Declaration of significantly contaminated land

Section 11 of the *Contaminated Land Management Act 1997*

Declaration No. 20201110; Area No. 3463

The Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under s 11 of the *Contaminated Land Management Act 1997* (Act).

Land to which this Declaration applies

1. This Declaration applies to significantly contaminated land described as Lot 137 in DP 789376, within Newcastle Local Government Area, located at 2 Holland Street, Wickham NSW 2293 (Land).
2. A map of the Land is attached to this Declaration.

Significant Contaminants affecting the Land

3. The EPA has reason to believe that the Land is contaminated with the following substances (Significant Contaminants) in such a way as to warrant regulation as significantly contaminated land under the Act:
 - (i) Total Recoverable Hydrocarbons (TRH);
 - (ii) Phase Separated Hydrocarbons (PSH);
 - (iii) Chlorinated Hydrocarbons; and
 - (iv) Per- and polyfluoroalkyl substances (PFAS).

Nature of harm caused, or that may be caused, by the Significant Contaminants

4. The EPA has reason to believe harm has been caused by the Significant Contaminants, including:
 - (i) Soil and groundwater are contaminated with Significant Contaminants at concentrations exceeding guidelines that are protective of human health and the environment; and
 - (ii) Groundwater contaminated by PFAS has migrated from the Land beneath adjacent commercial and residential properties, limiting potential beneficial use of the groundwater and posing a potential risk to ecological receptors.
5. The EPA has reason to believe harm may be caused by the Significant Contaminants, including:
 - (i) There are potential risks to human receptors through vapour inhalation and dermal contact if contaminated soil or groundwater is disturbed or exposed; and
 - (ii) It is likely that Significant Contaminants, in addition to PFAS, could potentially migrate from the Land and cause further degradation of the groundwater.

Matters considered before declaring the Land to be significantly contaminated land

6. Before making this Declaration, the EPA has taken into account relevant guidelines and each of the matters listed in s 12(1) of the Act with respect to the Significant Contaminants that the EPA believes cause the Land to be contaminated.
7. The EPA believes that the Land is contaminated, and that the contamination is significant enough to warrant regulation under the Act for the following reasons.
 - (i) Soil and groundwater are contaminated with TRH and chlorinated hydrocarbons at concentrations exceeding the guidelines that are protective of human health and the environment;
 - (ii) Groundwater contaminated by PFAS has migrated from the Land beneath adjacent commercial and residential properties, limiting potential beneficial use of the groundwater and posing a potential risk to ecological receptors;
 - (iii) PSH remaining beneath the central portion of the Land (up to 2m thickness) provides an ongoing secondary source of groundwater contamination, and active control is needed to prevent further degradation of the groundwater and potential migration of the contamination; and
 - (iv) There is a potential for human receptors, including commercial workers and intrusive maintenance workers, to be exposed to contaminants by vapour inhalation or dermal contact if soil or groundwater is disturbed or exposed.

Further action to carry out voluntary management under the Act

8. The making of this Declaration does not prevent the carrying out of voluntary management of the Land by any person. Any person may submit a voluntary management proposal for the Land to the EPA.

Submissions invited

9. Any person may make a written submission to the EPA on:
 - whether the EPA should issue a management order in relation to the Land; or
 - any other matter concerning the Land.

10. Submissions should be made in writing and sent to:

Email RegOps.MetroRegulation@epa.nsw.gov.au

or

The EPA is also required to inform the relevant Council as soon as practicable when the declaration is no longer in force.
