A minimum tender premium of \$200 per lease has been applied to the lease areas.

All lease areas will be tendered in an "as is" condition. Any existing improvements (including cultivation materials, lease markings and structures) present within the lease areas have not been valued and will become the responsibility of the successful tenderer(s).

Following the granting of the lease areas, an inspection by a Fisheries Office will be completed and a Notice to Comply may be issued for the removal of any improvements. Any unauthorised structures present on the area will require removal by the successful tenderer(s) or authorisation by the relevant authority.

For the lease areas located in the Port Stephens-Great Lakes Marine Park, Batemans Marine Park or Solitary Islands Marine Park, the successful tenderers will be required to apply for a Marine Parks work permit before placing any cultivation material on the lease areas.

For lease areas known as AL19/005, AL21/019 and AL23/008, the successful tenderer(s) will be required to obtain an approved survey of the lease area(s), to be completed by a registered surveyor at the expense of the successful tenderer(s).

Any lease granted as a result of the tender will be subject to standard covenants and conditions of an aquaculture lease and aquaculture permit, as prescribed under the *Fisheries Management Act 1994*, including payment of annual fees and charges. Special conditions may also be applied. The lease and permit conditions that may be applied can be found in the Request for Tender document.

Lease rent is charged annually, currently at \$60 per hectare (excl. GST), which is subject to an annual Consumer Price Index adjustment. Tenure of a lease will be up to 15 years.
