Water Notices

SYDNEY WATER ACT 1994 (NSW)

SYDNEY WATER REGULATION 2017 (NSW)

Notice of Water Restrictions

Having regard to the effects of drought, and it being in the public interest for the purpose of maintaining water supply, I give NOTICE in accordance with clause 24 of the *Sydney Water Regulation 2017* of the following water restrictions, to take effect at 12.01am on 1 June 2019.

The water restrictions listed below remain in force until further notice; apply in the whole of the area of operations of Sydney Water Corporation; and apply to all users of water supplied by Sydney Water Corporation.

Subject to the exclusions below, the following uses of water supplied by Sydney Water Corporation within its area of operations are not permitted at any time:

- the use of sprinklers, watering systems or hoses for the watering of lawns, gardens or other vegetation;
- the hosing of hard surfaces;
- the unattended running of hoses or taps; and
- the filling of new or renovated pools greater than 10,000L capacity without a permit issued by Sydney Water and in accordance with any conditions attached to that permit.

The following uses are excluded from the restrictions:

- watering of lawns and gardens before 10am and after 4pm on any day using a hand-held hose fitted with an instant on-off mechanism such as a trigger nozzle;
- watering of newly laid turf according to the watering instructions provided by the turf supplier for a period of 7 days from the date of the delivery docket, or in accordance with a permit issued by Sydney Water and any conditions attached to that permit. This exclusion only applies to the newly laid turf and not to surrounding areas;
- the use of drip irrigation systems;
- the use of irrigation systems incorporating controllers that automatically adjust to weather or soil moisture conditions;
- the use of fire hoses for firefighting purposes, hazard reduction purposes or fire service testing;
- use of water for cooling people at water parks and water play areas that are accessible for public use;
- the use of water for dust suppression. Where a dust incident involves hazardous dust (eg asbestos), use of water must comply with the applicable incident response guidelines for the specific hazardous substance involved;
- spot cleaning with a hose of paths, driveways, concrete and other hard surfaces when cleaning with water is necessary for reasons (readily identifiable to an authorised person) of a safety, health, or emergency incident. For any use of water under this category of exclusion the hose used must be fitted with a trigger nozzle unless it is used to supply high pressure water cleaning equipment;
- non-commercial washing of vehicles, boats or personal water craft using a hose fitted with a trigger nozzle, high pressure water cleaning equipment, or a bucket and sponge (or similar arrangement);
- use of water for flushing inboard or outboard boat engines by means of a hose fitted with an appropriate flushing device;
- use of water by means of a hose fitted with a trigger nozzle or high-pressure water cleaning equipment for cleaning bilges or essential safety components on boat trailers, including wheels and brakes;
- non-commercial washing of building structures, including windows, walls, gutters and roofing using high pressure water cleaning equipment or hose fitted with a trigger nozzle;
- topping up water in pools to replace water lost through normal use conditions including evaporation;
- the use of bore water; recycled water or rainwater except when the tank used for storage has also been supplied from Sydney Water's potable supply unless Sydney Water has issued an exemption for that specific purpose;

- the use of water for the maintenance of public health, firefighting, hazard reduction or any other essential purpose approved in writing by Sydney Water;
- any use of water in accordance with the conditions of an exemption permit granted by Sydney Water.

The penalty prescribed for non-compliance with these restrictions is \$220 for an individual and \$550 for a corporation.

The Notice of Water Restriction of 22 June 2009 is revoked.

NOTE:

Sydney Water Corporation may determine definitions of words used in this Notice (such as equipment referred to) and make those definitions available publicly via the Sydney Water website.
