SCHEDULE**PART 1 – PRELIMINARY**

1. 1080 Bait is widely used to control pest animals.
2. 1080 Bait is a restricted pesticide and can only be used in accordance with the 1080 PCO.
3. Schedule 2 clause 3.8.2 of the 1080 PCO imposes conditions on a person disposing of 1080 packaging by burning. These conditions are replicated in Part 2.
4. Recycling as a means of disposal is not feasible owing to the toxicity of 1080 Bait.
5. Under clause 12 of the *Protection of the Environment (Clean Air) Regulation 2010*, burning in the open in a local government area specified in Schedule 8 of that Regulation is an offence except in accordance with an approval.

7. The NSW Department of Primary Industries has requested that a new approval be granted.
8. It is estimated that on average a total of approximately 10,000 bags of 1080 packaging need to be disposed of across NSW each year.
9. Disposal of 1080 packaging conducted in accordance with the conditions of approval set out in Part 2 will only have a very small potential impact on local or regional air quality.
10. Adjoining landholders have the potential to be affected by the burning of 1080 packaging, however, the conditions of approval are designed to minimise any impact.

PART 2 – CONDITIONS OF APPROVAL

1. The amount of plastic bags burnt at any premises on any single day must not exceed one hundred (100) bags without the prior written approval of the EPA.
2. The burning of plastic bags must be carried out at least five hundred (500) metres from any habitation.

5. The open fire burning of plastic bags must only be carried out in dry weather using such practicable means as may be necessary to minimise visible smoke emissions causing air pollution.
6. This approval shall cease 5 years from the date of this notice.
