CONTAMINATED LAND MANAGEMENT ACT 1997

Section 11

Declaration of Significantly Contaminated Land

Declaration Number 20121103; Area Number 3309

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

This declaration applies to the land that is located at 132 Niagara Street, Armidale and is identified as Lot 1 in DP 203328 within the local government area of Armidale Dumaresq Council. The site is known to be the former Mobil Armidale (Niagara) Depot. A map of the site is available for inspection at the Office of Environment and Heritage, Department of Premier and Cabinet, 59 Goulburn Street, Sydney NSW.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with petroleum hydrocarbons of diesel origin.

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- The groundwater is contaminated with phase separated hydrocarbons and dissolved phase hydrocarbons beneath the western portion of the site. The contamination has extended to the site boundaries; and
- The relatively shallow depth of contaminated groundwater increases the risk of harm of the contamination to human health and to the surrounding environment.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act, the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager, Contaminated Sites
Environment Protection Authority
PO Box A290
Sydney South NSW 1232

or faxed to (02) 9995 5930

by not later than 24 August 2012.

Date: 16 July 2012.

NIALL JOHNSTON,
Manager, Contaminated Sites,
Environment Protection Authority

NOTE:

Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under section 14 of the Act.

Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
