SPECIAL SUPPLEMENT

ANIMAL DISEASES AND ANIMAL PESTS (EMERGENCY OUTBREAKS) ACT 1991

Section 28

Importation Order – Abalone (No. 8)

I, THERESE MARGARET WRIGHT, Deputy Chief Veterinary Officer, with the powers the Minister has delegated to me pursuant to section 67 of the Animal Diseases and Animal Pests (Emergency Outbreaks) Act 1991 ('the Act'):

1. pursuant to section 28 of the Act on the basis that I reasonably suspect an area outside New South Wales to be infected with the emergency animal disease Abalone viral ganglioneuritis, prohibit the entry or importation into New South Wales of:
 - (a) live abalone taken from Tasmanian State waters or originating in Tasmania except as described in Schedule 1;
 - (b) fittings used in connection with abalone described in paragraph 1(a) unless such fittings have been cleaned and disinfected to remove traces of abalone or abalone product;
 - (c) live abalone taken from Victorian State waters or originating in Victoria except:
 - (i) live abalone from a Victorian abalone farm that is transported directly into New South Wales from that abalone farm and not via an abalone processor outside New South Wales; or
 - (ii) live abalone taken from the Victorian eastern abalone zone which is transported directly to the Abalone Fishermen's Co-operative Limited, 1 Commercial Road Mallacoota, Victoria and then transported directly into New South Wales;
 - (d) fittings used in connection with abalone described in paragraph 1(c) unless such fittings have been cleaned and disinfected to remove any traces of abalone or abalone product.
 - (e) live abalone that have been in contact with any:
 - (i) water that has held; or
 - (ii) fittings that have previously been used in connection with;
 live abalone described in paragraph 1(a) or 1(c) unless such fittings had been cleaned and disinfected to remove any traces of abalone or abalone product.

Definitions

In this Importation Order

"abalone" means fish of the genus *Haliotis*.

"abalone product" has the same meaning as "animal product" in the Act and includes abalone offal, gut, mucus or shells.

"abalone farm" means a premises that undertakes abalone aquaculture.

"certified biosecure area" means an area that has been annually inspected and certified as being biosecure by the Tasmanian Department of Primary Industries, Parks, Water and Environment .

"fittings" has the same meaning as in the Act.

"Tasmanian State waters" means State waters as defined by the Living Marine Resources Management Act 1995 (Tasmania).

"Victorian eastern abalone zone" means all Victorian State waters east of longitude 148° East.

“*Victorian State waters*” means Victorian waters as defined by the Fisheries Act 1995 (Victoria).

SCHEDULE 1

Live abalone taken from Tasmanian State waters or originating in Tasmania

1. Live abalone that:
 - (a) is from a Tasmanian abalone farm that:
 - (i) is not within three kilometres by water of an abalone processor; and
 - (ii) has complied with the requirements of the accreditation program described in Schedule 2;
 - (b) has not been in contact with live abalone from any other location;
 - (c) is transported into New South Wales:
 - (i) directly from that abalone farm and not via an abalone processor outside New South Wales; or
 - (ii) from that abalone farm in sealed boxes via the certified biosecure area of an abalone processor;
 - (d) is transported in new Styrofoam boxes and accompanied by the documents described in paragraph 2 of this Schedule.
2. All consignments of live abalone must be accompanied by:
 - (a) a declaration form provided by NSW Department of Primary Industries and signed by the owner/manager of the Tasmanian abalone farm declaring that the importation conditions in this Schedule have been met (a copy of the signed declaration must be faxed/mailed to NSW Department of Primary Industries); and
 - (b) a copy of the NSW Department of Primary Industries factsheet “General hygiene to prevent spread of abalone disease” available at http://www.dpi.nsw.gov.au/responses/avg2011/abalone-hygiene/_recache.

SCHEDULE 2

Accreditation program

1. The accreditation program requires the abalone farm to undertake a surveillance and testing program where:
 - (a) the abalone farm has submitted samples, within the last six months, to a government laboratory to detect infection using a 2-stage sampling procedure in accordance with the table in Schedule 3 and all samples are tested negative for Abalone viral ganglioneuritis by Polymerase Chain Reaction test;

OR

 - (b) (i) the abalone farm has submitted samples to a government laboratory to detect infection using a 2-stage sampling procedure in accordance with the table in Schedule 3 and all samples were tested negative for Abalone viral ganglioneuritis by Polymerase Chain Reaction test; and
 - (b) (ii) within 6 weeks of receiving the tests under paragraph (b)(i), the abalone farm must maintain a sentinel population of 30 or more susceptible abalone within an area of the farm that receives discharge water from all tanks holding live abalone on the farm. Where the sentinel abalone population cannot be placed in a single common area to receive discharge from all tanks, multiple sentinel abalone populations must be used; and
 - (b) (iii) the abalone farm must check each sentinel population daily and submit any moribund abalone to a government laboratory to detect infection with all abalone testing negative for Abalone viral ganglioneuritis by Polymerase Chain Reaction test. The abalone farm must replace any moribund abalone if required to maintain a sentinel population of 30 or more; and
 - (b) (iv) every six months the abalone farm must submit all abalone within the sentinel population to a government laboratory to detect infection with all abalone testing negative for Abalone viral ganglioneuritis by Polymerase Chain Reaction test; and
 - (b) (v) the abalone farm must maintain accurate records of all abalone removed from the sentinel population for testing purposes and provide these records for examination during audits of compliance.
2. The accreditation program requires the abalone farm to have written evidence of two satisfactory audits of compliance in accordance with the Tasmanian Department of Primary Industries, Parks, Water and Environment abalone farm biosecurity program (including no introductions of abalone stock except from equivalent abalone farms of equivalent status and twice yearly inspection by the Tasmanian Department of Primary Industries, Parks, Water and Environment); and
3. The accreditation program requires the abalone farm to have written evidence that all unusual abalone mortality events have been reported to the Tasmanian Department of Primary Industries, Parks, Water and Environment, any investigation has been completed and the abalone concerned have been tested negative by a Tasmanian government laboratory for Abalone viral ganglioneuritis by Polymerase Chain Reaction test.

(Note: Advice on sampling requirements should be obtained from the Tasmanian Department of Primary Industries, Parks, Water and Environment).

SCHEDULE 3

2 stage sampling procedure

<i>No. of grow-out tanks on farm</i>	<i>No. of tanks to sample</i>	<i>No. Abalone sampled per tank</i>
