Environment Protection Authority

Declaration of Significantly Contaminated Land
(Section 11 of the Contaminated Land Management Act
1997)

Declaration Number 20121106; Area Number 3313

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 (“the Act”):

1. Land to which this declaration applies (“the site”)

This declaration applies to Lot 11, section A, DP 22316 known as 251 to 253 Goonoo Goonoo Road, Tamworth NSW, in the local government area of Tamworth Regional Council. A map of the site is available for inspection at the offices of the Environment Protection Authority, 59 Goulburn Street, Sydney NSW.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances (“the contaminants”):

- Total Petroleum Hydrocarbons (TPH); and,
- Benzene, Toluene, Ethyl benzene, Xylene (BTEX).

In particular the EPA has found:

- A significant thickness of Phase Separated Hydrocarbon has been identified on the site.

3. Nature of harm that the contaminants have caused:

The EPA has considered the matters in s.12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- Petroleum hydrocarbons have been detected in groundwater at concentrations exceeding guideline levels;
- the contamination is migrating offsite towards residential properties and users of the aquifer; and,
- exposure to the contaminants may occur through the inhalation of volatile chemicals or through the use of groundwater in the region.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites,
Environment Protection Authority,
PO Box A290,
Sydney South NSW 1232,
or faxed to (02) 9995 5930.

by not later than 21 December 2012.

Dated: 16 November 2012.

NIALL JOHNSTON,
Manager,

Note:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under s.14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (s.44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act 1979 that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of Significantly Contaminated Land
(Section 11 of the Contaminated Land Management Act 1997)

Declaration Number 20121108; Area Number 3315

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

This declaration applies to the land that is located at 2 Gidley Street, Molong and is identified as Lots 1 and 2 in DP 38264 and Lot 1 in DP 162915, within the local government area of Cabonne Council.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances ("the contaminants"):

- Petroleum Hydrocarbons (TPH);
- Benzene, Toluene, Ethylbenzene and Xylene (BTEX); and
- Naphthalene.

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in s.12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- The groundwater is contaminated with dissolved phase hydrocarbons and phase separate hydrocarbons. The contamination has migrated beyond the boundaries of the site, and the extent of the phase separate hydrocarbon not been delineated off-site;
- The contaminated groundwater may continue to migrate off-site and potentially impact nearby residential areas, regional users of the groundwater and Molong Creek; and
- The contaminated groundwater may pose a vapour risk to nearby building occupants (residential and commercial) and offsite workers accessing underground utilities and excavations. There is also the potential risk of explosion should vapours accumulate in any confined space.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of s.17 of the Act, the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or

- Any other matter concerning the site.

Submissions should be made in writing to:

Manager, Contaminated Sites,
