**POISONS AND THERAPEUTIC GOODS ACT 1966**

Order under Clause 175 (1)

Poisons and Therapeutic Goods Regulation 2008

Restoration of Drug Authority

IN accordance with the provisions of Clause 175 (1) of the Poisons and Therapeutic Goods Regulation 2008 a direction has been issued that the Order issued on 14 March 2012 prohibiting Dr Steve Peter Wesley RAYMOND (MED0000943782) of 1 Glenrock Close, Whitebridge NSW 2260, from supplying or having possession of drugs of addiction as authorised by Clause 101 of the Regulation and issuing a prescription for a drug of addiction as authorised by Clause 77 of the Regulation, shall cease to operate from 1 August 2014.

Dated at Sydney, 30 July 2014.

Dr MARY FOLEY,  
Secretary,  
Department of Health, New South Wales,

**PRACTICE NOTE No. 31****INDUSTRIAL RELATIONS COMMISSION OF  
NEW SOUTH WALES**

Issued Pursuant to Section 185A of the  
Industrial Relations Act 1996 and  
Section 15 of the Civil Procedure Act 2005

Issue Date: 22 July 2014

Production of and access to summonsed material  
and returning exhibits and summonsed material  
in civil proceedings

**Application**

1. This Practice Note applies to production of documents in compliance with a summons issued in regard to civil proceedings in the Commission and the return of summons documents and exhibits after proceedings have been determined.
2. This Practice Note does not apply to summonses issued pursuant to section 132, section 165 (3) (a) or section 332 of the Industrial Relations Act 1996 or as a consequence of Part 5.5 or Part 11 of the Industrial Relations Commission Rules 2009, save as to any Order made by the Commission in that regard.
3. This Practice Note takes effect from the date of issue.

**Definitions**

4. In this Practice Note:

*UCPR* means Uniform Civil Procedure Rules 2005*Issuing party* means the party requesting the issue of a summons for production

*Summons recipient* means the person to whom a summons for production is addressed.

### Introduction

5. The purpose of this Practice Note is:
  - to inform the parties of their ability to nominate, on the summons document before filing, a convenient return date for the summons;
  - to inform the parties of the need to endorse a proposed access order on the summons and the procedure that applies in that regard;
  - to inform the parties of the Commission's preferred practice in relation to the format of documents being produced in response to a summons;
  - to inform parties of the Commission's practice in relation to accessing summoned material produced in an electronic format; and
  - to inform Summons recipients and parties of the Commission's practice in relation to returning exhibits and summoned material.

### Serving the Summons

6. The forms of summons to produce, and to attend and give evidence and produce, have been amended to include the Summons recipient's declaration (in relation to whether the documents produced are originals and whether they need to be returned): see new forms 41 and 42 (based entirely on UCPR forms 26A and 27A). The Issuing party should provide a copy of the summons when it is served so that the Summons recipient can retain the original summons and forward the copy with the completed declaration to the registry.
7. The Issuing party can nominate a convenient return date for the summons on the document filed at the registry, provided that sufficient time is allowed to serve the Summons recipient. The Commission has a summons list every Wednesday at 9.15am during the court term. If the summons does not include a nominated return date, the registry will allocate a date.

### Endorsement of Access Orders

8. The issuing party must endorse the proposed access order on the summons. If the issuing party does not propose an access order on the summons the following access order will apply:
 

"The issuing party to have first access for 7 days; thereafter, in the absence of any further application, access to all parties".
9. Where a different proposed access order is sought the issuing party must attach his or her reasons to the summons. If there is a dispute over access the parties must appear on the return date.
10. An order for access includes an order that, where necessary, the documents may be physically inspected and photocopied.
11. Parties are advised that if they consent to the proposed access orders the Commission will generally make the proposed access orders. There is no need for the parties to appear on the return date if all parties consent to the orders sought thereby saving the parties the cost of an attendance.
12. The issuing party must attend on the return date if it has not notified all the parties of the issuing of the summons.

The Commission may make costs orders against parties who have not complied with the Rules or this Practice Note.

13. Any party, or the producer, may object to the issuing party about the proposed access order. The issuing party must notify all the other parties of the objection. Parties who wish to contest the proposed access order must appear on the return date. The matter may be determined on that date or remitted to a Member of the Commission for determination on a future date.
14. If there is no objection to the proposed access order at the return of subpoena, the order will automatically take effect from the day following the return of subpoena.

### Production of summonsed material

15. The UCPR was updated in 2011 in relation to how to comply with a summons to produce. Specific attention is drawn to UCPR rule 33.6 (6) and (7).
16. UCPR rule 33.6 (6) allows the Summons recipient to produce a copy of documents, unless the summons specifically requires the original documents to be produced. The Issuing party should only specify that the original document is required in those special circumstances where the original document may need to be tendered.
17. UCPR rule 33.6 (7) allows the Issuing party to permit the production of documents in a format that is acceptable to that party. Most Summons recipients who have access to a photocopier will now also have access to a document scanner. Where documents would otherwise be photocopied to respond to a summons it will normally be as convenient, and less costly for the Summons recipient, to scan those documents and save them in an electronic format. If a document already exists in an electronic format it will also be more convenient and less costly to copy that document in an electronic format rather than print it out on paper. It will also normally be more convenient for the Issuing party and the other parties to access summonsed documents in an electronic format.
18. To facilitate the production of summonsed documents electronically (rather than paper copies), the Issuing party should indicate to the Summons recipient that production in an electronic format is acceptable. This should particularly be done where a large volume of material is being summonsed. This information for the Summons recipient can be included on the summons in the schedule describing the documents to be produced. It can also be included in a covering letter.
19. If a document has been scanned, is a word processing document or is a photograph or image, a copy of the document should be saved as, or converted to, a PDF file. Generally it will be sufficient for emails to be provided in a PDF file.
20. If the material is in an electronic format which cannot be conveniently saved as a PDF file, such as a database, a sound or a video recording, it is appropriate for a copy of the document to be provided in the original electronic format. If the original format is not a current or common format then the Issuing party should also consider whether a copy in some other electronic format should also be asked for, so that it can be readily accessed by the parties and the Commission.

21. Electronic summons documents can be provided on a DVD, a CD or a USB device.
22. Electronic summons documents can also be emailed to the registry at [irc\\_client\\_services@agd.nsw.gov.au](mailto:irc_client_services@agd.nsw.gov.au) provided a scanned copy of the summons is also attached to the email. The subject line of the email should state "Producing summonsed documents" and include the case name and number.

#### Accessing summonsed material produced in an electronic format

23. If an unrestricted order for access is made in relation to summons material which has been produced in an electronic format, then, on application by a party entitled to access that material, an electronic copy of the material will be made and provided by the registry.
24. The party applying for access should provide a blank DVD, CD or USB device onto which the copy can be made. In the alternative, upon request, the registry may provide access to the material by sending an email attaching the material to the party applying for access.
25. Access to non-electronic summons material will continue to be provided as per the current practice, that is, the material may be copied on the Commission premises unless an order for uplift has been made.

#### Tendering summonsed material originally produced in an electronic format

26. If directions have not been made to allow the tendering of documents at the hearing in an electronic format, then it is the responsibility of the party intending to tender a document which was originally provided to the registry in an electronic format to provide a printed copy of the document to the Commission at the hearing or to make arrangements for the relevant technology to be available so that the document can be viewed. This requirement may be achieved by including the document in a tender bundle.

#### Returning exhibits and produced documents

27. Rules 31.16A and 33.10 of the UCPR require the Commission to retain exhibits and summonsed material for specified time frames after the determination of the proceedings, unless the Commission makes a specific order for the return of this material at an earlier date.
28. The Commission's usual practice in relation to exhibits and summonsed material will now be an order when the proceedings are determined that the exhibits and summonsed material be returned forthwith. The Commission will not retain this material unless there is an order by the Member that it remain on the Commission file.
29. When a summons is served, the Summons recipient is asked to complete a declaration stating whether the documents being produced are copies and, if so, acknowledging that they may be destroyed by the Commission when they are no longer required. Summonsed documents in an electronic format (produced on a DVD, a CD or a USB device) which have been identified as copies will not be returned to the Summons recipient and will be destroyed (or deleted) by the registry unless the Summons recipient has specifically requested that they be returned.
30. In relation to any exhibits that are returned, those exhibits must be retained intact by the party or person

who produced the material until the expiry of the time to file an appeal or until any appeal has been determined. Solicitors should notify their clients of their obligations in relation to this material if it is returned to the clients. If an appeal is filed, the party or persons may be asked to produce the material to the Commission registry for the purposes of the appeal, however, generally, copies held by the appellant can be used for preparing the appeal books.

## 1 Introduction

This Code of Practice is known as the 10/50 Vegetation Clearing Code of Practice for New South Wales (the 10/50 Code) and has been prepared in accordance with section 100Q of the *Rural Fires Amendment (Vegetation Clearing) Bill 2014*.

This 10/50 Code has been developed to provide for vegetation clearing work to be carried out in certain areas near residential accommodation or high-risk facilities to reduce the risk of bush fire.

It permits landowners in the 10/50 vegetation clearing entitlement area to clear on their own land, vegetation that is adjacent to an external wall of a building containing habitable rooms that comprises or is part of residential accommodation or a high-risk facility.

The Commissioner of the NSW Rural Fire Service (NSW RFS) may review this 10/50 Code at any time.

## 2 Definitions

Expressions defined in Division 9 of the *Rural Fires (Vegetation Clearing) Amendment Bill 2014* have the same meaning for this 10/50 Code.

A definition within the *Rural Fires Act 1997* applies to this 10/50 Code, except where the terms defined in Division 9 of the *Rural Fires (Vegetation Clearing) Amendment Bill 2014* apply.

For the purpose of this 10/50 Code the following definitions apply:

**10/50 vegetation clearing entitlement area:** land determined by the Commissioner of the NSW Rural Fire Service to be a 10/50 vegetation clearing entitlement area, and is identified as such on a map published on the NSW RFS website.

**External wall:** see Section 6.2

**Habitable room:** See Section 6.3

**Tree:** a perennial woody plant having:

- (a) a single stem or trunk
- (b) is 3 or more metres in height, and
- (c) the trunk, at a height of 1.3 metres above the ground, has a circumference of more than 0.3 metres.

A tree does not include a shrub, which is a small low growing woody plant with multiple stems, or a vine which is a woody plant that depends on an erect substrate to grow on.

## 4 Access to the 10/50 Code

The 10/50 Code is available from the NSW RFS website at [rfs.nsw.gov.au](http://rfs.nsw.gov.au) or as a hard copy from a NSW RFS District Office at no charge to any owner of land situated within the 10/50 vegetation clearing entitlement area.

## 5 The 10/50 Code of Practice

### 5.1 Compliance and enforcement

If an owner of land in a 10/50 vegetation clearing entitlement area carries out vegetation clearing work for which an approval, consent or other authorisation is required, and the work is carried out without that approval, consent or authorisation and other than in accordance with the 10/50 Code, then offence provisions and any available remedies will apply, under relevant legislation.

Vegetation clearing that is carried out in accordance with this 10/50 Code is considered to be authorised clearing under NSW legislation.

### 5.2 Application of land to the 10/50 Code

Vegetation clearing under this 10/50 Code may only be undertaken on parcels of land that contain land mapped as 10/50 vegetation clearing entitlement land. This may apply to public or private lands.

### 5.3 Determining if your land is mapped as 10/50

An online assessment tool is available on the NSW RFS website at [rfs.nsw.gov.au](http://rfs.nsw.gov.au) and allows a landowner to conduct a self-assessment as to whether their land falls within the 10/50 vegetation clearing entitlement area and complies with the requirements of this 10/50 Code.

### 5.4 Landowners consent

The clearing of vegetation under this 10/50 Code can only be conducted with the consent of the landowner. It is not permissible to clear any land without the owner's consent:

- › Tenants must obtain approval from the landowner prior to commencing any clearing works
- › Landowners may not clear adjoining land without the approval of the landowner

Where a single tree trunk occurs across two or more properties, the approval of all landowners is required for removal of the tree.

It is recommended that evidence of such consent be recorded.

## 6 Buildings

This 10/50 Code applies to vegetation adjacent to external walls of a building containing habitable rooms that comprises, or is part of, residential accommodation or a high-risk facility.

This section does not apply to a building containing habitable rooms if there is no development consent or other lawful authority under the *Environmental Planning and Assessment Act 1979* for the use of those rooms as habitable rooms.

### 6.1 External walls

External walls refer to the external walls of a building containing habitable rooms and includes permanent fixed structures such as decks and garages that are attached to the building.

### 6.2 Habitable rooms

A building containing habitable rooms requires that:

- (a) For the purpose of residential accommodation (including tourist and visitor accommodation, caravans and manufactured homes):
  - › the building contain one or more rooms designated and approved as bedrooms for sleeping. Vegetation clearing is not provided under this 10/50 Code for associated adjoining buildings that do not contain habitable rooms.
- (b) For the purpose of a childcare centre:
  - › the building contain one or more rooms designed and approved for the purpose of the supervision and care of children. Vegetation clearing is not provided under this 10/50 Code for associated adjoining buildings that do not accommodate children, such as external storerooms.
- (c) For the purpose of a school:
  - › the building contain one or more rooms designed and approved for the purpose of accommodating children. Vegetation clearing is not provided for under this 10/50 Code for associated adjoining buildings that do not accommodate children, such as external restrooms or storerooms.
- (d) For the purpose of a hospital:
  - › the building contain one or more rooms designed and approved for the purpose of accommodating patients, or providing sleeping facilities for hospital staff. Vegetation clearing is not provided for under this 10/50 Code for associated adjoining buildings that do not accommodate patients, such as cafeterias or ancillary hospital buildings such as maintenance storerooms.

### 6.3 Residential accommodation

For the application of this 10/50 Code residential accommodation is accommodation that includes:

- › Residential accommodation
- › Tourist and visitor accommodation
- › Caravans installed or placed in caravan parks, and
- › Manufactured homes installed in manufactured home estates

within the meaning of the *Standard Instrument – Principal Local Environment Plan*. Further information is located at Attachment A.

## 6.4 High-risk facility

For the purpose of this 10/50 Code a high-risk facility includes:

- › Childcare centres
- › Schools, and
- › Hospitals

within the meaning of the *Standard Instrument – Principal Local Environment Plan*. Further information is located at Attachment A.

## 7 Vegetation clearing provisions

### 7.1 Clearing distance

A landowner may carry out the following vegetation clearing work on their own land:

- › the removal, destruction (by means other than fire) or pruning of any vegetation (including trees) within 10 metres; and
- › the removal, destruction (by means other than fire) or pruning of any vegetation, (except for trees) within 50 metres

of an external wall of a building containing habitable rooms that comprises or is part of residential accommodation or a high-risk facility.

It does not matter whether the residential accommodation or high-risk facility is located on the owner's land or adjoining land. The allowable distances apply irrespective of whose land the residential accommodation or high-risk facility occurs on.

Trees may only be removed where the trunk is within 10 metres of the residential accommodation or high-risk facility.

*Note: a person may not clear adjoining land or any other land without the approval of the landowner.*

### 7.2 The type of vegetation that can and cannot be cleared, including the types of trees

All types of vegetation may be cleared other than mangroves and salt marsh on public land.

### 7.3 The circumstances in which vegetation should be pruned and not entirely removed

Any vegetation within 50 metres (other than trees greater than 10 metres from the residence) may be pruned.

Irrespective of the location of the tree trunk, any branches within 10 metres of a residence may be pruned.

Note: the pruning of trees must be undertaken in accordance with AS 4373-2007 *Pruning of Amenity Trees*.

### 7.4 Use of herbicides

Herbicides may only be used in accordance with the following conditions:

- › Only herbicides registered by the Australian Pesticide and Veterinary Medicines Authority ([www.apvma.gov.au](http://www.apvma.gov.au)) may be used unless otherwise specified in a permit.

- › Users must read the label on the herbicide each time before using.
- › Users must not store, use or dispose of any herbicide that contravenes the instruction for that product.
- › Users must adhere to instructions on the herbicide label, unless otherwise specified in a permit.
- › Users must not, without a reasonable excuse, keep a herbicide in a container without an approved label attached to the container.
- › Users must not use a herbicide in a manner which risks injury to any other person or the property of another person.
- › Users must not use a herbicide in a manner which harms any non-target plant.
- › Users must not dispose of herbicide waste in a manner that risks injury to the environment, including water bodies.
- › Users must not allow herbicides to leak, spill or otherwise escape in a manner that risks injury to the environment including water bodies.

### **7.5 Managing soil erosion and landslip risks**

To manage soil erosion and landslip risks:

- › there is to be no disturbance of the soil profile
- › all topsoil must remain on the soil surface, and
- › the use of graders, ploughs and dozers to clear land under this 10/50 Code is not permitted.

In addition, tree removal is not permitted on slopes greater than 18 degrees except in accordance with conditions identified in a Geotechnical Engineer Assessment Report undertaken for that purpose.

Pruning of trees is only permitted on slopes greater than 18 degrees provided at least 75 per cent of the original canopy cover is retained, except in accordance with conditions identified in a Geotechnical Engineer Assessment Report undertaken for that purpose.

### **7.6 Protection of riparian buffer zones**

The clearing of vegetation is not allowed within 10 metres of a Prescribed Stream as identified by the Office of Environment and Heritage.

The distance (metres) is measured from the highest bank or tidal limit if there is no defined high bank. This applies to either side of the Prescribed Stream.

### **7.7 Protection of Aboriginal and other cultural heritage**

Clearing may not be carried out within areas identified by the Office of Environment and Heritage as containing Aboriginal or other cultural heritage, except in accordance with conditions provided by the Office of Environment and Heritage for that purpose.

### **7.8 Protection of vegetation to which a legal obligation exists to preserve that vegetation by agreement or otherwise**

Clearing under this 10/50 Code cannot be inconsistent with any of the following land management agreements:

- › any conservation agreement entered into under Division 12 of Part 4 of the [National Parks and Wildlife Act 1974](#),

- › any Trust Agreement entered into under Part 3 of the [Nature Conservation Trust Act 2001](#),
- › any property management plan approved by the Director-General of the NSW National Parks and Wildlife Service under section 113B of the [Threatened Species Conservation Act 1995](#), or
- › any Property Vegetation Plan agreement entered into under Part 4 of the [Native Vegetation Act 2003](#), or
- › any Biobanking Agreement entered into under Part 3 of the [Threatened Species Conservation \(Biodiversity Banking\) Regulation 2008](#).
