Order under section 38A of the Radiation Control Act 1990: Exemptions for persons on AHPRA pandemic response sub-register

### Background

- A. Section 7 of the *Radiation Control Act 1990* (the Act) provides that a natural person who uses regulated material must hold a radiation user licence and must comply with any conditions to which the licence is subject.
- B. Section 6(6) of the Act provides that each person responsible for regulated material must ensure that the regulated material is not sold, leased or given to, or stored, possessed or used by, any other person unless that other person is the holder of an appropriate licence under Part 2 of the Act in respect of the regulated material.
- C. The NSW Environment Protection Authority (EPA) is satisfied that the COVID-19 pandemic is an emergency for the purposes of 38A(2)(a) of the Act resulting in an increased urgent need for radiation health practitioners.
- D. The EPA has decided to make this Order under section 38A of the Act for the purpose of enabling persons listed on the “pandemic response sub-register” published by the Australian Health Practitioner Regulation Agency to return to the workforce to meet the increased need during the COVID-19 pandemic.

### Order

I, Tracy Mackey, Chief Executive Officer of the EPA, on behalf of the EPA, make this Order under section 38A of the Act.

#### 1 Definitions

- (1) In this Order:

**AHPRA** means the Australian Health Practitioner Regulation Agency.

**the Act** means the *Radiation Control Act 1990*.

**EPA** means the Environment Protection Authority.

**Pandemic response sub-register** means the register comprising a list of health practitioners maintained by AHPRA, as amended from time to time.

- (2) Words and expressions used in this Order have the same meaning as in the Act.

#### 2 Exemption of persons listed on the AHPRA pandemic response sub-register from section 7 of the Act

Each person who has previously held a radiation user licence under the Act and who is listed on the pandemic response sub-register is exempt from section 7 of the Act, subject to the following conditions:

- (1) a person must only use regulated materials in accordance with the conditions of the radiation user licence previously held by that person under the Act, as if the radiation user licence were in force.
- (2) a person must only use regulated materials in connection with work in the profession for which that person is registered on the pandemic response sub-register.
- (3) regulated materials must only be used in accordance with the *Code of Practice for Radiation Protection in the Medical Applications of Ionizing Radiation* (ARPANSA 2008) (RPS 14) or the *Code for Radiation Protection in Medical Exposure* (ARPANSA 2020) (RPS C-5), whichever Code is on the National Directory for Radiation Protection.

#### 3 Exemption of holders of radiation management licences from section 6(6) of the Act, subject to conditions

Each person who is the holder of a radiation management licence under the Act is exempt from section 6(6) of the Act, subject to the following conditions:

- (1) A person responsible for regulated material must ensure that the regulated material is not sold, leased or given to, or stored, possessed or used by, any other person unless:
  - (a) that other person is the holder of an appropriate licence under Part 2 of the Act in respect of the regulated material; or
  - (b) that other person is exempted from section 7 of the Act by clause 2 of this Order and does not require any other licence under Part 2 in respect of the regulated material.

#### 4 Period during which this Order has effect

This Order takes effect from the date it is published in the Gazette and has effect until 6 April 2021, unless otherwise varied or revoked under s 38A(7) of the Act.

### RADIATION CONTROL ACT 1990

Order under section 38A of the Radiation Control Act 1990: Exemption from certification for diagnostic imaging apparatus

#### Background

- A. Section 6(2) of the Act provides that a person responsible for regulated material must hold a radiation management licence in respect of the regulated material and must comply with any conditions to which the licence is subject.
- B. Conditions 4.1.2 and 4.1.3 of a radiation management licence require the licensee to ensure that diagnostic imaging apparatus for which they are responsible are certified by a Consulting Radiation Expert (CRE) who is certified by the EPA.
- C. The COVID-19 pandemic and requirement to comply with *Public Health (COVID-19 Restrictions on Gathering and Movement) Order 2020* and current advice from NSW Health in relation to social distancing, will make it impractical for consulting radiation experts to access and certify diagnostic imaging apparatus in a safe and timely manner.
- D. The EPA considers a temporary exemption will not have adverse effects on human health.
- E. The EPA has decided to make this Order to reduce the potential health risks associated with the COVID-19 pandemic to CREs who are required to attend inspections on-site, and to reduce pressure on the delivery of medical services such as diagnostic imaging.
- F. The EPA:
  - (a) is satisfied that it is not practicable to comply with the relevant provisions;
  - (b) is satisfied that non-compliance with the provisions will not have any significant adverse effect on human health, property or the environment; and
  - (c) has sought and taken into consideration the advice of the Radiation Advisory Council about the exemption in this Order.

#### Order

I, Tracy Mackey, Chief Executive Officer of the EPA, on behalf of the EPA, make this Order under section 38A of the Act.

#### 1 Definitions

- (1) In this Order:
  - the Act** means the *Radiation Control Act 1990*.
  - EPA** means the Environment Protection Authority.

- (2) Words and expressions used in this Order have the same meaning as in the Act.

#### 2 Exemption of persons who are responsible for diagnostic imaging apparatus from s 6 of the Act

Each person who is the holder of a radiation management licence under the Act is exempt from section 6(2) of the Act, subject to the following conditions:

- (1) Each licensee must comply with any conditions to which their licence is subject as of the date of this exemption, except for the following licence conditions during the first 12 months of this exemption:
4. Compliance certification – diagnostic imaging apparatus
- 4.1: the licensee must ensure that diagnostic imaging apparatus of the type listed in Column 1 of Table 1 for which the licensee is responsible, is certified by a consulting radiation expert accredited by the Authority as complying with the requirements for registration in Schedule 1 of the corresponding Part of Radiation Guideline 6 – Registration requirements & industry best practice for ionising radiation apparatus used in diagnostic imaging, NSW EPA March 2004 (listed in Column 2 of Table 1), as published by the EPA from time to time:
- 4.1.2 within two years of the anniversary of initial compliance certification – for mammography apparatus, fluoroscopy apparatus, computed tomography apparatus, and for apparatus that may be used for both fluoroscopy and radiography, or
- 4.1.3 within five years of initial certification – for dental radiography apparatus, radiography apparatus, and bone mineral density apparatus,

<b>Column 1</b>	<b>Column 2</b>
Apparatus for mammography	The requirements specified in Schedule 1, Part 1 Mammography
Apparatus for fluoroscopy or radiography radiography	The requirements specified in Schedule 1, Part 2 Fluoroscopy and
Apparatus for computed tomography or bone mineral densitometry tomography and bone mineral densitometry	The requirements specified in Schedule 1, Part 5, Computed

- (2) Any compliance certification that, but for (1), would have been required under conditions 4.1.2 or 4.1.3 of the person's licence by a date during the first 12 months of this exemption (**the due date**), must be carried out within 12 months of the due date.

### 3 Period during which this Order has effect

This Order takes effect from the date it is published in the Gazette and has effect for 24 months, unless otherwise varied or revoked under s 38A(7) of the Act.

## RADIATION CONTROL ACT 1990

Order under section 38A of the Radiation Control Act 1990: Exemption from on-site supervision requirements

### Background

- A. Section 7 of the Act provides that a natural person who uses regulated material must hold a radiation user licence and must comply with any conditions to which the licence is subject.
- B. The conditions of a licence issued under s 7 of the Act to nuclear medicine physicians require the holder of the licence to be onsite during any nuclear medicine diagnostic and therapy procedures for which they are responsible. This is to ensure the physicians are available to be consulted on the procedures if necessary.
- C. Due to the COVID-19 pandemic, complying with the *Public Health (COVID-19 Restrictions on Gathering and Movement) Order 2020* and current advice from NSW Health in relation to social distancing is likely to make complying with requirements to be available on-site for nuclear medicine technologists challenging.
- D. The EPA has decided to make this Order under section 38A of the Act for the purpose of providing temporary relief from the requirement to be on-site for diagnostic procedures while the COVID-19 pandemic is being managed.
- E. On-site availability requirements will temporarily be replaced with remote availability.
- F. The EPA:

- (a) is satisfied that it is not practicable to comply with the relevant provisions;
- (b) is satisfied that non-compliance with the provisions will not have any significant adverse effect on human health, property or the environment; and
- (c) has sought and taken into consideration the advice of the Radiation Advisory Council about the exemption in this Order.

### Order

I, Tracy Mackey, Chief Executive Officer of the EPA, on behalf of the EPA, make this Order under section 38A of the Act.

#### 1 Definitions

- (1) In this Order:

**the Act** means the *Radiation Control Act 1990*.

**EPA** means the Environment Protection Authority.

**the Regulation** means the *Radiation Control Regulation 2013*

- (2) Words and expressions used in this Order have the same meaning as in the Act.

#### 2 Exemption of persons who use regulated material in medical scintigraphy and medical therapy from section 7 of the Act

Each person who is the holder of a radiation user licence under the Act is exempt from section 7 of the Act, subject to the following conditions:

- (1) Each licensee must comply with any conditions to which their licence is subject as of the date of this exemption, except for the following licence condition:

S4 – Medical scintigraphy and medical therapy (nuclear medicine physicians)

For the S4 condition the licensee must be:

2. be on-site at the practice location or ensure that a medical or radiology registrar in nuclear medicine, who has been granted an exemption under clause 10 of the Regulation, is on-site at the practice location during any nuclear medicine diagnostic (non-therapy) procedure for which they are responsible; and

- (2) Each licensee is required to be available to be consulted with during the nuclear medicine diagnostic (non-therapy) procedures for which they are responsible at the practice location, using appropriate audio-visual technology.

#### 3 Period during which this Order has effect

This Order takes effect from the date it is published in the Gazette and has effect for 12 months, unless otherwise varied or revoked under s 38A(7) of the Act.
