

Government Gazette

of the State of

New South Wales

Number 434—Mining and Primary Industries
Friday, 22 September 2023

The New South Wales Government Gazette is the permanent public record of official NSW Government notices. It also contains local council, non-government and other notices.

Each notice in the Government Gazette has a unique reference number that appears in parentheses at the end of the notice and can be used as a reference for that notice (for example, (n2019-14)).

The Gazette is compiled by the Parliamentary Counsel's Office and published on the NSW legislation website (www.legislation.nsw.gov.au) under the authority of the NSW Government. The website contains a permanent archive of past Gazettes.

To submit a notice for gazettal, see the Gazette page.

Pursuant to section 136 of the *Mining Act 1992* and section 16 of the *Petroleum (Onshore) Act 1991*

NOTICE is given that the following applications have been received:

EXPLORATION LICENCE APPLICATIONS

(APP-2023-130)

No. 6668, Hawsons Iron Ltd (ACN 095 117 981), area of 22 units, for Group 1, dated 13 September 2023. (Unincorporated Local Government Area).

(APP-2023-144)

No. 6669, Como Minerals Pty Ltd (ACN 670 818 550), area of 59 units, for Group 1, dated 14 September 2023. (Unincorporated Local Government Area).

(APP-2023-145)

No. 6670, Sunrise Energy Exploration Pty Ltd (ACN 136 736 813), area of 32 units, for Group 2, dated 15 September 2023. (Parkes Local Government Area).

MINING LEASE APPLICATION

(APP-2023-140)

No. 637, Morello Earthmoving Pty Ltd (ACN 055 015 051), area of about 2.775 hectares, to mine for gypsum, dated 5 September 2023. (Wentworth Local Government Area).

NOTICE is given that the following applications have been granted:

MINING LEASE APPLICATIONS

(T15-1609)

Singleton No. 500, now Mining Lease No. 1861 (Act 1992), White Mining (NSW) Pty Limited (ACN 089 414 595), Parish of Vane, County of Durham, Map Sheet (9133-3-S), area of 52.29 hectares, for the purpose of a purpose associated with or incidental to specified purpose, cable, dam, drain, removal of overburden, pipeline, plant site, machinery workshop, slurry dams etc., road, telephone line, transmission of electricity, water race, stockpiling or depositing of overburden, ore or tailings, storage of fuel, machinery, timber or equipment and any reservoir, dam, drain or water race, dated 14 September 2023, for a term until 14 September 2044.

(T17-1506)

Orange No. 545, now Mining Lease No. 1860 (Act 1992), Shoalhaven Coal Pty Ltd (ACN 070 863 893), Parish of Cullen Bullen, County of Roxburgh, Map Sheet (8931-3-N), area of 20.4 hectares, for the purpose of ancillary mining activity, dated 7 September 2023, for a term until 7 September 2044.

NOTICE is given that the following application has been withdrawn:

MINING LEASE APPLICATION

(T12-1260)

Inverell No. 19, ROBERT JOHN WALBURN, Parish of Swamp Oak, County of Arrawatta, (9138-1-S).
Withdrawal took effect on 13 September 2023.

NOTICE is given that the following applications for renewal have been received:

(REN-2023-237)

Exploration Licence No. 7976, Peel (CSP) Pty Ltd (ACN 600 550 141), area of 22 units. Application for renewal received 19 September 2023.

(REN-2023-232)

Exploration Licence No. 8655, Peel Mining Limited (ACN 119 343 734), area of 100 units. Application for renewal received 19 September 2023.

(REN-2023-238)

Exploration Licence No. 8656, Peel Mining Limited (ACN 119 343 734), area of 75 units. Application for renewal received 19 September 2023.

(REN-2023-234)

Mining Lease No. 1534 (Act 1992), Lorraine Anne Lewis, area of 125.4 hectares. Application for renewal received 16 September 2023.

RENEWAL OF CERTAIN AUTHORITIES

Notice is given that the following authorities have been renewed:

(TMS-REN438)

Authorisation No. 287, Kepco Bylong Australia Pty Ltd (ACN 075 361 769), County of Phillip, Map Sheet (8933), area of 6685 hectares, for a further term until 12 January 2025. Renewal effective on and from 14 September 2023.

(TMS-REN461)

Authorisation No. 342, Kepco Bylong Australia Pty Ltd (ACN 075 361 769), County of Phillip, Map Sheets (8932, 8933), area of 3700 hectares, for a further term until 9 February 2025. Renewal effective on and from 14 September 2023.

(TMS-REN414)

Authorisation No. 355, Boggabri Coal Pty Limited (ACN 122 087 398), Chugoku Electric Power Australia Resources Pty. Ltd. (ACN 600 294 068) and NS Boggabri Pty Limited (ACN 113 447 313), County of Nandewar, Map Sheet (8936), area of 590 hectares, for a further term until 19 July 2028. Renewal effective on and from 13 September 2023.

(REN-2023-185)

Exploration Licence No. 6127, Peak Gold Mines Pty Ltd (ACN 001 533 777), Map Sheets (8034, 8133, 8134), area of 98 units, for a further term until 24 September 2029. Renewal effective on and from 25 September 2023.

(TMS-REN486)

Exploration Licence No. 6639, Centennial Mannering Pty Ltd (ACN 101 509 120), County of Northumberland, Map Sheets (9131, 9231), area of 1088 hectares, for a further term until 5 May 2026. Renewal effective on and from 7 September 2023.

(REN-2023-188)

Exploration Licence No. 8615, Haverford Holdings Pty Ltd (ACN 142 660 553), County of Flinders, Map Sheet (8233), area of 123 units, for a further term until 7 July 2029. Renewal effective on and from 15 September 2023.

(REN-2023-97)

Exploration Licence No. 8969, Wayne Lawson Perry, County of St Vincent, Map Sheet (8926), area of 2 units, for a further term until 17 April 2029. Renewal effective on and from 19 September 2023.

(REN-2023-176)

Exploration Licence No. 9198, Jonathan Charles Downes, County of Wellington, Map Sheet (8732), area of 22 units, for a further term until 24 June 2025. Renewal effective on and from 14 September 2023.

(TMS-REN505)

Consolidated Mining Lease No. 13 (Act 1973), Perilya Broken Hill Limited (ACN 099 761 289), Parish of Alma, County of Yancowinna; and Parish of Nadbuck, County of Yancowinna, Map Sheets (7133-1-N, 7134-2-S), area of 678.7 hectares, for a further term until 20 April 2037. Renewal effective on and from 12 September 2023.

(REN-2022-239)

Mining Lease No. 1535 (Act 1992), Evolution Mining (Cowal) Pty Limited (ACN 007 857 598), Map Sheets (8330-1-N, 8330-1-S), area of 2636 hectares, for a further term until 12 June 2045. Renewal effective on and from 13 June 2024.

APPLICATIONS TO TRANSFER RECEIVED

Notice is given that the following applications to transfer have been received:

(TRF-2023-64)

PLUTONIC LIMITED (ACN 632 991 167) has applied for approval to transfer Exploration Licence No. 8329 to Rimfire Pacific Mining Limited (ACN 006 911 744). Application received 15 September 2023.

CANCELLATION OF AUTHORITIES AT REQUEST OF HOLDER

Notice is given that the following applications for cancellation have been received:

(CAN-2023-65)

Exploration Licence No. 8563 (Act 1992), MONZONITE METALS PTY LTD (ACN 165 629 818), County of Gowen, Map Sheet (8734), area of 28 units. Request for cancellation was received on 15 September 2023.

(CAN-2023-66)

Exploration Licence No. 8565 (Act 1992), MONZONITE METALS PTY LTD (ACN 165 629 818), County of Lincoln, Map Sheets (8633, 8733), area of 14 units. Request for cancellation was received on 15 September 2023.

(CAN-2023-67)

Exploration Licence No. 9303 (Act 1992), MONZONITE METALS PTY LTD (ACN 165 629 818), County of Lincoln, Map Sheets (8633, 8634, 8733, 8734), area of 48 units. Request for cancellation was received on 15 September 2023.

REQUESTED CANCELLATIONS

Notice is given that the following authorities have been cancelled:

(CAN-2023-57)

Exploration Licence No. 9378, SYNDICATE MINERALS PTY LTD (ACN 635 864 587), County of Gough and County of Gresham, Map Sheets (9238, 9338), area of 144 units. Cancellation took effect on 19 September 2023.

(CAN-2023-62)

Exploration Licence No. 9458, MINEX CRC LTD (ACN 625 533 913), County of Menindee, County of Tara and County of Windeyer, Map Sheets (7131, 7132, 7133, 7233), area of 445 units. Cancellation took effect on 12 September 2023.

PART CANCELLATION

Notice is given that the following authority has been cancelled in part:

(PCN-2023-14)

Exploration Licence No. 9459, MINEX CRC LTD (ACN 625 533 913).

Description of area cancelled:

An area of 1033 units has been cancelled. For further information contact Mining, Exploration & Geoscience.

Part cancellation took effect on 19 September 2023.

The authority now embraces an area of 16 units.

Fisheries Management Act 1994
Fisheries Management (Aquaculture) Regulation 2017
Notification under Clause 33(4)
Proposed tender of aquaculture leases in NSW

NSW Department of Primary Industries (NSW DPI) is offering by public tender 20 areas of public water land in various estuaries and marine waters (offshore) of NSW, for the purpose of aquaculture.

Estuarine lease areas

| Lease number | Previously known as | Lease area (ha) | Estuary | OISAS status |
|--------------|---------------------|-----------------|----------------|--------------|
| AL23/027 | OL76/014 | Approx. 1.117 | Macleay River | POAA |
| AL23/019 | OL84/170 | Approx. 0.486 | Hastings River | POAA |
| AL23/020 | OL84/136 | 0.2066 | Hastings River | POAA |
| AL23/021 | OL72/138 | Approx. 0.686 | Hastings River | POAA |
| AL23/022 | OL56/285 | Approx 6.753 | Manning River | POAA |
| AL23/023 | OL78/145 | 1.4814 | Manning River | POAA |
| AL23/024 | OL84/207 | 0.2368 | Wallis Lake | POAA |
| AL23/025 | OL82/038 | 0.9767 | Wallis Lake | POAA |
| AL23/026 | OL81/032 | 0.2217 | Wallis Lake | POAA |
| AL23/011 | OL86/228 | Approx. 0.475 | Botany Bay | POAA |
| AL23/012 | OL83/238 | Approx. 1.914 | Botany Bay | POAA |
| AL23/013 | OL88/094 | Approx. 1.157 | Botany Bay | POAA |
| AL23/029 | N/A | Approx. 0.600 | Clyde River | POAA |
| AL19/004 | N/A | Approx. 0.7 | Clyde River | POAA |
| AL21/023 | N/A | Approx. 1.57 | Tuross Lake | POAA |
| AL21/024 | N/A | Approx. 2.6 | Tuross Lake | POAA |
| OL67/264 | N/A | 1.5055 | Tuross Lake | POAA |
| OL83/353 | N/A | 0.1945 | Tuross Lake | POAA |
| AL23/018 | OL74/026 | 0.2706 | Pambula River | POAA |

Marine lease areas

| Lease number | Lease area (ha) | Location | Lease survey required |
|--------------|-----------------|----------|-----------------------|
| AL23/010 | Approx. 20 | Eden | Yes |

All tenders must be marked 'Confidential' and submitted via one of the following options:

- Mail: Tender Box, Port Stephens Fisheries Institute, Locked Bag 1, Nelson Bay, NSW, 2315, or
- Email: aquaculture.tenderbox@dpi.nsw.gov.au.

Tenders must be received at this address **no later than 4:30 pm on Friday 27 October 2023**.

A minimum tender premium of \$200 per lease has been applied to the lease areas.

All lease areas are being tendered in an "as is" condition. Any existing improvements (including cultivation materials, lease markings and structures) present within the lease areas have not been valued and will become the responsibility of the new leaseholders.

Following the granting of the leases, NSW DPI will complete an inspection of the areas and a Notice to Comply may be issued for the removal of any improvements. Any unauthorised structures present on the lease areas will require approval by the relevant authority or will need to be removed by the new leaseholders.

All estuarine lease areas being offered are within a priority oyster aquaculture area under the NSW Oyster Industry Sustainable Aquaculture Strategy (OISAS). Applications for these lease areas will be progressed under Part 5 of the *Environmental Planning and Assessment Act 1979*.

The marine lease area being offered will require Landowner's Consent from Crown Lands and State Significant Development consent from Department of Planning, Industry and Environment under Part 4 of the *Environmental Planning and Assessment Act 1979*.

With the exception of OL67/264 and OL83/353, for all lease areas being offered, the successful tenderers will need to organise for a registered surveyor to complete a survey of the leases, at the expense of the successful tenderers. New lease plans must include the entire lease area that has been successfully tendered.

For the lease areas in the Clyde River and Tuross Lake, the new leaseholders may be required to apply for a Marine Parks work permit from Batemans Marine Park before they place any cultivation material on the lease areas. This is in line with the Marine Estate Management (Management Rules) Regulation 1999.

Any lease granted as a result of the tender will be subject to standard covenants and conditions of an aquaculture lease and aquaculture permit, as prescribed under the *Fisheries Management Act 1994*. This includes payment of annual fees and charges. Special lease conditions may also be applied. Information on the conditions that may be applied can be found in the Request for Tender document.

Lease rent is charged annually, currently at \$60 per hectare (excl. GST), which is subject to an annual Consumer Price Index adjustment. Tenure of a lease will be up to 15 years.

For further information about the tender, contact Aquaculture Administration at the Port Stephens Fisheries Institute on 02 4916 3900 or go to the department's website at www.dpi.nsw.gov.au.

Program Leader, Aquaculture
Fisheries and Aquaculture Management
Department of Primary Industries

ERRATUM

In the notice published in the NSW Government Gazette No 118 of 20 October 2017, page 6440, in the gazettal for the grant of Assessment Lease No. 22, the reference to area of '44.78 hectares' is replaced with '447.8 hectares'. This notice corrects that error.

The gazettal date remains 20 October 2017.

Biosecurity (polyphagous shot-hole borer) Control Order 2023

under the

Biosecurity Act 2015

I, SHANE HETHERINGTON, Acting Director Plant Biosecurity and Product Integrity, Chief Plant Protection Officer with the authorisation of the Minister administering the *Biosecurity Act 2015* and under section 62 of that Act make the following Control Order.

Dated: 21 September 2023

SHANE HETHERINGTON
Acting Director Plant Biosecurity and Product Integrity
Chief Plant Protection Officer
Department of Primary Industries
Department of Regional NSW

Part 1 Preliminary

1 Name of Control Order

This Control Order is the *Biosecurity (polyphagous shot-hole borer) Control Order 2023*.

2 Revocation of the Biosecurity (polyphagous shot-hole borer) Control order 2022

The Biosecurity (polyphagous shot-hole borer) Control Order 2022 of 22 December 2022, published in the NSW Gazette number 601 of 23 December 2022, is revoked.

3 Commencement and duration

This Control Order is made on the date that it is signed, and has effect from that date, for a period of 5 years.

Note. Notice of this Control Order will be given by publishing it in the Gazette.

4 Definitions

In this Control Order:

APVMA means the Australian Pesticides and Veterinary Medicines Authority.

area freedom certificate means an interstate biosecurity certificate that certifies the State or Territory, or part of the State or Territory, is free from polyphagous shot-hole borer.

host plant means any plant specified in Schedule 1 to this Control Order with woody stems or branches that are greater than 2 cm in diameter.

plant health certificate means an interstate biosecurity certificate that relates to plant biosecurity issued by an authorised officer under the Act or a corresponding law in a State or Territory.

polyphagous shot-hole borer means all life stages of the pest insect *Euwallacea fornicatus* (Eichhoff).

processed timber means timber from a host plant including construction and fencing materials and furniture that has been:

- (a) seasoned, including dried, or
- (b) treated with a chemical of hazard class H2 or greater as provided in the Australian Standard AS/NZS 1604 series 'Preservative-treated wood-based products' published 16 April 2021.

PSHB carrier means any:

- (a) host plant
- (b) timber, or
- (c) used equipment.

the Act means the *Biosecurity Act 2015*.

timber means wood, with or without bark of any host plant including firewood and woodchips where the chips are greater than 2.5 cm but excludes processed timber.

used equipment means any vehicle, machinery or equipment of any kind, including forestry equipment, that has been used in relation to host plants and timber.

Note. Pursuant to section 11 of the *Interpretation Act 1987* words or expressions used in this Control Order have the same meaning as in the Act.

5 Grounds for order and biosecurity impact

The basis for concluding that it is necessary to make this Control Order is as follows:

- (a) The introduction and spread of polyphagous shot-hole borer (the **biosecurity matter**) has the potential to have an adverse effect on the economy, the environment, and the community of New South Wales (the **biosecurity impact**).
- (b) In September 2021, polyphagous shot-hole borer was detected in Western Australia. Polyphagous shot-hole borer is an exotic beetle from South America that bores into trees and forms a symbiotic relationship with species in the fungal genus *Fusarium* leading to dieback and death of host plants. Polyphagous

shot-hole borer affects native and non-native plants. To date, New South Wales remains free of polyphagous shot-hole borer.

- (c) Control measures are required to prevent the introduction and spread of polyphagous shot-hole borer in New South Wales.

6 Control zone

The control zone in which control measures are required to be implemented under this Control Order is the whole of New South Wales.

7 Persons to whom control measures apply

- (1) The control measures in Part 2 of this Control Order apply to any person who moves, or causes the movement of a PSHB carrier into the control zone.
- (2) The control measures in Part 3 of this Control Order apply to any person within the control zone who deals with polyphagous shot-hole borer.

Part 2 Control measures – Movement of a PSHB carrier into the control zone

8 Control measure – Movement of host plant, timber and used equipment

A person must not move, or cause the movement of, a PSHB carrier into the control zone unless the person complies with the control measures that apply with respect to the movement of that PSHB carrier.

9 Control measure – Movement under an area freedom certificate

- (1) A person may move, or cause the movement of a PSHB carrier into the control zone if:
 - (a) the PSHB carrier was sourced from a State or Territory that is free from polyphagous shot-hole borer as evidenced by an area freedom certificate currently in force, and
 - (b) the consignment that contains the PSHB carrier has a label or identifier stating the name and postcode of the city or town nearest to the place the host plant was grown, the timber was processed, or the used equipment was used.
- Note.** Under clause 112 of the *Biosecurity Regulation 2017* a person who is required to label or identify any matter, must ensure that the label or identifier is a complying label or complying identifier.
- (2) Despite subclause (1), a person may move or cause the movement of a PSHB carrier into the control zone if the person complies with any of clauses 10 to 12 of this Control Order.

10 Control measure – PSHB carrier that is a host plant

- (1) A person may move, or cause the movement of, a PSHB carrier that is a host plant into the control zone if the person complies with the requirements of this clause.
- (2) The consignment of which the host plant is a part has been:
 - (a) inspected at the greater of these quantities and found to be free of polyphagous shot-hole borer:
 - (i) 2 percent of any consignment of host plants, or
 - (ii) 600 items of host plants, and
 - (b) consigned within 7 days of inspection, or
 - (c) if not consigned within 7 days of the inspection referred to in subclause (2)(a), treated by spraying with bifenthrin in accordance with APVMA label directions or permit conditions and consigned while bifenthrin treatment remains effective in accordance with APVMA label directions.
- (3) The consignment containing the host plant must be accompanied by a plant health certificate certifying that the applicable control measures in subclauses (2)(a) and (b) or (2)(c) have been satisfied.

11 Control measure – PSHB carrier that is timber

- (1) A person may move, or cause the movement of, a PSHB carrier that is timber into the control zone if the person complies with the requirements of any of the following subclauses.
- (2) The consignment of which the timber is a part has been:
 - (a) inspected at the greater of these quantities and found to be free of polyphagous shot-hole borer:
 - (i) 2 percent of any consignment of timber, or
 - (ii) 600 pieces of timber,
 - (b) consigned within 7 days of inspection, and
 - (c) accompanied by a plant health certificate certifying that the control measures in this subclause have been satisfied.
- (3) The consignment of which the timber is a part has been:
 - (a) treated by fumigation with methyl bromide for a minimum of 24 hours at any of the following starting rates:
 - (i) 10°C – 15.9 °C at 64 g/m³,
 - (ii) 16°C – 20.9 °C at 56 g/m³, or
 - (iii) 21°C – 31.9 °C or above at 48 g/m³,
 - (b) monitored at regular intervals so that the minimum concentration of methyl bromide during the fumigation period is as specified in the following table,

| Starting temperature and dosage | | Minimum concentration (g/m ³) at: | | | |
|---------------------------------|----------------------------|---|-----|------|------|
| Temperature | Dosage (g/m ³) | 2 h | 4 h | 12 h | 24 h |
| | | | | | |

| | | | | | |
|---------------|----|----|----|----|----|
| 10°C – 15.9°C | 64 | 48 | 42 | 36 | 32 |
| 16°C – 20.9°C | 56 | 42 | 36 | 32 | 28 |
| 21°C or above | 48 | 36 | 31 | 28 | 24 |

- (c) consigned within 7 days of treatment, and
 - (d) accompanied by a plant health certificate certifying that the control measures in this subclause have been satisfied.
- (4) The consignment of which the timber is a part has been:
- (a) heat treated where the temperature of the core of the timber at its greatest thickness is measured at a minimum of 56°C for at least 30 minutes,
 - (b) consigned within 7 days of treatment, and
 - (c) accompanied by a plant health certificate certifying that the control measures in this subclause have been satisfied.

12 Control measure – PSHB carrier that is used equipment

- (1) A person may move, or cause the movement of, a PSHB carrier that is used equipment into the control zone if:
 - (a) The used equipment has been thoroughly cleaned so that it is free from all timber, host plant material and polyphagous shot-hole borer by:
 - (i) brushing,
 - (ii) high pressure water, or
 - (iii) steam, and
 - (b) the used equipment has been inspected and has been found to be free of timber, host plant material and polyphagous shot-hole borer.
- (2) The consignment of which the used equipment is part must be accompanied by a plant health certificate certifying that the control measures in subclauses (1)(a) and (b) have been satisfied.

Part 3 Control measures – dealing with polyphagous shot-hole borer within the control zone

13 Control measure – Dealing with polyphagous shot-hole borer

A person must not deal with polyphagous shot-hole borer if, as a result of the dealing, polyphagous shot-hole borer enters or is likely to enter the control zone.

14 Control measure – Notification of presence of polyphagous shot-hole borer

- (1) A person who becomes aware of, or suspects the presence of polyphagous shot-hole borer within the control zone must immediately notify the Department of Primary Industries of the presence of polyphagous shot-hole borer.
- (2) A person who is required to notify the Department under subclause (1) must provide the following information:
 - (a) the person's full name and contact phone number,
 - (b) details of the presence or suspected presence of polyphagous shot-hole borer,
 - (c) the location of the polyphagous shot-hole borer or suspected polyphagous shot-hole borer including, if the polyphagous shot-hole borer is on a property with a property identification code, the property identification code (if this is known), and
 - (d) any other information reasonably requested by the Department.
- (3) Notification is to be made to the Department of Primary Industries as follows:
 - (a) verbally notifying an authorised officer,
 - (b) calling the Exotic Pest Plant Hotline on 1800 084 881,
 - (c) completing the 'Report a biosecurity concern' online form <https://forms.bfs.dpi.nsw.gov.au/forms/9247>, or
 - (d) in any other approved manner.

Schedule 1: Definition of host plant under this Control Order

For the purpose of clause 3 of this Control Order, a host plant is:

| Scientific name | Common name (where applicable) |
|---|--------------------------------|
| <i>Acacia</i> spp. | |
| <i>Acalypha wilkesiana</i> | copperleaf |
| <i>Acer buergerianum</i> | trident maple |
| <i>Acer campestre</i> | common or field maple |
| <i>Acer caudatifolium</i> | |
| <i>Acer davidii</i> | Father David's maple |
| <i>Acer macrophyllum</i> | |
| <i>Acer negundo</i> | box elder |
| <i>Acer obtusifolium</i> | Syrian maple |
| <i>Acer palmatum</i> | Japanese maple |
| <i>Acer paxii</i> | |
| <i>Acer pectinatum</i> subsp. <i>laxiflorum</i> | snake bark maple |
| <i>Acer pictum</i> subsp. <i>mono</i> | |
| <i>Acer pseudoplatanus</i> | Sycamore maple |
| <i>Acer saccharinum</i> | silver maple |
| <i>Acer</i> x <i>freemanii</i> | |
| <i>Adansonia digitata</i> | baobab |
| <i>Afrocarpus falcatus</i> | Outeniqua Yellowwood |
| <i>Afrocarpus gracilior</i> | |
| <i>Azelia quanzensis</i> | pod mahogany |
| <i>Aglia odorata</i> | Chinese perfume plant |
| <i>Ailanthus altissima</i> | tree of heaven |
| <i>Alangium chinense</i> | |
| <i>Albizia adianthifolia</i> | |
| <i>Albizia gummifera</i> | |
| <i>Albizia julibrissin</i> | Persian silk tree |
| <i>Albizia kalkora</i> | |
| <i>Albizia lebbek</i> | Indian siris |
| <i>Alectryon excelsus</i> | tītoki |
| <i>Aleurites moluccanus</i> | candle nut |
| <i>Alnus cordata</i> | Italian alder |
| <i>Alnus glutinosa</i> | black alder |

| Scientific name | Common name (where applicable) |
|---|---------------------------------------|
| <i>Alnus incana</i> | grey alder |
| <i>Alnus rhombifolia</i> | white alder |
| <i>Aloysia virgata</i> | sweet almond bush |
| <i>Anisodonteia scabrosa</i> | sandrose mallow |
| <i>Aralia</i> spp. | |
| <i>Arbutus unedo</i> | Irish strawberry tree |
| <i>Archontophoenix alexandrae</i> | Alexandra palm |
| <i>Bambusa</i> spp. | |
| <i>Banksia saxicola</i> | Grampians Banksia |
| <i>Bauhinia galpinii</i> | red orchid bauhinia |
| <i>Bauhinia petersiana</i> | Kalahari bauhinia |
| <i>Bauhinia purpurea</i> | purple orchid tree |
| <i>Bauhinia purpurea</i> x <i>variegata</i> | |
| <i>Bauhinia variegata</i> | |
| <i>Beilschmiedia miersii</i> | |
| <i>Betula pendula</i> | silver birch |
| <i>Bischofia javanica</i> | |
| <i>Bocconia arborea</i> | |
| <i>Bombax ceiba</i> | red silk cotton tree |
| <i>Bougainvillea</i> spp. | |
| <i>Brachychiton acerifolius</i> | Illawarra flame tree |
| <i>Brachychiton australis</i> | broad-leaved bottle tree |
| <i>Brachychiton bidwillii</i> | little Kurrajong or dwaf Kurrajong |
| <i>Brachychiton discolor</i> | lacebark or white Kurrajong |
| <i>Brachychiton diversifolius</i> | northern Kurrajong |
| <i>Brachychiton populneus</i> | Kurrajong |
| <i>Brachychiton rupestris</i> | Queensland bottle tree |
| <i>Brachylaena discolor</i> | coastal silver oak |
| <i>Brahea armata</i> | blue hesper palm |
| <i>Broussonetia papyrifera</i> | paper mulberry |
| <i>Buddleja saligna</i> | butterfly bush |
| <i>Bunchosia armeniaca</i> | peanut butter fruit tree |
| <i>Bursera hindsiana</i> | |
| <i>Butia capitata</i> | wine palm or jelly palm |
| <i>Calliandra surinamensis</i> | powder puff flower |
| <i>Callistemon salignus</i> | bottlebrush |

| Scientific name | Common name (where applicable) |
|--|---|
| <i>Callistemon viminalis</i> | weeping bottlebrush |
| <i>Calodendrum capense</i> | Cape chestnut |
| <i>Calpurnia aurea</i> | |
| <i>Camellia chrysanthoides</i> | |
| <i>Camellia grijsii</i> | |
| <i>Camellia hiemalis</i> | |
