of the State of  
New South Wales

**Number 107**  
**Friday, 29 May 2020**

---

The New South Wales Government Gazette is the permanent public record of official NSW Government notices. It also contains local council, non-government and other notices.

Each notice in the Government Gazette has a unique reference number that appears in parentheses at the end of the notice and can be used as a reference for that notice (for example, (n2019-14)).

The Gazette is compiled by the Parliamentary Counsel's Office and published on the NSW legislation website ([www.legislation.nsw.gov.au](http://www.legislation.nsw.gov.au)) under the authority of the NSW Government. The website contains a permanent archive of past Gazettes.

To submit a notice for gazettal, see Gazette Information.

### PROTECTION OF THE ENVIRONMENT OPERATIONS ACT 1997

#### Order granting exemption under section 284

#### Background

- a) On 7 September 2019, the Office of Emergency Management approved Natural Disaster Declaration AGRN 871 for NSW bushfires that began on 31 August 2019. To date, a total of 49 local government areas (“LGAs”) have been declared natural disasters.
- b) Waste arising from a natural disaster that is approved by the Environment Protection Authority (“EPA”) in writing for the purposes of clause 21(1)(b) of the *Protection of the Environment Operations (Waste) Regulation 2014* is exempt from the calculation of the waste levy payable under section 88 of the *Protection of the Environment Operations Act 1997* (“POEO Act”).
- c) The EPA has approved in writing an exemption from the calculation of the waste levy for waste arising from bushfires in those LGAs that have been declared natural disasters by Natural Disaster Declaration AGRN 871 (“Natural Disaster Exemption”).
- d) The Natural Disaster Exemption does not apply to landfill cover material used for the disposal of waste arising from the bushfires.
- e) The EPA has considered an exemption under section 284 of the POEO Act from the provision of section 88 of the POEO Act for occupiers of scheduled waste disposal facilities in respect of virgin excavated natural material and recovered fines used as landfill cover for waste arising from bushfires in LGAs that have been declared natural disasters by Natural Disaster Declaration AGRN 871.
- f) The purpose of this Order is to:
  - (i) revoke and replace the exemption published in NSW Government Gazette No. 82 of 17 April 2020 at page 1363 (Reference number: (n2020-984)); and
  - (ii) exempt the occupiers of scheduled waste disposal facilities from the requirement to pay the waste levy in respect of virgin excavated natural material and recovered fines used as landfill cover for waste arising from bushfires in those LGAs listed in Natural Disaster Declaration AGRN 871.

#### Revocation of Previous Order

This Order revokes the exemption published in NSW Government Gazette No. 82 of 17 April 2020 at page 1363 (Reference number: (n2020-984)).

#### Order

By this Order, the EPA, in circumstances of an emergency, being the 2019/2020 bushfires in New South Wales, grants an exemption from complying with section 88 of the POEO Act to occupiers of scheduled waste disposal facilities, in respect of the following:

- (a) virgin excavated natural material (as defined in Schedule 1 to the POEO Act) used as:
  - (i) immediate or initial cover for asbestos waste arising from bushfires in those LGAs listed in Natural Disaster Declaration AGRN 871, or
  - (ii) daily cover for waste arising from bushfires in those LGAs listed in Natural Disaster Declaration AGRN 871; and
- (b) recovered fines (being recovered fines meeting the requirements of Recovered Fines Alternative Daily Cover Specifications published by the EPA in the Gazette and as amended or replaced from time to time (“Recovered Fines Specifications”)) used as daily cover for waste arising from bushfires in those LGAs listed in Natural Disaster Declaration AGRN 871.

#### Conditions

This exemption is granted under section 284 of the POEO Act subject to the following conditions:

1. An occupier of a scheduled waste disposal facility is not eligible for the exemption unless the Natural Disaster Exemption has been activated in respect of the facility by a local council which has been issued with an exemption certificate and natural disaster exemption number by the EPA.
2. An occupier of a scheduled waste disposal facility is not eligible for the exemption in respect of recovered fines unless the scheduled waste disposal facility:

- a. is authorised (in the environment protection licence for the facility) to receive the recovered fines and to apply the recovered fines to land as daily cover; and
  - b. has obtained, from the scheduled waste facility that supplied the recovered fines, a statement in the approved form that certifies that the fines have been sampled and tested in accordance with the Recovered Fines Specifications and that the fines comply with the Recovered Fines Specifications.
3. An occupier of a scheduled waste disposal facility is not eligible for the exemption unless the occupier complies with any requirements under Division 1 of Part 3 of the *Protection of the Environment Operations (Waste) Regulation 2014* with respect to the virgin excavated natural material and recovered fines
  4. This exemption ceases to have effect on 30 November 2020.

**Duration of Exemption**

This Order takes effect immediately upon the signing of this Order unless otherwise varied or revoked. The Order may be varied or revoked under section 284 of the POEO Act.

### **Controlled Allocation Order (Various Groundwater Sources) 2020**

under the

**Water Management Act 2000**

I, Graham Attenborough, Executive Director Programs and Services – Water, having delegated authority from the Minister for Water, Property and Housing, in pursuance of section 65 of the *Water Management Act 2000*, declare that the right to apply for an access licence for specified water sources is to be acquired by tender as set out in the following Order.

Dated 23 May 2020.

**GRAHAM ATTENBOROUGH**

Executive Director Programs and Services – Water  
Department of Planning, Industry & Environment  
(by delegation)

**Explanatory note**

This Order is made under section 65 of the *Water Management Act 2000*. The object of this Order is to declare that the right to apply for an aquifer access licence in respect of the water sources specified in Schedule 1 is to be acquired by way of tender. The tender is to be conducted through a Registration of Interest Process according to the Terms and Conditions at Schedule 2. For each water source specified in Schedule 1, persons may register their interest in obtaining the right to apply for an aquifer access licence up to the quantity of units of access licence share component specified for that water source.

## Controlled Allocation Order (Various Groundwater Sources) 2020

under the

Water Management Act 2000

### 1 Name of Order

This Order is the *Controlled Allocation Order (Various Groundwater Sources) 2020*.

### 2 Commencement

This Order commences on the day on which it is published in the NSW Government Gazette.

### 3 Duration

This Order will remain in force until 28 May 2021, unless that date is extended by order before that date or this Order is repealed before that date.

### 4 Water sources to which this Order applies

- 1) Subject to clause 4(2), this Order applies to each water source specified in Column 2 of Schedule 1 to this Order as described in the water sharing plan specified in Column 1 of Schedule 1 for that water source.

**Note:** Some of the water sharing plans specified in Column 1 of Schedule 1 to this Order may be repealed and remade while this Order is in force. The repeal, replacement or amendment of a water sharing plan specified in Column 1 of Schedule 1 does not affect the application of this Order to the water source as described in that water sharing plan.

- 2) Where a management zone is specified in Column 5 of Schedule 1, this Order only applies to the part of the water source specified in Column 2 of Schedule 1 that is within the management zone specified in Column 5 of Schedule 1.

### 5 Controlled allocation of aquifer access licences

- 1) The right to apply for an access licence in respect of the water sources to which this Order applies is limited to the category aquifer access licence.
- 2) The right to apply for an aquifer access licence in respect of the water sources to which this Order applies:
  - a) cannot exceed the quantity of units of access licence share component (**unit shares**) specified in Column 3 of Schedule 1 for the water source specified in Column 2 of Schedule 1, and
  - b) is to be acquired by tender for a price not less than the amount specified in Column 4 of Schedule 1 for a unit share in that water source.

**Note:** The right to apply for an aquifer access licence does not include the right to apply for an aquifer (general security) access licence or an aquifer (high security) access licence which are different categories of access licence.

**6 Subcategories of aquifer access licence**

The right to apply for an aquifer access licence under this Order does not include the right to apply for a subcategory of aquifer access licence.

**7 Controlled allocation process**

The tender is to be carried out in the form of a Registration of Interest process in accordance with the Terms and Conditions set out at Schedule 2 to this Order.

**Notes:**

1. Where a management zone is specified in Column 5 of Schedule 1, applications can only be made in the controlled allocation process under this Order for unit shares in that management zone.
2. If the water source nominated by a participant in the controlled allocation process under this Order is no longer available during the Registration of Interest (**RoI**) period, the relevant application fee paid will be refunded. A water source may be removed from Column 2 of Schedule 1 of this Order, or the number of unit shares in Column 3 of Schedule 1 may be decreased, in order to meet critical water needs as a result of the NSW drought during the RoI period.

## SCHEDULE 2

### Terms and Conditions for the Controlled Allocation Process

#### Introduction

The Crown in right of the State of New South Wales acting through the Department of Planning, Industry & Environment (the **Department**) is conducting a tender process which calls for persons to register their interest in obtaining the right to apply for an access licence (category aquifer access licence) in a number of groundwater sources that have unassigned water.

Unassigned water exists in groundwater sources where current water requirements are less than the limits specified in water sharing plans. Current water requirements include licensed volumes plus volumes required to meet basic landholder rights.<sup>1</sup>

For water sources that are managed under the Commonwealth's *Basin Plan 2012* (**Basin Plan**), the unassigned water volume is calculated by subtracting current water requirements from the sustainable diversion limit that applies under the Basin Plan.

For water sources outside the Murray-Darling Basin, the unassigned water volume is calculated by subtracting current water requirements from the long term average extraction limit specified in the water sharing plans.

Long term average extraction limits in water sharing plans and sustainable diversion limits in the Basin Plan have been set to ensure that water is reserved for the environment.

This document sets out the Terms and Conditions (**Terms and Conditions**) under which the process for the controlled allocation of aquifer access licenses (**Controlled Allocation Process**) is to be conducted and sets out the rights and obligations of participants in the Controlled Allocation Process.

An outcomes report for this Order will be published at the end of the term of this Order, on the Department's website. Details of the quantity of share units granted under aquifer access licenses (**access licences**) and price paid per unit share will be available in this report.

#### Important note

The right that is the subject of the Controlled Allocation Process is the right to apply for an access licence. Should a participant be successful in gaining the right to apply for an access licence, this does not necessarily mean that an access licence will be granted when it is applied for. If successful in gaining the right to apply for an access licence, the participant will need to lodge an access licence application which will be determined in accordance with the requirements of the relevant water sharing plan and the *Water Management Act 2000* (**Act**).

The *Water Sharing Plan for the NSW Murray Darling Basin Fractured Rock Groundwater Sources 2011*, the *Water Sharing Plan for the NSW Murray Darling Basin Porous Rock Groundwater Sources 2011* and the *Water Sharing Plan for the NSW Great Artesian Basin*

---

<sup>1</sup> In groundwater sources a basic landholder right includes water taken from the groundwater source for domestic consumption and stock watering and water taken from the groundwater source in the exercise of native title rights.

*Shallow Groundwater Sources 2011* may be repealed and remade while this Order is in force. A consequence of the repeal and remake is that when a successful participant in the Controlled Allocation Process applies for an access licence, the application will be subject to the rules in the replacement water sharing plan.

There are restrictions on granting access licences in certain water sources due to management zone rules in relevant water sharing plans specified in Schedule 1 to this Order. The Registration of Interest (**RoI**) form makes provision for a management zone to be specified in relation to a water source.

A successful participant's licence application will also be conditional upon the participant complying with the Terms and Conditions.

The successful participant may also need to, and bears the risk of, obtaining further approvals to take and/or use the water. These may include, for example, a water supply work approval and/or a water use approval under the Act or an approval/consent under the *Environmental Planning and Assessment Act 1979* (**EP&A Act**). Prior to taking water the participant will also need to ensure that a water supply work or extraction point is nominated on the access licence. There may be restrictions on nominating a work in certain water sources due to management zone rules. Participants should check with the Natural Resources Access Regulator (**NRAR**) or WaterNSW <sup>2</sup> to confirm whether there are any restrictions which may prevent them obtaining and using the necessary licences and approvals to take water in their desired manner.

Purchasing a right to apply for an access licence through the Controlled Allocation Process does not guarantee that groundwater of a particular yield or quality will be able to be accessed by the successful participant. This is because groundwater yield and quality can vary throughout a groundwater source. If successful participants are unable to access suitable groundwater they may be able to sell their access licence on the water market.

---

<sup>2</sup> Responsibilities for granting and managing water licences and approvals are shared between NRAR and WaterNSW.

The **NRAR** is responsible for water licences and approvals required by or for:

- Government agencies, including other NSW government agencies, local councils and the Commonwealth
- State owned corporations
- Major water utilities, water supply authorities and local water utilities
- Licensed network operators under the *Water Industry Competition Act 2006*
- Major developments (state significant developments and state significant infrastructure)
- Mining companies
- Irrigation corporations
- Schools and hospitals
- Aboriginal communities and businesses
- Floodplain harvesting
- Controlled activities carried out in, on or beside rivers, lakes and estuaries

**WaterNSW** is responsible for water licences and approvals required by:

- Rural landholders
- Rural industries
- Developments which are not state significant development or state significant infrastructure, as defined under the EP&A Act

**WaterNSW** is also responsible for processing of water access licence dealings, and managing information relating to licence shares and water allocations.

## Part 1 – Overview

- 1.1 The Department will conduct the Controlled Allocation Process under the *Controlled Allocation Order (Various Groundwater Sources) 2020 (Order)* in accordance with the Terms and Conditions.
  - 1.2 The Controlled Allocation Process will involve one RoI period during which the water specified in Schedule 1 to this Order will be made available.
  - 1.3 The minimum price per unit of access licence share component (**unit share**) in each water source is specified in Schedule 1 to this Order.
  - 1.4 Participants must nominate:
    - a) The water source specified in Column 2 of Schedule 1 to this Order (and the management zone within the water source if specified in Column 5 of Schedule 1),
    - b) The price per unit share at or above the amount specified in Column 4 of Schedule 1 that they are willing to pay for the right to apply for an access licence in the relevant water source. The price must be a full dollar amount, and
    - c) The number of whole unit shares they wish to purchase.
- Notes:
1. An RoI application nominating a management zone that is not specified in Column 5 of Schedule 1 will be invalid.
  2. An application nominating a price per unit share lower than the amount specified in Column 4 of Schedule 1 will be invalid.
- 1.5 Successful notices will be issued to participants offering the highest price (above the minimum price) per unit share for a water source, until the available unit shares have been exhausted or an Executive Director of the Department (**Executive Director**) decides to hold over remaining unit shares to a subsequent Controlled Allocation Process.
  - 1.6 Participants who receive successful notices must, within 30 days, complete payment or withdraw from the Controlled Allocation Process, unless an extension for payment or application for late withdrawal is granted.
  - 1.7 Participants who receive successful notices and complete payment of the total purchase price must apply for an access licence within 30 days of payment.
  - 1.8 If an access licence application arising from the Controlled Allocation Process is refused, or an application for late withdrawal is granted after the total purchase price has been paid, the Department will refund the total purchase price paid by the participant.

- 1.9 A participant who commits a default under this Order may be precluded from participating in this current and future Controlled Allocation Processes.

## Part 2 – The Registration of Interest (RoI) process

- 2.1 The RoI process will consist of a 30 day RoI period which will commence on 30 June 2020 (**Commencement Date**). On the Commencement Date, a notice will be published on the Department website (<https://www.dpie.nsw.gov.au>) notifying of the right to register interest within 30 days.
- 2.2 To register interest in the RoI period, a participant must within the 30 day RoI period:
- Complete the RoI form available on the Department website as at the date of the application, and
  - Submit both the completed RoI form and an application fee of \$150 (**RoI Application**) to the Department in the manner specified on the form.

Notes:

- RoI Applications not submitted to the Department within the 30 day RoI period will not be accepted. Applicants should carefully follow the instructions on the RoI form. The Department may request more information about an application.
  - A person may, or may not, be successful in their RoI Application within the RoI period.
  - The application fee will not be refunded unless the water source nominated by a person in the Controlled Allocation Process is no longer available during the RoI period. A water source may be removed from Column 2 of Schedule 1 of this Order, or the number of unit shares in Column 3 of Schedule 1 may be decreased, in order to meet critical water needs as a result of drought or other issues affecting the ability to meet critical water needs during the RoI period.
  - RoI forms will only be available on the Department website during the 30 day RoI period.
- 2.3 A right to apply for an access licence that is gained through the Controlled Allocation Process is not transferable.

Notes:

- The only person who can apply for an access licence arising from the Controlled Allocation Process is the person who submits a successful RoI Application. If the access licence is to be held by more than one person, each person must be identified in the RoI Application.
  - 'Person' has the same meaning as defined in section 21 of the *Interpretation Act 1987*.
- 2.4 If a participant is seeking to acquire a right to apply for access licences in more than one water source, they must lodge a separate RoI Application for each water source.
- 2.5 A participant may make multiple bids at different price points for unit shares within the same water source during the RoI period by submitting a separate RoI Application for each bid. In these circumstances:

- a) Each bid will be processed separately, and
- b) The Terms and Conditions apply in relation to each successful bid.

Note: A person who is successful in more than one bid must, unless they withdraw the bid within the initial 30 day period, pay the total purchase price and lodge a valid access licence application for each successful bid – see Part 4 of this Schedule.

2.6 Participants in the Controlled Allocation Process must:

- a) Not engage in unethical or collusive behaviour or seek to obtain an unfair advantage, and
- b) Comply with standards of behaviour in Sections 1 & 2 of the Supplier Code of Conduct as applicable.

Notes:

- 1) A copy of the Supplier Code of Conduct is available at <https://buy.nsw.gov.au/policy-library/policies/supplier-code-of-conduct> and Sections 1 & 2 of the Support Code of Conduct is extracted at Annexure A.
- 2) Under Part 5 of this Schedule, this behaviour may preclude a participant from participating in this current and future controlled allocation processes.

### Part 3 – Selection of successful RoI Applications

- 3.1 Subject to clauses 3.2 to 3.4, the right to apply for an access licence in each water source will be offered to the participant who has submitted an RoI Application with the highest price for that right in the RoI period, provided that the price is at or above the minimum price per unit share set out in Column 4 of Schedule 1.
- 3.2 If, within the RoI period, the unit shares available in a water source are not fully exhausted by the highest offered price per unit share, then a right to apply for an access licence may continue to be awarded to participants who have submitted RoI Applications in the order of the next highest price per unit share until:
  - a) The unit shares available for that water source have been fully allocated,
  - b) There are no further bids at or above the minimum price, or
  - c) An Executive Director decides to hold over any remaining unit shares to a future controlled allocation order made under section 65 of the Act.
- 3.3 If two or more RoI Applications in the RoI period include:
  - a) Bids at the same highest price per unit share in the same water source, or
  - b) Bids at the same next highest price per unit share in the same water source (as described in clause 3.2), and
  - c) The sum of the unit shares applied for is greater than the unit shares available for the RoI period, then rights to apply for access licences will be distributed proportionally between the participants who submitted those RoI Applications according to the number of unit shares of each bid, to the extent they can be apportioned as full unit shares.

Note: This means a participant may only successfully obtain the right to apply for an access licence for some (but not all) of the unit shares applied for in an RoI Application.

- 3.4 An Executive Director may refuse (including by refusing to consider) an Rol Application at their discretion for any reason, including but not limited to circumstances where the Executive Director:
- a) Reasonably believes that the participant has engaged in collusive behaviour, or
  - b) Is not satisfied that the Rol Application was submitted within a Rol period.

#### **Part 4 – Rights and obligations of participants**

- 4.1 Upon the expiration of the Rol period, an Executive Director will:
- a) Determine the successful Rol Applications based on the criteria set out in Part 3,
  - b) Issue successful participants with written notice (**Successful Notice**) that sets out:
    - i. the price at which the participant has, subject to full payment of the total purchase price for all unit shares specified in the Successful Notice (**Total Purchase Price**), been offered the right to apply for an access licence, and
    - ii. the number of unit shares, the water source, and, if applicable, the management zone to which the access licence application may relate, and
  - c) Issue non-successful participants with written notice (**Unsuccessful Notice**) that they were not successful in the Rol period. Participants may withdraw from the Controlled Allocation Process by notice in writing to the Executive Director specified in the Unsuccessful Notice or maintain the option of being issued a subsequent Successful Notice (see clause 4.2).
- 4.2 After the end of the Rol period and prior to the repeal or expiry of this Order, an Executive Director may issue a Successful Notice to any continuing participant who had previously been issued an Unsuccessful Notice.
- 4.3 A successful participant must either:
- a) **Complete payment:** Pay the Total Purchase Price in the manner set out in the Successful Notice within 30 days of issue of a Successful Notice, or
  - b) **Withdraw:** Withdraw from the Controlled Allocation Process within 30 days of issue of a Successful Notice by written notice to the Executive Director specified on the Successful Notice.
- 4.4 A participant acquires the right to apply for an access licence under section 65 of the Act when the Total Purchase Price has been paid.
- 4.5 Upon receipt of the Total Purchase Price, the Department will generate a reference number for the access licence application (**Reference Number**) and provide it to the participant.
- 4.6 A participant must apply for an access licence for the total unit shares specified in the Successful Notice within 30 days of the issue of a Reference Number.

Note:

1. The access licence application form and fee details will be provided to the participant by the Department when the Reference Number is issued. WaterNSW and NRAR process access

- licence applications (see “Important note”).
2. The access licence application should be made pursuant to section 61(1)(c) of the Act.
- 4.7 Where an access licence application arising from the Controlled Allocation Process is refused, the Department will refund the Total Purchase Price paid by the participant. The access licence application fees will not be refunded and the Reference Number will be cancelled.

#### **Late withdrawal from the Controlled Allocation Process**

- 4.8 If a successful participant wishes to withdraw from the Controlled Allocation Process more than 30 days after issue of a Successful Notice the participant may, by written notice to the Executive Director specified on the Successful Notice, apply to withdraw from the Controlled Allocation Process. The notice must set out the reasons for the request and the delay in deciding to withdraw and may be made any time prior to determination of an access licence application arising from the Controlled Allocation Process.
- 4.9 An Executive Director may:
- a) Not allow the withdrawal, or
  - b) Allow the withdrawal. In these circumstances, the Department will refund the Total Purchase Price paid and any access licence application arising from the Controlled Allocation Process will be withdrawn.

Note: Access licence application fees will not be refunded if withdrawal is permitted under this clause.

#### **Part 5 – Default**

- 5.1 In the event of a Default:
- a) A participant may, at the discretion of an Executive Director, lose any right to apply for an access licence under section 65 of the Act, and
  - b) A participant and any related parties may, at the discretion of an Executive Director, be precluded from participating in future controlled allocation processes under section 65 of the Act.

##### Notes:

1. RoI and access licence application fees will not be refunded and the Reference Number will be cancelled.
  2. A person or company is taken to be related to another person or company if the relevant entities would be “related parties” under section 228 of the *Corporations Act 2001* (Cth).
  3. In making any decision, the Executive Director may invite submissions from the participant, including to demonstrate any exceptional circumstances or financial hardship.
- 5.2 For the purposes of this Part 5, **Default** includes:
- a) Failure to complete payment or withdraw from the Controlled Allocation Process within the time period specified in clause 4.3, and, where an application for late withdrawal has been made under clause 4.8, that

- application has not been allowed in accordance with clause 4.9(a),
- b) Failure to comply with sections 1 & 2 of the Supplier Code of Conduct,
- c) Failure to submit a valid access licence application within 30 days of a Reference Number being issued to a participant in accordance with clause 4.6,
- d) Provision of false or misleading information to the Department, NRAR or WaterNSW in the Controlled Allocation Process or application for an access licence, and
- e) Circumstances where the Executive Director is satisfied that a participant has engaged in collusive behaviour, unethical behaviour, or has sought to obtain an unfair advantage in the Controlled Allocation Process.

## Part 6 – Acknowledgements

6.1 Submission of an RoI Application in accordance with clause 2.2 is acknowledgement and representation by the participant that:

- a) The participant accepts and agrees to the Terms and Conditions (including not to engage in unethical or collusive behaviour, or to seek to obtain an unfair advantage in the Controlled Allocation Process),
- b) The participant bears the risk for the decision to make the RoI Application and has read the “Important note” in the Terms and Conditions,
- c) The participant has read the requirements in Part 4 of the Supplier Code of Conduct and has and will comply with those requirements in the Controlled Allocation Process, and agrees to provide, on request, access to all relevant information to demonstrate compliance with those requirements,
- d) The participant is aware that lodgment of an RoI Application does not necessarily mean that an access licence will be granted when it is applied for and that if successful in gaining the right to apply for an access licence, the participant will need to lodge a licence application which will be determined consistent with the requirements of the relevant water sharing plan and the Act,
- e) The Controlled Allocation Process will be determined in accordance with the Act, any associated regulations or guidelines as in force from time to time and the Terms and Conditions,
- f) The Order and Terms and Conditions do not constitute a contract between the Department and the participant in any respect,
- g) The Crown in right of the State of New South Wales, including the Department and its officers, employees and agents (**State**), accepts no liability in relation to any action, proceeding, claim, demand, cost, loss, damage or expense (including reasonable legal costs or expenses) arising directly or indirectly as a result of or in connection with this Controlled Allocation Process or any act or omission of the State in connection with this Controlled Allocation Process,
- h) In the event that, notwithstanding clauses 6.1(f) and 6.1(g), the State is found to be liable in any way, the State’s liability shall be limited to the participant’s reasonable costs of participation in the Controlled Allocation Process, and does not include liability for any lost profit, lost opportunity or other losses of the participant,
- i) All information contained in the RoI Application is accurate, true and complete and that the State will rely on such information, and
- j) The participant is responsible for obtaining any legal, financial or technical advice in connection with the Controlled Allocation Process.

### CHARITABLE TRUSTS ACT 1993

#### ORDER UNDER SECTION 12

#### ADMINISTRATIVE SCHEME RELATING TO

#### THE ARCHIBALD PRIZE AND THE SULMAN PRIZE

Section 12(1) of the *Charitable Trusts Act 1993* permits the Attorney General to establish an administrative scheme to vary the powers of trustees of a charitable trust where it is expedient to do so in the interests of the administration of the charitable trust.

The Art Gallery of New South Wales ('AGNSW') is trustee of the Archibald Prize and the Sulman Prize ('the Trusts'). The Trusts were established, respectively, by way of a bequest in the will of the late J F Archibald and by way of a deed by Lady Sulman and others, in memory of the late Sir John Sulman. The Trusts were established, respectively, for the purposes of establishing prizes for the best portrait painting and the best subject painting, genre painting or mural project, with the prizes being awarded annually by the trustees of AGNSW.

The prizes for the art works which were awarded by AGNSW are postponed in light of the restrictions placed on public gathering and social distancing requirements imposed by the NSW Government in response to COVID-19 and, as a result, the purposes of the Trusts cannot be met at this time.

The Trusts are considered to be charitable trusts, with the object of the Trusts being the advancement of education, or in the alternative, other purposes beneficial to the community, encouraging as it does participation in a fine art. The value of the Trusts, including the Wynne Prize, is approximately \$358,000.

It is proposed that the terms of the Trusts be varied to empower the trustee to extend the deadline for the acceptance of submissions and the eligibility period, and to make such other changes to the administrative terms of the bequests for the purpose of allowing an equitable approach which will ensure the preservation of the eligibility of submitted or planned entries. The deadline will be revised to provide for the continuing eligibility of the works and the artists who had completed the online entry form, or intended to do so, by 3 April 2020. The eligibility period will be extended to allow for this year's entrants to be eligible for entry in 2021, should the competition be postponed or cancelled in light of the ongoing impact of COVID-19 or other such events in the future.

The proposed scheme does not alter the original purposes of the trusts and the scheme should be established as a matter of urgency (under section 15(3) of the *Charitable Trusts Act 1993*), given the date fixed for the acceptance of entries has already passed. The trustees have not been able to progress the prizes, and publicity of the proposed scheme will cause further delay. As such, this is an appropriate matter in which the Attorney General should approve an administrative scheme under section 12(1)(b) of the *Charitable Trusts Act 1993*.

I have previously approved a recommendation that the Attorney General establish an administrative scheme which would permit the trustee to extend the deadline and the eligibility period, allowing these charitable prizes to be awarded in a manner that does not alter the original purposes of the Trusts.

Pursuant to section 12 of the *Charitable Trusts Act 1993*, I hereby order that the terms of the Trusts be varied to empower the trustees of a charitable trust to establish an administrative scheme as outlined above in relation to the deadline and eligibility period of the Archibald Prize and the Sulman Prize.

The order will take effect on its publication in the Government Gazette, in accordance with section 16(3) of the *Charitable Trusts Act 1993*.

## CHARITABLE TRUSTS ACT 1993

### NOTICE UNDER SECTION 15

#### ADMINISTRATIVE SCHEME RELATING TO

#### THE ESTATE OF THE LATE JUDITH CHRISTINE WALSH

Section 12(1)(b) of the *Charitable Trusts Act 1993* ('the Act') permits the Attorney General to establish an administrative scheme to prescribe or vary the manner or mode of administration of a charitable trust. Such a scheme may be established where it is expedient to the interests of the administration of the charitable trust.

Under the Will of the late Judith Christine Walsh, dated 15 March 2006, Ms Walsh directed that 75% of her residual estate is to be divided in equal parts and held on trust for three nominated charities. One of the charities, the 'Dr John Holt Cancer Research Unit' ('the Cancer Research Unit') is non-existent. The gift in respect of the Cancer Research Unit is to be applied instead to the Cancer Centre for Children at the Children's Hospital at Westmead, by way of cy pres scheme. The other two nominated charities are the Burns Unit at the Children's Hospital at Westmead and Project Orbis International Inc. The value of a capital distribution of each 25% share is approximately \$100,000 to each charity.

Under the Will, Ms Walsh directed that the gifts be paid to the charities in monthly instalments. Further, Ms Walsh nominated three trustees to manage the gifts to the nominated charities. One of the nominated trustees cannot be located and one has disclaimed his appointment. The remaining nominated trustee is also a co-executor and trustee of the estate.

The remaining trustee and co-executors of the estate request that the Attorney General establish an administrative scheme permitting a one-off distribution of the capital sum of the gifts to each charity, to avoid the need to establish and manage three separate trusts.

An administrative scheme is expedient to avoid the costs of potential court proceedings to resolve the issue of appointment of additional trustees. Further, even if additional trustees were appointed and the trusts set up without further judicial intervention, the amount of funds each charity would receive on a monthly basis would be nominal and the ongoing costs of administering the trusts would erode the capital and any ongoing interest payments. This would defeat the charitable purposes of the trusts.

The proposed administrative scheme is appropriate and does not alter the purpose or object of the trusts, but seeks to vary the means through which the trust purposes are to be achieved. Although Ms Walsh intended to preserve the capital to extend the benefit of the trusts for as long as possible, doing so would be inexpedient as it would frustrate the charitable purposes of the trusts.

In these circumstances, the Solicitor General, as the Attorney General's delegate, has approved the establishment of an administrative scheme which would allow the executors to distribute the capital sum of the gifts to each charity to avoid the need to set up and manage separate trusts.

Take note that within one month after the publication of this notice any person may make representations or suggestions to the Attorney General in respect of the proposed scheme.
