

Government Gazette

of the State of
New South Wales
Number 25
Friday, 20 March 2015

The *New South Wales Government Gazette* is the permanent public record of official notices issued by the New South Wales Government. It also contains local council and other notices and private advertisements.

The Gazette is compiled by the Parliamentary Counsel's Office and published on the NSW legislation website (www.legislation.nsw.gov.au) under the authority of the NSW Government. The website contains a permanent archive of past Gazettes.

To submit a notice for gazettal – see [Gazette Information](#).

New South Wales

Notice of Determination

under the

Threatened Species Conservation Act 1995

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has made a determination to amend the description of the species referred to below in Schedule 1 to the Act pursuant to section 36A (1) (a) of the Act (being an amendment that is necessary or desirable to reflect changes in the name of a species, or a reclassification of any such species into further species, as a result of taxonomic revision).

Part 1 of Schedule 1 to that Act is amended by omitting from the matter relating to Agamidae (under the headings **Animals**, **Vertebrates**, **Reptiles**):

Ctenophorus decessii (Duméril & Bibron, 1837)

Tawny Crevice-dragon

and by inserting instead:

Ctenophorus mirrityana (McLean, Moussalli, Sass & Stuart-Fox 2013)

Barrier Range Dragon

This Notice commences on the day on which it is published in the Gazette.

Dated, this 27th day of February 2015.

Dr MARK ELDRIDGE
Chairperson of the Scientific Committee

Copies of determination and reasons

Copies of the determination and the reasons for it are available to members of the public (free of charge) as follows:

- (a) on the Internet at www.environment.nsw.gov.au,
- (b) by contacting the Scientific Committee Unit, by post C/- Office of Environment and Heritage, PO Box 1967, Hurstville BC NSW 1481, by telephone (02) 9585 6940 or by facsimile (02) 9585 6606,
- (c) in person at the Office of Environment and Heritage Information Centre, Level 14, 59–61 Goulburn St, Sydney.

Notice of Determination

under the

Threatened Species Conservation Act 1995

The Scientific Committee established under the *Threatened Species Conservation Act 1995 (the Act)* has made a determination to omit the description of the species referred to below from Schedule 1 to the Act pursuant to section 36A (1) (a) of the Act (being an amendment that is necessary or desirable to reflect changes in the name of a species, or a reclassification of any such species into further species, as a result of taxonomic revision).

Part 1 of Schedule 1 to the Act is amended by omitting the following from the matter relating to Orchidaceae (under the heading **Plants**):

- * *Phaius tancarvilleae* (Banks ex L'Her.) Blume

This Notice commences on the day on which it is published in the Gazette.

Dated, this 27th day of February 2015.

Dr MARK ELDRIDGE
Chairperson of the Scientific Committee

Copies of determination and reasons

Copies of the determination and the reasons for it are available to members of the public (free of charge) as follows:

- (a) on the Internet at www.environment.nsw.gov.au,
- (b) by contacting the Scientific Committee Unit, by post C/- Office of Environment and Heritage, PO Box 1967, Hurstville BC NSW 1481, by telephone (02) 9585 6940 or by facsimile (02) 9585 6606,
- (c) in person at the Office of Environment and Heritage Information Centre, Level 14, 59–61 Goulburn St, Sydney.

Notice of Determination

under the

Threatened Species Conservation Act 1995

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has made a determination to amend the descriptions of certain species referred to in paragraphs (a)–(d) below pursuant to section 36A (1) (a) of the Act (being amendments that are necessary or desirable to reflect changes in the name of species, or a reclassification of any such species into further species, as a result of taxonomic revision).

- (a) Part 1 of Schedule 1 to that Act is amended by inserting the following in appropriate order in the matter relating to Malvaceae under the heading **Plants**:

* *Commersonia prostrata* (Maiden & Betche) C.F. Wilkins
& Whitlock

- (b) Part 1 of Schedule 1 to that Act is amended by omitting the following from under the heading **Plants**:

Sterculiaceae

* *Rulingia prostrata* Maiden & Betche

- (c) Part 1 of Schedule 2 to that Act is amended by inserting the following in appropriate order under the heading **Plants**:

Malvaceae

* *Commersonia procumbens* (Maiden & Betche) Guymmer

- (d) Part 1 of Schedule 2 to that Act is amended by omitting the following matter relating to Sterculiaceae from under the heading **Plants**:

* *Rulingia procumbens* Maiden & Betche

Notice of Determination [NSW]

This Notice commences on the day on which it is published in the Gazette.
Dated, this 17th day of February 2015.

Dr MARK ELDRIDGE
Chairperson of the Scientific Committee

Copies of determination and reasons

Copies of the determination and the reasons for it are available to members of the public (free of charge) as follows:

- (a) on the Internet at www.environment.nsw.gov.au,
- (b) by contacting the Scientific Committee Unit, by post C/- Office of Environment and Heritage, PO Box 1967, Hurstville BC NSW 1481, by telephone (02) 9585 6940 or by facsimile (02) 9585 6606,
- (c) in person at the Office of Environment and Heritage Information Centre, Level 14, 59–61 Goulburn St, Sydney.

New South Wales

Notice of Final Determination

under the

Threatened Species Conservation Act 1995

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has made a final determination to list the following ecological community as an endangered ecological community under that Act and, accordingly, Schedule 1 to that Act is amended by inserting the following in Part 3 in alphabetical order:

- * Blue Mountains Basalt Forest in the Sydney Basin Bioregion (as described in the final determination of the Scientific Committee to list the ecological community)

This Notice commences on the day on which it is published in the Gazette.

Dated, this 27th day of February 2015.

Dr MARK ELDRIDGE
Chairperson of the Scientific Committee

Copies of final determination and reasons

Copies of the final determination and the reasons for it are available to members of the public (free of charge) as follows:

- (a) on the Internet at www.environment.nsw.gov.au,
- (b) by contacting the Scientific Committee Unit, by post C/- Office of Environment and Heritage, PO Box 1967, Hurstville BC NSW 1481, by telephone (02) 9585 6940 or by facsimile (02) 9585 6606,
- (c) in person at the Office of Environment and Heritage Information Centre, Level 14, 59–61 Goulburn St, Sydney.

THREATENED SPECIES CONSERVATION ACT 1995

FINAL DETERMINATION

The Scientific Committee, established by the *Threatened Species Conservation Act 1995* (the Act), has made a Final Determination under section 23 of the Act to list the Blue Mountains Basalt Forest in the Sydney Basin Bioregion as an ENDANGERED ECOLOGICAL COMMUNITY Part 3 of Schedule 1 of the Act.

This determination contains the following information:

- Parts 1 & 2:** Section 4 of the Act defines an ecological community as “an assemblage of species occupying a particular area”. These features of Blue Mountains Basalt Forest in the Sydney Basin Bioregion are described in Parts 1 and 2 of this Determination, respectively.
- Part 3:** Part 3 of this Determination describes the eligibility for listing of this ecological community in Part 2 of Schedule 1A of the Act according to criteria as prescribed by the *Threatened Species Conservation Regulation 2010*.
- Part 4:** Part 4 of this Determination provides additional information intended to aid recognition of this community in the field.

Part 1. Assemblage of species

- 1.1 Blue Mountains Basalt Forest in the Sydney Basin Bioregion (hereafter referred to as Blue Mountains Basalt Forest) is characterised by the assemblage of species listed below.

<i>Acacia elata</i>	<i>Glycine tabacina</i>
<i>Acacia melanoxydon</i>	<i>Hedycarya angustifolia</i>
<i>Acaena novae-zelandiae</i>	<i>Indigofera australis</i>
<i>Ajuga australis</i>	<i>Lagenifera stipitata</i>
<i>Austrocynoglossum latifolium</i>	<i>Lomandra longifolia</i>
<i>Blechnum cartilagineum</i>	<i>Marsdenia flavescens</i>
<i>Blechnum nudum</i>	<i>Melicytus dentatus</i>
<i>Carex appressa</i>	<i>Microlaena stipoides</i>
<i>Centella asiatica</i>	<i>Myrsine howittiana</i>
<i>Clematis aristata</i>	<i>Oplismenus imbecillis</i>
<i>Cyathea australis</i>	<i>Pandorea pandorana</i>
<i>Cyathea leichhardtiana</i>	<i>Pellaea falcata</i>
<i>Daviesia ulicifolia</i>	<i>Plantago debilis</i>
<i>Desmodium varians</i>	<i>Polyscias sambucifolia</i>
<i>Dichondra</i> spp.	<i>Polystichum proliferum</i>
<i>Doodia aspera</i>	<i>Poranthera microphylla</i>
<i>Doryphora sassafras</i>	<i>Prostanthera lasianthos</i>
<i>Echinopogon ovatus</i>	<i>Pteridium esculentum</i>
<i>Eucalyptus blaxlandii</i>	<i>Pyrrosia rupestris</i>
<i>Eucalyptus cypellocarpa</i>	<i>Senecio linearifolius</i>
<i>Eucalyptus fastigata</i>	<i>Sigesbeckia orientalis</i>
<i>Eucalyptus oreades</i>	<i>Smilax australis</i>
<i>Eucalyptus radiata</i> subsp. <i>radiata</i>	<i>Stellaria flaccida</i>
<i>Eustrephus latifolius</i>	<i>Stellaria pungens</i>
<i>Geitonoplesium cymosum</i>	<i>Tylophora barbata</i>
<i>Geranium homeanum</i>	<i>Urtica incisa</i>
<i>Geranium potentilloides</i>	<i>Viola hederacea</i>

- 1.2 The total species list of the community across all occurrences is likely to be considerably larger than that given above. Due to variation across the range of the community, not all of the above species are present at every site and many sites may also contain species not listed above.

Characteristic species may be abundant or rare and comprise only a subset of the complete list of species recorded in known examples of the community. Some characteristic species show a high fidelity (are relatively restricted) to the community, but may also occur in other communities, while others are more typically found in a range of communities.

The number and identity of species recorded at a site is a function of sampling scale and effort. In general, the number of species recorded is likely to increase with the size of the site and there is a greater possibility of recording species that are rare in the landscape.

Species presence and relative abundance (dominance) will vary from site to site as a function of environmental factors such as soil properties (chemical composition, texture, depth, drainage), topography and climate and through time as a function of disturbance (e.g. fire, logging, grazing) and weather (e.g. flooding, drought, extreme heat or cold).

At any one time, above ground individuals of some species may be absent, but the species may be represented below ground in the soil seed bank or as dormant structures such as bulbs, corms, rhizomes, rootstocks or lignotubers.

The species listed above are vascular plants, however the community also includes micro-organisms, fungi and cryptogamic plants as well as vertebrate and invertebrate fauna. These components of the community are less well documented.

Part 2. Particular area occupied by the ecological community

- 2.1 The assemblage of species listed in Part 1.1 above which characterises Blue Mountains Basalt Forest occurs within the Sydney Basin Bioregion. This Bioregion is defined by SEWPaC (2012) Interim Biogeographic Regionalisation for Australia, Version 7. Department of Sustainability, Environment, Water, Population and Communities. <http://www.environment.gov.au/parks/nrs/science/bioregion-framework/ibra/maps.html>
- 2.2 Blue Mountains Basalt Forest occurs on basalt caps overlying sandstone and adjacent areas where soils are influenced by weathering of upslope basalt.
- 2.3 It is the intent of the Scientific Committee that all occurrences of the ecological community (both recorded and as yet unrecorded and independent of their condition) that occur within this bioregion be covered by this Determination.

Part 3. Eligibility for listing

3.1 Reasons for determining eligibility for listing

- 3.1.1 Blue Mountains Basalt Forest has undergone a large reduction in geographical distribution. Blue Mountains Basalt Forest is a forest community characterised by long-lived trees and shrubs. IUCN (2014) suggests that the appropriate time scale for assessing reduction is three generations or 10 years, whichever is the longer. For the characteristic overstorey and some understorey species, three generations exceeds 200 years. On that basis, time since European settlement represents an appropriate time scale for assessing reduction. Vegetation on basalt was preferentially cleared during early settlement so that vegetation on basalt currently exists only as small remnants (Keith 2004). Blue Mountains Basalt Forest is equivalent to map unit p72 (Tozer *et al.* 2010). Blue Mountains Basalt Forest extends beyond the study area used by Tozer *et al.* (2010) and there is uncertainty about the extent of clearing but it is likely to be in the range 50–70% (D. Binns *in litt.* Oct. 2013).
- 3.1.2 Blue Mountains Basalt Forest is at risk of further reduction in distribution. Less than half of the remaining area is in conservation reserves (Tozer *et al.* 2010). Areas outside reserves are close to urban or rural residential areas and are subject to ongoing clearing for residential development and development of other infrastructure.
- 3.1.3 Blue Mountains Basalt Forest is subject to ongoing threats in addition to the risk of further clearing. It is susceptible to weed invasion due to proximity to urban and rural residential areas, high soil fertility and large boundary to area ratios of many of the remaining small remnants. Proximity to urban areas also constrains fire management, leading to altered fire regimes with potentially adverse impacts. Some areas may be burnt at short intervals to maintain fire protection zones for urban areas. ‘High frequency fire resulting in the disruption of life cycle processes in plants and animals and loss of vegetation structure and composition’ is listed as a Key Threatening Process under the Act. Much of the remaining area of Blue Mountains Basalt Forest was previously subject to livestock grazing, including areas now in conservation reserves (Tozer *et al.* 2010). Grazing continues in areas on private land. Grazing by stock can simplify floristic composition and vegetation structure by trampling, removal of palatable species, prevention of regeneration and facilitation of weed invasion.
- 3.1.4 The extent of occurrence of Blue Mountains Basalt Forest is estimated to be between 185 km² (known occurrences) and 5400 km² (known and potential occurrences), based on a minimum convex polygon enclosing all occurrences, the method of assessment recommended by IUCN (2014). The area of occupancy (AOO) is estimated to be between 120 and 180 km² (D. Binns *in litt.* Oct. 2013), based on 2 x 2 km grid cells, the scale recommended for assessing area of occupancy by IUCN (2014). Based on the AOO the Blue Mountains Basalt Forest has a highly restricted distribution.

3.2 Criteria for listing

Blue Mountains Basalt Forest in the Sydney Basin Bioregion is eligible to be listed as an Endangered Ecological Community in accordance with section 12 of the Act as, in the opinion of the Scientific Committee, it is facing a very high risk of extinction in New South Wales in the near future, as determined in accordance with the following criteria as prescribed by the *Threatened Species Conservation Regulation 2010*:

Clause 17 Reduction in geographic distribution of the ecological community

The ecological community has undergone, is observed, estimated, inferred or reasonably suspected to have undergone or is likely to undergo within a time span appropriate to the life cycle and habitat characteristics of its component species:

- (b) a large reduction in geographic distribution.

Clause 18 Restricted geographic distribution of the ecological community

The ecological community's geographic distribution is estimated or inferred to be:

(b) highly restricted,

and the nature of its distribution makes it likely that the action of a threatening process could cause it to decline or degrade in extent or ecological function over a time span appropriate to the life cycle and habitat characteristics of the ecological community's component species.

Professor MICHELLE LEISHMAN
Chairperson
NSW Scientific Committee

Part 4. Additional information about the ecological community

The following information is additional to that required to meet the definition of an ecological community under the Act but is provided to assist in the recognition of Blue Mountains Basalt Forest in the field. Given natural variability, along with disturbance history, Blue Mountains Basalt Forest may sometimes occur outside the typical range of variation in the features described below.

- 4.1 Blue Mountains Basalt Forest is usually a tall eucalypt forest (over 30 m in mature stands) with a dense shrub or small tree layer, often including tree ferns (*Cyathea* spp.) and moist herbaceous groundcover (Tozer *et al.* 2010). The canopy composition is variable but usually dominated by one or more of the species *Eucalyptus fastigata*, *E. blaxlandii*, *E. cypellocarpa* or *E. radiata* subsp. *radiata*. Other canopy species which may be locally common or dominant include *E. oreades* (which is often dominant on south-facing slopes at the transition to a sandstone substrate) and *E. viminalis* (Tozer *et al.* 2010, D. Connolly pers. comm. Nov. 2013). A eucalypt canopy may be absent from previously cleared or otherwise highly disturbed stands.
- 4.2 Blue Mountains Basalt Forest has been recorded south of the Wolgan and Colo Rivers in Wollemi IBRA subregion (SEWPaC 2012). The major area of distribution is the Blue Mountains including the basalt caps of Mount Irvine, Mount Wilson, Mount Bell, Mount Tomah, Mount Banks, Mount Caley and Mount Hay. However, there may be isolated outliers north to Mount Cameron and Mount Monundilla. Blue Mountains Basalt Forest occurs mostly between 750 m and 1050 m altitude, in areas with annual rainfall of 950 to 1350 mm (Tozer *et al.* 2010).
- 4.3 Blue Mountains Basalt Forest may grade into Intermediate Temperate Rainforest (map unit p116) on sheltered sites, into Shale-Basalt Sheltered Forest (map unit p168) where basalt adjoins shale or into Sandstone Scarp Warm Temperate Rainforest (map unit p114) on steep, south-facing sandstone slopes (Tozer *et al.* 2010). Intergrading vegetation is considered part of this determination if it is floristically more similar to Blue Mountains Basalt Forest than these adjoining communities. Shale-Basalt Sheltered Forest includes Blue Mountains Shale Cap Forest in the Sydney Basin Bioregion, an Endangered Ecological Community under the Act.
- 4.4 Blue Mountains Basalt Forest is floristically similar to two other communities listed as Endangered Ecological Communities under the Act, Robertson Basalt Tall Open-forest in the Sydney Basin Bioregion and Mount Gibraltar Forest in the Sydney Basin Bioregion but may be distinguished from these by differences in species composition and relative abundance of characteristic species. For example, species which are usually more common in Blue Mountains Basalt Forest compared to the two other communities include *Acacia elata*, *Cyathea* spp., *Doryphora sassafras*, *Geranium homeanum*, *Indigofera australis* and *Senecio linearifolius* (D Binns *in litt.* July 2012; M Tozer *in litt.* Nov 2013). Blue Mountains Basalt Forest is geographically disjunct from these communities (by at least 70 km for known occurrences) and occurs at generally higher altitudes. It also differs from Mount Gibraltar Forest because the latter occurs on syenite. Blue Mountains Basalt Forest is also distinct from Tablelands Basalt Forest in the Sydney Basin and South East Highlands Bioregions (map unit p20 of Tozer *et al.* 2010).
- 4.5 Blue Mountains Basalt Forest is included within the endangered ecological community listed under the *Environment Protection and Biodiversity Conservation Act 1999* as 'Upland Basalt Eucalypt Forests of the Sydney Basin Bioregion'. However, the community described in the Commonwealth listing advice is more broadly circumscribed and includes two other communities currently listed separately under the Act (Robertson Basalt Tall Open-forest in the Sydney Basin Bioregion and Mount Gibraltar Forest in the Sydney Basin Bioregion), as well as vegetation on basalt in the northern part of Wollemi Subregion, most of which is not included in Blue Mountains Basalt Forest. Conversely, the Commonwealth listing advice excludes some patches, here regarded as Blue Mountains Basalt Forest, on the basis of condition or structure thresholds (including patch size, ground cover and tree density).
- 4.6 Blue Mountains Basalt Forest has been recorded in the local government areas of Blue Mountains and Lithgow. However, unrecorded stands of the ecological community may occur in the Hawkesbury local government area or elsewhere in the Bioregion.

4.7 Blue Mountains Basalt Forest is known or likely to contain the following threatened animal and plant species listed under State (all species) and Commonwealth (species with ‘EPBC’ annotation) threatened species legislation:

Scientific Name	Common Name	Status
<i>Cercartetus nanus</i>	Eastern Pygmy-possum	Vulnerable
<i>Chalinolobus dwyeri</i>	Large-eared Pied Bat	Vulnerable (EPBC)
<i>Daphoenositta chrysoptera</i>	Varied Sittella	Vulnerable
<i>Dasyurus maculatus</i>	Spotted-tailed Quoll	Vulnerable (EPBC)
<i>Falsistrellus tasmaniensis</i>	Eastern False Pipistrelle	Vulnerable
<i>Glossopsitta pusilla</i>	Little Lorikeet	Vulnerable
<i>Hieraaetus morphnoides</i>	Little Eagle	Vulnerable
<i>Isodon obesulus obesulus</i>	Southern Brown Bandicoot (eastern)	Endangered (EPBC)
<i>Litoria littlejohni</i>	Littlejohn's Tree Frog	Vulnerable (EPBC)
<i>Miniopterus schreibersii oceanensis</i>	Eastern Bentwing-bat	Vulnerable
<i>Mixophyes balbus</i>	Stuttering Frog	Endangered (Vulnerable EPBC)
<i>Ninox strenua</i>	Powerful Owl	Vulnerable
<i>Petroica boodang</i>	Scarlet Robin	Vulnerable
<i>Petroica phoenicea</i>	Flame Robin	Vulnerable
<i>Phascolarctos cinereus</i>	Koala	Vulnerable (EPBC)
<i>Pteropus poliocephalus</i>	Grey-headed Flying-fox	Vulnerable (EPBC)
<i>Scoteanax rueppellii</i>	Greater Broad-nosed Bat	Vulnerable
<i>Tyto tenebricosa</i>	Sooty Owl	Vulnerable
<i>Lastreopsis hispida</i>	Bristly Shield Fern	Endangered

Notice of Final Determination

under the

Threatened Species Conservation Act 1995

The Scientific Committee established under the *Threatened Species Conservation Act 1995* has made a final determination to insert the ecological community referred to in paragraph (a) as a critically endangered ecological community under that Act and, as a consequence, to omit reference to the ecological community referred to in paragraph (b) as an endangered ecological community and, accordingly:

- (a) Schedule 1A to that Act is amended by inserting in alphabetical order in Part 2:

Elderslie Banksia Scrub Forest in the Sydney Basin Bioregion (as described in the final determination of the Scientific Committee to list the ecological community)

- (b) Schedule 1 to that Act is amended by omitting the following from Part 3:

Elderslie Banksia Scrub Forest (as described in the final determination of the Scientific Committee to list the ecological community)

This Notice commences on the day on which it is published in the Gazette.

Dated, this 17th day of February 2015.

Dr MARK ELDRIDGE
Chairperson of the Scientific Committee

Copies of final determination and reasons

Copies of the final determination and the reasons for it are available to members of the public (free of charge) as follows:

- (a) on the Internet at www.environment.nsw.gov.au,
- (b) by contacting the Scientific Committee Unit, by post C/- Office of Environment and Heritage, PO Box 1967, Hurstville BC NSW 1481, by telephone (02) 9585 6940 or by facsimile (02) 9585 6606,
- (c) in person at the Office of Environment and Heritage Information Centre, Level 14, 59–61 Goulburn St, Sydney.

THREATENED SPECIES CONSERVATION ACT 1995

FINAL DETERMINATION

The Scientific Committee, established by the *Threatened Species Conservation Act 1995* (the Act), has made a Final Determination under section 23 of the Act to list Elderslie Banksia Scrub Forest in the Sydney Basin Bioregion as a CRITICALLY ENDANGERED ECOLOGICAL COMMUNITY in Part 2 of Schedule 1A of the Act and, as a consequence, to omit reference to Elderslie Banksia Scrub Forest Community as an Endangered Ecological Community on Part 3 of Schedule 1 of the Act.

This determination contains the following information:

Parts 1 & 2: Section 4 of the Act defines an ecological community as “an assemblage of species occupying a particular area”. These defining features of Elderslie Banksia Scrub Forest in the Sydney Basin Bioregion are described in Parts 1 and 2 of this Determination, respectively.

Part 3: Part 3 of this Determination describes the eligibility for listing of this ecological community in Part 2 of Schedule 1A of the Act according to criteria as prescribed by the *Threatened Species Conservation Regulation 2010*.

Part 4: Part 4 of this Determination provides additional information intended to aid recognition of this community in the field.

Part 1. Assemblage of species

1.1 Elderslie Banksia Scrub Forest in the Sydney Basin Bioregion (hereafter Elderslie Banksia Scrub Forest) is characterised by the assemblage of species listed below.

<i>Acacia decurrens</i>	<i>Glycine clandestina</i>
<i>Acacia ulicifolia</i>	<i>Gompholobium minus</i>
<i>Angophora subvelutina</i>	<i>Hibbertia diffusa</i>
<i>Aotus ericoides</i>	<i>Imperata cylindrica</i>
<i>Aristida ramosa</i> subsp. <i>ramosa</i>	<i>Kennedia rubicunda</i>
<i>Banksia integrifolia</i>	<i>Kunzea ambigua</i>
<i>Brachyloma daphnoides</i>	<i>Leptospermum polygalifolium</i> subsp. <i>polygalifolium</i>
<i>Clerodendrum tomentosum</i>	<i>Lomandra longifolia</i>
<i>Dianella revoluta</i>	<i>Melaleuca decora</i>
<i>Dichondra repens</i>	<i>Persoonia linearis</i>
<i>Dillwynia glaberrima</i>	<i>Phyllanthus gunnii</i>
<i>Duboisia myoporoides</i>	<i>Pimelea linifolia</i>
<i>Eragrostis brownii</i>	<i>Platysace lanceolata</i>
<i>Eucalyptus botryoides</i>	<i>Pteridium esculentum</i>
<i>Exocarpos cupressiformis</i>	<i>Ricinocarpos pinifolius</i>
<i>Gahnia clarkei</i>	<i>Veronica plebeia</i>
<i>Gleichenia dicarpa</i>	

1.2 The total species list of the community across all occurrences is likely to be considerably larger than that given above, with many species present above-ground in only one or two sites or in low abundance. Because of natural variation across the range of the community, the number of species present at any particular site is thus likely to be considerably less than the total listed above.

Characteristic species may be abundant or rare and comprise only a subset of the complete list of species recorded in known examples of the community. Some characteristic species show a high fidelity (are relatively restricted) to the community, but may also occur in other communities, while others are more typically found in a range of communities.

The number and identity of species recorded at a site is a function of sampling scale and effort. In general, the number of species recorded is likely to increase with the size of the site and there is a greater possibility of recording species that are rare in the landscape.

Species presence and relative abundance (dominance) will vary from site to site as a function of environmental factors such as soil properties (chemical composition, texture, depth, drainage), topography and climate and through time as a function of disturbance (e.g. fire, logging, grazing) and weather (e.g. flooding, drought, extreme heat or cold).

At any one time, above ground individuals of some species may be absent but the species may be represented below ground in the soil seed bank or as dormant structures such as bulbs, corms, rhizomes, rootstocks or lignotubers.

The species listed above are vascular plants, however the community also includes micro-organisms, fungi, cryptogamic plants and a diverse vertebrate and invertebrate fauna. These components of the community are less well documented.

Part 2. Particular area occupied by the ecological community

- 2.1 The assemblage of species listed in Part 1.1 above which characterises the Elderslie Banksia Scrub Forest occurs within the Sydney Basin Bioregion. This Bioregion is defined by SEWPaC (2012) Interim Biogeographic Regionalisation for Australia, Version 7. Department of Sustainability, Environment, Water, Population and Communities. <http://www.environment.gov.au/parks/nrs/science/bioregion-framework/ibra/maps.html>
- 2.2 It is the intent of the Scientific Committee that all occurrences of the ecological community (both recorded and as yet unrecorded and independent of their condition) that occur within this bioregion be covered by this Determination.

Part 3. Eligibility for listing

- 3.1.1 Occurrences of Elderslie Banksia Scrub Forest have been reduced to very small fragmented remnants by clearing and sand extraction. No reliable estimate of the pre-European distribution is available. Estimates of the current distribution range from 17.3 ha (Clements 2002) to <15 ha (Tozer *et al.* 2010). Clements (2002) identified a total of 12 separate remnant patches, five of which were relatively intact, two were intact but with less native species representation and five were in poor condition. Six of the patches were 1–3.2 ha in size, the rest were 0.13–0.9 ha (Clements 2002). The patches are localised to the Spring Farm area near Camden (Clements *et al.* 2002) and, even in the intact stands native species richness is low, indicating their degraded nature (M. Tozer *in litt.* Feb 2014). No occurrences of Elderslie Banksia Scrub Forest are presently included in conservation reserves (Tozer *et al.* 2010).
 - 3.1.2 The extent of occurrence (EOO) and area of occupancy (AOO) of Elderslie Banksia Scrub Forest are estimated to be 4 km². The estimate of AOO is based on one 2 x 2 km grid cell, the scale recommended for assessing AOO by IUCN (2014). The geographic distribution of Elderslie Banksia Scrub Forest is thus very highly restricted.
 - 3.1.3 The remnants of Elderslie Banksia Scrub Forest are subject to a range of threats. Land clearing has been extensive in this area, beginning with clearing for agriculture from the early 19th Century. More recent land uses have included poultry farms (1961–1990s), sand mining (1960s to present) and urbanisation (1979 to present) (Clements *et al.* 2002). The land uses of the Spring Farm area were described by Clements *et al.* (2002) as ‘sand extraction, abandoned orchards/vineyards, working and abandoned poultry farms, grazing, unmanaged pastures, rubbish tips and drainage ways; small areas of disturbed native vegetation occur within and fringing these areas’. Since that study, a substantial part of the Spring Farm area has been redeveloped with new housing and roads replacing the previous land uses (Camden Council 2011). The small size and fragmented distribution of the remaining stands of Elderslie Banksia Scrub Forest reduces connectivity between patches, increasing the risk of extinction of taxa in very small stands (Stocklin *et al.* 2000). ‘Clearing of native vegetation’ is listed as a Key Threatening Process under the Act.
 - 3.1.4 Elderslie Banksia Scrub Forest occurs on sandy soils which are subject to nutrient enrichment from surrounding development (G. Steenbeeke *in litt.* Oct 2013), facilitating invasion by exotic weeds (Leishman and Thomson 2005). Weed invasion in Elderslie Banksia Scrub Forest occurred in the past and is continuing (Clements 2002). The following exotic invasive plant species have been observed in remnants of Elderslie Banksia Scrub Forest: *Raphiolepis indica* (Indian Hawthorn), *Lycium ferocissimum* (Boxthorn), *Pyracantha angustifolia* (Firethorn), *Olea europaea* subsp. *cuspidata* (African Olive), *Lantana camara* (Lantana) and *Eragrostis curvula* (African Lovegrass) (P. Cuneo *in litt.* Oct 2013; C. Morris *in litt.* Dec 2013). ‘Invasion of native plant communities by exotic perennial grasses’, ‘Invasion of native plant communities by African Olive *Olea europaea* L. subsp. *cuspidata*’, ‘Invasion, establishment and spread of *Lantana camara*’ and ‘Loss and degradation of native plant and animal habitat by invasion of escaped garden plants, including aquatic plants’ are listed as Key Threatening Processes under the Act.
- 3.2 Criteria for listing

Elderslie Banksia Scrub Forest is eligible to be listed as a Critically Endangered Ecological Community in accordance with section 12 of the Act as, in the opinion of the Scientific Committee, it is facing an extremely high risk of extinction in New South Wales in the immediate future, as determined in accordance with the following criteria as prescribed by the *Threatened Species Conservation Regulation 2010*:

Clause 18 Restricted geographic distribution of the ecological community

The ecological community’s geographic distribution is estimated or inferred to be:

- (a) very highly restricted,

and the nature of its distribution makes it likely that the action of a threatening process could cause it to decline or degrade in extent or ecological function over a time span appropriate to the life cycle and habitat characteristics of the ecological community’s component species.

Clause 19 Reduction in ecological function of the ecological community

The ecological community has undergone, is observed, estimated, inferred or reasonably suspected to have undergone or is likely to undergo within a time span appropriate to the life cycle and habitat characteristics of its component species:

- (a) a very large reduction in ecological function, as indicated by any of the following:
 - (d) change in community structure,
 - (e) change in species composition,

- (f) disruption of ecological processes,
- (g) invasion and establishment of exotic species,
- (h) degradation of habitat.
- (i) fragmentation of habitat.

Professor MICHELLE LEISHMAN
 Chairperson
 NSW Scientific Committee

Part 4. Additional information about the ecological community

The following information is additional to that required to meet the definition of an ecological community under the Act, but is provided to assist in the recognition of Elderslie Banksia Scrub Forest in the field. Given natural variability, along with disturbance history, Elderslie Banksia Scrub Forest may sometimes occur outside the typical range of variation in the features described below.

- 4.1 Elderslie Banksia Scrub Forest is described under the same name in Benson (1977), Benson and Howell (1994), UBBS (1997), Urban Bushland Management Consultants (1998), Clements *et al.* (2002) and Tozer *et al.* (2010).
- 4.2 Elderslie Banksia Scrub Forest is generally associated with alluvium of Tertiary age, on soils which are sandy, with drainage varying from good to poor (Benson 1977). The alluvium occurs on sites that are elevated relative to current river bed, leading to its description as ‘high level alluvium’ (Benson 1977). Elderslie Banksia Scrub Forest intergrades locally with the endangered ecological communities Cumberland Plain Woodland in the Sydney Basin Bioregion and River-Flat Eucalypt Forest on Coastal Floodplains of the New South Wales North Coast, Sydney Basin and South East Corner Bioregions.
- 4.3 The structure of Elderslie Banksia Scrub Forest is generally open-scrub or woodland, or it may occur as remnant trees. Species composition at any site depends on local topography and drainage conditions. In drier areas, *Banksia integrifolia* occurs as the characteristic canopy species, together with *Angophora subvelutina* and *Duboisia myoporoides*; other species include *Brachyloma daphnoides*, *Clerodendrum tomentosum*, *Pteridium esculentum*, *Pimelea linifolia*, *Dillwynia glabberima*, *Ricinocarpos pinifolius*, *Hibbertia diffusa*, *Kunzea ambigua*, *Exocarpos cupressiformis*, *Persoonia linearis* and *Dianella revoluta*. In lower-lying areas with poorer drainage, the canopy changes to *Eucalyptus botryoides* with other species including *Platysace lanceolata*, *Aotus eroicoides*, *Pteridium esculentum* and *Imperata cylindrica*. *Melaleuca decora*, *Gahnia clarkei* and *Gleichenia dicarpa* occur along watercourses (Benson and Howell 1994; reported in Clements *et al.* 2002).
- 4.4 Elderslie Banksia Scrub Forest has been recorded in the Camden local government area (within the Sydney Basin Bioregion), principally near Elderslie in the area known as Spring Farm. However unrecorded stands of the ecological community may occur elsewhere in the Bioregion.
- 4.5 The following threatened fauna have been reported in or adjacent to Elderslie Banksia Scrub Forest (Conacher Travers 2002a, b):

Scientific Name	Common Name	Status
<i>Chalinolobus dwyeri</i>	Large-eared Pied Bat	Vulnerable (EPBC)
<i>Meridolum corneovirens</i>	Cumberland Land Snail	Endangered
<i>Miniopterus schreibersii oceanensis</i>	Eastern Bentwing Bat	Vulnerable
<i>Mormopterus norfolkensis</i>	Eastern Free-tail Bat	Vulnerable
<i>Pteropus poliocephalus</i>	Grey-headed Flying Fox	Vulnerable (EPBC)
<i>Scoteanax rueppellii</i>	Greater Broad-nosed Bat	Vulnerable

THREATENED SPECIES CONSERVATION ACT 1995

NOTICE OF PRELIMINARY DETERMINATION

The Scientific Committee, established by the *Threatened Species Conservation Act 1995*, has made a Preliminary Determination proposing that the following be listed in the relevant Schedule of the *Threatened Species Conservation Act 1995*.

Critically Endangered Ecological Community (Part 2 of Schedule 1A)

Hunter Valley Weeping Myall Woodland in the Sydney Basin Bioregion

Any person may make a written submission regarding this Preliminary Determination. Send submissions to Suzanne Chate, NSW Scientific Committee Unit, PO Box 1967, Hurstville BC 1481. Submissions close 15th May 2015.

A copy of the Determination, which contains the reasons for the determination, may be obtained free of charge on the Internet www.environment.nsw.gov.au, by contacting the Scientific Committee Unit, PO Box 1967 Hurstville BC 1481. Tel: (02) 9585 6940 or Fax (02) 9585 6606, or in person at the Office of Environment and Heritage Information Centre, Level 14, 59–61 Goulburn Street, Sydney. Copies of the determination may also be obtained from National Parks and Wildlife Service Area Offices and Visitor Centres, subject to availability.

WORK HEALTH AND SAFETY (MINES) ACT 2013

WORK HEALTH AND SAFETY (MINES) INSTRUMENT OF APPOINTMENT OF INSPECTORS 2015

I, Lee Shearer, Executive Director Compliance & Enforcement, Resources and Energy, Department of Trade and Investment, Regional Infrastructure and Services, pursuant to section 18 (2) (a) of the *Work Health and Safety (Mines) Act 2013*, hereby appoint the persons named in Schedule A below as an Inspector.

Schedule A

Appointee

Jeffrey Peter HANLON

Gary Joseph PARKER

Dated this 16th day of March 2015.

LEE SHEARER

Executive Director Compliance & Enforcement
Resources and Energy

Department of Trade and Investment, Regional
Infrastructure and Services

(Delegate of the Secretary, Department of Trade
and Investment, Regional Infrastructure and Services,
the Regulator under the *Work Health and Safety (Mines)
Act 2013*).

Notice is given that the following applications have been received:

EXPLORATION LICENCE APPLICATIONS

(T15-1018)

No 5149, YOUNG MINING COMPANY PROPRIETARY LIMITED (ACN 004 301 508), area of 18 units, for Group 2, dated 3 March 2015 (Sydney Mining Division).

(T15-1026)

No 5157, ST PETERS SANDS PTY LTD (ACN 001 503 680), area of 2 units, for Group 10, dated 10 March 2015 (Wagga Wagga Mining Division).

(T15-1027)

No 5158, BLACK OAK MINERALS LIMITED (ACN 124 374 321), area of 48 units, for Group 1, dated 10 March 2015 (Cobar Mining Division).

The Hon ANTHONY ROBERTS, MP
Minister for Resources and Energy

Notice is given that the following application has been granted:

EXPLORATION LICENCE APPLICATION

(T14-1137)

No 5086, now Exploration Licence No 8340, ALKANE RESOURCES LTD (ACN 000 689 216), County of Ashburnham, Map Sheet (8631), area of 15 units, for Group 1, dated 22 January 2015, for a term until 22 January 2018.

The Hon ANTHONY ROBERTS, MP
Minister for Resources and Energy

Notice is given that the following application has been withdrawn:

EXPLORATION LICENCE APPLICATION

(13-0931)

No 5092, WHITEHAVEN COAL LIMITED (ACN 124 425 396), County of Pottinger, Map Sheet (8935, 8936). Withdrawal took effect on 13 March 2015.

The Hon ANTHONY ROBERTS, MP
Minister for Resources and Energy

Notice is given that the following applications for renewal have been received:

(07-1395)

Exploration Licence No 1590, BARRICK (COWAL) PTY LIMITED (ACN 007 857 598) AND AURIONGOLD EXPLORATION PTY LIMITED (ACN 067 813 932), area of 24 units. Application for renewal received 11 March 2015.

(07-1228)

Exploration Licence No 4232, NYMAGEE RESOURCES PTY LTD (ACN 154 131 138) AND AUSMINDEX PTY LIMITED (ACN 003 287 634), area of 5 units. Application for renewal received 13 March 2015.

(07-0394)

Exploration Licence No 7116, BALRANALD GYPSUM PTY LTD (ACN 081 196 947), area of 3 units. Application for renewal received 13 March 2015.

(T08-0239)

Exploration Licence No 7322, GOLDEN CROSS OPERATIONS PTY. LTD. (ACN 050 212 827), area of 6 units. Application for renewal received 13 March 2013.

(T08-0241)

Exploration Licence No 7323, GOLDEN CROSS OPERATIONS PTY LTD. (ACN 050 212 827), area of 24 units. Application for renewal received 13 March 2015.

(T10-0182)

Exploration Licence No 7725, PEEL GOLD PTY LTD (ACN 166 110 041), area of 16 units. Application for renewal received 16 March 2015.

(T10-0183)

Exploration Licence No 7726, PEEL GOLD NORTH PTY LTD (ACN 166 296 046), area of 23 units. Application for renewal received 16 March 2015.

(T10-0280)

Exploration Licence No 7729, IDYLWAY VENTURE PTY LTD (ACN 141397006), area of 9 units. Application for renewal received 17 March 2015.

(T12-1216)

Exploration Licence No 8061, OCHRE RESOURCES PTY LTD (ACN 112 833 351), area of 49 units. Application for renewal received 12 March 2015.

The Hon ANTHONY ROBERTS, MP
Minister for Resources and Energy

Notice is given that the following authorities have been renewed:

RENEWAL OF CERTAIN AUTHORITIES

(14-2821)

Authorisation No 416, COALEX PTY LTD (ACN 000 694 315) AND CLARENCE COAL INVESTMENTS PTY LIMITED (ACN 003 772 174), County of Cook, Map Sheet (8931), area of 1639 hectares, for a further term until 2 March 2015. Renewal effective on and from 2 March 2015.

(10-4882)

Exploration Licence No 4848, ROBERT PATRICK HEWETT, County of Hawes, Map Sheet (9234), area of 1 units, for a further term until 18 August 2017. Renewal effective on and from 26 February 2015.

(12-3582)

Exploration Licence No 5609, NEWCREST OPERATIONS LIMITED (ACN 009 221 505), County of Bathurst, Map Sheet (8731), area of 1 units, for a further term until 22 August 2019. Renewal effective on and from 12 March 2015.

(14-4028)

Exploration Licence No 5800, CMOC MINING PTY LIMITED (ACN 164 997 317), County of Kennedy, Map Sheet (8432, 8532), area of 42 units, for a further term until 8 January 2018. Renewal effective on and from 12 March 2015.

(T08-0037)

Exploration Licence No 7149, ROBERT PATRICK HEWETT, County of Hawes, Map Sheet (9234), area of 4 units, for a further term until 18 August 2017. Renewal effective on and from 26 February 2015.

(14-1229)

Exploration Licence No 7253, THOMSON RESOURCES LTD (ACN 138 358 728), Counties of Cowper, Gunderbooka and Narran, Map Sheet (8137, 8138), area of 34 units, for a further term until 28 November 2017. Renewal effective on and from 6 March 2015.

(T11-0343)

Exploration Licence No 7973, ARK MINES LIMITED (ACN 123 668 717), County of Flinders, Map Sheet (8134, 8234), area of 23 units, for a further term until 11 October 2016. Renewal effective on and from 12 March 2015.

(T12-1136)

Exploration Licence No 8011, THOMSON RESOURCES LTD (ACN 138 358 728), Counties of Robinson and Yanda, Map Sheet (8035, 8036), area of 26 units, for a further term until 21 November 2017. Renewal effective on and from 6 March 2015.

(10-4881)

Exploration (Prospecting) Licence No 1094, ROBERT PATRICK HEWETT, County of Hawes, Map Sheet (9234), area of 2 units, for a further term until 18 August 2017. Renewal effective on and from 26 February 2015.

The Hon ANTHONY ROBERTS, MP
Minister for Resources and Energy

PETROLEUM (ONSHORE) ACT 1991

Section 22

Notice is given that the following authorities have been cancelled:

**CANCELLATION OF AUTHORITIES
AT REQUEST OF HOLDERS**

(11-5272)

Petroleum Exploration Licence No 5, AGL UPSTREAM INVESTMENTS PTY LIMITED (CAN 115 063 744), area of 6 blocks. Cancellation took effect on 4 March 2015 (Singleton Mining Division).

(10/2317)

Petroleum Exploration Licence No 437, PANGAEA PEL 437 PTY LIMITED (ACN 121 204 322), area of 78 blocks. Cancellation took effect on 2 March 2015 (Inverell Mining Division).

(12-4908)

Petroleum Exploration Licence No 442, APEX ENERGY NL (ACN 097 997 914) and SYDNEY BASIN CBM PTY LTD (ACN 105 706 894), area of 5 blocks. Cancellation took effect on 16 March 2015 (Sydney Mining Division).

(12-1277)

Petroleum Exploration Licence No 444, APEX ENERGY NL (ACN 097 997 914) and SYDNEY BASIN CBM PTY LTD (ACN 105 706 894), area of 25 units. Cancellation took effect on 16 March 2015 (Sydney Mining Division).

(11-3567)

Petroleum Exploration Licence No 454, APEX ENERGY NL (ACN 097 997 914) and SYDNEY BASIN CBM PTY LTD (ACN 105 706 894), area of 4 blocks. Cancellation took effect on 16 March 2015 (Sydney Mining Division).

(T08-0005)

Petroleum Exploration Licence No 459, DART ENERGY (APOLLO) PTY LTD (ACN 113 972 473), area of 75 blocks. Cancellation took effect on 6 March 2015 (Armidale Mining Division).

(T08-0006)

Petroleum Exploration Licence No 460, DART ENERGY (APOLLO) PTY LTD (ACN 113 972 473), area of 49 blocks. Cancellation took effect on 6 March 2015 (Orange Mining Division).

(T08-0012)

Petroleum Exploration Licence No 463, DART ENERGY (APOLLO) PTY LTD (ACN 113 972 473), area of 30 blocks. Cancellation took effect on 6 March 2015 (Singleton Mining Division).

(T08-0013)

Petroleum Exploration Licence No 464, DART ENERGY (APOLLO) PTY LTD (ACN 113 972 473), area of 10 blocks. Cancellation took effect on 6 March 2015 (Armidale Mining Division).

(T09-0008)

Petroleum Exploration Licence No 476, PANGAEA OIL AND GAS PTY LIMITED (ACN 068 812 171), area of

Government Notices

139 blocks. Cancellation took effect on 2 March 2015.
(Armidale Mining Division).

(T09-0006)

Petroleum Exploration Licence No 478, CLARENCE MORETON RESOURCES PTY LIMITED (ACN 140 886 853) and ERM GAS PTY LTD (ACN 126 836 799), area of 12 blocks. Cancellation took effect on 9 March 2015 (Coffs Harbour Mining Division).

(T09-0007)

Petroleum Exploration Licence No 479, ERM GAS PTY LTD (ACN 126 836 799) and CLARENCE MORETON RESOURCES PTY LIMITED (ACN 140 886 583), area of 1 block. Cancellation took effect on 9 March 2015 (Coffs Harbour Mining Division).

GRAFTON OFFICE

NOTIFICATION OF CLOSING OF A ROAD

In pursuance of the provisions of the *Roads Act 1993*, the road hereunder described is closed and the lands comprised therein cease to be public road and the rights of passage and access that previously existed in relation to the road is extinguished. Upon closing, title to the land, comprising the former public road, vests in the body specified in the Schedule hereunder.

KEVIN HUMPHRIES, MP
Minister for Natural Resources, Lands and Water

Description

*Parish – Pulletop; County – Mitchell
Land District – Wagga Wagga; LGA – Wagga Wagga*

Road Closed: Lot 2 DP 1202987
File No: 14/03364

Schedule

On closing, the land within Lot 2 DP 1202987 remains vested in the State of New South Wales as Crown land.

NOTIFICATION OF CLOSING OF A ROAD

In pursuance of the provisions of the *Roads Act 1993*, the road hereunder described is closed and the lands comprised therein cease to be public road and the rights of passage and access that previously existed in relation to the road is extinguished. Upon closing, title to the land, comprising the former public road, vests in the body specified in the Schedule hereunder.

KEVIN HUMPHRIES, MP
Minister for Natural Resources, Lands and Water

Description

*Parish – Elderbury; County – Hardinge
Land District – Armidale; LGA – Guyra*

Road Closed: Lot 1 DP 1202528
File No: 13/03565

Schedule

On closing, the land within Lot 1 DP 1202528 remains vested in the Guyra Shire Council as Operational Land.

Council's reference: SC-31-2014

NOTICE OF PURPOSE OTHER THAN THE DECLARED PURPOSE PURSUANT TO SECTION 34A (2) OF THE CROWN LANDS ACT 1989

Pursuant to section 34A (2) (b) of the *Crown Lands Act 1989*, the Crown reserve with the declared public purpose specified in Column 2 of the Schedule, is to be used or occupied for a purpose other than the declared purpose specified in Column 1 of the Schedule.

ORDER

Transfer of a Crown Road to a Council

In pursuance of the provisions of section 151, *Roads Act 1993*, the Crown roads specified in Schedule 1 is transferred to the Roads Authority specified in Schedule 2, hereunder, as from the date of publication of this notice and as from that date, the roads specified in Schedule 1 ceases to be a Crown road.

KEVIN JOHN HUMPHRIES, MP
Minister for Natural Resources, Lands and Water
and Minister for Western NSW

Schedule 1

Crown public road being part of Peacock Creek Road within Lot 182 DP 1014290, Lot 232 DP 777790, Lot 45 DP 751074 and adjoining Lots 311–314 DP 1115305.

Parish Peacock County Buller at George Creek.

Crown Lands Ref: DOC15/031811

Council Ref: GAK-PCP/46-107

Crown public road being part of Peacock Creek Road within or adjoining Lot 46 DP 751074, Lots 281–283 DP 719727, Lots 6–8 DP 739333 and Lots 43–44 DP 751074.

Parish Peacock County Buller at George Creek and Peacock Creek.

Crown Lands Ref: DOC15/032062, DOC15/032132
Council Ref: GAK-PCP/47-107

Crown public road being part of Station Road within Lots 38, 25, 24 and 30 DP 751074.

Parish Peacock County Buller at George Creek.

Crown Lands Ref: DOC15/032280

Council Ref: GAK-PCP/48-256

Crown public road being part of Colbran Road adjoining the western boundary of Lot 34 DP 752386 and Lot 181 DP 859970.

Parish Picarbin County Drake at Tabulam.

Crown Lands Ref: DOC15/032358

Council Ref: GAK-PCP/49-242

Crown public road being part of Babyl Creek Road within Lot 297 DP 755732.

Parish Queebun County Rous at Woolners Arm.

Crown Lands Ref: DOC15/032562

Council Ref: GAK-PCP/51-11

Crown public road being part of Bennetts Road, north of Lots 115, 122, 123 and 124 DP 755732.

Parish Queebun County Rous at Dobies Bight.

Crown Lands Ref: DOC15/032614

Council Ref: GAK-PCP/52-175

Council Ref: GAK-PCP/36-198

Crown public road being part of Bonners Lane, within and east of Lot 11 DP 1105876.

Parish Queebun County Rous at Woolners Arm.

Crown Lands Ref: DOC15/032828

Council Ref: GAK-PCP/53-10

Crown public road being part of Pitches Road adjoining west of Lot 283 DP755732, south west of Lot 294 DP 755732, north of Lot 376 and 377 DP 755732 and north east of Lot 194 DP 755732.

Parish Queebun County Rous at Doubtful Creek.

Crown Lands Ref: 15/033024

Council Ref: GAK-PCP/54-110, GAK-PCP/55-110.

Crown public road being part of Walsh Road adjoining south west of Lot 1 DP 531864 and north east Lot 273 DP 755732.

Parish Queebun County Rous at Dyraaba.

Crown Lands Ref: DOC15/034823

Council Ref: GAK-PCP/56-77

Crown public road being part of Woods Road adjoining north of Lot 85 DP 755732.

Parish Queebun County Rous at Dobies Bight.

Crown Lands Ref: DOC15/034919

Council Ref: GAK-PCP57-157

Crown public road being part of Askews Dip Road running within Lot 157 DP 751007, east of Lot 174 DP 44734.

Parish Robertson County Buller at Lower Duck Creek.

Crown Lands Ref: DOC15/037267

Council Ref: GAK-PCP/58-227

Crown public road being part of Clarence Way separating Lot 1 DP 436241 from Lot 7005 DP 1068817. Crown road separating Lot 2 DP 703206 from Lots 85, 84, 87 and 83 DP 751077. Crown road adjoining east Lot 7015 DP 1000923 and 51 DP 751077 Crown road running north-south within Lot 130 DP 873899.

Parish Robertson County Buller at Bonalbo.

Crown Lands Ref: DOC15/035643

Council Ref: GAK-PCP/59-361

ANTI-DISCRIMINATION ACT 1977

EXEMPTION ORDER

Under section 126 of the *Anti-Discrimination Act 1977*, an exemption is granted from sections 8 and 51 of the *Anti-Discrimination Act 1977* NSW, to the Law Society of New South Wales, to establish an online job board that would collate existing employment opportunities for Indigenous lawyers and students.

The Law Society of New South Wales is required to advise the Anti-Discrimination Board, every six months from the date of this Exemption Order, over the period specified in this Order, of the following:

- The types of legal jobs being offered to Indigenous lawyers and students;
- The pay bands of the jobs being offered;
- The number of positions being advertised for Indigenous lawyers and students; and
- The number of Indigenous lawyers and students employed through the job board.

This exemption will remain in force for a period of five years from the date given.

Dated this 12th day of March 2015

STEPAN KERKYASHARIAN, AO
President
Anti-Discrimination Board of NSW
