CONTAMINATED LAND MANAGEMENT ACT 1997

Section 11

Declaration Number 20111109 / Area Number 3302

THE ENVIRONMENT PROTECTION AUTHORITY (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

The site includes the land listed below:

- All of Lot 1 in Section 3 in DP 758782 and;
- All of Lot 2 in Section 3 in DP 758782 (known as the Deniliquin, Shell-Coles Express Service Station; and those parts of;
- Davidson Street Deniliquin (the Cobb Highway); and
- The footpaths adjoining Davidson Street.

which fall within the area bounded by the thick black dotted line marked on the attached map – Figure 1: Declared area.

The site is in the Parish of North Deniliquin

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with petroleum including the following substances ("the contaminants"):

- Benzene, and
- Total Petroleum Hydrocarbons (TPH)

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- groundwater has been degraded by petroleum hydrocarbon contamination at concentrations exceeding environmental guideline criteria. Phase separated hydrocarbons are also present;
- the contaminants in groundwater have migrated and may continue to migrate off-site towards water bodies, commercial land and residences; and
- workers may be accidentally exposed to vapours that may accumulate in excavations.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager, Contaminated Sites

NOTE:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
