Part 1 Preliminary

1. Name of Determination

This Instrument is the *Fisheries Management (Determination of Management Charges) Instrument 2020*.

2. Definitions

In this Determination:

class of share means a class of share in a relevant share management fishery, as listed in:

- (a) clause 5 of the Appendix to the *Fisheries Management (Estuary General Share Management Plan) Regulation 2006*;
- (b) clause 5 of the Appendix to the *Fisheries Management (Estuary Prawn Trawl Share Management Plan) Regulation 2006*;
- (c) clause 5 of the Appendix to the *Fisheries Management (Ocean Hauling Share Management Plan) Regulation 2006*;
- (d) clause 4 of the Appendix to the *Fisheries Management (Ocean Trap and Line Share Management Plan) Regulation 2006*;
- (e) clause 4 of the Appendix to the *Fisheries Management (Ocean Trawl Share Management Plan) Regulation 2006*.

relevant share management fishery means any of these share management fisheries, as described in Schedule 1 to the Act:

- (a) the estuary general fishery;
- (b) the estuary prawn trawl fishery;
- (c) the ocean hauling fishery;
- (d) the ocean trap and line fishery;
- (e) the ocean trawl fishery.

Southern fish trawl restricted fishery means the restricted fishery declared under Division 2 of Part 9 of the Fisheries Management (General) Regulation 2019.

the Act means the *Fisheries Management Act 1994*.

Part 2 Determination

3. Determination of Management Charges

- (1) This Determination is made for the period 1 July 2020 to 30 June 2021.
- (2) If the components of a fishing business include shares (of any class) in one or more of the relevant share management fisheries, the management charge in respect of that fishing business (the **management charge**) is the total of the following amounts:
 - (a) for the first class of shares held by the fishing business - \$1,184;
 - (b) for the second class of shares held by the fishing business - \$1,184;
 - (c) for the third and each subsequent class of shares held by the fishing business – the discounted amount for that class of shares.
- (3) The **discounted amount** for a class of shares is calculated as follows:
 - (a) for the third class of shares held by the fishing business - \$710 (being 60% of \$1,184, rounded to the nearest dollar);
 - (b) for the fourth class of shares held by the fishing business – \$426 (being 60% of the discounted amount for the third class of shares held by the fishing business, rounded to the nearest dollar);
 - (c) for the fifth class of shares held by the fishing business – \$256 (being 60% of the discounted amount for the fourth class of shares held by the fishing business, rounded to the nearest dollar);
 - (d) for the sixth class of shares held by the fishing business – \$154 (being 60% of the discounted amount for the fifth class of shares held by the fishing business, rounded to the nearest dollar);
 - (e) and so on until all classes of shares held by the fishing business have been accounted for.
- (4) If the components of a fishing business for which a management charge is payable include a southern fish trawl endorsement, the calculation of the management charge is modified as follows:
 - (a) the southern fish trawl endorsement is to be treated as if it were the first class of shares held by the fishing business; and
 - (b) the amount to be added for that first class of shares is nil.

Note: No management charge is included for the southern fish trawl endorsement because an annual contribution of \$1,184 is payable in respect of that endorsement under section 115A of the Act.

- (5) A class of shares is held by a fishing business if the shares are a component of that fishing business on 14 August 2020.
