5. The lessee must ensure incised drainage lines, other than man-made structures, which carry water after storms are left uncultivated in the channels and for a distance of at least 20 metres on either side of the banks of the channels except when the Commissioner specifies otherwise.
6. The lessee must ensure that cultivation and associated activities do not interfere with any road formation within the allowable area.
7. Except with the specific approval of the Commissioner, no cultivation or ancillary works associated with cultivation must be undertaken within 500 metres of the bank of Whitbarrow Creek. These areas are not to be disturbed by the use of any implements or used for the purposes of any silo, temporary grain storage, machinery shed or other installations or works of any kind.

10. The lessee must establish windbreaks at his/her own expense as may be ordered by the Commissioner to provide adequate protection of the soil.
11. The lessee must ensure that cultivation and cropping do not alter the natural flood regime or obstruct the reasonable passage of floodwaters. Crops are not to be protected by levees.
12. The lessee is authorised to dryland cultivate an area of 1,397 hectares as indicated by the hatched area on the diagram below and must ensure that no cultivation or ancillary works associated with any cultivation occurs outside of these areas.
