In assessing the applications, the decision-maker may consider if there is sufficient market interest from other qualified applicants to justify a competitive allocation process for the grant of exploration licences over the application areas. As such, submissions are being sought from parties interested in exploring and potentially developing coal resources within the application areas.

The application areas and the area over which submissions are being sought are shown in the diagram.

It should be noted that valid submissions may trigger a competitive process for the release of the area. Submissions should be made only where a party has a genuine interest in making a subsequent application for an exploration licence and where interested parties are willing to participate in a competitive process if it was to be triggered.

This notification is pursuant to section 13C(3)(b) of the *Mining Act 1992* and the *Guidelines for coal exploration licence applications for operational allocation purposes* and does not constitute an invitation for a coal exploration licence or mining lease nor a release of the area under the Strategic Release Framework.
