

# *Government Gazette*

of the State of

New South Wales

**Number 95**

**Friday, 23 August 2019**

---

The New South Wales Government Gazette is the permanent public record of official NSW Government notices. It also contains local council, private and other notices.

From 1 January 2019, each notice in the Government Gazette has a unique identifier that appears in round brackets at the end of the notice and that can be used as a reference for that notice (for example, (n2019-14)).

The Gazette is compiled by the Parliamentary Counsel's Office and published on the NSW legislation website ([www.legislation.nsw.gov.au](http://www.legislation.nsw.gov.au)) under the authority of the NSW Government. The website contains a permanent archive of past Gazettes.

To submit a notice for gazettal – see Gazette Information.

# Immobilised Contaminants Approval

Pursuant to Part 10 of the *Protection of the Environment Operations (Waste) Regulation 2014* (Waste Regulation), the New South Wales Environment Protection Authority (EPA) has granted the following Immobilised Contaminants Approval.

## A) Approval Number

2017/02

This approval replaces general immobilisation approval number 2015/17 which is hereby revoked.

## B) Duration of approval

This approval commences on 20 August 2019 and is valid until 20 November 2019, unless sooner amended or revoked.

## C) Waste to which this approval applies

This approval applies to Pasmenco Immobilised Waste which is:

1. Metallurgical furnace slag or metallurgical furnace slag contaminated excavated materials or metallurgical furnace flue dust or metallurgical furnace flue dust impacted excavated materials or any mixture of those materials that is located at residential premises inside the Pasmenco Lead Abatement Strategy (LAS) Area at Cockle Creek, NSW 2284 (Annexure A - Map).

## D) Contaminants to which this approval applies

This approval applies to the following contaminants:

- Arsenic (As)
- Beryllium (Be)
- Chromium (VI) (Cr(VI))
- Lead (Pb)
- Nickel (Ni).

Any other potential metallurgical slag waste must be assessed on a case by case basis via a separate Immobilised Contaminants Approval.

## E) Responsible Person

The person or class of persons to whom this immobilised contaminants approval is granted are the persons who generate the waste to which this approval applies. Responsible persons must comply with the conditions of this approval.

## F) Mechanism of immobilisation

Arsenic, beryllium, chromium (VI), lead, nickel and inorganic compounds of these elements are encapsulated within the furnace slag during its formation at elevated temperature exceeding 1,000 degrees Celsius. These elements and their silicate and other compounds are bonded within a vitrified solid mass.

## **G) Conditions of approval**

### **1. Packaging requirements**

- 1.1. Dusty materials must be bagged or drummed or otherwise contained to avoid dust generation during handling.
- 1.2. Excavated materials contaminated by metallurgical slag and/or metallurgical furnace flue dust should be handled, packaged and transported with the appropriate health, safety and environmental controls to prevent or minimise human and environmental exposure to the materials, or cross contamination.

### **2. Waste assessment requirements**

- 2.1. For the Pasmaico Immobilised Waste subject to this approval:
  - 2.1.1. No further testing and assessment is required.

### **3. Storage restrictions**

- 3.1. Pasmaico Immobilised Waste may only be stored at the Summerhill Waste Management Facility, Wallsend which is operated by Newcastle City Council (Environment Protection Licence No. 5897).
- 3.2. This approval only allows a total of up to 1000 tonnes of Pasmaico Immobilised Waste to be stored.
- 3.3. Pasmaico Immobilised Waste must be **stored** as follows:
  - 3.3.1. In a secure and bunded storage area which prevents sediment runoff.
  - 3.3.2. In a manner which prevents or minimises the generation of dust.

### **4. Waste tracking and notification requirements**

- 4.1. Pasmaico Immobilised Waste must be tracked using the EPA's WasteLocate system or equivalent process.

## **H) Definitions**

In this approval:

**Waste Classification Guidelines** means the *Waste Classification Guidelines Part 1: Classifying Waste* (November 2014) published by the EPA and available at [www.epa.nsw.gov.au](http://www.epa.nsw.gov.au).

# Waste Tracking Exemption

## Pasminco Immobilised Waste being transported to Summerhill Waste Management Facility

Protection of the Environment Operations (Waste) Regulation 2014

### Notice of exemption granted under Part 9 in relation to waste tracking

By this notice the Environment Protection Authority (EPA) grants the following general exemption. The notice exempts the persons or classes of persons described herein from certain requirements in relation to the transportation and tracking of waste. The terms used in this notice have the same meaning as in the *Protection of the Environment Operations Act 1997* (the Act) and the *Protection of the Environment Operations (Waste) Regulation 2014* (the Regulation).

1. This exemption has effect from 20 August 2019 and remains in force until 20 November 2019 unless revoked or amended by a notice published in the Government Gazette.

### Waste to which the exemption applies

2. This exemption applies to Pasminco Immobilised Waste referred to in Immobilised Contaminants Approval 2017/02 that is trackable waste and that is being transported to Summerhill Waste Management Facility (SWMF) (Environment Protection Licence No. 5897).
3. This exemption applies to such waste delivered by a householder to SWMF; or collected from a householder and delivered to SWMF.
4. It exempts
  - a. a consignor;
  - b. a transporter; and
  - c. a receiver of waste to which this exemption applies from Part 4 of the Regulation, but only in so far as Part 4 applies by virtue of Clause 41(1)(a) of the Regulation.
5. An exemption under this notice has effect only if the waste is transported to SWMF.

### Conditions relating to the exemption of consignors

6. A consignor of Pasminco Immobilised Waste is exempt under this notice only if the consignor complies with the following conditions:
  - a. before the transport of any Pasminco Immobilised Waste, the consignor must register as a consignor of Pasminco Immobilised Waste by providing the required information to the EPA on WasteLocate (or equivalent), and
  - b. before the transport of any Pasminco Immobilised Waste, the consignor must provide the required information on the waste and transporter to the EPA on WasteLocate (or equivalent).

### Conditions relating to the exemption of transporters

7. A transporter of Pasmenco Immobilised Waste is exempt under this notice only if the transporter complies with the following conditions:
- a. no later than on delivery of the load of Pasmenco Immobilised Waste, the transporter must register as a transporter of Pasmenco Immobilised Waste by providing the required information to the EPA on WasteLocate (or equivalent), and
  - b. for each load of Pasmenco Immobilised Waste transported, and no later than on delivery of each load of Pasmenco Immobilised Waste, the transporter must provide the required information on the transport for the specific consignment to the EPA on WasteLocate (or equivalent), and
  - c. on delivery of each load of Pasmenco Immobilised Waste to SWMF, the transporter must scan the EPA Fixed Plate at SWMF through their mobile device (or equivalent).

### Conditions relating to the exemption of receivers

8. Newcastle City Council, the occupier of SWMF, as the receiver of Pasmenco Immobilised Waste, is exempt under this notice only if SWMF complies with the following conditions:
- a. on and from delivery of the first load of Pasmenco Immobilised Waste to its premises, Newcastle City Council must display an EPA Fixed Plate at its premises, and
  - b. if the EPA Fixed Plate at SWMF is not scanned by the transporter of the Pasmenco Immobilised Waste, Newcastle City Council must provide the EPA the following information in relation to the load:
    - i. the date and time of delivery of the load of Pasmenco Immobilised Waste, and
    - ii. the vehicle registration number of the vehicle driven by or on behalf of the transporter for the specific consignment.

Newcastle City Council must provide this information to the EPA:

- i. in writing using the form in Appendix 1 of the *Asbestos and Waste Tyres Guidelines*, ii. within 7 days after the end of the month in which the load was received, and
- iii. via email to [waste.operations@epa.nsw.gov.au](mailto:waste.operations@epa.nsw.gov.au) or by post to EPA Waste Operations, PO Box A290, Sydney South, NSW 1232, unless authorised otherwise by an EPA authorised officer.

### Interstate movement of waste to which Part 3 applies

9. This notice does not exempt any person or class of person from Part 4 of the Regulation in so far as Part 4 applies by virtue of clause 41(1)(b) of the Regulation.

### Dangerous Goods requirements

10. This notice does not exempt any person or class of person from any requirement under the *Road and Rail Transport (Dangerous Goods) Act 1997* or the Regulations made under that Act.

### Definitions:

- **Asbestos and Waste Tyres Guidelines** – the document of that name, published by the EPA in the Gazette (as amended or replaced, from time to time, by notice published in

the Gazette). A copy of the guidelines is available on the EPA's website ([www.epa.nsw.gov.au](http://www.epa.nsw.gov.au)).

- **EPA Fixed Plate** – a fully-functioning fixed plate approved by the EPA with a unique QR2id code and alphanumeric number for a particular premises.
- **Householder** – person who owns, or rents, or lives in a house or tenement, and generates Pasminco Immobilised Waste.
- **Pasminco Immobilised Waste** – Metallurgical furnace slag or metallurgical furnace slag contaminated excavated materials or metallurgical furnace flue dust or metallurgical furnace flue dust impacted excavated materials or any mixture of those materials that is located at residential premises inside the Pasminco Lead Abatement Strategy (LAS) Area at Cockle Creek, NSW 2284 (Annexure A - Map).
- **SWMF** – Summerhill Waste Management Facility, Summerhill Road, Wallsend, 2287, NSW.
- **WasteLocate** – the online tool developed by the EPA for reporting on the location and movement of certain waste types.

Dated: 20 August 2019

**ASELA ATAPATTU Director Hazardous Materials, Chemicals and Radiation**  
(On behalf of the Environment Protection Authority)
