner.
- (18) The lessee must ensure that the land leased is kept in a neat and tidy condition to the satisfaction of the Commissioner and not permit refuse to accumulate on the land.
- (19) Upon termination or forfeiture of the lease the Commissioner may direct that the former lessee remove any structure or material from the land at his own cost and without compensation. Where such a direction has been given the former lessee must leave the land in a clean and tidy condition free from rubbish and debris.
- (20) The lessee must, within 1 year from the date of commencement of the lease or such further period as the Commissioner may allow, enclose the land leased, either separately or conjointly with other lands held in the same interest, with a suitable fence to the satisfaction of the Commissioner.
- (21) The lessee must not obstruct or interfere with any reserves, roads or tracks on the land leased or the lawful use thereof by any person.
- (22) The lessee must erect gates on roads within the land leased when and where directed by the Commissioner for public use and must maintain those gates together with approaches thereto in good order to the satisfaction of the Commissioner.
- (23) The right is reserved to the public of free access to, and passage along, the bank of any watercourse adjoining the land leased and the lessee must not obstruct access or passage by any member of the public to or along the bank.
- (24) Any part of a reserve for travelling stock, camping or water supply within the land leased must, during the whole currency of the lease, be open to the use of bona fide travellers, travelling stock, teamsters and carriers without interference or annoyance by the lessee and the lessee must post in a conspicuous place on the reserve a notice board indicating for public information the purpose of such reserve and, in fencing the land leased, the lessee must provide gates and other facilities for the entrance and exit of travelling stock, teamsters and others. The notice board, gates and facilities must be erected and maintained to the satisfaction of the Commissioner. The lessee must not overstock, wholly or in part, the areas leased within the reserve, the decision as to overstocking resting with the Commissioner.
- (25) The Crown shall not be responsible to the lessee or the lessee's successors in title for provision of access to the land leased.
- (26) The lessee must comply with the provisions of the Native Vegetation Act 2003 and any regulations made in pursuance of that Act.
- (27) The lessee must comply with requirements of section 18DA of the Western Lands Act 1901 which provides that except in circumstances referred to in subsection (3) of that section, cultivation of the land leased or occupied may not be carried out unless the written consent of the Authority has first been obtained and any condition to which the consent is subject under sub section (6) is complied with.
- (28) Notwithstanding any other condition annexed to the lease, the lessee must, in removing timber for the

- purpose of building, fencing or firewood, comply with the routine agricultural management activities listed in the Native Vegetation Act 2003.
- (29) The lessee must not interfere with the timber on any of the land leased which is within a State forest, timber reserve or flora reserve unless authorisation has been obtained under the provisions of the Forestry Act 1916 and must not prevent any person or persons duly authorised in that behalf from taking timber on the land leased. The lessee shall not have any property right in the timber on the land leased and must not ringbark, kill, destroy or permit the killing or destruction of any timber unless authorised under the Forestry Act 1916 or unless approval has been issued in accordance with the Native Vegetation Act 2003, but the lessee may take such timber as the lessee may reasonably require for use on the land leased or on any contiguous land held in the same interest, for building, fencing or firewood.
- (30) The lessee must undertake any fuel management and/or provision of fire trail access in accordance with fire mitigation measures to the satisfaction of the NSW Rural Fire Service.
- (31) The lessee must, as the Commissioner may from time to time direct, foster and cultivate on the land leased such edible shrubs and plants as the Commissioner may consider can be advantageously and successfully cultivated.
- (32) Whenever so directed by the Commissioner, the lessee must, on such part or parts of the land leased as shall be specified in the direction, carry out agricultural practices or refrain from agricultural practices, of such types and for such periods as the Commissioner may in the direction specify.
- (33) The lessee must not overstock or permit or allow to be overstocked, the land leased and the decision of the Commissioner as to what constitutes overstocking shall be final and the lessee must comply with any directions of the Commissioner to prevent or discontinue overstocking.
- (34) The lessee must, if the Commissioner so directs, prevent the use by stock of any part of the land leased for such periods as the Commissioner considers necessary to permit of the natural reseeded and regeneration of vegetation and, for that purpose, the lessee must erect within the time appointed by the Commissioner such fencing as the Commissioner may consider necessary.
- (35) The lessee must furnish such returns and statements as the Commissioner may from time to time require on any matter connected with the land leased or any other land (whether within or outside the Western Division) in which the lessee has an interest.
- (36) The lessee must, within such time as may be specified by the Commissioner take such steps and measures as the Commissioner shall direct to destroy vermin and such animals and weeds as may, under any Act from time to time be declared (by declaration covering the land leased) noxious in the Gazette and must keep the land free of such vermin and noxious animals and weeds during the currency of the lease to the satisfaction of the Commissioner.
- (37) The lessee must not remove or permit any person to remove gravel, stone, clay, shells or other material for the purpose of sale from the land leased unless the lessee or the person is the holder of a quarry license under regulations made under the Crown Lands Act 1989 or, in respect of land in a State forest, unless the lessee or the person is the holder of a forest materials licence under the Forestry Act 1916, and has obtained the special authority of the Minister to operate on the land, but the lessee may, with the approval of the Commissioner, take from the land such gravel, stone, clay, shells or other material for building and other purposes upon the land as may be required by the lessee.
- (38) The lessee must comply with the provisions of the Protection of the Environment Operations Act 1997 particularly in relation to disposal of tailwaters or waters which may be contaminated with fertiliser, herbicide or pesticide or similar chemicals.
- (39) The lessee must ensure that cultivation and associated activities do not interfere with any road formation within the allowable area.
- (40) The cultivation areas partly cover Travelling Stock Reserves (TSR) 253 and 71436 and suitable arrangements must be made with the relevant Livestock Health and Pest Authority prior to commencement of any development. If suitable arrangements cannot be made with the Livestock Health and Pest Authority, the matter will be determined by the Western Lands Commissioner.
- (41) Except with the specific approval of the Commissioner, no cultivation or ancillary works associated with any cultivation must be undertaken within 40 metres, on the landward side, of the bank of the Willandra Creek. These areas are not to be disturbed by the use of any implements or used for the purposes of any silo, temporary grain storage, machinery shed or other installations or works of any kind.
- (42) The lessee must ensure incised drainage lines, other than man-made structures, which carry water after storms are left uncultivated in the channels and for a distance of at least 20 metres on either side of the banks of the channels except when the Commissioner specifies otherwise.
- (43) The lessee must establish windbreaks at his/her own expense, as may be ordered by the Western Lands Commissioner to provide adequate protection of the soil.
- (44) The lessee must ensure that stubble is retained on the soil surface and must not be burnt, except with the approval of the Commissioner or his delegate. Where such approval is granted, stubble burning is to be carried out with the approval as per requirements of the NSW Rural Fire Services.
- (45) The lessee must undertake any appropriate measures, at his/her own expense, ordered by the Commissioner to rehabilitate any degraded cultivated areas.
- (46) Disposal of tail water into creeks and rivers is controlled by the Department of Environment, Climate Change and Water under the Protection of the Environment Act 2003. Before disposing of any tail water or water

- which may be contaminated with fertiliser, herbicide or pesticide, the lessee must contact the Department of Environment, Climate Change and Water.
- (47) The lessee must ensure that no tail water or drainage water run-off will escape or discharge into or onto adjoining lands by any means including surface or sub-surface drains or pipes.
- (48) The lessee must ensure that sandhills and other soils with a surface texture of loamy sand or coarser are left uncultivated unless specifically approved by the commissioner.
- (49) The lessee must ensure land within 60 metres of any texture contrast or duplex soil area remains uncultivated except in accordance with a plan approved by the Commissioner. Texture contrast (or duplex) soils are soil types which have a sandy to loamy topsoil abruptly overlying a clay subsoil and are prone to scolding (producing claypans and hummocks).
- (50) The lessee must ensure that areas with a slope greater than 2% remain uncultivated until any soil conservation measures documented in a plan approved by the Commissioner have been implemented at the lessee's expense.
- (51) The lessee must ensure that Cultivation and cropping do not alter the natural flood regime or obstruct the reasonable passage of floodwaters. Crops are not to be protected by levees.
- (52) The lessee must consider the requirements of the National Parks and Wildlife Act 1974, with regard to Aboriginal sites and which are extremely vulnerable to many kinds of agricultural development. Under Section 90 it is an offence to damage or destroy relics without prior consent of the Director-General of the Department of Environment, Climate Change and Water. If any Aboriginal archaeological relics or sites are found in the cultivated areas, cultivation must cease until the lessee has notified the Department of Environment, Climate Change and Water of the existence of the Aboriginal site. Contact details are: The Manager, Cultural Heritage Unit, Department of Environment, Climate Change and Water at 58-62 Wingewarra Street, Dubbo NSW 2830 (02 6883 5324).
- (53) The lessee must only Dryland cultivate 99 ha (shown hatched) and 93 ha of Irrigated cultivation (shown cross-hatched) on the diagram hereunder. Cultivation outside these areas will only be allowable with the written consent of the Commissioner or Minister.
- (54) Cultivation is permitted over the whole of the areas shown hatched and cross-hatched unless the Commissioner has required that specific areas remain uncultivated.

### CONTAMINATED LAND MANAGEMENT ACT 1997

Declaration of Significantly Contaminated Land  
(Section 11 of the Contaminated Land  
Management Act 1997)

Declaration Number 20111104; Area Number 3296.

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

This declaration applies to the land that is located at 110 Elizabeth Street, Tighes Hill NSW (Lot 1 in DP 327092 within the local Government Area of Newcastle City Council). The land to which this declaration applies is shown on the attached figure.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances ("the contaminants"):

- Petroleum Hydrocarbons (TPH);
- Benzene, Toluene, Ethylbenzene and Xylene (BTEX); and
- Polycyclic aromatic hydrocarbons (PAHs including naphthalene).

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- Shallow groundwater is contaminated with separate phase and dissolved phase hydrocarbons at concentrations exceeding beneficial use criteria; and
- Contaminated groundwater has migrated off site and may continue to migrate off site where it may pose a risk to workers undertaking excavations, occupants of adjoining properties and surface water receptors.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites  
Department of Environment, Climate Change and Water  
PO Box A290  
Sydney South NSW 1232  
or faxed to (02) 9995 5930

by not later than 3 June 2011

Date: 3 May 2011

NIALL JOHNSTON,  
Manager, Contaminated Sites,  
Department of Environment,  
Climate Change and Water

NOTE:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

### Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

### Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

### Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

## CONTAMINATED LAND MANAGEMENT ACT 1997

### Declaration of Significantly Contaminated Land (Section 11 of the Contaminated Land Management Act 1997)

Declaration Number 20111103; Area Number 3295

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

#### 1. Land to which this declaration applies ("the site")

The land to which this notice applies is described as 1234 Princes Highway (Lot 1 in DP 230603), Engadine NSW, in

the local government area of Sutherland Shire (as illustrated on the attached map).

#### 2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with petroleum hydrocarbons, including benzene, toluene, ethylbenzene and xylenes ("the contaminants").

#### 3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- Benzene, toluene, ethylbenzene and xylenes have migrated offsite in groundwater at concentrations that exceed human health guideline values; and
- Human exposures to the contaminants could potentially occur if groundwater is extracted from any current or future unregistered bores for beneficial use or if contaminant vapours accumulate in enclosed spaces.

#### 4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act the EPA may agree not to issue a management order to the person or persons bringing the proposal.

#### 5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites  
Office of Environment and Heritage  
Department of Premier and Cabinet  
PO Box A290  
Sydney South NSW 1232  
or faxed to (02) 9995 5930

by not later than 4 June 2011

Date: 4 May 2011

NIALL JOHNSTON,  
Manager, Contaminated Sites,  
Office of Environment and Heritage  
Department of Premier and Cabinet

#### NOTE:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

#### Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

## Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

## Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

\$308 per week for single accommodation, or  
\$512 per week for family or shared accommodation.

- (b) Where less than full board and lodging is provided –  
\$205 per week for single accommodation, or  
\$342 per week for family or shared accommodation.

Dated this 18th day of April 2011.

The Hon DONALD PAGE, M.P.,  
Minister for Local Government

### LOCAL GOVERNMENT ACT 1993

#### ERRATUM

THE Proclamation made in pursuance of sections 255, 256 and 736 of the Local Government Act 1993 and published in *NSW Government Gazette* No. 39 of 29 April 2011 on page 2725 contained a typographical error. The correct date of the Proclamation is the 21st day of April 2011 and not the 20th day of April 2011. The amended Proclamation contained in Schedule A of this erratum corrects the error and the gazettal date remains 29 April 2011.

of the

28 April 2011

Local Government Remuneration Tribunal

2011 Annual Review

Report

#### BACKGROUND

1. Pursuant to Section 241 of the Local Government Act 1993 (the Act) the Local Government Remuneration Tribunal hereby determines in each category of council, the maximum and minimum amount of fees to be paid to mayors and councillors of councils, as well as chairpersons and members of county councils.
2. On 8 November 2010 the Tribunal wrote to all mayors advising of the commencement of the 2011 annual review. In respect of this review the Tribunal advised councils that it would be undertaking a review of the minimum and maximum fee levels for each category but would not be reviewing the categories at this time. In accordance with Section 239 of the Act the Tribunal is required to determine the categories of councils and mayoral offices at least once every 3 years. The next review of categories is scheduled to take place during the 2012 review.
3. The Tribunal also wrote to the Presidents of the Local Government and Shires Associations (LGSA) in similar terms, and subsequently met with the Presidents. The Tribunal wishes to place on record its appreciation to the Presidents for making time to see the Tribunal

#### 2011 REVIEW

4. The LGSA provided a submission on fees and related matters. As in previous years, the LGSA has recommended that fees be set as a percentage of the annual salary paid to NSW Members of Parliament. The LGSA has also provided an overview of the various factors contributing to the role and workload of councillors including training and development, financial sustainability, impact of climate change, cost shifting and increased accountability and transparency in decision making.
5. The Tribunal also received 16 submissions from individual councils. The majority of those submissions supported an increase in the fees payable to councillors and mayors. The submissions also addressed the following issues:
  - workload
  - complexity of issues
  - training and development
  - expenses
  - categorisation

6. The Tribunal has had regard to the submissions received and to comments made by the Associations in regard to the level of fees. Suggestions that fees be set as a percentage of the salary of a Member of Parliament are not supported for reasons stated in previous reports. Should there be significant change to or restructure of local government in NSW the Tribunal would comprehensively review the fee structure at that time.
7. A number of submissions have raised the increasing complexity of council work, in particular responsibilities associated with integrated planning and reporting and planning and development reform. It is argued that these, and other functions, add to the workload of councillors and thereby warrant an increase in remuneration. The Tribunal confirms its remarks previously made several times to the effect that that an increase in workload does not in itself reflect a change in the roles and responsibilities of councillors, which is the test for considering whether any increase in remuneration is warranted. Additional planning and reporting requirements, for example, are reflective of changed modes of work rather than a fundamental shift in the role and responsibilities of office.
8. The role of a councillor is outlined in section 232 of the Act. That is:
- As a member of the governing body of the council, a councillor's duties include:
- to provide a civic leadership role in guiding the development of the community strategic plan for the area and to be responsible for monitoring the implementation of the council's delivery program
  - to play a key role in the creation and review of the council's policies and objectives and criteria relating to the exercise of the council's regulatory functions
  - to review the performance of the council and its delivery of services, and the delivery program and revenue policies of the council.
- As an elected person, the role of a councillor includes:
- to represent the interests of the residents and ratepayers
  - to provide leadership and guidance to the community
  - to facilitate communication between the community and the council.
9. Ongoing training is essential to ensure councillors have timely access to the information necessary to perform their roles and responsibilities effectively. The Tribunal is pleased that both the Division of Local Government in the Department of Premier and Cabinet and the Local Government and Shires Association offer professional development opportunities for both new and existing councillors and mayors. Since the last election in September 2008 1,061 or 83% of councillors have attended a councillor information seminar provided under the NSW Government's Councillor Development Strategy. These seminars covered roles and responsibilities, code of conduct and meeting practice. A further 26 seminars were held in 2010 and 2011 covering financial reporting, recruitment and oversight of general managers and an update of the code of conduct. Professional development is also provided through the Associations' Learning Solutions Unit which conducted twenty-one councillor workshops from January to June 2010 with courses including Financial Skills for Councillors and Integrated Planning and Reporting. Councillors and mayors should avail themselves of professional development opportunities to ensure they have a clear understanding of their roles and responsibilities and have the necessary skills to perform effectively.
10. The Tribunal has also received advice that there is an expectation in some councils that councillors are to pay for some or all of their expenses from their annual fee. Expenses reasonably incurred by councillors are outside provisions made under the annual fee determinations. The policy in regard to the payment of expenses is outlined in the Division of Local Government's publication "Guidelines for the payment of expenses and the provision of facilities for Mayors and Councillors in NSW, October 2009". In accordance with that policy, councillor expenses and facilities policies should set levels of expenses and facilities to realistically account for costs incurred by councillors independent of the level of their annual fees.
11. The Tribunal is aware that councils play a pivotal role in developing and sustaining local communities. The Tribunal acknowledges that significant work has already been done in the area of long term strategic planning by councils. Part of this planning involves the rationalisation of common activities to the benefit of local communities. The Tribunal has been made aware of recent initiatives in collaborative arrangements between councils, including the sharing of waste removal, library and corporate services between councils. The Division of Local Government has advised that councils have reported over 800 collaborative arrangements, an increase from 403 reported in 2007. The Division is also working with the Local Government and Shires Associations of New South Wales, Local Government Managers Australia, and the Strategic Alliance Network to develop ways to share this information, build relevant skills, and promote further council collaboration.
12. The Tribunal will continue to monitor local government initiatives and inform itself of the new State Government's direction for local government. The Tribunal notes that the newly elected Coalition Government has announced changes to the Environmental Planning and Assessment Act which will return some planning responsibilities back to local councils. The Tribunal will review these changes when the legislation is amended and will monitor the impact on councillor and mayor responsibilities.
13. The Tribunal acknowledges the valuable contribution councillors and mayors make to our communities and has determined an appropriate increase. Having regard to the factors discussed in the report, and after considering key economic indicators, and after taking the views of the Assessors into account, the Tribunal considers that an increase of 4.2 per cent in the fees for councillors and mayors is appropriate and so determines.
- 2012 REVIEW OF CATEGORIES
14. The Tribunal has received two submissions from councils seeking categorisation to another category or the creation of a new category. The Tribunal last undertook a fundamental review of categories during the 2009 review. That review found that there was no strong case to significantly alter the current categories of councillor and mayoral offices or to move individual councils between categories. The Tribunal did however apply descriptive titles for each of the categories to more

accurately reflect the nature of differences between the different groups.

15. In accordance with Section 239 of the Act the Tribunal is required to determine the categories for councils and mayoral offices for the purpose of determining fees at least once every three years. Accordingly the Tribunal will again review the categories in 2012.
16. Section 240 of the Act requires the Tribunal to determine categories according to the following matters:  
 “240 (1)  
 • the size of areas  
 • the physical terrain of areas  
 • the population of areas and the distribution of the population  
 • the nature and volume of business dealt with by each Council  
 • the nature and extent of the development of areas  
 • the diversity of communities served  
 • the regional, national and international significance of the Council  
 • such matters as the Remuneration Tribunal considers relevant to the provision of efficient and effective local government  
 • such other matters as may be prescribed by the regulations.”
17. To ensure there is sufficient time to consider the relevant issues and undertake consultation the Tribunal will commence the 2012 review earlier than usual. Councils will be asked to consider the existing categories and where appropriate suggest alternative models of categorisation.
18. It is expected that the Tribunal will write to all councils and the associations in September inviting submissions for the 2012 review of categories.
