# Fisheries Management (Continuation of Activities in Lowland Darling River Catchment) Interim Order 2011

under the

Fisheries Management Act 1994

I, the Minister for Primary Industries, in pursuance of section 221IG of the *Fisheries Management Act 1994*, make the following Order.

Dated, this 14th day of June 2011.

KATRINA HODGKINSON, M.P.,  
Minister for Primary Industries

### Explanatory note

The aquatic ecological community in the natural drainage system of the lowland catchment of the Darling River is listed as an endangered ecological community under the *Fisheries Management Act 1994 (the Act)*.

However, the Act enables the Minister to make an order authorising a class of persons to carry out an activity that may result in harm to a threatened species, population or ecological community or damage to its habitat. While such a proposed order is being assessed under the Act, the Minister may make an interim order lasting up to 6 months to allow an existing activity to be continued.

The object of this interim Order is to remake the *Fisheries Management (Continuation of Activities in Lowland Darling River Catchment) Further Interim Order 2010* to allow certain recreational and commercial fishing activities in the natural drainage system of the lowland catchment of the Darling River to continue for a further period of 6 months. The activities may only continue subject to compliance with any applicable fishing regulatory controls imposed by or under the Act.

The recommendation of the Fisheries Scientific Committee referred to in this interim Order is available on the Internet at:

[http://www.dpi.nsw.gov.au/\\_data/assets/pdf\\_file/0010/208297/FR22-Darling-River-EEC.pdf](http://www.dpi.nsw.gov.au/_data/assets/pdf_file/0010/208297/FR22-Darling-River-EEC.pdf).

This Order is made under section 221IG of the *Fisheries Management Act 1994*.

Clause 1 Fisheries Management (Continuation of Activities in Lowland Darling River Catchment) Interim Order 2011

#### Instrument of Delegation

I, the Minister for Planning and Infrastructure administering the Environmental Planning and Assessment Act 1979 (“EP&A Act”), pursuant to section 23 of the EP&A Act:

1. Revoke the previous delegation to the Planning Assessment Commission of my powers and functions under Part 3A of the EP&A Act dated 18 November 2008; and
2. Delegate to the Planning Assessment Commission, the powers and functions listed in Schedule 1 to this Instrument in relation to applications specified in Schedule 2 of this Instrument, subject to the terms, limitations and restrictions specified in Schedule 3 to this Instrument.

Dated this 28th day of May 2011.

The Hon. BRADLEY HAZZARD, M.P.,  
Minister for Planning and Infrastructure

#### SCHEDULE 1

All my powers and functions under section 75J; section 75JA; section 75O; section 75P; section 75R (3A); section 75W; section 75Y and section 75YA of the EP&A Act.

Note: Functions and powers under section 75P are only exercisable if approval is given for a concept plan under section 75O.

#### SCHEDULE 2

- Applications made before or after the date of this Instrument, other than an application for major infrastructure development where the proponent is a public authority (other than a local authority); and
- Applications made before or after the date of this Instrument in relation to which a statement has been made disclosing a reportable political donation; and
- Applications made before or after the date of this Instrument where a statement was made disclosing a reportable political donation in connection with any previous concept plan or project application.

#### SCHEDULE 3

Where the Planning Assessment Commission (the Commission) proposes to impose a condition or a term of approval or make a determination which would require a proponent to enter into a voluntary planning agreement to which the Minister for Planning and Infrastructure or the Corporation is a party, the Commission must consult with the Minister for Planning and Infrastructure in relation to any such condition, term of approval or determination before determining the application.

Definitions:

**Corporation** is the corporation sole incorporated under section 8 of the EP&A Act.

**Major infrastructure development** has the same meaning as in section 75A of the EP&A Act.

**Applications** are

- project applications made under section 75E of the EP&A Act;
- concept plan applications made under section 75M of the EP&A Act for approval of a concept plan for a project, including single applications for both a concept plan and a project made under section 75M (3A) of the EP&A Act; and
- requests under section 75W of the EP&A Act to modify an approval.

**Proponent** has the same meaning as in section 75A of the EP&A Act.

**Public authority** has the same meaning as in section 4 of the EP&A Act.

**Statement** is statement of a disclosure required to be made under section 147 (3) (a) of the EP&A Act required to be made in accordance with section 147 (6) of the EP&A Act.

Note: This Instrument does not apply to applications declared to be a critical infrastructure project, as provided by section 23 (8) of the EP&A Act.

**RETENTION OF TITLE**

HER Excellency the Governor, by deputation of Her Majesty the Queen, has been pleased to approve of the retention of the title "Honourable" by former Justice George Alfred PALMER, A.M., who served as a judge of the Supreme Court of New South Wales from 23 April 2001 until his retirement on 3 June 2011.

**RETENTION OF TITLE**

HER Excellency the Governor, by deputation of Her Majesty the Queen, has been pleased to approve of the retention of the title "Honourable" by Mr John HATZISTERGOS, who served as a New South Wales Government Minister from 2 April 2007 to 5 September 2008, from 8 September 2008 to 4 December 2009 and from 8 December 2009 to 28 March 2011 and as a Member of the NSW Legislative Council from 27 March 1999 to 19 May 2011.

**STATUTORY AND OTHER OFFICES  
REMUNERATION ACT 1975**

Report and Determination: Clerk of the Parliaments

**Report:**

1. On 20 May 2011 the Premier, the Hon. Barry O'Farrell, M.P., wrote to the Statutory and Other Offices Remuneration Tribunal ("the Tribunal") advising that the Clerk of the Parliaments, Ms Lynn Lovelock, had elected to receive remuneration benefits pursuant to section 11A of the Statutory and Other Offices Remuneration Act 1975 ("SOOR Act"). The Premier has approved Ms Lovelock's election and nominated the position of Clerk of the Parliaments as one to which section 11A of the Act applies.

**Background:**

2. When the SES was introduced in 1989 the Government considered that some Statutory Office Holders, exercising independent functions (excluding judicial officers) should be able to receive employment benefits similar to those provided to the SES. Section 11A of the Act provides that remuneration for such office holders is to be determined on a total cost basis aligned to the SES in lieu of salary. This Group is known collectively as "11A Office Holders" and their remuneration increases are aligned to those of the SES rather than the Public Office Holder Group. As with the SES, the 11A remuneration packages are expressed as a total cost of employment and employer on costs.
3. Unlike SES officers, the office holders are not subject to contractual employment provisions or performance agreements. In addition, the remuneration of these office holders is expressed as a fixed amount rather than a range as with the normal SES Levels.

**Review:**

4. The Clerk of the Parliaments is the authority on Parliamentary procedures within the Legislative Council of NSW and provides authoritative and definitive advice and counsel to the President, Ministers and other Members of the Legislative Council on matters relating to Parliamentary law, practice and procedures. The position also manages and administers the operations of the Department of the Legislative Council in order to ensure the efficient and effective delivery of services to Members and the public.
5. For remuneration purposes the position of Clerk of the Parliaments is listed in Schedule 2 Part 2 of the SOOR Act. The Clerk of the Parliaments currently receives an annual salary of \$229,705.
6. The position of Clerk of the Parliaments is equivalent in work value to the position of Executive Manager, Parliamentary Services. A current section 11A determination exists for the position of Executive Manager, Parliamentary Services and to retain salary parity it is appropriate that the remuneration for the Clerk of the Parliaments be equivalent.
7. Having regard to these factors the Tribunal considers that a total remuneration package of \$244,520 would be appropriate and so determines.

8. Ms Lovelock formally applied to receive remuneration benefits pursuant to section 11A of the SOOR Act on 16 March 2011. On this basis the Tribunal considers that the determination should take effect on and from that date.

**Determination:**

Pursuant to section 14 (1) of the Statutory and Other Offices Remuneration Act 1975 the Tribunal determines that the total remuneration package for the Clerk of the Parliaments shall be \$244,520 pa with effect from 16 March 2011.

Dated: 3 June 2011.

**NSW PESTICIDES REGULATION 2009**

Clause 9 (1) (D) (ii) and Schedule 1 – Notice of Approved Units of Competency

**Background**

The Pesticides Regulation 2009 (the Regulation) provides that certain users of pesticides must be qualified to use pesticides. A user will be qualified to use a pesticide if they have achieved certain units of competency that are:

- specified in a current training package endorsed by the National Quality Council, a Committee of the Ministerial Council for Tertiary Education and Employment; and
- approved by the Environment Protection Authority (EPA).

Before granting this approval the EPA:

- has consulted relevant groups, including registered training organisations and environmental and industry representatives; and
- is satisfied that the proposed units of competency are relevant to the objects of the Pesticides Act 1999.

**Revocation of previous approval**

The approval of units of competency by the EPA that took effect on 24 December 2003 is revoked.

**Units of competency approved**

For the purposes of clause 9 (1) (d) (ii) of the Regulation, the following units of competency are approved by the EPA:

- the unit of competency known as unit code AHCCHM303A specified in Training Package AHC10 endorsed by the National Quality Council (AHCCHM303A);
- the unit of competency known as unit code AHCCHM304A specified in Training Package AHC10 endorsed by the National Quality Council (AHCCHM304A);
- the unit of competency known as unit code AHCCHM201A specified in Training Package AHC10 endorsed by the National Quality Council (AHCCHM201A).

The units of competency required to be achieved for the issue of a prescribed qualification under clause 9 (1) (d) of the Regulation are:

- (a) AHCCHM303A and AHCCHM304A; or
- (b) AHCCHM201A.

These units are summarised in Schedule 1 to this approval.

### Commencement

This approval takes effect on publication in the *NSW Government Gazette*.

### NOTES

#### 1. Minimum standard

All pesticide users who are required to achieve specified units of competency under clause 9(1)(d) of the Regulation should, wherever possible, attain both unit AHCCHM303A (Prepare and Apply Chemicals) and unit AHCCHM304A (Transport, Handle and Store Chemicals), which are part of Training Package AHC10 and at Australian Quality Framework Level 3 (AQF3). The unit AHCCHM201A (Apply Chemicals under Supervision), which is part of Training Package AHC10 and at Australian Quality Framework Level 2 (AQF2), is the minimum level of competency acceptable under the Regulation. At this level it is recommended that the pesticide user work under the supervision of someone who has achieved the AQF3 units of competency.

Pesticide users should seek training that is appropriate for their level of work and responsibility from Registered Training Providers (RTOs). If users are working as unsupervised operators/farmers they should seek chemical training at AQF3. Pesticide users who have language or literacy difficulties and are unable to fulfill the requirements of the AQF3 units of competency can be deemed competent at AQF2 if they have successfully demonstrated competence at that level. Major providers of chemical training have agreed to provide training on this basis.

#### 2. Review of approved unit of competency

This approval will be subject to future review. The review will be undertaken in parallel with reviews of the Regulation (as determined by the Subordinate Legislation Act 1989) or where the need arises. The review will also be undertaken in consultation with relevant groups, including registered training organisations and environmental and industry representatives, and will take into account:

- any developments in the Training Package and/or the Australian Qualifications Framework relating to pesticides;
- any developments at national level regarding pesticide user training requirements.

#### 3. Existing qualifications and exemptions

If pesticide users have achieved competency unit RTC2706A or competency units RTC3704A and RTC3705A together, they do not need to be trained or assessed until 5 years after the date on which they were issued their certificate or statement in recognition of their achievement of these competencies.

Exemptions prescribed by the Regulation may apply in limited circumstances to users who hold specified qualifications, for occasional supervised pesticide use in agricultural or forestry operations or for use of small quantities of pesticides ordinarily used for home or garden purposes.

#### 4. Copies of approval

Copies of this approval are available for public inspection without charge and during ordinary business hours at offices of the NSW Office of Environment and Heritage.

#### 5. Further information

Further information is available at [www.environment.nsw.gov.au/pesticides/training.htm](http://www.environment.nsw.gov.au/pesticides/training.htm) or by contacting the Environment Line on 131555 or emailing [info@environment.nsw.gov.au](mailto:info@environment.nsw.gov.au)

## SCHEDULE 1

Note: Information in this Schedule is taken from the website of the National Training Information Service and is current at the time of publication of this approval. Further information on the competency, training packages, training courses and providers is available at [www.training.gov.au](http://www.training.gov.au).

<b>AHCCHM201A</b>	<b>APPLY CHEMICALS UNDER SUPERVISION</b>
Unit descriptor	This unit covers the process of applying chemicals under supervision using handheld or small powered equipment, and defines the standard required to: apply chemicals using handheld or small powered equipment; check, prepare, use and maintain application equipment and personal protective equipment; measure, mix, transport, handle store and dispose of chemicals and comply with Occupational Health and Safety (OHS), chemical label and Material Safety Data Sheets (MSDSs) requirements.
Employability skills	This unit contains employability skills.
Application of the unit	This unit applies to working under supervision with reference to the product label, legislation and enterprise procedures. This unit may be deemed to have a time limit when used as part of an accreditation or licence process.
Unit sector	Chemicals

<b>ELEMENT</b>	<b>PERFORMANCE CRITERIA</b>
1. Check application and personal protective equipment	1.1. Carry out pre-operational checks of application equipment in accordance with manufacturer's specification and OHS requirements. 1.2. Prepare application equipment for use in accordance with manufacturer's specification and directions. 1.3. Identify and replace any damaged or worn components. 1.4. Check personal protective equipment in accordance with manufacturer's specification and OHS requirements.
2. Prepare application equipment	2.1. Apply label information regarding precautions for the chemical mix/substance being used. 2.2. Select and use appropriate personal protective and mixing equipment in accordance with MSDSs and chemical label. 2.3. Measure, mix and load chemical mix or substances in accordance with directions on chemical label. 2.4. Follow legislative and regulatory requirements regarding chemical use including OHS. 2.5. Confirm instructions from chemical MSDSs in the event of a spill. 2.6. Check that output of application equipment is correct and in accordance with application/spray plan.
3. Apply chemicals	3.1. Assess and record meteorological conditions and forecasts prior to and during application. 3.2. Select and use appropriate personal protective equipment in accordance with MSDSs and chemical label. 3.3. Apply chemical in accordance with the application/spray plan and/or instructions. 3.4. Assess and minimise risks to others, product integrity and the environment prior to and during application.
4. Finalise work	4.1. Clean and store Personal Protective Equipment (PPE) and application equipment in accordance with manufacturer's specification and OHS requirements. 4.2. Dispose of excess chemicals and use triple rinse drums in accordance with label and MSDSs requirements. 4.3. Complete incident reports as required in accordance with legislative and/or regulatory requirements. 4.4. Complete application records. 4.5. Store unused chemical/products in accordance with label requirements and MSDSs. 4.6. Adhere to all re-entry and withholding periods.
5. Transport and handle chemical	5.1. Confirm precautions for the transport and handling of chemicals. 5.2. Transport and handle chemicals in accordance with legislative and/or regulatory requirements.

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level, required for this unit.

**Required skills**

- identify hazards and adopt safe work practices
- conduct pre-operational checks of application equipment
- use and maintain personal protective equipment
- measure, mix and load chemical mixes
- use hand held and small powered application equipment relevant to the industry sector using safe and environmentally responsible work practices
- interpret labels, record relevant information and measure application amounts
- follow chemical label requirements and application/spray plan
- record activities and maintain records
- transport and handling techniques
- respond to emergencies and apply first aid in the event of pesticide poisoning
- use oral communication skills/language competence to fulfil the job role as specified by the organisation including questioning, active listening, asking for clarification and seeking advice from supervisor
- use interpersonal skills to relate to people from a range of social, cultural and ethnic backgrounds and with a range of physical and mental abilities.

**Required knowledge**

- applied principles of Integrated Pest/Resistance Management
- structure of chemical label and MSDS
- types, applications, storage and fitting of personal protective equipment
- legislation and regulations including OHS and licensing requirements in relation to chemical use
- features and functions of a range of application equipment relevant to the industry sector
- risk factors including human and animal health, spillage and environmental
- principles of transport, handling and storage for chemicals
- requirements for disposal of excess chemicals, clearing spillages and equipment clean up
- transport and handling requirements
- environmental effects of selected chemicals and how to minimise damaging effects of chemicals
- different broad chemical types, eg, insecticides, herbicides and fungicides and their mode of action symbols on the label
- paths of entry of poisons into the body and methods of limiting exposure
- methods of minimising risk during application
- Regulations and Codes of Practices with regard to hazardous substances of the use of chemicals
- OHS concerning personal safety and safety of others in the workplace
- alternatives to chemicals for pest management
- possible effects on health of bystanders/public in addition to applicators
- weather conditions and means of assessing them in line with risks, and recognising when they become unsuitable for application to continue.

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole.

Chemicals may include:	<ul style="list-style-type: none"> <li>• the application of liquid chemical mixes</li> <li>• granular products</li> <li>• and/or biological agents used in the control of pest, weeds and diseases including animal health products.</li> </ul>
------------------------	---

<b>EVIDENCE GUIDE</b>	
The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	<p>The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:</p> <ul style="list-style-type: none"> <li>• apply chemicals using handheld or small powered equipment</li> <li>• check, prepare, use and maintain application equipment and personal protective equipment</li> <li>• measure, mix, transport, handle store and dispose of chemicals</li> <li>• comply with OHS, chemical label and MSDSs requirements.</li> </ul>
Context of and specific resources for assessment	Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

<b>AHCCHM303A</b>	<b>PREPARE AND APPLY CHEMICALS</b>
Unit descriptor	This unit covers the process of preparing and applying chemicals and defines the standard required to: assess the need for chemical use; comply with safety, chemical label and MSDS requirements; prepare an application/spray plan; prepare and apply chemicals; calibrate application equipment and maintain chemical records.
Employability skills	This unit contains employability skills.
Application of the unit	This unit covers the preparation and application of liquid chemical mixes and/or granular products for the control of weeds, pests and diseases across a range of industry sectors. This unit may be deemed to have a time limit when used as part of an accreditation or licence process.
Unit sector	Chemicals

<b>ELEMENT</b>	<b>PERFORMANCE CRITERIA</b>
1. Determine the need for chemical use	<ol style="list-style-type: none"> <li>1.1. Nature and level of the pest, weed infestation or disease is identified.</li> <li>1.2. Need for control is assessed.</li> <li>1.3. The requirement for chemical use as an option within an integrated pest management strategy is assessed.</li> <li>1.4. Hazard and risk analysis of different chemical options is undertaken.</li> <li>1.5. Requirement for chemical application is identified and confirmed.</li> </ol>
2. Prepare application/spray plan	<ol style="list-style-type: none"> <li>2.1. Mixing rates for chemical is defined and calculated.</li> <li>2.2. Application equipment type and set up requirements are determined for intended application.</li> <li>2.3. The quantity of mix required is determined.</li> <li>2.4. Meteorological conditions and forecasts prior to and during application are accessed.</li> <li>2.5. An application/spray plan is completed.</li> <li>2.6. Notify neighbours as required in accordance with industry practice or regulatory requirements</li> </ol>
3. Prepare chemical mixes	<ol style="list-style-type: none"> <li>3.1. Requirements from chemical labels and Material Safety Data Sheets (MSDSs) are interpreted and applied.</li> <li>3.2. Appropriate first aid supplies are at hand.</li> <li>3.3. Appropriate personal protective and mixing equipment is selected and used in accordance with MSDSs and chemical label.</li> <li>3.4. A suitable location for mixing and loading is selected.</li> <li>3.5. Chemicals are prepared in accordance with registered use.</li> <li>3.6. MSDSs are followed in the event of a spill.</li> </ol>

4. Calibrate application equipment	<p>4.1. Pre-operational checks of application equipment are carried out.</p> <p>4.2. Equipment is calibrated in accordance with manufacturer specifications and application/spray plan.</p> <p>4.3. Calibration is checked for conformity to the requirements of the application/spray plan.</p> <p>4.4. Chemical is loaded wearing appropriate Personal Protective Equipment (PPE) and controlling risks to human health and the environment.</p>
5. Apply chemicals	<p>5.1. Appropriate personnel protective equipment is selected and used in accordance with MSDSs and chemical label.</p> <p>5.2. Chemical is applied in accordance with the application/spray plan and/or instructions and legislative and/or regulatory requirements.</p> <p>5.3. Risks to others, product integrity and the environment are assessed and minimised.</p>
6. Clean up equipment and complete records	<p>6.1. Excess chemical is disposed of in accordance with label and MSDSs requirements.</p> <p>6.2. Application equipment is cleaned and decontaminated.</p> <p>6.3. Requirements for the disposal of unused chemical, containers spilled materials are determined and implemented</p> <p>6.4. PPE and mixing equipment is cleaned and stored.</p> <p>6.5. Incidents are reported as required in accordance with legislative and/or regulatory requirements.</p> <p>6.6. All records, e.g. calibration, application, DG/hazard substances, risk assessments, are completed in accordance with legislative, industry and enterprise requirements.</p>

#### REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

##### Required skills

- identify hazards and implement risk control procedures
- identify appropriate treatment for pest, disease or weed
- mix and load chemicals
- conduct pre-operational checks of application equipment
- calibrate handheld and/or powered application equipment relevant to the industry sector
- interpret and apply chemical label requirements in the preparation of an application/spray plan
- apply chemicals
- use and maintain PPE
- dispose of surplus chemical and containers
- record activities and maintain records
- use literacy skills to read, interpret and follow organisational policies and procedures, follow sequenced written instructions, record accurately and legible information collected and select and apply procedures for a range of tasks
- use oral communication skills/language competence to fulfil the job role as specified by the organisation, including questioning techniques, active listening, clarifying information and consulting with supervisors as required
- use numeracy skills to estimate, calculate and record routine workplace measures
- use interpersonal skills to work with and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

##### Required knowledge

- options for pest control based on Integrated Pest/Resistance Management principles
- plant, pest, weed and/or diseases relative to industry sector
- chemical label and MSDSs formats
- meteorological and other conditions and impacts on safe and effective chemical application
- types and application of personal protective equipment
- features, functions and calibration techniques for a range of hand held and/or powered application equipment relevant to the industry sector

- risk factors including human and animal health, weather, spray drift, spillage and environmental
- spray nozzle identification, selection, operation and use
- chemical mix including mixing order, adjuvants, water quality, efficacy etc
- application techniques for a range of equipment types
- requirements for disposal of excess chemicals, clearing spillages and equipment clean up
- legislation including Occupational Health and Safety (OHS) and environment, and licensing requirements, in relation to chemical use.

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole.

Chemical types may include:	<ul style="list-style-type: none"> <li>• all types of chemical mixes used in the control of pests, weeds and diseases including animal health products.</li> </ul>
This unit does not cover:	<ul style="list-style-type: none"> <li>• operation of specialised equipment and machinery transport</li> <li>• handling and storage of chemicals set up of advanced operation</li> <li>• specialised on-board control equipment.</li> </ul>

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

<b>AHCCHM304A</b>	<b>TRANSPORT, HANDLE AND STORE CHEMICALS</b>
Unit descriptor	This unit covers the process of transporting, handling and storing chemicals safely and identifies the standard required to: correctly maintain and use personal protective equipment (PPE) according to label; follow emergency procedures for chemical spillage; follow legislative requirements for the safe transport of chemicals; and maintain storage area and chemical manifest.
Employability skills	This unit contains employability skills.
Application of the unit	This unit applies to the safe transport, handling and storage of liquid and dry chemical formulations across a range of industry sectors. The work is likely to be carried out unsupervised. Responsibility for and limited organisation of the work of others may be involved. This unit may be deemed to have a time limit when used as part of an accreditation or licensing process.
Unit sector	Chemicals

ELEMENT	PERFORMANCE CRITERIA
1. Transport and handle chemicals and biological agents	1.1. Transport requirements are identified and followed from legislative and regulatory requirements, including Occupational Health and Safety (OHS). 1.2. Risks involved in the transport and handling of chemical and biological agents are assessed and minimised. 1.3. Containers are confirmed as being in a sound condition to transport. 1.4. PPE is used as required according to manufacturer specifications and OHS requirements. 1.5. Instructions from chemical material safety data sheets (MSDS) are followed in the event of a spill. 1.6. Transport incidents are reported as required according to legislative and/or regulatory requirements. 1.7. Appropriate first aid kit and spill kit are confirmed as being on hand for all stages of transport, handling and storage.
2. Store chemicals in the workplace	2.1. Appropriate storage methods are used according to chemical labels, MSDS, and/or legislative and regulatory requirements. 2.2. Risks involved in storage of chemical and biological agents are assessed and minimised. 2.3. Storage area is maintained according to legislative and regulatory requirements, including OHS and environmental protection. 2.4. Products are retained in original containers with labels intact. 2.5. Storage methods are utilised to prevent contact with people or animals, contamination of produce or the environment. 2.6. Correct disposal procedures are applied for used chemical drums and storage containers. 2.7. Unwanted and/or out-of-date chemicals are disposed of according to legislative and/or regulatory requirements and industry programs.
3. Record storage details	3.1. Chemical storage inventory and records are maintained according to legislative and regulatory requirements, including OHS. 3.2. Storage incidents are reported as required according to legislative and/or regulatory requirements.

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

#### Required skills

- transport, handle and store chemicals safely
- follow chemical label and MSDS requirements for transport handling and storage
- maintain records
- use literacy skills to read, interpret and follow organisational policies and procedures, follow sequenced written instructions, record information collected accurately and legibly, and select and apply procedures for a range of tasks

- use interpersonal skills to work with and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

#### Required knowledge

- transport handling and storage requirements on chemical labels and MSDS
- types and application of PPE used in transport and handling
- legislation and regulations, including OHS and licensing requirements in relation to chemical storage and transport
- risk factors, including human, animal health and environmental associated with transport, handling and storage
- requirements for disposal of excess, unwanted and/or out-of-date chemicals
- requirements for disposal of used chemical containers and/or drums
- processes for clearing spillages and clean up.

## The Children's Court of New South Wales

### Practice Note No. 4

#### Short Term Care Orders Pilot Project

#### 1. Commencement

- 1.1 This Practice Note commences on 20 June 2011

#### 2. Preamble

- 2.1 Community Services is undertaking a 12 month pilot project called the Short Term Care Orders Pilot Project ("the Project") to increase the use of short term care orders with the aim of keeping children in the care of their families or restoring children to the care of their families in an expeditious manner and avoiding long term care orders wherever possible. The Project is part of a larger scheme of projects to support a conceptual shift in Community Services casework practice towards the preservation and restoration of families.
- 2.2 The Project will operate in the following Community Services Centres: Central Sydney; Eastern Sydney; Gosford and Raymond Terrace.
- 2.3 This Practice Note only applies to new care applications filed after the commencement of this Practice Note and excludes applications for an emergency care and protection orders under s 46 of the *Children and Young Persons (Care and Protection) Act 1998* (the Care Act) and applications for variation or rescission of care orders under s90 of the Care Act. However, cases subject to applications under s46 or s90 may be part of the larger scheme of Community Services projects relating to family preservation and restoration.
- 2.4 This Practice Note only applies to care applications emanating from the Community Services Centres referred to in paragraph 2.2 above.

**3. Identification of matters as part of the Project**

- 3.1 Community Services is to mark on the front of the application the words "Short Term Care Orders Pilot Project" to identify new care applications that fall within the Project.

**4. Case Management of matters falling within the Short Term Care Orders Pilot Project**

- 4.1 Prior to the determination under s72 of the Care Act that a child is in need of care and protection (establishment) applications falling within the Project will proceed in the same manner as for applications that do not fall within the Project.
- 4.2 Where a case has been established and Community Services is of the view that restoration is a realistic possibility an application will be made by Community Services to adjourn the case for a period of up to 3 months. The purpose of the adjournment is to allow Community Services to work with the family and to confirm whether, in their view, restoration should be pursued.
- 4.3 Upon application by Community Services and after hearing any submissions by the other parties the Children's Court (the Court) will grant the application for an adjournment for a period of up to 3 months unless it considers it inappropriate to do so in the particular circumstances of the case.
- 4.4 If the Court grants the application for the adjournment the Court will also refer the case to a dispute resolution conference (DRC) under s 65 of the Care Act. A case may also be referred to an external alternative dispute resolution service (external ADR) under s65A of the Care Act in accordance with Practice Note 3. A conference under s65 or s65A is to be held within 2 to 3 weeks.
- 4.5 If at any time following establishment Community Services no longer holds the view that restoration is a realistic possibility and that the case should no longer remain in the Project, Community Services is to advise the Court at the earliest opportunity. The case will then proceed in the same manner as if it were not in the Project.

**5. Dispute Resolution Conference following Establishment**

- 5.1 The purpose of the DRC or external ADR conference referred to in paragraph 4.4 above will be for the parties to jointly plan the assessment and initial intervention phase with the family during the adjournment period, and identify any further interim orders that the parties believe would be appropriate in the circumstances.

- 5.2 Community Services will file and serve a 'Summary of the Proposed Future Plan for the Child/Young Person' at least three working days prior to the DRC or external ADR conference (or within such other time as the Court directs) which will:
- (i) identify the risks and safety concerns which have led to the involvement of Community Services;
  - (ii) indicate why Community Services has formed the initial view that restoration is a realistic possibility, and why an adjournment of up to 3 months would be appropriate to test this view;
  - (iii) identify what Community Services considers the parents and or the child/young person need to do for Community Services to consider it safe for the child/ren to return home safely;
  - (iv) identify what Community Services considers the parents and/or the child/young person need to change/demonstrate during the adjournment period for Community Services to confirm its initial view that restoration is a realistic possibility; and
  - (v) identify what resources/services Community Services proposes to arrange, or has arranged, to assist the parents and/or the child/young person achieve these changes, both during the adjournment period and thereafter.
- 5.3 If following the DRC the parties have agreed that further interim orders are necessary the Children's Registrar will arrange for the matter to be re-listed before the Court at the earliest opportunity.
- 5.4 If following the external ADR conference the parties have agreed that further interim orders are necessary Community Services will seek to have the matter re-listed before the Court at the earliest opportunity.

**6. Further 3 month adjournment period**

- 6.1 If during the adjournment period circumstances arise where Community Services and/or another party forms the view that a further adjournment of up to 3 months will be required to assess whether restoration should be pursued the party should seek to re-list the matter as soon as practicable.
- 6.2 If a further adjournment period is sought by Community Services then Community Services is to file and serve:
- (i) an affidavit outlining what progress has been made to date in addressing the risks and safety concerns initially raised by Community Services and

- (ii) an updated 'Summary of the Proposed Future Plan for the Child/Young Person' which addresses the matters referred to at 5.2 (ii), (iii), (iv) and (v) above prior to the re-listing of the case.
- 6.3 If a further adjournment is sought by a party other than Community Services, then that party should file and serve affidavit evidence (or in the case of a child representative, written submissions), outlining why the further adjournment is sought prior to the relisting of the case.
- 6.4 If appropriate the Court will grant a further adjournment of up to 3 months to allow for further assessment.
- 6.5 If necessary a further DRC or external ADR conference will be arranged for the parties to discuss how the matter might then proceed.

## **7. Removal of cases from the Project**

- 7.1 If Community Services and/or another party forms the view that restoration is no longer realistic or for any other reason the matter should no longer remain in the Project that party is to seek to re-list the matter as soon as practicable.
- 7.2 Where Community Services has already filed a 'Summary of the Proposed Future Plan for the Child/Young Person' and has formed the view that restoration is no longer realistic and that the matter should no longer be in the Project, then Community Services will file and serve an updated 'Summary of the Proposed Future Plan for the Child/Young Person' identifying the reasons for this, including:
  - (i) any new risks and safety concerns and
  - (ii) the areas in which the parents and/or the child/young person have failed to demonstrate, or demonstrate sufficiently, a capacity to make the changes needed in order for the child/young person to return home safely.
- 7.3 Upon advice that the case is no longer in the Project the Court will proceed with the application in the same manner as applications that do not fall within the Project.

- 8. Care plan following 3 month adjournment**
- 8.1 At the conclusion of the adjournment period, or any extension of that period granted by the Court, Community Services will form a view as to whether restoration is still supported.
- 8.2 If restoration is still supported, Community Services will file and serve:
- (i) affidavit evidence outlining what has been achieved during the adjournment period and
  - (ii) if applicable, a care plan (inclusive of a detailed restoration plan) which outlines when the successful restoration of the child/young person might be achieved
  - (iii) a proposed Minute of Care Order.
- 8.3 If restoration is no longer supported, Community Services will file and serve:
- (i) affidavit evidence outlining any alleged new risks and safety concerns that have arisen during the adjournment period and the areas in which the parents and/or the child/young person have failed during the adjournment period to demonstrate, or demonstrate sufficiently, a capacity to make the changes needed in order for the child/young person to return home safely and
  - (ii) a care plan addressing all relevant issues relating to permanency planning for the child/young person.
- 8.2 If the parties agree on how the application should be determined in the best interests of the child/young person consent orders are to be prepared and placed before the Court for consideration.
- 8.3 If the parties do not agree on how the application should be determined the case should be placed before the Court to make directions for the filing of affidavits and for the matter to be listed for hearing.
